LANDSCAPE GARDENING IN ALL ITS
BRANCHES

*Including the LAYING OUT OF NEW
AND RENOVATING OF OLD GARDENS,
THE MAKING OF LAWNS, TENNIS
COURTS, CROQUET LAWNS, Etc., Etc.*

This is a branch of our business that we intend giving special attention to, in view of the rapid extension of building and gardening embellishment throughout the State. We have had numerous enquiries as to the cost of laying out gardens, erecting bush houses and glass houses, and furnishing of same. To meet the demands, we have found it necessary to engage a competent staff of men, well versed in landscape gardening and horticultural building; and in consequence, any work entrusted to us will be carried out to the complete satisfaction of our clients. Our nurseries, being the largest in the Commonwealth, wherein all the well-known lines of plants are grown together with the more rare types of orchids, exotics, etc., place us in the position of being able to supply all requirements necessary for this work.

TERMS OF BUSINESS

ORDERING, ADDRESS, Etc.

When giving orders, send name and address in full, with directions as to route and to whose care goods must be consigned. Please use the Order Form in this Catalogue.

WE CAN SELECT FOR YOU.

When the choice of varieties is left to us we select the most desirable colours and varieties, all correctly labelled.

PLANTS NOT LISTED.

All orders received are subject to the possibility of some plants not being in stock at the time. All varieties cannot be had at all times of the year. If we have not the varieties required in stock, careful substitution will be made. When customers do not desire this, they should add a few extra names for the purpose of enabling us to complete the number of plants ordered.

OUR PACKING

We shall at all times see that goods are well and securely packed, but after despatching such goods our responsibility for any loss, damage or miscarriage ceases.

CARRIAGE OF GOODS.

We deliver all goods **Free** throughout City and Suburbs. Retail Orders for Seeds (except heavy goods, such as Peas and Beans, either in packets or in bulk) are sent **Post Free** to any part of the Commonwealth. The railage or freight on a rail or steamer journey for Potatoes, Plants, Flowers, Fruit Trees, or Implements (either alone or as part of general order) is charged to our client.

POSTAL CONVENIENCES.

The Parcels Post System is simple and economical for the despatch of Seeds, Plants and Cut Flowers, and we receive very flattering testimonials as to arrival of Flowers and Plants in good condition.

LOST ORDERS.

Letters are sometimes lost in the post. If you do not get our reply to your order within a reasonable time, please send us a duplicate order, stating when and in what form payment was sent, and sign the same name and address as in the first order, so that it may have immediate attention.

HOW TO REMIT.

By Crossed Cheque (on any bank), Postal or Post Office Order, payable at Sydney. Small amounts may be remitted in stamps. No receipts sent for sums of 2s. 6d. and under unless stamp is enclosed to cover postage. Do not send coin in a letter.

CREDIT.

To our established customers accounts are rendered quarterly, but we expect prompt payment on receipt of account. Orders from unknown purchasers must be accompanied by a remittance, or a satisfactory Sydney reference.

All Communications should be addressed to the Firm, and not to individuals.

We want all your business. No order too large or too small to receive personal and prompt attention.

Correspondence invited.

CONDITIONS OF SALE

We believe that all Seeds, Bulbs and Roots sold by us are of the description and kind specified by us at the time of sale, but owing to the practical impossibility in many cases of being certain of this, we give no undertaking that such Seeds, Bulbs or Roots will correspond with the description under which they are sold, and we make all sales subject to this condition. We further give no warranty, express or implied, as to their growth, description, quality, or productiveness, and will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms, they are at once to be returned to us.

ARTICHOKE

3d. and 6d. per packet.

CULTIVATION.—Sow in light beds of soil in March or September, and then transplant during the following autumn or spring into rows four to six feet apart, and four feet apart in the rows. The soil really ought to be trenched as deeply as that prepared for Asparagus. They should then produce heads fit for use the following season. It is the fleshy part at the base of the flower-heads only that is used. The fleshy heads are boiled, and served with butter and salt.

Large Purple Globe.—A favourite French variety. (Plants, 9d. each; 6s. per doz.). See Culinary Plants.

Large Green Globe.—Large Globular heads; of good flavour; the best for ordinary use. (Plants, 9d. each; 6s. per doz.). See Culinary Plants.

Jerusalem.—Not produced from seed. For Tubers, see Culinary Plants on page 16.

ASPARAGUS PEA

9d. per oz.; 6d. and 3d. per packet.

CULTIVATION.—A dwarf plant of trailing habit, producing a quantity of crimson pea-shaped flowers. These are succeeded by strangely-shaped pods, borne in pairs, and, when cooked, possess a flavour similar to Asparagus. We recommend sowing in autumn months.

*I got better results from the 'few seeds I got from you than elsewhere, and shall tell my friends.—Yours sincerely,
21/2/1913.
Miss A. L., Kendall, Camden Haven.*

*I have a lovely lawn grown from your seeds, and it is now about three inches high.
Mrs. G. P., Wentworth Falls.*

ASPARAGUS (Culinary)

6d. and 3d. per packet.

Searl's Giant White.
The Palmetto.

Connover's Colossal.

CULTIVATION.—A delicious edible-stemmed garden vegetable, easily raised from seed. Sow the seed in July and August, and transplant in autumn. The soil, a deep sandy loam, well trenched, ought to be given a good dressing of stable manure and salt. In the autumn of the second year the plants should be lifted and re-planted. Seaweed (decayed) is used largely for manuring, but it is rather difficult to get in sufficient quantities.

See Culinary Section of this Catalogue for Roots.

BEANS

BROAD BEANS

1s. per quart (post free 1s. 6d.); 6d. per pint (post free 9d.); 6d. and 3d. per packet (postage 3d. and 2d. extra).

CULTIVATION.—A highly nutritious vegetable when the seeds are eaten young and fresh. Sow seed in March to July, in drills 4 feet apart, and 12 inches from plant to plant. The soil should be a strong loam, and even of clayey substance. When they come into flower they require pinching to make the pods set.

Broad Windsor.—Largest-seeded Broad Bean grown; bears immense crops.

Early Long Pod ("Hangdown").—Favourite with market gardeners.

Searl's Giant Long Pod.—An abundant bearer; excellent flavour.

BUTTER BEANS

1s. 6d. per quart; 9d. per pint; 6d. and 3d. per packet.
Postage extra.

POST FREE PRICES—2s. quart; 1s. 3d. pint; 9d. per 6d. packet; 5d. per 3d. packet.

This selection from the old French Bean is a great acquisition. The pods are perfectly stringless, and can therefore be cooked whole. The pods when cooked are tender and of a buttery, mellow taste and special flavour, which will be highly appreciated. Largely grown in America and on the Continent.

Mont d'Or, or Golden Butter (Tall).—This Bean, known as "Wax Pod," grows about 6 feet; pods of great substance, remarkably tender, and of fine flavour. Pods need not be sliced before cooking.

Searl's "Sovereign" Stringless (Golden Pod).—A strong, bushy-growing dwarf black seeded variety. Very vigorous and productive; quite stringless, and of fine flavour. One of the best. Plants 15 inches high.

The "Startler" (Golden Pods).—The pods are 6 inches long, perfectly stringless, delightful buttery flavour; plants about 12 to 18 inches high; abundantly prolific.

CULTIVATION.—Sow from September to end of January in rows 2 feet apart, and 6 inches from plant to plant for the dwarf sorts, which only grow from 18 to 24 inches. Mont d'Or, the tall-growing variety, assumes a height of 6 feet (climbing).

LIMA BEANS

2s. per quart (post free, 2s. 6d.); 1s. per pint (post free, 1s. 3d.); 6d. and 3d. per packet (post free, 9d. and 5d. respectively).

CULTIVATION.—Sow during October, November and December; prefers a good loamy soil, well enriched. Sandy soil will produce good results if liberally treated. The dwarf sorts should be sown in rows two feet apart and six inches from plant to plant. The tall varieties require stakes about 8 feet high. They are highly nutritious. The flavour is most delicious and quite distinct from any other vegetable. The Beans are shelled before cooking, and served with butter. When ripe are used like the Haricot. Although not quite suitable to the very cold districts of our State, should be more largely grown.

Burpee's Dwarf.—The best dwarf type of this delicious vegetable. Plants from 18 to 20 inches high; they spread into some 3 feet in diameter.

Henderson's Dwarf.—A bush variety (18 inches high), selected from the Tall Lima; keeps on bearing during the summer if the pods are kept well picked.

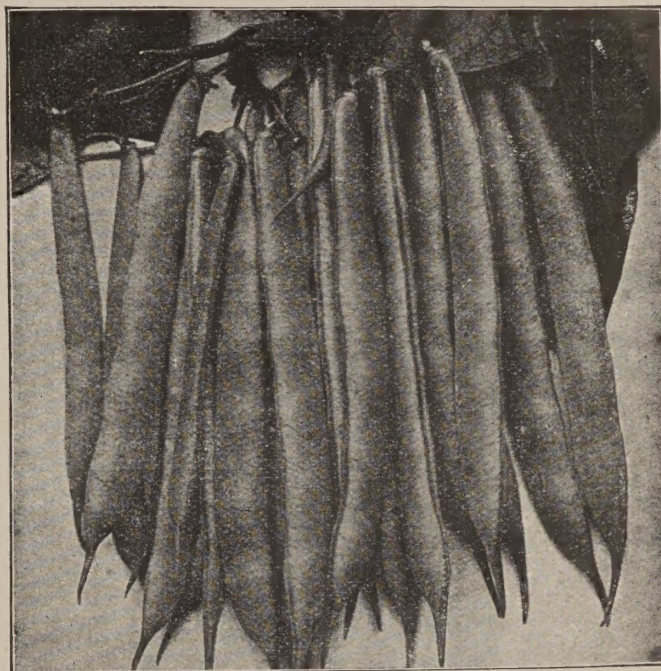

King of the Garden (Tall).—The best of the tall-growing varieties pods are large and well filled, and are produced in great abundance. The quality is all that can be desired.

SOW

SEARL'S SOVEREIGN SEEDS FOR GOOD RESULTS

The Plants you sent me arrived safely and were beautifully fresh and nice and strong.
29/8/13.

Mrs. C., Young

NEW CLIMBING FRENCH BEAN—SEARL'S WONDER FRENCH BEANS

1s. 6d. per quart; 9d. per pint; 6d. and 3d. per packet.

POST FREE PRICES—2s. quart; 1s. 3d. pint; 9d. per 6d. packet; 5d. per 3d. packet.

CULTIVATION.—Start to make successive sowings when all danger of frost is over, of the dwarf sorts, up to the end of February, in a suitable climate. A good loamy soil that has been well enriched, will produce satisfactory results. These Beans bear in great profusion, and when carefully picked continue to bear through the summer. The varieties we offer are true to name, and are the best now in cultivation.

DWARF VARIETIES.

Burpee's Stringless Green Pod.—The pods are stringless, long, and nearly straight. A first-class variety, very little labour being required in preparation for the table. Very early and prolific bearer; excellent quality; quite distinct.

Canadian Wonder.—Very long pods; excellent flavour; wonderful bearer, very hardy; always grown by market gardeners. The best green-pod French Bean brown.

NEW CLIMBING FRENCH BEANS.

6d. per packet post free.

Searl's Wonder.—A most delicious variety of Climbing French Beans of the old favourite "Canadian Wonder." 6d. per packet.

Kentucky Wonder.—A very prolific bearer, produces beans 8 to 9 in. long in clusters.

Mammoth Runner.—White. 6d. per packet.

"Sutton's Epieure," True Stock.—We have grown it for several seasons. The way they bear is quite a surprise to everyone that has seen them growing. The plants are very strong growers, growing to a height of 8 feet. After the Canadian Wonder in appearance and flavour. The best we have yet sent out.

Tender and True.—6d. per packet.

RUNNER VARIETIES.

Scarlet Runner.—Suitable for the colder districts of the State; fine quality; tall grower.

White Dutch.—Large and fine; tall grower.

MADAGASCAR BEANS

Black Seeded.—A much smaller seed than the true species. A very useful vegetable. 3d. and 6d. per packet.
ue.—A splendid Bean, much sought after by those who know it, grown not alone for the fruit it produces, but makes an excellent climber for shutting out unsightly places. Sow in the spring. 3d. and 6d. per packet.

SNAKE BEANS.

(Chinese or Yard Long.)

6d. and 3d. per packet. (Stock Limited).

Pods about 2 feet in length, in pairs. They are stringless and of good flavour, like French Beans, and used exactly in the same way. The Snake Bean only requires to be cut into sections for the table. Sow during spring and summer

Enclosed you will find the value of 4s. for the goods you have supplied us. The goods arrived safely and in perfect order last Thursday. Thanking you for your prompt attention and taking my word of honour. Wishing you and your firm every success.—Yours faithfully,

31/8/13.

J. H. D., Winton, via Tamworth.

BEET

1s. per oz.;

6d. and 3d.
per packet.

CULTIVATION.—Sow the seed in rows 24 inches apart, thinning out so as to leave a space of 12 inches between each plant. From July to December, and again in February and March, are the best months to sow. The aim of the cultivator is to get shapeliness of root, quality and colour; a deep loam will help the grower to do this.

SEARL'S EARLY TURNIP-ROOTED BEET

Burpee's Improved Blood Turnip.—Globular shape, bright blood red; flesh close and of excellent texture; tops small; a valuable introduction.

Eclipse.—A very early variety, dark red, perfectly round; excellent for domestic use. Close grained and finest quality.

Egyptian Turnip Rooted.—Very flat in shape, having blood-red flesh and being a very fast grower; very early.

Searl's Early Turnip Rooted.—A beautiful deep crimson, round variety. Grown largely by market gardeners.

All the Turnip Rooted Varieties are much earlier than the long-shaped sorts, and quite equal in quality.

Nutting's Dwarf Long Red.—An old favourite sort of medium size, solid and fine coloured. Twelve inches long.

Searl's Long Blood Red.—One of the finest table Beets. Short and crisp in the grain; beautiful deep rich colour; tender, of fine flavour. Twelve inches long.

SPINACH BEET

1s. per oz. ; 6d. and 3d. per packet

CULTIVATION.—Sow seed in rows in autumn and spring. This is grown for the leaves only, the roots being worthless. The green leaves, if cooked like Spinach, are nearly equal to it, and the broad white stems, served with white sauce, are delicious when flavoured with celery seed. Comes to maturity quickly.

Giant Seakale Spinach Beet.—An improvement on the Silver Beet, and has larger leaves and broader mid-ribs. Its pure white stalks, when cooked, are not unlike Seakale.

Silver Spinach Beet.—The old favourite variety, which yields a continuous supply of Spinach Leaves during the summer.

Special Collections of Vegetable
Seeds on Page 2

Borecole or Kale

1s. per oz. ; 6d. and 3d. per packet.

CULTIVATION.—First sow in seed beds and afterwards treat as cabbage. Sow from January to June, and transplant into rows two feet apart, 18 inches in the rows. Likes a well-worked, rich soil, with liberal manuring.

Dwarf Green Curled.—Only suitable for the colder districts of the State. An excellent winter vegetable, highly esteemed in England for winter greens, as it is rendered more tender by the frost and snow lying upon it, which, of course, will cut it down if very severe.

Thousand Headed.—Suitable for growing as green crop for cattle and sheep. 6d. oz.

BORECOLE OR KALE

BROCCOLI

1s. 6d. per oz. ; 6d. and 3d. per packet.

CULTIVATION.—A useful vegetable, the flower heads of which are edible. Sow for a main crop either in December, January, or February, and again in June and July. Plant out as seedlings two feet apart each way, and to ensure good results the soil must be good, strong and well manured. They are decidedly more at home in the cooler parts. For Plants, see Culinary Plants.

Adams' Early White.
Knights' Protecting.

Evesham Giant White.
Walcheren.

Thanks very much for your promptness in sending Plants, etc., They arrived in very good order, and just in time for the late rains, so should be a great success.

5/11/13.

E. S. McP., Barraba.

SEARL & SONS VEGETABLE SEEDS SYDNEY.

See SPECIAL
CASH OFFERS
on page 2.

Collections of
Vegetable Seeds.

BRUSSELS SPROUTS

1s. per oz.; 6d. and 3d. per packet

CULTIVATION.—One of the most prolific, hardiest and useful members of the Brassica family; a favourite in England. Sow June, July and August for use in the summer months, and January and February for winter use. Prick out the seed beds, finally placing the plants 2 feet apart in rows 3 feet apart. A good retentive soil is the best. For plants, see Culinary Roots.

Matchless.—Early, very fine and tender.

CHINESE CABBAGE

(See PE-TSAI)

SAVOY CABBAGE

9d. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Same as other Cabbage. These excellent Curled Cabbages do remarkably well in the cooler parts of our State. They have a distinct flavour of their own. At their best during cold frosty weather, when they revel in being covered with it. Not recommended too highly for suburban gardens.

Drumhead. Dwarf Green Curled.
Plants, 1s. 6d. per 100, postage extra.
See Culinary Plants.

CABBAGE

9d. per oz.;
(except where
otherwise
marked)

6d. and 3d.
per packet.

Autumn King or Worldbeater.—The finest late Cabbage. It is quite distinct, as its outer leaves are of a glaucous green colour, crimped. It produces enormous hearts. It goes all to head, and is fine and close grained. Excellent for market or private use.

Burpee's All-Head Early.—A short-stemmed variety, of good, compact growth, with but few spreading leaves. We recommend this for early planting, and place it next to the favourites "Succession" and "St. John's Day." 1/6 oz.

Copenhagen Market.—A very early ball-shaped variety, it is unrivalled as the most early and large headed. Average weight, 10 lbs. 6d. per packet. 1/6 oz.

Drumhead.—Large late Cabbage, immense size; fine winter variety.

Early Dwarf York.—Small but very early, good flavour, for private use.

Early Jersey Wakefield.—Great favourite; early, medium size; fine table sort.

CABBAGE—Drumhead

CARROT

Finest Rubbed Seed. 1s. per oz.
6d. and 3d. per packet.

CULTIVATION.—Select the sandiest and sunniest part of the garden. A good deep, sandy loam, rich and light, is the best. The roots cannot thrive in a wet, heavy soil. Freshly-manured ground should be avoided, to prevent forking and bad shape. Sow the seeds in drills 12 inches apart, in July, and for the main crop in September, thinning the plants out so as to leave six inches from plant to plant. Small intermediate sowings may be made in January and February.

Improved Scarlet Intermediate.—
Of fine size and shape, with short top; early and excellent.

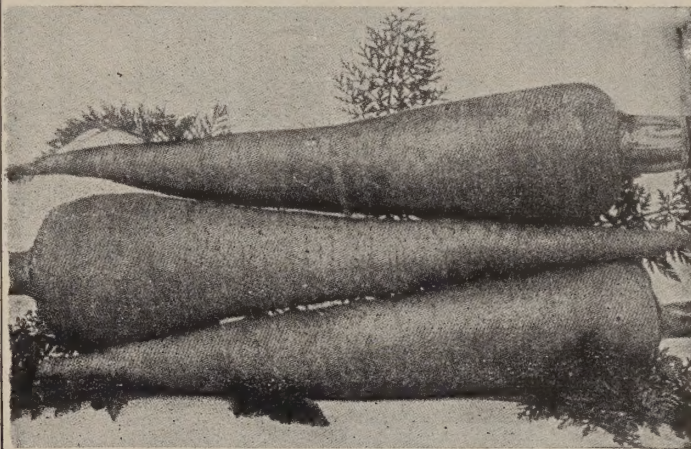

Early Short Horn.—Good colour and quality. Very early, and a great favourite for table use.

Long Blood Red.—A splendid quality Carrot; skin purple-red, flesh deep orange-red, short green top; excellent variety.

Long Red Surrey.—Very long variety, grows to perfection on deep rich land.

Large Red Altringham.—Long red; coarse, for domestic use; excellent field Carrot for horse feed.

St. Valery.—A splendid scarlet Carrot, longer and thinner than "Intermediate." A great favourite with the gardener, being of perfect shape.

CARROT—Scarlet Intermediate

CULTIVATION.—Strong loam produces the finest Cabbages. Two successive crops should not be planted in the same ground, or after any of the Brassica family. Seeds should be sown January to June, and again from August to October for most varieties. Sow in a bed and transplant into rows 2 feet apart and 18 inches between each plant. More room will be wanted proportionately when growing larger and stronger varieties.

East Ham.—Excellent marketable variety for autumn and winter crop large, firm, and white-hearted.

Flat Dutch.—Winter variety, late, flat and solid.

Hundredweight Large.—A Cabbage of great merit, producing enormous heads.

Improved St. John's Day, Early.—One of the finest summer Cabbages; will heart during the hottest months, and produce large solid heads. It can be sown at any time of the year, although it is better and larger in summer. It turns in quickly, and is all heart; leaves are dark green; short stemmed.

Large Schweinfurt.—Very large, fine white hearts, excellent quality.

Large White Brunswick.—A splendid large summer variety, not quite so subject to aphids as some varieties, and a favourite with market gardeners on that account.

Large York.—Medium size, of fine quality, and very early.

London Market and Enfield Market.—Splendid sorts for general crops white firm hearts.

Pedigree.—One of the best market varieties grown.

Red Dutch or Pickling Cabbage.—The best pickler. A grand variety large. Colour, intense blood-red; excellent strain.

Searle's Perfection.—This variety has attracted considerable attention, and is unrivalled as the most equally maturing and large heading early Cabbage. The heads are remarkably solid, of fine quality, and small cores, with an average weight of about 10 lbs., but heads of 14-16 lbs. are very frequent. 1/6 oz.

SUCCESSION.—A very fine Cabbage, and one that we can recommend with the greatest confidence. 1s. 6d. per oz.

Sugarloaf.—Most delicate flavour, excellent for private use.

Winningsstadt.—Cone-shaped; good so't to market very heavy, excellent keeper, resists aphids.

Strong Plants of the leading sorts can be supplied from January to December.

1s. per 100, post extra.

See Culinary Plants.

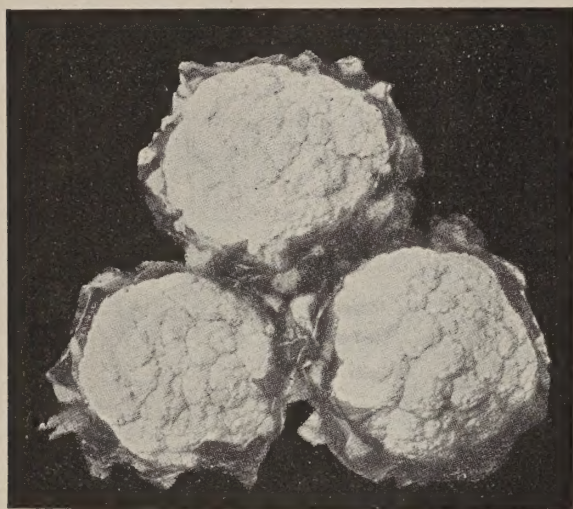

CAPE GOOSEBERRY

3d. and 6d. per packet.

Sow in September, and prick out in a row along a warm, sheltered border in rich soil, say two feet apart. The plants can be stopped by pricking out the tops of the shoots occasionally, to induce a sturdy bushy growth. These, if once tried, we feel sure would be more sought after. Of the simplest culture, they will appeal to most folks.

Cape Gooseberry (*Physalis Edulis*).—Can be used for dessert; makes a delicious jelly; suitable for jam making.

Giant Cape Gooseberry (*Physalis Francheti*).—Japanese Winter Cherry. A variety of Cape Gooseberry from Japan; of erect habit, grows from 1½ to 2 feet. The fruit is edible and makes a choice preserve. It is first green, changing to yellow, orange, and bright crimson, and will ripen after it is cut.

CAULIFLOWER (WHITE QUEEN)

CAULIFLOWER

1s. 6d. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Sow in a light rich soil in December, January, February and March. The plants should not be allowed to cramp each other or become stunted. If possible, wait for dull, showery weather to plant out. Plant in rows 2 feet apart, 3 feet between the rows. Do not grow on the same ground two years in succession. Strong plants, 1s. 6d. per 100; postage extra. See Culinary Section.

Early London.—A first-class early variety. Fine white heads; not liable to button; for private gardens one of the best; a very old favourite.

Large Asiatic.—A large variety, of fine quality, for private use and for market; of excellent colour and very hardy.

Searl's Drought Resister.—A most suitable variety for dry weather thriving under most adverse conditions. 6d. per packet.

Sutton's Autumn Mammoth.—An improved Veitch's Autumn Giant.

Veitch's Autumn Giant.—First-class variety, producing magnificent, very large, snow white, firm heads; plants are of vigorous growth, requiring plenty of room. Tons of this variety are sold in the Sydney market, and no variety is more grown or better known in Europe. It is not early. Best months to sow are December, January and February.

Walcheren.—Good reliable sort, and a favourite with some growers. Medium early.

White Queen.—One of the earliest in cultivation. Very dwarf, luxuriant foliage. Very solid heads of the purest white. NOTE.—5s. per oz. in bulk.

Dear Sirs,—The Plants came to hand all right, and I must say that the way you sent them was a long way ahead of any firm that I have dealt with in Australia, and reflects great credit on your firm.

11/4/1913.

L. P., Prairie, North Queensland.

CELERIAC

(TURNIP-ROOTED CELERY.) 9d. per oz.; 6d. and 3d. per packet.

Much harder than the ordinary celery, and develops a base somewhat like that of Kohl-Rabi. It is excellent for soups and stewing. Sow in September and October, and treat same as Kohl-Rabi. Trenching is not necessary; it requires about 8 inches of space all ways.

CELERY

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Good culture should be accorded at every stage of its growth. Abundance of moisture and liberal supplies of food are necessary, for Celery is a glutton among vegetables. Sow for a main crop in September and October. Seed beds for this sowing should not be too rich. So as to furnish plants for putting out for several months, a later sowing (say in December or January) may be made. Open the trenches well, say 18 inches wide and of a like depth; stack the soil on either side, to be ready for drawing back into the trenches as the plants progress. In the bottom of trenches place about six inches of stable manure, partially rotted, and fork it well into the soil. Cover this with a couple of inches of the good soil previously thrown out, and water copiously the night before planting. Then carefully raise the plants from the seed-bed, and plant along the centre of the trench, about nine inches or ten inches apart. Weed often, and draw in soil as the plants advance, taking care that the hearts of the plants are not buried; continue to do so until the plants are full grown and the trench is nearly filled up. Keep plants going with water, when in a young state, if necessary, and use liquid manure; the Celery stalks will then be well blanched and tender.

WHITE VARIETIES.

Cole's Crystal White.—

Large and fine quality; crisp and well-flavoured.

Turner's Incomparable White.—Old favourite; very fine quality; always reliable; fine flavour; tender when blanched.

White Plume.—First-class variety, very tender. The stalks and the inner leaves and heart are white, which simplifies the blanching process.

White Solid Paschal.—This fine variety has remarkable breadth of stalk; fine flavour; a self-blanching variety.

RED VARIETIES.

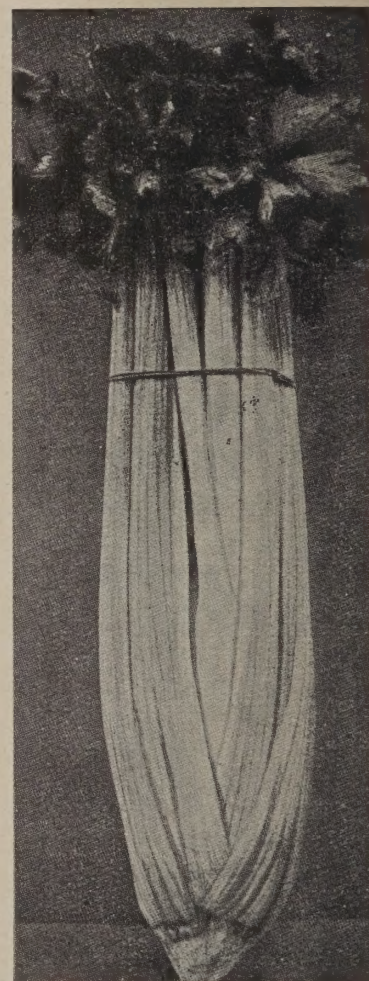

Celery for Rheumatism (THE RED).—The Red Celery is a recognised cure for rheumatism, and, indeed, is highly recommended by the medical profession. A teaspoonful infused in boiling water in a cup, and allowed to settle for half an hour, can be taken freely. 3s. 6d. per lb. (postage extra).

Red colour; large, solid stems, tender and crisp.

Soup.—Excellent for flavouring purposes, etc. 6d. per oz.; 2s. 6d. per lb. (Postage 9d. per lb. extra.)

Celery Plants can generally be supplied from February to July. See Culinary Plants.

2s. per 100; postage extra.

 CALENDAR of OPERATIONS for the VEGETABLE
 GARDEN will be found on Page 15

SWEET CORN—TABLE MAIZE

1s. 6d. per qt. (post free, 2s.); 9d. per pint (post free, 1s.);
6d. and 3d. per packet (post free).

This delicious vegetable is not sufficiently appreciated here. The cobs should be cooked when they are quite soft and tender, like green peas. Plant in September and October, in rows three or four feet apart, and one foot in the rows. Sweet corn will succeed in any moderately rich garden soil. It should be hoed and hilled when about a foot high.

Early Mammoth.—Best early variety.

Howling Mob.—One of the best. Very large cobs.

Seymour's Sweet Orange.—Mid-season variety, grows 6 to 7 feet high. The ears are 6 inches in length; a very good variety.

HOW TO COOK SWEET CORN.

BOILED IN THE COB.—Corn should be used as quickly as possible after it is gathered, and this should be when the cobs are soft. Before cooking remove the husks and every thread of silk, throw the corn into a pot of fresh boiled water, boil five minutes. Serve immediately, wrapped in a cloth on a dish, or like Asparagus.

ROASTED.—Husk the corn and remove the silk. Brush each cob with melted butter, and dust with salt and pepper; line a baking dish with paper, place the cobs in it, and put in a very quick oven 10 or 15 minutes to brown. Serve on a serviette immediately.

POP CORN

2s. per qt. (post free, 2s. 6d.); 1s. per pint (post free, 1s. 3d.);
6d. and 3d. per packet, post free.

CULTIVATION.—The same as Sweet Corn.

This is a favourite sweet in America. Allow the cobs to ripen thoroughly, and then roast the grains in a close iron vessel until they "pop," shaking the vessel meantime. This is produced by the explosion of the gas in the grain generated by the heat. The "Pop Corn" is then taken out and slightly dusted with flour sugar, when it forms a delicious sweet.

CRESS

6d. and 3d. per packet. 2s. 6d. per lb., post free.

CULTIVATION.—Cress being slower growing than Mustard, it must be allowed three days longer if both are needed at the same time. Cress has a much more delicate flavour than Mustard. So hardy and free rooting is the Water Cress that anyone may grow it in a very moist or wet corner of the garden.

Triple Curled Cress may be sown every two or three weeks (with or without Mustard) the whole year round.

American or Land.—A splendid variety during winter.

Triple Curled.—The old English favourite, largely grown with Mustard; making excellent salad.

Watercress (*Nasturtium Officinale*).—Sow in moist land, or on a creek bank. 1s. 6d. per oz.

CUCUMBER

6d. and 3d. per packet.

CULTIVATION.—Make a first sowing in the open ground about the middle of August, successional sowings in September and October, but in the colder districts six weeks later. The soil must be well and deeply worked, and made very rich to produce fine Cucumbers; three plants to each hill will be enough, and these should be about six feet apart; the ground should be mulched with manure, and the plants watered if necessary. In all cases the points of the shoots should be pinched out when the plants are in flower, to cause the fruit to set.

Apple-shaped.—Singular variety, round in shape, fine white tender flesh; a profuse bearer.

Choice Long Green.—Excellent variety; fruit 8 inches long, of fine flavour.

Commercial.—Early, hardy; very productive; dark-green fruit, fine 6 to 8 inches long; does not run much to vine.

Crystal White.—White skin, firm flesh, good keeper; early.

Fordhook Pickling.—Considered by some growers the best pickling Cucumber; a strong vine, and fruits produced in enormous quantities. Thin skin and fine quality flesh; few seeds.

Green Gherkin.—Very small fruit, used only for pickling.

Japanese Green Climbing.—Very early. It is a rampant climber. Worth growing for slicing or pickling.

Long Green Prickly.—Fine size, deep green colour, crisp and delicious; a favourite.

Searls' White Spine.—Short white variety, early cropper, and of good quality.

Short Green Prickly.—A favourite with most growers; very hardy good sort for small gardens.

EGG PLANT

6d. and 3d. per packet.

CULTIVATION.—Sow in September and plant out in rows two feet apart, and the same distance from plant to plant. Shade and water until the plants are established. When the fruits are set, remove all but from eight to twelve on each plant—that is, allow only a single fruit to mature on each shoot. The young plants should be stopped to induce branching. The fruit is egg-shaped.

Improved New York Purple.

Improved White (Giant).

ENDIVE

(WINTER SUBSTITUTE FOR LETTUCE).

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—A hardy plant, chiefly cultivated for salad purposes, though the broad-leaved or Batavian Endive is sometimes cooked as a vegetable. Any garden soil, which has been deeply dug and made moderately rich by the addition of manure, is suitable. Sow in February and March, and plant out when fit in rows two feet apart and one foot from plant to plant; when the plants are well advanced, tie the leaves into a bunch, surrounding the hearts to blanch and keep them tender.

This salad plant, when well grown and blanched, is by some preferred to Lettuce.

Batavian.

Green Curled.

ESCHALOT

(RED JERSEY.)

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Sow the seed broadcast or in drills. Prick out when 3 or 4 inches high into rows, and 6 inches from plant to plant, and 12 inches between the rows. Seed should be sown in February and March. Any good soil fairly well enriched with stable manure.

GOURDS (Ornamental)

6d. and 3d. per packet.

CULTIVATION.—Sowings can be made from September to November, and cultivate same as Cucumbers or Marrows. This curious family, the fruit of which is most fantastic in shape, should be more largely grown. The foliage is handsome, and the plants are of rapid growth; highly ornamental climbers, and the Dish-Cloth Gourd bears a fruit which is most useful.

Dish-Cloth Gourd (*Loofa* or Vegetable Sponge).—This Gourd has lovely dark green foliage, with large yellow blossoms; the fruit is about two feet in length, and the woody fibre lining of the inside of the fruit when ripe and properly dried is the Dish-cloth. They are also most useful in the bath as a flesh rubber, and are far superior to any other flesh glove.

Mixed Gourds.—All the best sorts, including Orange, Pear, Portmanteau and Club varieties.

Nest Egg.—A very pretty climbing plant, for trellis or verandah, bearing very profusely; fruit the size, shape and colour of the ordinary hen's egg. Can also be used as a Vegetable Marrow.

Use

Jadoo Fibre

1/- Per Tin

The most reliable
Compost for all Vegetables

See Page 103

HERB SEEDS (Culinary)

6d. and 3d. per packet.

CULTIVATION.—The culture is exceedingly simple. No garden is complete without a bed of herbs. Sow seed in autumn and spring; and for the most of them it is advisable to sow in pans or boxes, or in some place where attention and water can be given them, and where they can be gradually hardened off and planted out as soon as they are strong enough.

Anise (*Pimpinella Anisum*).

Balm (*Melissa Officinalis*).—For making Balm tea valuable in cases of fever, etc.

Basil, Sweet (*Ocimum Basilicum*).—For flavouring soups, stews, sauces, etc.

Borage (*Borago Officinalis*).—Used for salads; excellent for bees.

Carraway (*Carum Carai*).—Chiefly cultivated for the seed, which is used in confectionery and medicine; the under leaves are sometimes used for flavouring soups.

Chervil, Plain or Common (*Chaerophyllum Aromaticum*).—For flavouring soups, salads, etc.

Chicory

Coriander (*Coriandrum Sativum*).

Dill (*Anethum Graveolens*).—Used for flavouring soups, pickles, etc.

Horehound (*Murrubium Vulgare*).—Very useful.

Hyssop (*Hyssopus Officinalis*).—The leaves and flowers are gathered and dried for making Hyssop tea, and other purposes.

Lavender (*Lavendula Vera*).—The true variety; cultivated for its flowers, which are very aromatic.

Marjoram, Sweet (*Origanum Marjorana*).—Used in soups and stuffings.

Marjoram, Pot (*Origanum*).—Used in soups and stuffing.

Pennyroyal (*Mentha Pulegium*).

Purslain.

Rue (*Ruta Graveolens*).—Used for medicinal purposes; also used as a remedy for roup in fowls.

Sage (*Salvia Officinalis*).—Used in stuffings and sauces.

Savory, Summer (*Satureja Hortensis*).—Greatly used for seasoning.

Savory, Winter (*Satureja Montana*).—Greatly used for seasoning.

Sorrel, Large-Leaved (*Rumex Scutatus*).—Used for salads, and imparting an acid flavour to soups.

Tansy (*Tanacetum Vulgare*).—An aromatic herb.

Thyme (*Thymus Vulgaris*).—For soups, sauces and stuffings.

Tarragon (*Artemesia Draunculus*).—Used for flavouring.

Wormwood (*Artemesia Absinthium*).

Plants of Sage, Thyme, Mint and Marjoram can be supplied, postage extra. See Culinary Plants.

KOHL-RABI

TURNIP-ROOTED CABBAGE.

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Sow January to March in beds, and plant out the seedlings when fit 9 inches apart in rows 18 inches apart, the treatment throughout being precisely like that given to cabbages. Grows splendidly in the cooler parts. Any well-manured and good garden soil will suit them. If cooked when young they make a delicious vegetable as a substitute for or a change from Turnips. It must be tasted in good condition to be appreciated.

Earliest White Vienna.

Large Purple.

Large Green

LEEK

9d. per oz. 6d. and 3d. per packet.

A valuable winter vegetable closely related to the Onion, but having a more delicate flavour. No culinary vegetable is of easier culture. Sow in prepared beds from March to June, and plant out in rows 18 inches apart and 8 inches in the rows, if the soil is rich and a large Leek is desired. When the plants are 6 inches high they are fit for planting out.

London Flag.—A favourite Leek; and largely grown; much cultivated by growers for market.

Musselburgh.—A very large variety; when transplanted grows to an immense size.

The Benefit of our Experience,
extending over 40 years, is at the
disposal of Customers. If in doubt,
write to us for advice.

Dear Sirs,—I am much pleased with parcel of Plants, which came yesterday. Thanking you for your promptness in despatching my order and also for care in packing plants and sending so many of each kind.—Yours faithfully,

M. T., Bemboka.

LETTUCE

1s. per oz.;

6d. and 3d.

per packet.

CABBAGE VARIETIES.

Deacon.—A variety of the famous Butter Lettuce, and one of the best; large heads; leaves pale green without, with beautiful rich cream yellow within; delicious buttery flavour, making a fine, fresh, crisp salad. Stands heat of summer without becoming bitter or running to seed.

Drumhead (or Malta).—The most popular variety of Cabbage Lettuce amongst Sydney market gardeners, producing fine white solid hearts during winter and spring; crisp and of fine flavour. Drumhead is very similar to Neapolitan.

Iceberg.—A quick grower, with hard, handsome heads of exquisite flavour. A variety that we can highly recommend. A decided advance on the old sorts. A good winter variety.

Mammoth Salamander.—An excellent variety of rather recent introduction; beautiful tender foliage (black seeded).

May King.—This variety produces splendid globular heads which are ready ten to fourteen days before most other sorts.

Mignonette.—A very ornamental kind, the leaves being a pretty russet colour.

New York.—Of unusual size and solidity, with but little tendency to run to seed, often growing to 18 inches in diameter, and weighing 3 lbs.; perfectly solid, crisp, tender, and of excellent flavour.

Ohio.—A well-known favourite.

Searl's Exeter Surprise.—This excellent Lettuce deserves to be largely grown. Of its many good qualities perhaps the best is the remarkably long time it will stand before bolting to seed, outlasting most other varieties in this respect. It is early, very hardy, and may safely be sown at any season. It makes a large, firm, compact lettuce, with almost an entire absence of loose outside leaves. The colour is a pleasing pale green, the outer leaves slightly touched at the edges with delicate tinge of red.

Searl's Mammoth.—A magnificent variety; large heads; good hearting type. One we can thoroughly recommend.

Tom Thumb.—A small, compact variety, of good quality, and does not go to seed quickly.

Yellow-Seeded Butter.—An American variety, with large, yellow heads. A good summer lettuce.

CULTIVATION.—Sow seeds out of doors at almost any period. For main crop, however, March, April, and May. Some growers prefer sowing in a seed bed and transplanting; others sow in drills and thin out. Either method is advisable as may be convenient. Lettuce will thrive in almost any good garden soil.

LETTUCE (Searl's Exeter Surprise)

UPRIGHT OR COS VARIETIES.

Paris Green Cos.

Paris White Cos.

Favourite sorts, suitable for cold or warm districts, and will grow anywhere provided the soil is rich and moist. It is necessary to tie the leaves in to produce crisp, white hearts. Judicious cultivation will ensure a supply practically the whole year round.

ASPARAGUS LETTUCE.

A new variety resembling Asparagus in flower. 1s. 6d. per oz.; 6d. and 3d. per packet.

MELONS

ROCK OR MUSK

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Rock Melon culture is somewhat like that of the Cucumber. Sow out of doors in September and October. The hills need not be so wide apart as for Water Melons, nor should the soil be so highly manured. Do not leave more than two of the strongest plants in each hole; but do not thin them out until they begin to run. Water during dry weather to bring on the young plants and bearing vines. When the fruit begins to show signs of ripening, a frame of calico or canvas covering should be provided to prevent any external moisture injuring the fruit, otherwise the most delicious varieties will prove insipid, watery and worthless.

Anne Arundel.—A superb Melon, of great size and quality; flesh solid and of a beautiful green colour and delicious flavour. The netting is perfect, and, notwithstanding its size, the variety comes to maturity soon after the first earlies.

Burpee's Netted Gem or Rocky Ford.—Light green flesh, melting and sweet; a hardy variety and a good cropper; very early.

Champion Market.—A splendid variety of the Netted Gem type, producing fruit nearly three times as large; regular form being nearly round, averaging 8 inches in diameter; green flesh and of the True Netted Gem flavour.

Early Hackensack.—Early; delicious; thickly-netted green skin and green flesh, deeply ribbed and flattened; 4 to 10 lbs.

Emerald Gem.—Delicious, early and prolific; a smooth-ribbed skin, emerald green colour; flesh salmon colour.

Golden Perfection.—A green flesh variety, of excellent flavour, fine quality.

Improved Jenny Lind.—A great improvement on the old and highly esteemed Jenny Lind; the fruit is larger and keeps better, while it retains all the fine flavour and high qualities of the parent stock.

Melrose.—Oval-shaped form, free from ribs; dark green skin, changing to russet when ripe; thickly netted; light green flesh, changing to a rich salmon at the centre.

Nutmeg.—A medium-sized Melon, delicious flavour; a great favourite.

Pineapple.—Highly flavoured, medium size, green flesh, and an abundant bearer.

ROCK MELON (Netted Gem)

MELONS, WATER

9d. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Sandy loam is the most suitable for this delicious fruit, but in fair seasons it will do well in any good garden soil. Sow five or six seeds in prepared hills 5 or 6 feet apart each way, eventually leaving only two of the best plants in each hill. The best time for sowing is September and October.

Black Spanish.—Useful variety for main crop, very juicy, good size and flavour; dark red flesh; a good early one.

Cole's Early.—Of great quality, and ranks beside the famous McIver Sugar Melon. Cole's Early is a selection from Cuban Queen; is very early, has bright red flesh, delicate flavour.

Cuban Queen.—A very large, bright, crimson-fleshed Melon, of superb quality and delicious flavour. It crops enormously.

Halbert Honey.—The quality is simply delicious, sugary, and of a rich fruity flavour. It is devoid of all fibrous substances. The sweet flesh melts in the mouth like so much honey. One we can thoroughly recommend.

Ice Cream.—White seeded, excellent, with a delicious flavour; red flesh; a late variety.

Kolb's Gem.—Light green skin, nearly round in shape; 30 to 50 lbs. in weight; flesh bright red; rich and sweet.

Kleckley Sweets.—Bright scarlet flesh, crisp and sugary; one of the most delicious varieties grown; 18 to 20 inches long; dark green skin; an American variety.

Mammoth Ironclad.—Beautiful Melon, oblong, with mottled green skin an average weight of 50 lbs.; crisp, delicious, sugary red flesh.

McIver Sugar.—Fruit is uniformly large, often two feet in length; skin shows bands of white shading into green; quality is very superior; flesh is pale pink, crisp, juicy, and luscious; highly recommended.

MELON, MANGO (Egyptian)

Or VEGETABLE PEACH.

1s. per oz.; 6d. and 3d. per packet.

Fruit about the size of an orange, and of a delicate flavour when baked or boiled like a Vegetable Marrow. A very productive plant.

MELONS, PRESERVING

9d. per oz.; 6d. and 3d. per packet.

For large lots, see Growers' List.

Citron.—A round variety, with red seeds. It is excellent for jam making.

Long Green.—Excellent for jam or pie making, but cannot be used without cooking.

TO THE RECEIVER

Should you have no use for this Catalogue, you will confer upon us a great favour by handing it to a friend whom you know takes an interest in Gardening.

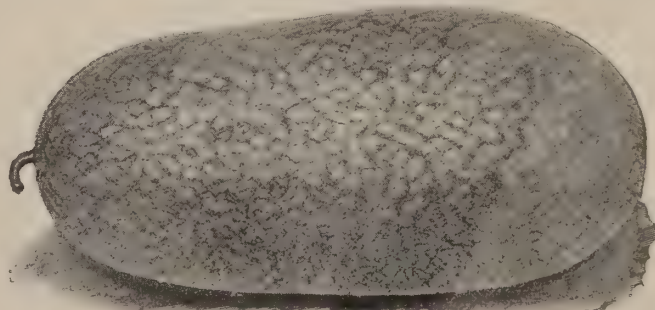

MUSHROOM SPAWN

English.—Procured from the most reliable source. 9d. per brick (post free, 1s. 6d.).

MUSTARD (Finest White)

(SINAPIS ALBA).—6d. and 3d. per packet. Price, 1s. 6d. per lb.

CULTIVATION.—Seed in hot weather should be sown in shady position. Sow in boxes with good sandy loam; keep well watered.

WATER MELON (Sugar Stick)

Rattlesnake.—Oblong, dark and striped; bright red flesh; late sort.

Sugar.—Red seeded, very luscious. A favourite Melon, and one of the richest flavoured grown.

Sugar Stick.—An excellent variety for market; being a good keeper; splendid shipper. Very sweet; bright red flesh. The heart is very thick owing to the seed being close to the rind.

The Dixie.—Very early variety; thin skin, flesh bright red, skin dark green, beautifully striped; fruit oblong.

ONION

9d. per oz.;
6d. and 3d.
per packet.

ONION (SILVER KING)

CULTIVATION.—For garden culture, and to produce large bulbs, sow in rich, well-prepared soil in the months of February, March and April, transplanting during the following July and August into drills 2 feet apart and 10 inches in the drill. The young plants should be carefully raised from the beds, so that the fibrous roots may not be injured. The rows where the young Onions are to be planted should have the soil raised in small ridges about 3 or 4 inches above the rest of the bed. After the plants have taken firm hold of the ground the ridges should be drawn away from the plants, so as to leave the whole of the bulbs exposed to the air, nothing but the fibrous roots left underground. This rule is very generally neglected, the consequences being thick-necked and imperfect bad-keeping bulbs.

Brown Spanish.—A splendid variety, large and firm, largely grown for market.

Brown Globe.—Like above, with all its good qualities; in shape more globular; a fine keeper, very solid.

Extra Early Yellow Globe.—Very early, mild flavour, keeps well, moderate size; good shipping sort.

Giant Rocca.—A fine Onion, of Italian origin, mild flavour.

James' Keeping.—One of the best; keeps well.

Silver King.—Similar to Brown Globe in shape, but larger in size, the diameter averaging about six inches; skin a beautiful silver white, mild and pleasant flavour.

Silver Queen.—A good early white skinned, long-keeping Onion, rather flat in shape; an excellent variety.

Silver Skin.—Pickling, excellent, clean silver skin; sow thick.

White Spanish.—A white variety; undoubted merit; specially adapted for salads, being of a nice mild flavour; similar in size and shape to the well-known Brown Spanish.

POTATO (OR UNDERGROUND) ONION.

6d. and 3d. per packet; 1s. per oz.

For Sets and Bulbs, see Culinary Section.

OKRA OR GOMBO

1s. per oz.;
6d. and 3d. per packet.

CULTIVATION.—Not so much grown in this country as its merits deserve. The pods, which are used while green and tender, form an excellent ingredient in soups, stews, and pickles, and are believed to be very nutritious. They can also be cut in slices and dried for winter use. For an early crop the plants may be raised in heat in July, like Tomatoes, and planted out; the ordinary crop may be sown in September and October for succession, in drills 2 feet apart, and the plants thinned to the same distance. The soil should be rich and well cultivated.

Improved Dwarf.

PARSLEY

6d. per oz.;
6d. and 3d. per packet.

CULTIVATION.—This herb is in constant demand for flavouring and garnishing. Sow in March and again in August or September and October. The soil should be finely worked, although Parsley will thrive in any ordinary fertile garden soil. Places that are generally selected are edges of borders in the kitchen garden. Sow in drills, but very thinly.

Extra Triple Curled.—Fine for garnishing; one of the best; beautifully mossy.

See Culinary Section for Plants. 1s. per dozen; postage extra.

PARSNIP

6d. per oz.;
6d. and 3d. per packet

CULTIVATION.—Requires similar treatment to the Carrot. It is one of the most valuable tap-rooted vegetables. It must be boiled and served whole to ensure its true flavour and highest nutritive qualities being retained. Parsnip prefers rather stronger soil than the Carrot, but is otherwise grown exactly like it; however, the land must be well and deeply worked. Freshly-manured land is not suitable, as it will cause the roots to fork. The rows should be 2 feet apart, and the plants should be thinned to 8 or 10 inches. Parsnip seed, not being a good keeper, should be sown thickly, so as to ensure plenty of plants. The autumn and spring for the main crops.

Hollow Crown.

PEAS

1s. per quart (post free, 1s. 6d.);
6d. and 3d. per packet (postage extra).

CULTIVATION.—The Pea is generally considered the most nutritious vegetable grown. It is richly nitrogenous. The best season for sowing for a large crop of Peas is May, June and July, but an earlier sowing may be made in March, and successive planting during winter and spring. In fair seasons, by judicious selection of varieties, a constant succession may be kept for nine months in warm localities. Peas like a strong loamy soil—if somewhat sandy, the better. It is one of the grossest feeders. If the situation be a dry one, crops sown later than July will not yield a return unless amply watered.

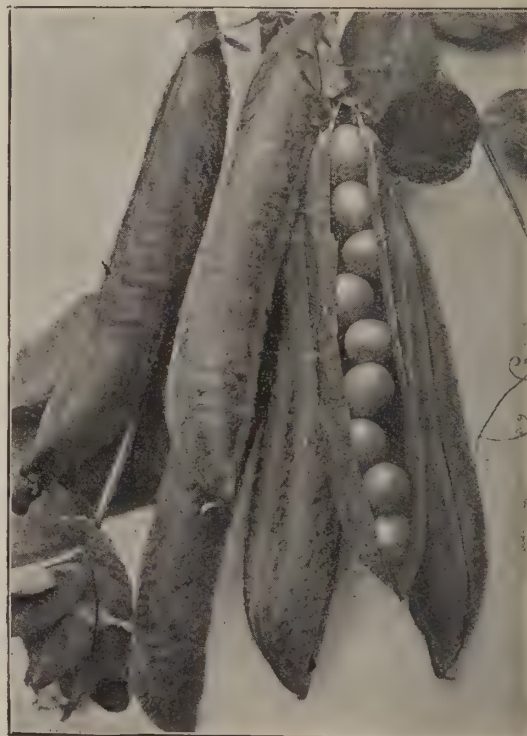

EARLY.

American Wonder.—Height one foot. A very early and very dwarf Pea, and a wonderful bearer; pods well filled; of deep green colour, and of superb flavour.

McLean's Little Gem.—1½ feet. An excellent Pea, and one of the very best dwarfs; an abundant bearer; pods well filled; excellent flavour.

The Daisy.—12 to 18 inches. This dwarf wrinkled variety, covered with pods 5 inches in length, is one of the best of the latest introductions in this class of Peas.

Wm. Hurst.—1½ ft. One of the best dwarf Marrow Peas; large pods.

DWARF PEA—"THE SHERWOOD"

MEDIUM.

Duke of Albany.—Height 3½ to 4 feet. A Pea of unusual merit. Thrives well early or late, and withstands the frost remarkably well, even in the coldest climate.

Sherwood.—One of the finest dwarf varieties grown; heavy cropper, and well-filled pods. Height, 18 inches.

Stratagem.—Height 2½ to 3 feet. This fine dwarfed wrinkled Marrow has given most excellent results; crops wonderfully; pods large and fine. A deliciously-flavoured Pea.

Veitch's Perfection.—2½ to 3 feet. A somewhat more delicately-flavoured Pea than the Yorkshire Hero, and a little taller; not quite so hardy.

Yorkshire Hero.—2½ to 3 feet. The most highly esteemed wrinkled Pea grown. A wonderful cropper, with abundant well-filled pods; delicious flavour and vigorous growth.

SUGAR PEAS (Edible Podded)

2s. per quart (2s. 6d. post free); 6d. and 3d. per packet.

Tall and Dwarf.—Do not require shelling if picked young. Culture same as the ordinary varieties.

PEPPER OR CAPSICUM

(CAPSICUM ANNUM)

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Sow in pots or boxes in a frame or bushhouse in July and August, or in beds in the open border in September or October, and plant out when the plants are 3 inches high—2 to 3 feet apart; water and shade until they are established plants. The soil can hardly be too rich; but Chillies will thrive in any ordinary garden soil and are very ornamental. For Plants, see Culinary Section.

Bird's Eye
Celestial
Elephant's Trunk
Golden Dawn

Large Bell
Sweet Spanish or Bull Nose
Long Red
Red Cherry

PE TSAI (Chinese Cabbage)

6d. and 3d. per packet; 1s. per oz.

CULTIVATION.—Sow seed autumn and spring. Will thrive in dry places. The leaves are loose and resemble Spinach. Much esteemed by both Chinese and Europeans.

PUMPKIN

9d. per oz.; 6d. and 3d. per packet.

CULTIVATION.—For garden culture, heavily manure the land and dig in deeply; give an extra dressing to the holes or hills where the seed is to be sown, and fork well in. The holes should be 6 to 8 feet apart, and only two plants should be allowed to remain in each hill. Sow 6 or 8 seeds in each hill, so as to guard against total loss of plants by insects. A good mulch of manure greatly increases the yield. Sow August to November.

Crown.—Choice stock, medium size, thick flesh, fine quality; good keeper and dry.

Gramma.—A very useful sort, both for cooking in various ways and for cattle or pigs' feed.

Ironbark, True.—Not large, but of fine quality; thick flesh; good flavour; excellent keeper.

Japanese.—Flesh a rich salmon colour, fine grained; very dry when cooked.

Large Button.—Fine, dry sort; good variety; fine keeper.

Turk's Cap.—A fine table variety and a good keeper; red top.

Mammoth Cattle.—5s. per lb.

RADISH

6d. per oz.; 6d. and 3d. per packet.

CULTIVATION.—It is possible, by a little management, to have Radishes all the year round. Sow in light, rich sandy soil every fortnight for succession. Use a shaded border during the summer months, and a mulching of manure on the surface, and water freely. Sow in drills or broadcast. Very useful for salads.

Black Spanish.—Very hardy and of large size, for winter use.

Celestial or White Chinese.—Flesh firm, solid white; skin creamy-white.

French Breakfast.—Red, tipped white; favourite sort.

Long Scarlet.—A splendid strain; bright coloured, crisp, and tender; favourite market variety.

Mixed Olive Shape.—A mixture of the red and white varieties.

Mixed Turnip.—A mixture of the red and white varieties in equal proportion.

Red Turnip.—An old favourite, brilliant crimson skin, white flesh, tender, crisp.

Scarlet Olive-Shaped.—A delicious variety; white flesh.

White Olive-Shaped.—Similar to the above; skin and flesh white.

White Turnip.—Resembling the Red Turnip in habit of growth and high quality; skin and flesh pure white.

RHUBARB

6d. and 3d. per packet.

CULTIVATION.—Sow under shelter of a few dry leafless boughs, and a manure mulch in August or September. The young plants should be kept growing with frequent waterings if the weather is very dry. Let the plants remain in seed beds until autumn, when they should be transferred to permanent beds, made of the best soil, trenched 2 feet deep and manured with half-decomposed stable manure. The plants should be 3 by 4 feet apart, and the whole bed dug and heavily manured every year.

Rhubarb possesses marked medicinal properties. The crop is often a neglected one, because growers appear to think that good Rhubarb can be obtained with the smallest amount of attention.

Giant.

Crimson Winter.

ROSELLA

6d. and 3d. per packet.

The celebrated Queensland Rosella jam—said to be superior to the Black Currant—is made from the fleshy calyx of this handsome plant. It requires a hot climate, and is suitable for warm, sheltered situations near Sydney and on our coast. To get the plants early, so that they may have a long summer and flower freely, it should here be raised in artificial heat in June or July, and kept in pots until towards the end of September, when the plants may be planted out in rows 4 or 5 feet apart in good compost of old stable manure.

SALSIFY OR OYSTER PLANT

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—This delicate vegetable thrives well in our climate, and deserves more attention. The roots are used like Carrots or Parsnips, and they can be cultivated exactly in the same manner—that is, in drills at similar distances and similar soil. After boiling until tender, serve with melted butter. Seed should be sown in August and September in drills 15 inches apart.

SCORZONERA (BLACK OYSTER PLANT)

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—This vegetable is very similar to the Salsify, and requires the very same treatment in growing. If one blanches to tops, it is possible to use as Asparagus. Seed should be sown in September and October in drills 15 inches apart.

SEAKALE (Improved)

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—An uncommon vegetable, should be raised in seed beds, and when yearlings transfer to beds which have been trenched and manured to a depth of 2 feet, and plant from 2 to 2½ feet apart each way. The correct way of blanching Seakale is as follows:—Early in June place a 10-inch common drain pipe, chimney-pot (no matter if cracked or damaged), box or barrel over each plant, and stack a good heap of fresh stable manure around them to the height of 3 feet; cover the top of the pipes or boxes with a board or slate so as to keep the plants in the dark; the heat produced by the manure outside will cause the plants to grow, and owing to the darkness the shoots will be blanched pure white. The growth may be cut for four or five weeks, when it is not more than 5 to 6 inches long; then the pots should be removed, and the plants allowed to make their natural growth.

RADISH
(Mixed Turnip)

SPINACH

6d. per oz.; 6d. and 3d. per packet.

CULTIVATION.—In high favour in many gardens, its flavour being quite distinct from that of any other green vegetable. Sow in rows about 18 inches apart and thin out to about 9 inches. Good rich soil is necessary to produce a succulent growth. February and March are the best months for sowing, but where moisture is obtainable, Spinach may be grown six months in the year. In gathering the leaves for use, they are taken singly from the winter crops as they get of a large size; but in the case of the summer crop, the whole plant is generally cut off close to the ground.

Round (Summer) and Prickly (Winter).—Two well-known varieties. Round should be grown for summer, and Prickly for winter use.

Monstrous Viroflay.—A very fine large sort.

New Zealand (Tetragona Expansa).—This is a very large-leaved and improved variety, well worthy of a trial.

SQUASH 6d. and 3d.
per packet.

CULTIVATION.—They require the same treatment as Cucumber. Sow August to November successively. Prepare beds as for Pumpkins, including manure and top-dressing. The seeds, however, should be planted about 2 feet apart and the rows about 4 feet apart for the bush kinds. Running kinds at the same distances as Pumpkins. They should always be boiled whole, and be well drained before being placed on the table. The following varieties are really the best sorts for cultivation here.

Boston Marrow.—Form ovate pointed; flesh deep orange, fine grained, excellent flavour; running variety.

Crookneck. (Bush).—This sort is much sought after by small growers.

Delicata.—One of the earliest of the running varieties, and very prolific; fruit small and solid, dry and rich.

Early White Custard.—Wonderful bearer, delicate flavour, compact growth.

Early Golden Bush.—Delicate flavour, wonderful bearer, compact growth.

Fordhook (Bush).—Like the running variety, this is a delicious sort for either summer or winter use. Store in a warm, dry place for winter.

Improved Hubbard.—One of the most reliable running varieties.

White Pineapple (Runner).—A variety well worth a trial; flavour resembles pineapple.

SQUASH (White Custard).

SEED
IN
BULKSee
Page
14**TOMATO** or,
LOVE
APPLE

6d. and 3d. per packet. See page 14 for price by the oz. and lb.

CULTIVATION.—Sow under glass in July, when plants will be ready for putting out in September in suitable districts, and in open during September, October, and November, and plant out as soon as ready into good, strong, rich soil. Plenty of room and manure is all that is necessary to produce this favourite fruit-vegetable in abundance. We consider by far the best way to grow them is to plant in rows 4 feet apart each way, and grow them on poles or a trellis 5 feet high, regularly pinching back all the laterals to the second joint until the plants have reached the top of the stakes; then top the main stem, and continue to pinch back the laterals, and so remove all useless growth until the trellis or stakes are covered with fruit from top to bottom. During very dry weather, abundance of water is essential.

TOMATO (Stone).

Early Red Ruby.—Heavy bearer; very early; good form, colour, and solidity; the plant grows very openly.

Fordhook Fancy (or Potato-leaved).—A beautiful red-skinned variety, of remarkably sturdy growth and foliage, quite distinct from all other varieties. Very similar to potato foliage; hence its name.

Golden Trophy.—Golden colour; medium size; delicate flavour.

King Humbert.—Smooth, glossy, scarlet, plum-shaped fruit; very early and productive.

Landreth's Earliest.—A superb variety recently imported from U.S.A.; magnificent flavour.

Large Red Smooth.—An abundant bearer; large, smooth, solid, firm fruit; superior quality, fine colour; esteemed for market purposes.

Matchless.—Very large, and of the brightest cardinal-red colour; flesh nearly solid, entirely without core, and not liable to crack.

Mikado.—A red Tomato of immense size, single fruits sometimes weighing 1 lb. to 1½ lbs., solid; the fruit is of a purplish-red colour; produced in clusters.

New Peach.—The skin of this very pretty Tomato is of a deep orange-rose colour, with a bloom like the peach; rich flavour.

Ponderosa.—A splendid large red variety, of immense size, solid and fine-flavoured fruits, smooth; a great bearer.

Red Cherry.—A very useful variety; much sought after by a large number for pickling.

Red Pear-Shaped.—Very ornamental sort; useful for pickles.

Sparks' Earliana.—In earliness this is said to excel all others, being 12 or 14 days in advance of the other sorts. Large size, handsome shape, colour good; contains less seed than most varieties.

Stone.—An old favourite, and always in demand.

Trophy.—A grand old favourite; a fine hardy sort; fruit smooth, solid and very few seeds; one of the best.

Yellow Cherry.—Favourite ornamental variety; productive.

Yellow Pear-Shaped.—Very useful and ornamental; of easy culture.

Yellow Plum-Shaped.—Small-sized useful fruit; good grower.

TREE TOMATO (Edible)(CYPHOMANDRA
BETACEA)

6d. and 3d. per packet.

A sub-tropical shrub, the fruit of which somewhat resembles the Tomato; hence the reason it is called "Tree Tomato." The fruit makes a good jam.

TURNIP6d per oz.;
3d and 6d per packet.

CULTIVATION.—To grow Turnips mild and tender, it is desirable to grow them without check in growth. Although not an indispensable vegetable, the Turnip is highly esteemed in many quarters. A good light soil suits best, but with fairly rich soil of any kind and favourable weather, very fine crops are obtainable. Sow in February and March in drills 18 inches apart, and thin out to 6 or 8 inches. We offer only the best now in cultivation. Turnips may be also sown in November, and even earlier; but, if dry weather sets in, only poor crops can be expected.

Early Red American Stone.—Much like White Nepal, but with a purple top.

Early Six Weeks.—A favourite with some growers; beautiful shape; extra early.

Early Snowball.—This is a variety in constant demand; resembling the famous White Stone.

Garden Swede (Laing's).—A favourite Swede Turnip; suitable for autumn sowing.

Green-Top Stone.—A most esteemed variety; fine.

Orange Jelly.—A superior, globular, yellow-fleshed Turnip; flavour is rich and excellent.

Searls' White Model.—An improvement on the White Stone; fine, clear, white colour; perfect in shape.

White Nepal.—Early short-topped; delicate, tender, snow-white, flat-shaped.

White Stone.—Pure white flesh, oval shaped; excellent for market.

SWEDE TURNIPS FOR CATTLE.

Skirving's and Imperial Purple Top.—6d. per oz.; 6d. and 3d. per packet.

Alice Roosevelt.—Combines great earliness with perfect form; scarlet, globular, fleshy fruit of large size and excellent flavour.

Burpee's New Dwarf-Giant.—Is much the largest fruited of all the Dwarf Tomatoes. Although of the true dwarf type, the plants growing 2 feet high and well branched, are very strong and vigorous. The fruit is produced in clusters of four to six, and weigh from 12 to 18 ozs. each. Colour, rich purple crimson.

Burwood Prize.—Second early. A most vigorous and hardy variety; an enormous cropper; smooth, oval-shaped fruit; a good carrier; an excellent market sort.

Chalk's Early Jewel.—A very early sort, and of recent introduction; a really splendid variety; an excellent keeper.

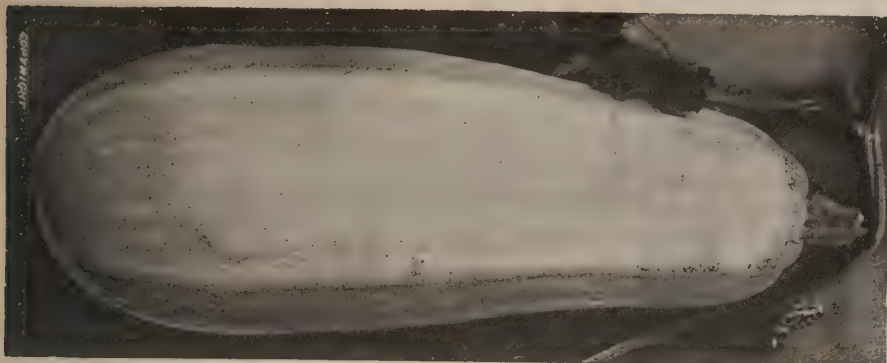

Crimson Cushion.—Large-fruited; flesh very solid and of superb flavour; a very early and prolific variety.

Duke of York.—Rich scarlet, smooth, round in shape, flesh very firm, fine flavour; ripens uniformly; fruit in clusters of sometimes 8 and 10.

Dwarf Champion.—A beautiful red Tomato; medium size, solid, prolific, excellent; a self-supporting variety, on strong, upright stems.

Dwarf Champion, Golden.—Dwarf compact habit, exact counterpart of the well-known Dwarf Champion, but the large, handsome fruits are of a beautiful lemon-yellow colour, very solid, and of unusually fine flavour, and more productive.

For Prices of VEGETABLE SEEDS IN BULK see Page 14

FARM SEEDS CLOVERS and GRASSES

We do not stock Farm Seeds, but can supply our customers' requirements in this section from a most reliable source, and will be pleased to furnish prices on application.

LAWN GRASS SEEDS

COUCH GRASS (*Cynodon Dactylon*).

Use 10 lbs. per acre.

Doob Grass of India.
Bermuda Grass of America.

In dry seasons this Grass is invaluable; esteemed as pasture Grass, possessing flesh-forming properties. It will grow during the hot months of summer, and start into fresh green growth after rain. Its long shoots soon cover the surface of the land, rooting at every joint.

For a lawn or bowling green this is without doubt the most suitable Grass for the coastal and warmer districts. Special price for large quantities on application.

LAWNS OF COUCH GRASS can be made either by turving or by chopping up the roots into short pieces of about 2 or 3 inches, and planting them in rows about 6 inches apart, covering them right over. A lawn or bowling green can be kept in good order only by constant care, and must be cut regularly. The grass must be top-dressed once a year, and thoroughly watered during hot or dry weather. Lawns and greens can be formed with Couch Grass from seed if sown at the proper season, at the rate of about 10 to 15 lbs. per acre. Sow August, September, or October. 2s. 6d. per lb.

SEARL'S LAWN GRASS MIXTURE.—For the cooler districts of the State. 1s. 9d. per lb., 30s. per bushel of 20 lbs.

Our extensive experience guides us in the selection and proportioning of Grass Seeds suitable for lawns. We can confidently recommend our seed as being free from weeds and coarse Grasses, and such as will give satisfaction; but, as this mixture is exclusively made up of English Grasses it is more particularly suitable to the cooler regions. The seed should be sown liberally, and the Grass should be regularly cut and watered during dry, hot weather. Sow at the rate of 40 to 50 lbs. per acre.

BUFFALO GRASS (*Stenotaphrum Americanum*). (Roots only).—It is a great grass to endure dry weather. It does not seed sufficiently to be of much value. Should be planted from 1 to 2 feet apart, according to the size of the roots. Cut up roots into pieces with two or three joints or plant in clumps, and allow space to cover when they begin to run. Once established it makes rapid progress. After planting, top-dress with manure, and water regularly until the roots begin to grow. Roots 2s. 6d. per 100. Delivered free to suburban addresses only; carriage extra to other parts.

Searl's Culinary Plants, Roots, Bulbs

ETC., ETC.

The Postage on Culinary Plants usually costs 9d. per 100 extra.

All Plants are carefully and freshly packed, and we cannot accept any responsibility for damage in transit.

Please add to remittance when ordering.

ARTICHOKES

Can be supplied from May to July.

Globe.—Green and purple plants.....9d. each; 6s. per doz.

ARTICHOKES

Tubers can be supplied during May, June and July.

Jerusalem.....3d. per lb
New White.—Boils whiter than the former.....3d. per lb.

ASPARAGUS PLANTS

Can be supplied during June, July and August.

Colossal.....1s. 6d. per doz.....7s. 6d. per 100
Searl's Giant White.....1s. 6d. per doz.....7s. 6d. per 100
Camden Park Strain.....1s. 6d. per doz.....7s. 6d. per 100
(For Seed, see Vegetable List.)

BROCCOLI PLANTS

Can be supplied from January to May.

Early and Late.....1s. 6d. per 100, postage extra

BRUSSELS SPROUTS PLANTS

Can be supplied from January to May.

Improved.....1s. 6d. per 100, postage extra

CABBAGE PLANTS

Can be supplied throughout the year.

East Ham.....1s. per 100,
Sugarloaf.....postage extra.
St. John's Day.....
Succession, etc., etc.

Special Price for Large Lots.

SAVOY CABBAGE

Drumhead and Green Curled.....1s. 6d. per 100, postage extra

CAULIFLOWER PLANTS

Can be supplied from January to May.

Early London.....1s. 6d. per 100
Large Asiatic.....postage extra.
Velch' Autumn Giant.....

CELERY PLANTS

From February to July is the best time to plant.

2s. per 100, postage extra. The best varieties only are offered.

CHOKOS

August the best month for planting. We can supply during that month and September. When cooking, either boil or bake.
3d. each. postage 3d. extra.

CORRECT WAY OF PLANTING THE CHOKO.

CHIVES

For Salads.....6d. per clump

ESCHALOTS

9d. per b., 1s. 6d. post free; special price for large lots.

The cloves must be divided and planted separately. Fresh manure should be avoided.

GARLIC

Price on application.

HERBS

No kitchen garden is complete without a few items from this section.

Strong plants of the following can be supplied all the year round.
Marjoram.....Per bdle., 3d. each, 2s. 6d. per doz., postage extra
Sage.....Per bdle., 3d. each, 2s. 6d. per doz., postage extra
Thyme.....Per bdle., 3d. each, 2s. 6d. per doz., postage extra
Mint.....Per bdle., 3d. and 6d., postage extra.
Other Varieties can also be supplied.

HORSE-RADISH

Can be supplied at any time during the year.

Roots or Crowns.....3s per doz.

LETTUCE PLANTS

Drumhead.....Iceberg.....Deacon.
Can be supplied any time during the year, but it is useless to put out unless the weather is favourable.....1s. per 100, postage extra.

PARSLEY ROOTS

Can be supplied any time during the year. 1s. per doz.
postage extra.

PEAS AND BEANS (For Cooking)

Peas, Boiling.....8d. per quart; 10s. per bushel
Beans, Haricot.....9d. per quart; 15s. per bushel
Can be supplied all the year round.

PEA NUTS

For seed purposes. Grows very well in the South and North Coast districts. 9d. per lb; post free 1s. 6d.

POTATOES (SWEET)

Can be supplied during October and November. 9d. per doz., 4s. per 100, postage extra. Tubers during autumn, 3d. per lb.

POTATO ONIONS

9d. per lb., post free 1s. 6d.; special price for large lots.
Plant during autumn. They come in at a time when Onions are scarce. The bulbs are produced like Potatoes.

TREE ONIONS

9d. per lb., post free 1s. 6d.; special price for large lots.

RHUBARB ROOTS

Can be supplied from May to November.

Market Varieties.....6d. each, 4s. per doz.
Giant.....6d. each, 4s. per doz.
Hogan's Shillelagh.—Is a splendid variety, of excellent quality and immense size. The stalks are very long and flat, and dark green in colour. The flavour is delightful. When liberally treated the growth is surprising. 1s. each, 10s. per doz.
Crimson Winter Rhubarb.—A splendid variety. This fine sort is at its best when all other varieties are dormant; it can be used nearly all the year round where the frosts are not severe. This is a boon to all as it is at its prime when stewing fruits are particularly scarce. It produces thin crimson stalks of excellent flavour. It never dies down or rests like other varieties, and may therefore be termed an "All the Year Round Rhubarb." Should be in every garden. 6d. each, 4s. doz.

SEAKALE

Plants can be supplied at any time during the winter months.
Two-year-old Plants.....6s. per doz.

TOMATO PLANTS

Can be supplied during August to December.
All varieties listed in our Seed List are procurable, except novelties.
6d. per doz., 3s. 6d. per 100, postage extra.

Searl's Sovereign Flower Seeds

GENERAL LIST

Our "RAINBOW" COLLECTION OF FLOWER SEEDS.—Seasonable Collections of 12 Packets, post free, 2s., comprising the Best Annuals. Give them a trial this season. You will be highly delighted with the results, and save money.

We specialise in Flower Seeds, and nothing better can be procured anywhere. The Blooms exhibited in our window throughout the year are the production of our Seeds and Plants. Sow our SOVEREIGN SEEDS and obtain similar results.

ANNUALS.—Flower, produce seeds, and die the same year as they are sown.

BIENNIALS.—Are sown one year, bear their flowers, seed, and die the next.

PERENNIALS.—Grow and flower for several years, usually blooming the second year from seeds.

Annuals are divided into two sections, viz.—Hardy and Half-Hardy—the first consisting of those that are able to live out of doors through the winter; the second of those that cannot endure frost, and must not be sown till spring.

The species included in the first section may be sown early in autumn, as soon as the rains have rendered the soil sufficiently moist to enable the seeds to germinate. Half-hardy species must not be sown in the open ground till spring is a little advanced.

ABRONIA

3d. per pkt.

Umbellata.—Rosy lilac.

Pretty trailing plants, suitable for rockeries waxy, verberna-like flowers, scented; hardy annual. Sow spring and autumn. 6 inches.

ABUTILON

6d. per pkt.

Hybrids.—Fine mixed.

Hardy flowering shrub, with large bell-shaped flowers of drooping habit; various colours. Sow seed September to November in pots or boxes prick out when about 4 inches high. Perennial.

ACHIMENES

1s. per pkt.

Best Mixed.—Choice strain.

These make fine pot or basket flowers for the greenhouse or bush-house during summer months, producing in abundance flowers ranging through many colours. Seed should be sown in light sandy loam during January and February, and plant out in the spring. Hardy perennial. Dry bulbs can be supplied during the winter months. (See Greenhouse Section.) Height, 6 inches.

ACROCLINIUM

3d. per pkt.

Roseum.—Single, rose colour, dark eye.

" **f. albo.**—Single, white, pretty.

" **f. pleno.**—Colour rose, double flowers, 50 per cent. true.

" **f. pleno. Album.**—Colour white; double flowers.

Mixed Varieties.—50 per cent. true.

Most beautiful everlasting, which flowers in great profusion. Can be dried for winter bouquets; hardy annual. Sow autumn and spring and plant out in the open garden. Height, 12 inches.

ADONIS

3d. per pkt.

Aestivalis (Flos Adonis).—Red, annual.

Vernalis.—Bright yellow, fine star-shaped perennial.

Free-flowering, feathery foliage. Sow in spring. Height, 12 inches.

AGATHÆA (Blue Marguerite)

6d. per pkt.

Coelestis.

A beautiful perennial; blue flowers with yellow centre; similar to Paris Daisy. Sow autumn and spring; very hardy; grows 3 feet.

AGERATUM

3d. per pkt.

Consplenium.—White, fine.

Mexicanum Coeruleum (Imperial Dwarf).—Blue.

Hardy, free-blooming plants, useful both for cutting and bedding effect. Sow autumn or spring. Annuals. Height, 12 inches.

ALONSOA

3d. per pkt.

Albiflora.—White, very constant.

Warszewiczii.—Brilliant scarlet.

Very showy, half hardy annuals. Sow autumn or spring. Height, 12 inches.

ALTHÆA (Hollyhock)

6d. per pkt.

Chater's Superb.—Splendid mixed, choice strain, double.

This noble plant produces flower spikes 6 feet high, studded with splendid Camellia-like blooms, 3 feet of their length. It is not difficult to grow from seed; likes a rich soil (tender perennials). Sow in early autumn. Height, 6 feet.

ALYSSUM

3d. per pkt.

Benthami Compactum (Little Gem).—Quite distinct, charming white.

Maritimum Benthami (Sweet Alyssum).—One of the hardiest and best annuals; produces small trusses of flowers in great profusion; should be cut down after flowering to promote new growth.

Saxatile.—Yellow perennial.

Saxatile Compactum.—Yellow perennial; the best variety of edging; compact habit.

Seed should be sown during autumn and spring in seed beds. Plant out into the borders when about 4 inches high. Grows 9 inches in height.

AMARANTHUS

3d. per pkt., 5 pkts. post free for 1s.

SEARL'S SOVEREIGN STRAIN.—A choice mixture of all varieties which we can thoroughly recommend. 6d. per pkt.

Atropurpureus.—Very fine scarlet. Height, 4 feet.

Firebrand.—Large leaves, deep blood red, with bright yellow edges. Height, 6 feet.

Henderi.—Leaves carmine, orange, yellow, and green. Height, 4 feet.

Melancholius Ruber.—Blood-red leaves. Height, 4 feet.

Salicifolius (Fountain Plant).—Long, narrow, graceful foliage, crimson plumes. Height, 4 feet.

Tricolor Giganteus.—Extra fine, and gorgeous and large. Height, 6 ft.

Tricolor Splendens.—Very beautiful, great improvement on Tricolor. Height, 6 feet.

Tricolor (Joseph's Coat).—Red, green and yellow leaves, very ornamental; beautiful tropical-coloured foliage. Height, 6 feet.

Magnificent foliage plants of tropical appearance, with gorgeous leaves of crimson and gold, and green and yellow; colours deepen in the autumn. They are beautiful border plants, requiring plenty of room, good soil, and a warm position. *Salicifolius* is perhaps the best—a most lovely variety—but *Tricolor* is also a gem. All are grown for their beautiful coloured leaves; they are hardy annuals. Sow during spring and summer. Height, 4 to 6 feet.

SEARL & SONS FLOWER SEEDS SYDNEY.

ANAGALLIS (Pimpernel) 3d. per pkt.

Grandiflora.—Finest mixed.

A family of dwarf-growing annuals, constant bloomers, compact habit; prefers a rich soil. Sow in autumn or spring. Height, 12 in.

ANCHUSA 3d. per pkt.

Angustifolia.—Very fine, azure blue.

Capensis.—Bright azure blue.

A free-flowering, hardy perennial, excellent for bouquets; resembles a strong-growing forget-me-not. Sow autumn or spring. Height, 2 feet.

ANEMONE

Chinensis (Coronaria).—Finest mixed, choice strain. 6d. per packet.

Japonica.—Very pretty, flower all the summer; rose, fine. Height, 2 feet. 6d. per packet.

Japonica Alba Honorine Jobert.—Pure white, very good. 6d. per packet.

St. Brigid (the Irish Poppy-flowered Anemone). Large single and semi-double flowers of a wonderful variety of colour. 6d. per packet.

Tuberous-rooted plants, easily produced from seed; they bloom early in the spring. Requires good, rich, well-drained soil, perennial. Sow in the early autumn. It is known that when sowing this seed it is easier treated if mixed with a small quantity of sawdust.

ANEMONE JAPONICA

ANGELONIA 3d. per pkt.

Grandiflora Lilac.—Pretty, lilac-coloured flowers.

Alba.—White, charming.

Handsome upright-growing plants, producing numerous spikes covered with flowers; blooms during the autumn; makes a nice pot-plant. Sow in the spring. Height, 18 inches.

ANTIGONON 6d. per pkt.

Leptopus.—A deep rose pink.

A handsome creeper; likes a sunny position; very hardy perennial. Seed can be sown during spring and summer. Height, 6 feet.

ANTIRRHINUM (Snapdragon) 3d. per pkt.

MAJUS, TALL VARIETIES

SEARL'S SOVEREIGN STRAIN, No. 1.—*Grandiflorum Tall*.—A most glorious combination of colours; giant flowers. It contains 12 distinct varieties in choice mixture. 6d. per pkt.

Majus Grandiflorum Album.—White, very good.

Luteum.—Yellow.

Choice Mixed.—A most gorgeous strain.

Majus Tall.—A grand mixed strain.

Antirrhinum (Snapdragon)—continued.

MAJUS NANUM, DWARF VARIETIES

SEARL'S SOVEREIGN STRAIN, No. 2.—Composed of dwarf-growing varieties, suitable for bedding and border work. A most beautiful variety of colours. 6d. per packet.

NANUM "Black Prince".—New, nearly black, small dark leaves. *Nanum Daphne*.

This variety will certainly take high rank. Flowers deep carmine rose, the lower lip suffused with white, and the throat pure white.

Nanum Queen of the North.—Pure white, small leaved.

Majus Nanum Tom Thumb.—Finest mixed varieties.

Beautiful hardy blooming plants, with fine spikes of flowers. The Tom Thumb varieties are very fine. Easily raised from seed. Sow during autumn and spring. 1 to 3 feet.

AQUILEGIA (or Columbine)

SEARL'S SOVEREIGN STRAIN.—A most charming variety, comprising all shades of colours, and of the much sought after long-spurred type. Very highly recommended. 1s. per packet.

Single Mixed.—Fine sorts, all colours. 3d.

Double Mixed.—Choice, many colours. 3d. per packet.

Chrysantha.—Very fine, golden yellow. 6d. per packet.

Coerulea Fl. Rosea.—**ROSE QUEEN.**

Long-spurred flowers, dark rose, with white centre and yellow anther—a most delicate and beautiful combination of colours. 6d. per packet.

Coerulea.—Very beautiful species, blue shades. 6d. per packet.

Californica Hybrida.—Large yellow flowers, dark orange spurs.

6d. per packet.

Nivea Grandiflora.—Semi-double, white. 6d. per packet.

Olympica.—Large, blue. 6d. per packet.

Skinneri.—Scarlet, tipped with green, very handsome. 6d. per packet.

Very showy, hardy, herbaceous perennials; make handsome things in the border; easily grown. They require a light soil. Sow autumn and spring. Height, 18 to 24 inches. We specially recommend planting the long-spurred type.

AQUILEGIA (Searl's Sovereign Strain)

ARABIS (Rock Cress) 3d. per pkt.

Alpina.—White, very dwarf.

Excellent for border or rock work, blooming freely; hardy perennial. Sow in spring. Height, 6 inches.

ARCTOTIS

3d. per pkt.

Grandis.—White, lilac on the outside, delicate pale violet centre.

A charming glaucous green-foliaged annual, of succulent growth; free blooming; splendid for cut blooms. Seed can be sown during spring. Height 24 inches.

The Seeds came to hand in due course and are germinating well. Thanks for promptness and liberal treatment.
5/10/13. Mr. H. H., Toowoomba, Queensland.

ARISTOLOCHIA

6d. per pkt.

Elegans (Dutchman's Pipe).—Immense flowers, dark purple and white. A splendid climber, free flowering; flowers peculiarly shaped, resembling a pipe, hence its name. Sow in the autumn. Height, 10 feet.

ARMERIA (Thrift)

6d. per pkt.

Cephalotes.—Rose, fine.

Fine variety of the old English flower; hardy perennial. Sow during autumn and spring. Height, 12 inches.

ASTER

A lovely family of annuals, easily grown from seed; must have plenty water during summer; like a light, rich soil. Sow autumn or spring. Height, 6 to 24 inches. Should be grown in every garden, their chrysanthemum-like flowers being most attractive, and very useful late in the autumn, when the borders are generally devoid of bloom.

ASTER SINENSIS

SEARL'S SOVEREIGN STRAIN.—A choice mixture, composed of the best-named varieties of Hohenzollern and Tasmanian saved seed. 1s. per packet.

Cactus (Rosy Carmine).—It is of pyramidal growth and branching habit. Each petal is characterised by being twisted, resembling a cactus; the colour being a brilliant rosy carmine. 6d. per packet.

Chinensis fl. pl. Unicum.—See Novelty pages.

Dwarf Chrysanthemum.—Finest mixed. 6d. per packet.

" **Crown.**—Finest mixed, superb; very showy class; white centre. 3d. per packet. Height, 18 inches.

" **German.**—Mixed. A favourite sort. 3d. per packet.

" **Mignon.**—White. Splendid for cut flowers. 3d. per pkt.

" **Mignon.**—Mixed. 3d. per packet.

" **Paeony Perfection** (Benary's Improved).—Choice mixed. 6d. per packet.

" **Pyramidal Bouquet.**—Mixed; 8 inches high. 3d. per pkt.

" **Victoria.**—Finest mixed; effective. 3d. per packet.

Giant Comet, Triumph of Paris.—Of pyramidal habit; produces large flowers, 4½ to 6 inches across, with long pure white outer petals, in the centre of which the quilled disc florets form a bright golden yellow wreath. 6d. per packet.

Gnome (Light Blue).—A very late flowering variety, and of very dwarf habit, only attaining the height of 14 inches, covered with light blue flowers. 6d. per packet.

Giant Comet.—Finest mixed, long petals. 3d. per packet.

" " **White.** 3d. per packet.

Hohenzollern, Azure Blue. 6d. per packet.

" **Carmine Rose.** 6d. per packet.

" **Crown Prince or Brilliant Carmine.** 6d.

" **Crimson.** 6d. per packet.

" **Dark Blue.** 6d. per packet.

" **Deep Lilac.** 6d. per packet.

" **Light Blue.** 6d. per packet.

" **White.** 6d. per packet.

" **Rose.** 6d. per packet.

" **Rosy Lilac.** 6d. per packet.

" **Choicest Mixture.** 6d. per packet.

This is considered the grandest Aster; tall branching, and bears flowers of mammoth size, measuring up to 8 inches across. They are extremely double, the petals resembling a large flowered Japanese Chrysanthemum.

New Branching Pale Yellow. (See Novelty Pages).

Mauve Queen.—The colour of this exquisite Aster can be described as a pearl grey, almost approaching the colour of Countess of Radnor Sweet Pea. It is of the Giant Comet class, and a good double flower. 6d. per packet.

Ostrich Plume, Pluto.—Improved type of ordinary ostrich plume, in much demand, only of scarlet self-colour, passing to blood-red when fully open. 6d. packet.

Queen of the Market. Mixed; of branching, loose habit. 6d per packet.

Quilled German. Finest mixed. 3d. per packet.

Sample's Late Branching.—Branching Aster, large showy flowers of pure white and all the delicate shades of crimson, pink and blue. Mixed. 6d. packet.

Sinensis, Giant Single-Flowered.—We offer separate colours of this beautiful Aster, and recommend planting largely, the single flowers being most showy and attractive; splendid for table and indoor decorations. **DARK VIOLET, SNOW WHITE, APPLE BLOSSOM, MAUVE, ROSE,** 6d. packet, or 5 packets for 2s.

Single Flowered Marguerite. Mixed; valuable for cutting; effective. 6d. packet.

Triumph.—Fine mixed; excellent pæony-flowered; variety of Tom Thumb habit. Height, 6 inches. 6d. per packet.

Victoria Needle (Hedgehog).—Finest mixed, splendid class. 3d. per packet.

Victoria Carmen.—An entirely distinct colour, it being a dark salmon besnowed with white. 6d. per packet.

Tasmanian Choice Mixed. 6d. per packet.

" **Flesh Pink.** A delicate shade. 6d. per packet.

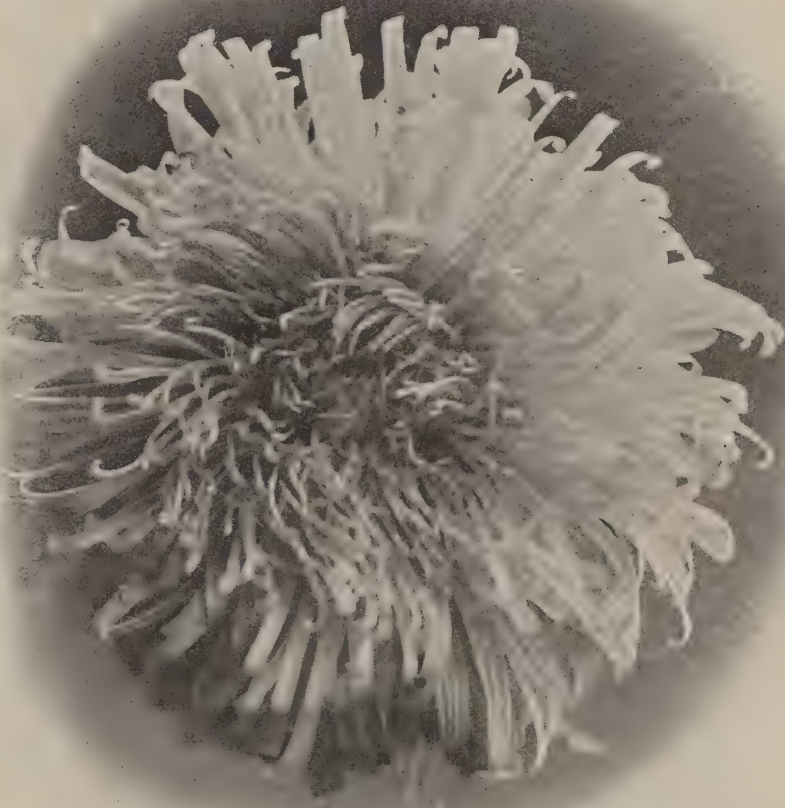

" **Heliotrope.** 6d. per packet.

" **Pink.** 6d. per packet.

" **Purple.** 6d. per packet.

" **Red.** 6d. per packet.

" **Snowflake** (White). 6d. per packet.

ASTER

Large
Branching
Tasmanian

SEARL & SONS FLOWER SEEDS SYDNEY.

AUBRETIA

6d. per pkt.

Leichtlini.—Luminous carmine rose.

Very pretty, hardy perennial; suitable for edgings and borders. Sow in autumn. Height, 15 inches.

AURICULA (see Primula)

BALSAM

3d. per pkt.

SEARL'S SOVEREIGN STRAIN.—The choicest varieties only are introduced into this mixture. 6d. per packet.

Carnation, Striped.—Various colours, mixed.

Camellia Flowered.—Choice mixed; self-coloured (improved).

Double Spotted. Mixed.

Primrose.—Improved Camellia-flowered. This new colour is quite distinct from any other variety offered. The plants grow to about 2 feet high and are covered with large primrose-coloured blossoms 2 inches across, forming a perfect compact bush. 6d. per packet.

Rose Flowered.—Mixed.

Solferino.—Striped and spotted.

Our Balsams come from the most superb strains, with beautiful form and colours. The flowers are delicately striped and spotted. Like a rich soil and plenty of moisture. Suitable also for pot cultivation. Sow in the spring and summer. Height, 18 inches.

BALLOON VINE (See Cardiospermum)

BARTONIA

3d. per pkt.

Aurea.—Yellow.

A useful showy annual. Sow seed in autumn and spring in light sandy soil. Grows height 2 feet.

BEGONIA (Tuberous-rooted) 1s. per pkt.

Double Varieties.—Mixed, choice strain; from a rich collection.

Single Choice.—Mixed, very showy.

Gracilis.—Bright rose, very fine.

Gracilis, Prima Donna.—A new variety. Of very sturdy and even habit. The plants grow about 10 inches high, and form a freely branching bush 10 to 12 inches across. Colour—Rose, shading to carmine towards the centre.

Semperflorens.—Fine mixed (fibrous rooted), free flowering, effective for bedding. 6d. per packet.

Fine decorative plant, very handsome and easily cultivated in pots. These charming plants require great care in raising from seed, which is very fine, and must be sown in light soil in a frame or greenhouse, and afterwards grown in pots. Foliage is very handsome, graceful, drooping flowers, most attractive; tender perennials. The Begonias will succeed out of doors in sheltered situations. Sow the seed in spring. Height 18 inches.

BEGONIA

(Ornamental Leaved)

Rex.—The ornamental leaved Begonia. A very choice strain of seed saved from an excellent collection, and will produce a very fine variety of colours. 1s. per packet.

BELLIS PERENNIS (Double Daisy)

Longfellow.—Uncommonly large, very double, dark rose blooms. 6d.

Snowball.—Large double white. 6d.

Fine Mixed.—Good, choice mixture. 3d.

Monstrum.—Pink, double, giant flowered. 6d.

White, double, giant flowered. 6d.

BLUE MARGUERITE (See Agathe)

BRACHYCOME

3d. per pkt.

Iberidifolia.—Blue.

Alba, White (Swan River Daisy).

Fine mixed.

Hardy annual, compact, stands dry weather, flowers daisy-like, borne in great profusion; likes light, rich soil. Sow autumn or spring. Height, 9 inches.

BROOM

White Gem.—An improvement on the old white Portugal variety. The plants are more compact in growth. Very free-flowering, and it is literally covered with pure white flowers. 6d. packet.

BROWALLIA

3d. per pkt.

Elate Alba. White.

Blue.

Most desirable plants, which cover themselves with a profusion of elegant blossoms. Should be sown early in spring in good rich loam. Height, 15 inches.

CALANDRINIA

3d. per pkt.

Umbellata.—Beautiful magenta.

Fine flowering plants; will grow in any soil; of a dwarf habit and suitable for edgings. Sow autumn or spring. Height, 12 inches.

CALCEOLARIA

1s. per pkt.

Hybrida Grandiflora.—Large flowered; self-coloured; splendid strain; very robust and floriferous.

Hybrida Grandiflora Tigrina.—(Tigred and Spotted), most beautiful and brilliantly marked flowers.

Hybrida Grandiflora (Tigred, spotted and self-coloured), in splendid mixture, glorious strain; reliable.

Rugosa (Shrubby).—True bedding varieties, innumerable small flowers.

A charming plant for frame, conservatory, or bush-house culture, requiring rich, light, fibrous soil, and plenty of pot room. They cannot be grown in the open border. Sow in the autumn. Height, 12 to 18 in.

CALENDULA (Marigold)

3d. per pkt.

Hybrida.—White.

Meteor.—Double, orange, striped.

Officinalis fl. pl.—Double, fine mixed; good sort.

Officinalis Ranunculoides, fl. pl. (Garden Marigold). Splendid.

Prince of Orange.—Double, rich orange, striped.

Pluvialis (Cape Marigold).—White, exterior of petals shaded maroon.

Pongel, fl. pl.—Double, effective, useful.

Well-known annuals; capital for bedding or border; exceedingly hardy. Sow in the autumn or spring. Height, 12 to 24 inches. (See also Tagetes).

CALLIOPSIS

3d. per pkt.

Bicolor Tinctoria.—Very pretty.

Marmorata. Yellow and red-brown.

Nigra Speciosa.—A beautiful variety, almost black.

Semiplena.—Semi-double, pretty.

Nana Golden Ray.—Twisted petals, very fine.

Nana Radiata, Tiger Star. 6d. per packet.

Coronata.—Lovely yellow, most useful for cutting.

Coronata Maxima.—Yellow, large flowers, fine.

Drummondii.—Yellow, crimson centre.

Nana Compacta (Red Star).—This novelty is very useful for bedding and borders. Flowers red and star-shaped; compact growth. 6d. packet.

Tall Sorts.—Mixed, a choice strain.

This is one of the best of our hardy annuals. A most beautiful plant in the garden, not particular as to soil, a long time in bloom. Plants 2 ft. apart. Sow autumn and spring. Height, 2 feet.

CAMPANULA (Canterbury Bells)

3d. per pkt.

calycanthema.—Splendid mixed, resembling cup and saucer.

Medium Single Blue.—Bright blue.

Carpatica, Blue.—Pretty.

Single White.—Gd. white.

Alba.—White, edging

Single Lilac.

and groups.

Single Rose.

Medium, Dbl. Blue.—Good cutting

Single Reddish Purple.

Double White.—A useful colour, table use.

Single Choice Mixed.

Double Choice Mixed.—

Pyramidalis.—Long spikes of blue.

A family of very showy border plants, the colours being very distinct and rich; the single varieties are exceedingly pretty, and the Calycanthema double and Pyramidalis varieties are magnificent. Easily raised from seed. Sow in frame or box, and plant out in the border later. Free bloomers; hardy perennials. Sow autumn or spring. 1 to 3 ft.

Campanula
Canterbury
(Bells)

CALIFORNIAN TREE POPPY (See Romneya)**CANDYTUFT** (See Iberis)**CANNA (Indian Shot)** 6d. per pkt.

Crozy's Hybrids.—Fine Mixed, very ornamental plants, both for flowers and foliage.

Extra Choice.—Mixed. A choice strain containing many colours.

Ornamental plants with handsome foliage; brilliant flowers; easily raised from seed in a frame. Magnificent decorative plants; grown in the garden in sheltered situations, or in pots in a bush-house; half-hardy perennials. Height, 3 to 4 feet. Sow autumn and spring.

CANARY CREEPER (See Tropæolum)**CANTERBURY BELLS** (See Campanula)**CARDIOSPERMUM (Balloon Vine)** 6d. per pkt.

Halicacabum.—A vine not very well known. We offer reliable seed of it; curiously shaped flowers; seed should be sown in autumn.

CARNATION (Marguerite Section) 6d. per pkt.

Giant or Malmaison.—Improved type of Margaret, extra large flowering. This strain has given wonderful satisfaction. 1s. per packet.

Giant Margaret.—Golden yellow. 1/-

Giant Malmaison, Violet.—To the four (up to the present time) known pure colours of the Giant Margaret Carnations, White, Yellow, Dark Red, and Scarlet, is now joined the Violet as a constant colour. This new shade will certainly be also well appreciated by the florists. The violet flowers are equally large, well doubled and nicely shaped, and are borne on long, elastic, rigid stalks. 1s. per packet.

Margaret Varieties.—A superb strain, mixed; robust habit. 6d. pkt.

„ **White (Snowflake).**—A beautiful variety. 6d. per pkt.

„ **Dark Red.**—Sweetly perfumed. 6d. per pkt.

The Margaret Variety, a charming strain, bearing a great profusion of bloom, which forms a most striking object to the borders; a large percentage comes very double and beautifully fringed; most suitable for bouquet purposes. Sow autumn and spring. 30 inches.

**CARNATION (Golden Yellow)****CARNATION (Perpetual Section)** 1s. per pkt

American Choice Mixed.—We have imported seed of this well-known Carnation. It comprises a rich strain and good mixture of colours. 1s. 6d. per packet.

Perpetual.—Choice mixed, 80 per cent. of doubles, superb free bloomers. **Riviera Market.**—The finest Marguerite Carnation, and of rapid growth; splendid double flowers. 1s. per packet.

Yellow Ground Fancies.—Unrivalled strain, producing the much-required shades. 1s. per packet.

Double Mixed.—Superb class; good sorts; suitable for border. 6d. per packet.

CASTOR OIL PLANT (See Ricinus Africanus)**CASTILEJA** 1s. per pkt.

ndivisa.—It is not too much to say that it is one of the best of recent introductions; produces flower-bracts of a brilliant crimson scarlet. Sow n spring.

CELOSIA (Cockscomb) 6d. per pkt.

Cristata Nana Mixed.—A splendid strain of fine quality of the true Cockscomb type.

Empress.—Bright crimson combs, dark foliage; very beautiful.

Glasgow Prize.—Very fine crimson combs; splendid.

Pyramidalis Plumosa.—Splendid mixed, handsome feathery spikes of various colours.

Thompsoni Magnifica.—A feathered Cockscomb of great beauty; a stately plant, well branched, producing abundance of side shoots, with feathered crests of mixed colours. Height, 4 feet.

Old English favourites. The four first-named produce large cockscomb-like heads of brilliant colours. **Pyramidalis** bears its flowers in feathery spikes, and should have the leaders pinched out, which will improve its habit. Height, 2 feet. Half hardy annuals. Sow in spring and summer.

CENTAUREA 3d. per pkt.

Cyanus (Cornflower).—Mixed; single varieties; a choice strain.

„ **Emperor William.**—Bright blue, fine quality.

„ **Alba.**—Pure white, very good.

„ **Flore Plena.**—Semi-double; finest mixed, about 50 per cent. true.

Imperialis.—Mixed (Giant-flowering Sweet Sultans), a very hardy class.

Moschata Alba (Sweet Sultan).—White; excellent.

„ **Atropurpurea.**—Purple, very fine.

„ **Coerulea.**—A beautiful blue.

„ **Suaveolens.**—Yellow; very pretty.

„ **Fine Mixed.**—A choice strain.

The Single Blue Cornflower, so common in the English fields, is one of the most useful annuals in cultivation. It blooms during winter in profusion, and is most useful for cutting for bouquets in winter and spring. The plants should stand 1 foot apart, and can be transplanted. This interesting family comprises the well-known Sweet Sultan. Height, 1½ to 2 feet. Sow during autumn and spring.

CENTAUREA CANDIDISSIMA 3d. per pkt.

(Argentea vera ragusina).

Valuable perennial foliage plant for ribbon bordering; very effective when massed with other coloured leaves; round, compact plants, with silvery foliage. Height, 12 inches. Sow in autumn.

CENTAURIDIUM 3d. per pkt.

Drummondii.—Yellow flowers.

A showy, hardy annual of a dwarf and trailing habit; suitable for edgings and rockeries. Sow in autumn.

CENTROSEMA (Butterfly Pea) 6d. per pkt.

Grandiflorum.—Flowers from 1½ to 2½ inches across, of a beautiful inverted pea shape; rosy violet to reddish purple, feathered with white.

An exceedingly beautiful perennial climber; easily grown from seed, which should be soaked for a few hours in tepid water before sowing. Sow in spring.

CERINTHE 3d. per pkt.

Mixed.—Splendid for bees. Every bee-keeper should purchase a small quantity of this. Sow during spring.

CHEIRANTHUS MARITIMUS (Virginian Stock)

Fine Mixed.—Height, 6 inches. Very dwarf; free blooming hardy annual; very effective for edgings. Sow seed in early spring.

3d. per pkt.

The Carnations were nice and fresh when I received them and all looking well.
Miss C. J. H., Bellingham.

The Carnations you sent reached me in first-rate condition, so I hope for good results.
1/5/13.
M. J. C., Goulburn.

CHRYSANTHEMUM

3d. per pkt.

- Carinatum Burridgeanum** (Lord Beaconsfield).—White with crimson band, yellow centre.
- Carinatum Dunnetti Aureum**.—Fl. pl., golden.
- " **Dunnetti Album**.—Fl. pl., white.
- " **Eclipse**.—Brown and yellow, very fine.
- " **FINEST MIXED**. Single. Good varieties.
- " **FINEST MIXED**. Double.—Various colours.
- " **Golden Feather**.—Semi-dwarf, yellow foliage.
- " **Northern Star**.—Giant white with black centre, with yellow ring. 6d. per packet.
- Frutescens**.—Marguerite, white.
- Inodorum, Bridal Robe**.—Of very compact and upright habit, and grows 10 inches in height. The sturdy plants throw out their finely-feathered foliage from the base, and deck themselves with a mantle of extra double pure white flowers. The flowers last well when cut. 6d. per packet.
- Segetum Grandiflorum**.—Yellow.

These varieties are hardy annuals; strong growers, showy, and are admirably suited for cutting; they keep a long time in water. Marguerites are most popular, and should always have a place, as they are one of our finest garden annuals. Should be sown during autumn or spring. 18 inches to 2 feet high.

(See also *Leucanthemums*).

CAPE FORGET-ME-NOT (See *Anchusa*).

CINERARIA

- Hybrida**.—Choicest mixed, dwarf strain. 1s. per packet.
- Hybrida Grandiflora**.—Splendid mixed. A beautiful large-flowering strain; prize varieties. 1s. 6d. per packet.
- Hybrida Plenissima**.—Double mixed. This strain will produce a large percentage of double flowers. 1s. per packet.
- Most elegant and charming bush-house or greenhouse plants. Should be raised in a frame, in pots and boxes, and transplanted rapidly into small-sized pots, and again into blooming pots, as soon as the smaller are well filled with roots. Use light soil mixed with old cow manure, a little sand and old vegetable mould made from decayed leaves; transfer to bush-house as soon as established in blooming pots. Can also be grown as border plants in a sheltered suitable position. Sow in the autumn. Height 18 to 24 inches.

CINERARIA (*Grandiflora*)

CINERARIA MARITIMA CANDIDISSIMA

Very ornamental; large leaves. 3d. per packet.

This variety, although classed as a *Cineraria*, is grown as a hardy foliage plant only, its beautiful silvery leaves being very effective in carpet bedding; it is of no value as a flowering plant. Sow in spring. Height, 12 inches.

CLARKIA

3d. per pkt.

- Elegans**, Single. Finest mixed.
- " Double. Finest mixed.
- A showy, hardy annual; easily grown; very effective in masses. Sow spring and autumn. Height, 18 inches.

CLINTONIA

3d. per pkt.

- Pulchella**.—Rich, blue colour, yellow eyes.
- Charming little plant for edging, pots or rockeries. Sow the seed in boxes and transplant. Hardy annual. Sow autumn or spring. Height, 6 inches.

COBÆA SCANDENS

6d. per pkt.

Purple.

Fl. Albo. White, very fine.

Most useful and ornamental; perennial; large bell-shaped flowers; rapid grower. Should be raised in pots and planted out in the autumn or spring. Height, 6 feet.

COCKSCOMB (See *Celosia*)

COLEUS

1s. per pkt.

- Large-leaved**.—Finest mixed. A very rich and choice strain.
- Finest Varieties**.—Splendid mixed. From a superb collection. 6d. per packet.
- Searl's Exhibition**.—A glorious strain of large-leaved varieties. 1s. per packet.

As a foliage plant the *Coleus*, for ordinary cultivation, cannot be surpassed; easily grown and admirably adapted to our climate. As a pot plant, grown either in conservatory or bush-house, it is charming. In the warmer parts of the State it can also be used for bedding, when it sometimes reaches the height of 3 feet. Sow in spring and summer; likes a good rich soil, plenty of moisture.

COLEUS

The Palms and Coleus, etc., arrived very safely, and I am very pleased the way you packed them for the long distance during summer time. I suppose that is why I am now proud of the plants.

W. G. B., Gilgandra.

COLLINSIA

3d. per pkt

Mixed.—Free blossoming, though not particularly attractive; should be sown in autumn.

COLLOMIA

3d. per pkt.

Coccinea.—Hardy annual, flowers *Bouvardia*-like; of nice compact habit. Sow in the spring. Height, 12 inches.

COLUMBINE (See *Aquilegia*)

CONVOLVULUS (Morning Glory)

3d. per pkt

- Minor** (dwarf).—Fine mixed; a variety of colours.
- Major** (tall).—Fine mixed. This is a climber, suitable for trellis.
- Mauritanicus**.—Blue, for suspending; perennial.
- (See also *Ipomoeas*.)

COREOPSIS

3d. per pkt.

- Grandiflora**.—Very large, golden yellow; perennial.
- Lanceolata**.—Yellow, fine, true.
- (See also *Calliopsis*.)

CORNFLOWER (See *Centaurea*).

3d. per pkt.

SEARL & SONS FLOWER SEEDS SYDNEY.

COSMEA (Cosmos)

3d. per pkt.

- Bipinnata.**—Pink, beautiful, fine.
" Alba.—White, lovely.
" Purpurea.—Purple, fine.
" Mammoth Finest Mixed.—A choice mixture.
Crimson Ray.—The plant grows about 4 feet and produces a mass of handsome crimson flowers. The petals are narrow and fluted, separated in star-like form and of the most brilliant colour. 3d. per packet.
Klondyke.—Rich, deep orange, vigorous grower and free flowering.
Lady Lennox.—Giant flowered variety of bright pink colour.
 Most showy and charming annuals, producing single flowers of great beauty; white, purple, etc., with fine foliage; most useful for table decoration. Sow autumn and spring. Height, 6 feet.
Double Crown.—**Fanny Golding.**—White, 6d per packet.
" Albert Golding.—Pink, 6d. per packet.
" Choice Mixed.—6d. per packet.
 A very striking novelty, the flowers having a perfectly double centre beautifully crested, giving it an appearance of a crown. Growth strong and vigorous similar to the ordinary Cosmos.

COSMOS (Double Crown)

COWSLIP (See Primula Officinalis).

COSMIDIUM

3d. per pkt.

- Burridgeanum.**—Velvety-brown; resembling a sort of Calliopsis.
 One of the most hardy showy annuals. It is well adapted for massing, splendid for cutting. Sow in autumn or spring. Height, 18 inches.

CUPHEA

3d. per pkt.

- Miniata.**—Flowers deep scarlet.
 A pretty annual, most useful for bedding; very dwarf.

CYCLAMEN

1s. per pkt.

- Giganteum.**—Finest mixed, fine form, and a very free flowering variety.
Giganteum, Album.—Large flowering, white, very fine.
Persicum.—Mixed; various colours; many beautiful shades.
Persicum Papillo (Butterfly Cyclamen).—Superb strain, choice mixed.
 A most interesting tribe of tuberous plants. Seed should be sown in the autumn. Easily produced from seed if grown in light soil; raised in a box. They will not flower till the second season, but will then repay all trouble. A good winter flowering pot plant.

CYPRESS VINE (See Ipomœa Quamoclit)

DAHLIA

- Cactus.**—Mixed. Saved from the finest named varieties of pointed petal sorts. 6d. per packet.
Double.—Mixed, select strain. 6d. per packet.
Single, Giant Perfection.—Mixed, various, very showy. 6d. per pkt.
Paeony Flowered.—Choice mixed. This new variety has become a great favourite; a choice mixture of colours. 6d. per packet.
Pompone.—Choice mixed. This is one of the prettiest types of Dahlia. Very effective for decoration. 6d. per packet. Seed autumn and spring. 3 to 5 feet.
 This universal favourite is easily raised from seed. The Cactus, Paeony and Pompone Flowered types are exceedingly beautiful, and are now established as great favourites. Sow seed autumn and spring. 3 to 5 ft. Of course, they readily transplant.

DAHLIA (Cactus)

DAISY

- Double (See Bellis Perennis).**
Marguerite (See Chrysanthemum Frutescens).
Swan River (See Brachycome)
Shasta (See Leucanthemum).

DATURA (Trumpet Flower)

6d. per pkt.

- Ceratocaula.**—Large trumpet-shaped, pink and white flowers, beautifully sweet-scented; a very useful, hardy annual. Sow in spring. 36 in.

DELPHINIUM (Perennial Larkspur)

6d. per pkt.

- SEARL'S SOVEREIGN STRAIN.**—A superb variety. Saved from Colonial grown named sorts. 1s. per packet.
Chinense.—Fine, mixed; splendid strain.
Elatum.—Dark blue, very fine.
Hybridum, fl. pl.—Double varieties, finest mixed; from a very rich collection.
Formosum Coelestinum.—Sky-blue, handsome.
 Charming family of perennials, with handsome foliage and fine spikes of flowers. Very effective in the border. They make handsome plants. Sow during autumn and spring, and transplant into good rich deeply worked soil. Height, 2 to 4 feet when in flower.

DEVIL IN A BUSH (See Nigella)

DIADEM PINK (See Dianthus).

DIANTHUS

SEARL'S SOVEREIGN STRAIN.—A splendid mixture of 12 named varieties, specially selected. 6d. per packet.

Barbatus (Sweet William).—Various, single, fine mixed. 3d. per pkt.
fl. pl. Mixed, double, choice sorts.

Chinensis (Indian Pink). Finest single, mixed.

„ Finest double mixed, good strain, choice.

Heddewegii Atrosanguineus.—Blood-red.

„ **Atropurpureus, fl. pl.**—Very dark and good.

„ **Albo Marginatus, fl. pl.**—(Mourning Pink), very charming.

„ **Crimson Belle.**—Brilliant, blood-red in colour.

„ **Eastern Queen.**—Rose, showy, single-flowered.

„ **Finest Single.**—Mixed, beautiful.

„ **Hybridus, fl. pl.**—Double, choicest mixed, very large flowering

„ **Diadematus, fl. pl.** (Diadem Pink).—Splendid mixed.

„ **Diadematus, fl. pl.** Count Kerchove.—Dark blood-red.

„ **Laciniatus.**—Single, fringed, mixed; extra good.

„ **Laciniatus, Albus (Snowflake).**—Single, pure white; good.

„ **Laciniatus, fl. pl.**—Charming variety, finest double mixed.

„ **Laciniatus (Snowdrift).**—A striking beautiful, double, white, free-flowering Dianthus, of vigorous branching habit; the flowers are large, deeply fringed, and of the purest white. 6d. per packet.

Mirabilis fl. pl. Albus.—Beautiful double white.

Plumarius (Single Pink).—Fine mixed; a lovely strain.

Superbissimus.—Choice mixed. A superb new strain of Dianthus. The flowers are very large, and of various shades of colour, with crested surface to petals, and white throated, giving the flowers a charming appearance; exceptionally good for cut bloom. 6d. per packet.

The varieties of this magnificent tribe adapt themselves particularly well to our climate, and will bloom nearly the entire season. Sow during autumn and spring. Height 12 inches. Suit all good garden soil.

DIANTHUS (Snowdrift)

DIGITALIS

3d. per pkt.

Monstrosa, Finest Mixed.—A well-known English favourite; does well here, is easy of cultivation, and very striking when in flower. Sow in the autumn or spring. Height, 4 feet.

DIMORPHOTHECA AURANTIACA

Exceedingly nice and rich-flowering annual of easy culture. Dwarf, compact growing bushes, apt for beds and borders. The 3-inch large Marguerite-like flowers have a wonderful shining, dark gold-orange colour, similar to Gazania Splendens; the centre is dark-brown, black-edged. 3d. per packet.

DOLICHOS

3d. per pkt.

Giganteus.—A splendid variety.

Lab Lab.—Purple. (Hyacinth Bean).

„ „ **Albus.**—White.

„ „ **Mixed.**

Lignosus.—Lilac.

„ **Albus.**—Small leaf, white.

A quick-growing climber, bearing small, pea-shaped blossoms in clusters; capital for covering an old wall or fence. Seed should be sown in autumn and spring; very hardy perennial.

ERIGERON COULTERI

6d. per pkt.

A free-flowering plant from Colorado; graceful, well-shaped flowers on stems 18 inches long; pure white, with black centre, somewhat resembling a Giant Marguerite; a splendid acquisition. Sow in the spring.

ESCHSCHOLTZIA

3d. per pkt.

Californica.—Bright yellow.

„ **Alba.**—Pure white.

Carmine King.—A valuable variety with large flowers. Colour carmine-rose. Very useful.

Crocea.—Deep yellow.

Mandarin.—Very fine, deep orange.

Maritima, Golden West.—Lovely yellow.

Mixed Single Sorts.—A choice strain.

Mixed Double Sorts.—Lovely, gorgeous.

This is one of the most beautiful of the Californian annuals; has handsome foliage; expands its flowers to the blazing sun, and is of a dazzling brightness. It wants plenty of space, and will thrive in any ordinary soil. Sow autumn or spring. Height, 9 inches.

EUPHORBIA HETEROPHYLLA

6d. per pkt.

(Mexican Fire Plant, or Annual Poinsettia.)

Bushy plant, grows 4 to 5 feet high, with glossy green leaves, which form at the end of the branches into large whorls and bracts, among which small green flowers appear, and immediately colour up to a brilliant orange scarlet.

EVENING PRIMROSE (See Oenothera)

EVERLASTING FLOWERS (See Helichrysum)

EVERLASTING PEA (See Lathyrus Latifolius)

FLAX (See Linum)

FORGET ME NOT (See Myosotis)

FOXGLOVE (See Digitalis)

FREEZIA

3d. per pkt.

Hybrida Ragionieri.—An entirely new species of Freesias, they being composed of various colours, such as:—Pink, rose, purple, blue, orange, sulphur yellow, brown. Can be easily grown from seed. The flowers last well in water. Gold Medal at Nice Show, 1910. 1s. per packet.

Leichtlini.—Yellow.

Refracta Alba.—White.

Although generally grown from bulbs, they are very hardy, and easily raised from seed. Will flower first season. Sow in early autumn.

FUCHSIA

1s. per pkt.

Hybrida.—Double mixed, collected from best varieties.

Hybrida.—Single mixed, collected from best varieties.

The seed we offer has been saved from the choicest varieties; hardy perennials. Sow during spring in pots in a frame or bush-house, and transplant the seedlings into small pots; only a percentage of double flowers can be expected. Seed will not germinate in the open ground. Height, 36 inches.

Received the plants yesterday in splendid condition, owing to the good packing. The Cupressus are beautiful plants. Thank you for sending so many more of the annuals than I ordered.

17/9/13.

Mrs. I. F., Leura.

GAILLARDIA

3d. per pkt.

Grandiflora.—Splendid, mixed, perennial, lovely.*Grandiflora Sanguinea*.—The yellow colour of the type has nearly entirely disappeared from the blood-red flowers; only the extreme points of the petals still retain this colour, which appears as a golden seam on the large and well-shaped flower.*Picta Drummondii*.—Single, red and yellow.*Picta Fistulosa*.—Quilled, pretty double.*Picta Josephus*.—Scarlet, yellow bands.*Lorenziana*.—Double, finest mixed.

A most hardy plant, blooms throughout the summer in the driest soil very attractive, and, for decorative purposes stands unrivalled. Sow autumn or spring. Height 1½ to 2 feet.

GAILLARDIA (*Grandiflora*)

GENTIANA

6d. per pkt.

Acaulis.—Dark blue; lovely border plant, specially adapted for cold climate, its rich, dark blue, tubular flowers being very effective. Sow autumn or spring. Height, 6 inches.GERANIUM (See *Pelargonium*)

GESNERIA

1s. per pkt.

Hybrida.—Finest mixed hybrids.

A beautiful pot plant; should be better known. Sow in pots, autumn or spring, under glass, and transplant. Height, 18 inches.

GEUM

Coccineum.—Single, scarlet flowers. 3d. per packet.*Coccineum fl. pl.*, Mrs. J. Bradshaw.—One of the finest additions to the herbaceous border ever introduced. The flowers are of good substance and borne on long stems, and measure 2½ to 3 inches across, and are nearly double; the colour is a brilliant orange scarlet. 3d. per packet.

GLADIOLUS

6d. per pkt.

Gandavensis.—Splendid mixed.*Lemoinei*.—Finest mixed. We are able to offer seeds of this magnificent class of spotted Gladiolus, saved from the very best strains.

This magnificent genus is easily raised from seed, the variety of colour and tints obtainable is endless; light, sandy, loamy soil is the most suitable for raising seedlings. Sow in spring. Height, 36 inches.

GLOBE AMARANTH (See *Gomphrena*)

GLOXINIA

SEARL'S SOVEREIGN STRAIN.—Same as exhibited and so much admired in our window. Splendid mixture. 1s. 6d. per packet.

Crassifolia Erecta.—Superb, mixed; very good. 1s. per packet.*Tigred and Spotted*.—Splendid, mixed; choice. 1s. per packet.

One of the handsomest tender tuberous plants in cultivation; requires frame culture to germinate the seeds, and pot cultivation, and the shelter of a frame, bush-house, or conservatory. Sow in the autumn.

GLOXINIA (Searl's Sovereign Strain)

GODETIA

SEARL'S SOVEREIGN STRAIN.—Mixture of finest semi-dwarf varieties, a lovely strain, saved from named varieties. 6d. per packet.

Bijou.—Dwarf and bushy habit; white flowers, dark rose spot.*Choice Mixed*.—Comprising many of the above in mixture. 3d. per pkt.*Crimson Glow*.—Good crimson. 3d. per packet.*Double Mauve*.—New. 3d. per packet.*Duchess of Albany*.—Satiny white flowers; beautiful. 3d. per pkt.*Duchess of Fife*.—White, spotted carmine. 3d. per packet.*Fairy Queen*.—Large white, passing to carmine. 3d. per packet.*Gloriosa Lord Roberts*.—Glowing red. 3d. per packet.*Lady Albemarle*.—Bright crimson, large flowers. 3d. per packet.*Rosamund*.—Vivid rose. 3d. per packet.*The Bride*.—White and crimson. 3d. per packet.*Witneyi Fulgida*.—Very attractive, crimson scarlet. 3d. per pkt.

A pretty tribe of really beautiful hardy annuals; will grow in the poorest soil, and produce a grand display of gorgeous flowers, even in a dry season. They are of nice compact habit, and cut flowers keep well in water. Should be sown during autumn and spring. Height 12 in.

GOMPHRENA GLOBOSA (Globe Amaranth) 3d. pkt.

Alba.—White. *Rubra*.—Purple. *Mixed*.—A splendid strain.

Useful autumn flowering annuals. Sow spring and summer. 18 in.

GOLDEN FEATHER (See *Pyrethrum*)

GRASSES (Ornamental) (See page 38).

GYPSOPHILA

3d. per pkt.

Elegans Grandiflora Alba.—Pure white.*Elegans Grandiflora Carminea*.—Carmine flowers.*Paniculata*.—Good white, very fine flowers.*Gypsophila Paniculata*, fl. pl.—Double flowers, very pretty. 6d. per pkt.

handsome; lovely spray of tiny flowers, making it very suitable for mixing with flowers in vases. Sow autumn or spring. Height 18 inches.

HELIANTHUS (Sunflower)

3d. per pkt.

Annus (Primrose-coloured).—Lovely.*Arboreus Giganteus*, Sulphur Ball.—Splendid double.*Argyrophyllus*.—Pretty and ornamental; silver-leaved.*Californicus*, fl. pl.—Large, double yellow.*Giant Russian*.—The largest variety.*Globosus Fistulosus*, fl. pl.—Double, golden, fine; 6 feet.*Nanus*, fl. pleno Lilliput.—Double; 3 feet; fine golden yellow.*Cucumerifolius*.—Branching. Nice foliage; 4 to 5 feet.*Cucumerifolius Diadem*.—Large flowers, citron colour.*Cucumerifolius Orion*.—With crisped petals; good.*Cucumerifolius Hybridus* fl. pl.—double and semi-double varieties.*Cucumerifolius "Stella"*.—Flowers 3 inches across; pure golden yellow, black disc.These hardy annuals are of a majestic appearance, some varieties attaining from 6 to 8 feet, with flowers of enormous size. The small-flowered varieties, *Stella* and *Cucumerifolius*, are most decorative and useful for cutting. One of the best summer yellow annuals. Sow spring and summer.

HELICHRYSUM (Everlastings) 3d. per pkt.

Monstrosum Splendid.—Mixed.

Everlasting flowers of great beauty; hardy, and free blooming, and very useful for cutting. They produce their brilliant flowers at a season most wanted. Sow autumn and spring.

HEARTSEASE (See Pansy).

HELIOPSIS 3d. per pkt.

Pitcheeriana.—Deep, golden colour; very free flowering.

A hardy perennial, of vigorous growth, with flowers about 2 or 3 inches in diameter. 2 to 3 feet. Sow spring, summer, or autumn.

HELIOTROPIUM (Heliotrope) 6d. per pkt.

New Large Flowering.—Finest mixed; very choice strain.

Sow in a frame or bush-house, in a box or pot, with a sheet of glass placed over it until the plants appear; then give plenty of air, and pot off as soon as the plants are fit to handle. Delicious perfume. Sow in autumn and spring. Height, 2 to 3 feet.

HESPERIS 3d. per pkt.

Matronalis (Rocket, Sweet).—Mixed.

Very pleasing early spring-flowering plant; profuse bloomer, very delicious, fragrant flowers; commonly called Dame's Violet. Sow autumn or spring. Height, 18 inches.

HEUCHERA 6d. per pkt.

Sanguinea.—Hybrida mixed. Flowers borne on graceful spikes, and of bright crimson. Splendid for cutting. Beautiful hardy perennial, of dwarf, compact, branching habit. Sow in autumn or spring.

HIBISCUS 3d. per pkt.

Africanus.—Annual, beautiful cream-coloured flowers, very pretty.

The perennial varieties cannot be procured from seed, but plants can be obtained. (See List of Plants in this Catalogue.) The annual variety here offered should be sown in spring. Height, 18 inches.

HOLLYHOCK (See Althæa)

HONESTY (Satin Flower) (See Lunaria)

HUNNEMANNIA 3d. per pkt.

Fumariaefolia.—Fine feathery foliage, and charming buttercup yellow single flowers, cup-shaped, with red on the stems.

A charming perennial of 18 inches; easily raised, and hardy in the open. Flowers keep well when cut. Cut the day before required; the flowers expand better. Sow in autumn and spring in permanent position. Does not transplant well.

HUNNEMANNIA

HUMULUS (Hop) 3d. per pkt.

Japonicus.—Lovely foliage; good climber.

Japonicus Fol. Variegatus.—Leaves variegated with white, true from seed; annual climber, beautiful foliage; quick grower; hardy; likes a rich soil.

HYACINTH BEAN (See Dolichos)

HYACINTHUS CANDICANS 6d. per pkt.

White.—Yucca-like; splendid. Sow autumn.

IBERIS (Candytuft) 3d. per pkt.

SEARL'S SOVEREIGN STRAIN.—Choice mixture of named vars. 6d. pkt.

Coronaria (White Rocket).—White; great favourite.

Coronaria Empress.—Large trusses; pure white.

Coronaria, Little Prince.—Very dwarf, large spikes.

Umbellata Albida.—Pure white.

Umbellata Carminea (Carter's Carmine).—True, good variety.

Umbellata Lilacina.—Lilac or purple.

Umbellata Purpurea.—Purple.

Umbellata, Queen of Italy.—Very dwarf, rosy white.

Umbellata Hybrida Nana Rosea.—Pretty pink dwarf.

Annual Sorts.—Finest mixed; a lovely strain, comprising many colours.

The whole of a family well worth a place, but the white and crimson are perhaps the best. Sow in spring. Height, 12 inches.

IBERIS (Candytuft)

ICE PLANT (See Mesembryanthemum Crystallinum)

IMPATIENS (Japanese Balsam) 1s. per pkt.

Holstii Hybrida.—Choice mixed. Brilliant vermilion flowers; makes an excellent pot plant. It is of a very robust growth, a free bloomer of the easiest culture. Likes a nice, loose compost. Sow autumn or spring. Height, 18 inches.

INDIAN PINK (See Dianthus)

INULA GLANDULOSA 1s. per pkt.

Grandiflora.—A lovely perennial; flowers deep orange; sow carefully, autumn or spring. Height, 12 inches.

IPOMŒA 3d. per pkt.

Bona Nox.—Large blue flowers.

Grandiflora Alba.—Splendid, large white flowers. 3d per packet.

Grandiflora Rosea.—Pretty pink. 3d. per packet.

Imperialis (Japanese Giant).—Rich colours. 3d. per packet.

Leari.—Dark blue. 6d. per packet.

Quamoclit (Cypress Vine).—Mixed. 3d. per packet.

A splendid family of climbers; rapid growers; fine foliage; handsome Convolvulus-like flowers; all very beautiful hardy annuals, excepting the last named. Sow in autumn and spring.

IPOMOPSIS 3d. per pkt.

Fine Mixed.—Brilliant colours.

Succeeds best in light, rich soil; long spikes of flowers, delicately spotted; graceful foliage. If planted in a sheltered position is very attractive; tender biennials. Sow during autumn and spring. 3 feet.

IVY LEAVED NASTURTIUMS (See Tropæolum)

LARKSPUR PERENNIAL (See Delphinium)

LARKSPUR (Annual Delphinium) 3d. per pkt.

Dwarf Rocket.—Double; various colours, mixed.

Dwarf Stock Flowered.—Various colours, mixed.

Cardiopetalum.—Lovely blue.

Giant Hyacinth Flowered.—Spikes of beautiful double flowers; mixed.

Ranunculi Flowered.—Resembling the well-known Ranunculus.

Rose-coloured.—Very pretty pink.

Most valuable hardy annual; producing flowers spikes 6 or 8 inches in length in beautiful colours; graceful foliage. Sow autumn and spring. Height, 12 to 18 inches.

Sweet Peas

LATHYRUS ODORATUS

SPENCER VARIETIES

CHOICE MIXTURE.—Which includes all the leading varieties; specially recommended. 6d. and 1s. per packet.

- America Spencer.**—Ivory white, heavily flaked crimson. 6d. per pkt.
Apple Blossom Spencer.—Pinkish rose. 3d. per packet.
Arthur Green.—True Spencer; colour light purple maroon. 6d.
Asta Ohn Spencer.—Immense blooms of mauve and lavender; nothing yet introduced to compare with it; large wavy and fluffy standards and wings, bearing uniformly four blossoms. 6d. per packet.
Aurora Spencer.—A bright orange pink, striped, flaked and splashed on white; the stems are long and bear uniformly four blossoms, each one of a wavy character. 6d. per packet.
Beatrice Spencer.—White ground, tinted with soft pink and buff on the standard, while each wing has a blotch of brighter pink near the base; wavy standards and large wings. 6d. per packet.
Bertha Massey.—A glorious shade of pale mauve. 6d. per packet.
Black Knight Spencer.—Dark maroon of the true Spencer; giant blossoms. 6d. per packet.
Captain of the Blues Spencer.—This variety is even larger than Countess Spencer, and of fully as perfect form; standard purple, wings bright blue. 6d. per packet.
Captivation Spencer.—This is a really giant-flowered Sweet Pea of true Spencer type, both standard and wings being well frilled and waved. The beautiful self-coloured flowers are of a rich, rosy wine-red throughout. 6d. per packet.
Carene.—This new variety will be found a good addition to the orange class of Sweet Peas, and quite distinct. The colour is a rich orange. The standard is well waved and the flower does not burn in the sun. 6d. per packet.
Countess Spencer.—Giant pink. 3d. per packet.
Dainty Spencer.—Pale primrose, changing to white with pink edge. 6d. per packet.
Duplex Crimson King.—This is a bright and glorious red in the double form, and is sunproof; similar in colour to King Edward Spencer. 6d. per packet.
Duplex Spencer.—Produces uniformly large, waved flowers of true Spencer type. In colour both the standard and wings are of a rich cream-pink, and practically all the plants give flowers with double or triple standards. Of strong, vigorous growth, the vines bear the grand flowers most profusely upon long stiff stems. 6d. per packet.
Empress Eugenie.—(See Novelty Pages.)
Ethel Roosevelt.—Is undoubtedly the daintiest and most beautiful of all striped or flaked Sweet Peas. The flowers are of largest size and the "colour combination" is unique, though difficult to describe—the ground colour being a lovely shade of cream, beautifully flaked and mottled with light rose or pinkish rose. 6d. per packet.
Evelyn Hemus.—The finest Picotee Sweet Pea in existence. Colour, a deep cream shading to yellow, with a distinctly-defined edge of terra-cotta pink; of great size and of exquisite refinement. 6d. per packet.
Flora Norton Spencer.—A bright blue, with a little tint of purple. Very large, and has the wavy standards and wings of the true Spencers. 3d. per packet.
Florence Nightingale.—Is by far the largest and best Lavender yet introduced. It is practically a self-colour and bunches beautifully—attracting universal admiration. The plant is extremely robust in growth, flowering most profusely. The stout stems attain 12 to 16 inches in length and a large proportion bear four well-placed flowers. 6d. per packet.
Florence Morse Spencer.—Pale pink, deepening towards edges. 3d. per packet.
Gaiety Spencer.—An improvement on the old type of "Gaiety." The flowers are much larger and of a very pleasing shade of white, striped blue; one of the best. 6d. per packet.
George Herbert Spencer.—The standards are rosy magenta, with deep carmine wings; great substance; giant size. 6d. per pkt.
Giant Orange.—3d. per packet.
Helen Lewis Spencer.—An improvement on the old Grandiflora type. 3d. per packet.
Irish Belle, or Dream.—A superbly beautiful variety that shows quite a new shade in Sweet Peas. The colouring is uniform in both standard and wings—a lovely rich lilac, flushed with pink, which gives a very distinct and soft tone throughout the entire flower. Of finest Spencer type, waved in both standard and wings, the flowers are of large size and well placed on long stems. 6d. per packet.
Illuminator.—(See Novelty Pages.)
King Edward Spencer.—The standard produced is 2½ in. broad by 1½ in. high; rich carmine, scarlet and glossy. 6d. per packet.
King White.—(See Novelty Pages.)
Lady Evelyn Eyre.—Pale Pink, slightly flushed salmon. 6d. per packet.
Lovely Spencer.—Colour bright pink at the throat, or rather the base of both standard and wings, and shades to soft blush and almost white at the edges. 6d. per packet.

THE Sweet Pea is for the most part of climbing habit. Free bloomer and delightfully fragrant. It has been the rule to sow in spring, but autumn-sown Sweet Peas do exceedingly well, and we advise our customers to try a sowing at that season, as it enables the plants to become strong during the winter, and to flower earlier. They are hardy annuals, and the tall varieties grow to a height of 4 to 6 feet. The winter-flowering class is a great acquisition, if sown during January, February, March will produce an abundance of bloom during the winter and early spring.

- Lucy Hemus.**—Beautiful type of the true Spencer type; colour, bright rose, with cream colouring. 6d. per packet.
Marie Corelli.—A brilliant rose carmine or red, of good size and fine form. The wings are a pure rich rose-crimson and the standard is the same with a tint of cherry red. 6d. per packet.
Martha Washington.—The colour being a pearl white, lightly flushed pink, which deepens as it nears the edge of the petals. 6d. per pkt.
Miriam Beaver.—The flowers are of a uniform shade, appearing almost to be a self colour: a rich, bright soft pinkish salmon, suffused with buff on a primrose ground. 6d. per packet.
Mrs. Joseph Chamberlain Spencer.—Large blooms, heavily flaked with bright rose on white ground. 6d. per packet.
Mrs. Routzahn Spencer.—A buff or apricot ground, suffused with very soft rose, deepening towards edges of standards and wings. 3d. per packet.
Mrs. Sankey Spencer.—A "black-seeded" white Spencer, and easy to germinate; a faint tint of pink in the bud; the fully-expanded flower is clear, pure white. 6d. per packet.
Orange Perfection.—A new Variety of good clear orange colour; sun-proof. 6d. per packet.
Othello Spencer.—Deep rich maroon; a grand bold flower, and a long-stemmed, four-blossomed variety. 6d. per packet.
Paradise.—Improved Countess Spencer. 6d. per packet.
Paradise Bronze.—A perfect bronze maroon self, and giant-waved. The colour is true, there not being any trace of blue at all. One we can highly recommend. 1s. per packet.

SWEET PEA
(Empress Eugenie)

Please send me 1s. pkt. of your best mixed Spencer Sweet Pea Seed. Those I had from you and sowed this time last year flowered beautifully for three months of the summer.

Yours faithfully,
Miss E. M. B., Blackheath

SEARL & SONS FLOWER SEEDS SYDNEY.

SWEET PEA—(Con'tinued).

- Paradise Cream.**—A delicate primrose colour, very handsome. 6d. per packet.
- Paradise Crimson.**—This is a magnificent crimson giant-waved variety that does not burn. It is without doubt the best crimson Sweet Pea in commerce. 6d. per packet.
- Paradise Ivory.**—Deep buff or ivory; very fine. 6d. per packet.
- Paradise Red Flaked.**—Of the true Spencer type, blood-red and white flaked; very pretty; one of the best. 6d. per packet.
- Pearl Gray Spencer.**—It is certainly a most lovely and distinct shade that might be described as a pearl or dove-grey, suffused with light rose showing a trifle more of the delicate rose shading in the standard. 6d. per packet.
- Picotee.**—A most beautiful new Spencer pure white, edged carmine. 6d. per packet.
- Primrose Spencer.**—Pronounced primrose throughout both standard and wings; rich in form and size; waved and crinkled. 3d. per pkt.
- Purple Prince.**—A glorious shade of purple long sought after by growers of the Sweet Pea. 6d. per packet.
- Queen Victoria Spencer.**—The background is quite a deep primrose; giant waved. Spencer type. 6d. per packet.
- Rainbow Spencer.**—In this striking novelty we have a great advance in the striped section. The flowers are of giant proportions, generally produced three and four on a stem. The ground colour is ivory-white, flaked and lightly streaked with rose, and the blooms are magnificently waved. 6d. per packet.
- Ramona Spencer.**—Clear white, with soft, delicate line, and flakes of bluish pink; it is of the very finest form and immense size; both standards and wings are wavy and fluffy, very seldom less than four blossoms on a stem. 6d. per packet.
- Scarlet Empress.**—Large rich scarlet; one of the finest recent introductions. 1s. per packet.
- Scarlet Emperor.**—Gorgeous shade of true scarlet. 1s. per packet.
- Senator Spencer.**—Both standards and wings are marked with the same colours, with perhaps a little more of the wine shading in the wings. The colour is a varying combination of deep claret and chocolate, striped and flaked on a ground of light heliotrope. 6d. per packet.
- Snowden.**—The flowers of this new white variety are large of the very finest form, beautifully waved, and of the purest white. As a florist flower it should be in great demand, as we believe it to be of greater substance than any other existing white Spencer variety. 1s. per packet.
- Stirling Stent.**—Delightful shade of salmon. 6d. per packet.
- St. George.**—Bright fiery scarlet standards of the Spencer type. 3d. per packet.
- Tennant Spencer.**—A beautiful purple mauve self-colour, clear and distinct; large; of the true Spencer form, and comes daintily poised on long stout stems. 6d. per packet.
- Thomas Stevenson.**—A choice variety of an exquisite orange scarlet colour. 6d. per packet.
- Vermilion Brilliant.**—The bold, erect standard is well waved and fluted in true Spencer style; of large size, beautifully rounded, and finishing well below the keel. The wings are of the same intense pure scarlet as the standard, making a uniform self-colour throughout, and absolutely sun-proof. 6d. per packet.
- Wedgewood.**—(See Novelty Pages.)
- White Spencer.**—Famous for the large wavy petals so much sought after. 3d. per packet.
- W. T. Hutchins.**—The buds show a decided buff colour, upon opening the colouring inclines to a pure cream, margined with pink blush. The fully-expanded flower has the appearance of light apricot (distinctly lemon at the throat) overlaid with a beautiful blush pink; flowers and wings both wavy. 6d. per packet.

Searl's Sovereign Mixture of Choicest Mixed Spencer Types

6d. and 1s. packet ALL POST FREE

LEPTOSYNE

3d. per pkt.

- Maritima Grandiflora.**—The great yellow winter-flowering Marguerite.
- Stillman.**—Golden yellow.

A hardy annual, lemon yellow flowers on long stalks; very effective as a border plant, coming into flower in early spring. Valuable for cut flowers; much resembling the favourite Marguerite.

LEUCANTHEMUM

- Maximum (Moon Penny Daisy).**—Large white. 3d. per packet.
- Maximum King Edward.**—Large white. 6d. per packet.
- Maximum Hybridum (Shasta Daisy).** A lovely thing, of easy culture; excellent for cutting. 3d. per packet.
- Shasta Daisy Alaska.**—Extra large. 3d. per pkt.

LINARIA

3d. per pkt.

- Bipartita.**—Fine mixed.
- Cymbalaria.**—Perennial, known as Kenilworth Ivy; useful for hanging baskets, vases, etc.
- Maroccan.**—Fine mixed; good colours; improved strain.
- One of the most beautiful species of hardy annuals grown or spring flowering, with beautiful spikes of Lobelia-like flowers. Sow during autumn or spring.

SEARL & SONS FLOWER SEEDS SYDNEY.

LINUM (Flax)

3d. per pkt.

lavum (Golden Flax).—Perennial variety; rich golden yellow flowers. Height, 18 inches.
randiflorum Rubrum.—Scarlet.
randiflorum Roseum.—Pink.
randiflorum Blue.
erennia! Sorts.—Fine mixed; a good sort.
 Flowers are borne on slender stems; foliage good; soak seed in warm water before sowing. Sow in spring. Height, 12 inches.

LOVE IN A MIST

(See *Nigella*)

LOVE LIES BLEEDING

(See *Amaranthus*)

LUNARIA

3d. per pkt.

ennis (Honesty or Satin Flower).
 Free flowering, hardy biennial; its silvery seed pods are very pretty and dried for winter decorations. Sow during autumn and spring. Height, 18 inches.

LOBELIA

3d. per pkt.

ardinalis Robusta Grandiflora.—Red. Splendid for bedding. 6d. pkt.
rinus Crystal Palace Compacta. Splendid habit; dark compact foliage, and dark blue flowers.
ybridia Sapphire.—(See Novelty pages).
indleyana Rosea.—Pretty pink.
oyal Purple.—Very dark rich purple.
rinus (Gracilis).—Blue.
rinus Pumila Alba (White Gem).—Pure white.
 Exceedingly beautiful, free-blooming, hardy annuals; good for edgings, ribbon, or carpet bedding, producing a dense carpet of bloom. *Cardinalis*, though a true *Lobelia*, is quite distinct from the annual varieties, and is perennial. Sow during autumn and spring. Height, 6 to 9 inches.

LUPINUS

3d. per pkt.

lanus.—Dwarf; blue.
lanus Albus.—Pure white.
lanus Roseus.—Pink.
ixed Annual Sorts.—A good variety; showy.
olyphyllus.—Perennial sorts. Finest mixed; producing superb spikes of flowers.
olyphyllus "Excelsior." This fine strain of perennial Lupins will be a grand addition. It embraces a splendid assortment of colours in good mixtures. 6d. per packet.
 All are very hardy; great favourite. Sow in the autumn or spring.

MANDEVILLA SUAVEOLENS

6d. per pkt.

A beautiful white-flowered climber; one of the best. The foliage is graceful, and the flowers are light and wax like; very useful for bouquets. Sow in the spring. Height, 20 feet.

MARGUERITE, WHITE

(See *Chrysanthemums*).

MARGUERITE, BLUE

(See *Agathæa*).

MARIGOLD, French and African

(See *Tagetes*)

MARVEL OF PERU

(See *Mirabilis*)

MARTYNIA

3d. per pkt.

Formosa (Fragrans).—Crimson purple flowers.

Beautiful, sweet-scented, hardy annual; very handsome spikes; makes a nice showy pot plant. Sow in spring. Height, 2 feet.

MATTHIOLA (Evening Scented Stock)

3d. per pkt.

Bicornis.—Beautiful pink and lilac flowers, fragrant, which open in the evening.

Hardy annual. Sow in spring. Height, 18 inches.

MAURANDYA

3d. per pkt.

Fine Mixed.—Beautiful flowers.

A beautiful close-growing climber; would do well on a wire fence or on a verandah trellis; remarkably quick growing and free blooming; its foliage is small, but dense, and of a lively green colour. They are half-hardy perennials, liking a rich friable soil. Sow autumn and spring

MEDEOLA (Smilax)

6d. per pkt.

Asparagoides.—Flowers white, orange-scented.

Handsome climbing bush-house plant. The beauty of its foliage renders it valuable for vases. Used either to climb or droop. Soak seed in tepid water some hours before sowing. Sow in spring in pots. Plants of *Medeola*, 1s. each.

MESEMBRYANTHEMUM

3d. per pkt.

Crystallinum (Ice Plant).—Peculiar glistening foliage, small white flowers; very pretty. Height, 6 inches.

Tricolour.—Crimson, white and purple; suits sandy soil well. Grows to a height of 6 inches.

Beautiful dwarf-growing plants of compact habit; half-hardy perennials. The *Tricolour* is a good rockery plant; *Crystallinum* is prized for its foliage, which looks as if the plant were covered with ice. *Cordifolium* is very suitable for bedding; bright, rosy flowers. Sow spring and summer.

MIGNONETTE

(See *Reseda*)

MIMOSA PUDICA (Sensitive Plant)

6d. per pkt.

Very pretty foliage. A tender annual for bush-house culture; curious from the fact that when touched its leaves close up and droop for a time, hence its name. Sow in spring. Height, 18 in.

MIMULUS (Monkey Flower)

6d. per pkt.

Moschatus (Musk).—Scented, yellow flower.

Triginus Grandiflorus (Queen's Prize).—Very large flowered; beautiful. A charming plant for pot culture; likes rich, light soil, and a liberal supply of water. It can be grown also in the open ground where the conditions are favourable. Tender perennials. Sow in spring.

MINA LOBATA

6d. per pkt.

A charming climber; requires a sheltered position. Its beautiful creamy-white abundant flowers are bright orange when half-grown, and when in bud of a vivid red. Grows to a height of 20 feet. Sow in spring. Plant supplied in paper pots during summer. well forward, 6d. each; 5s. per doz.

MIRABILIS

3d. per pkt.

Jalapa.—Splendid, mixed.

At very hardy plant, well worth a place in any garden; will grow in almost any position; not particular to soil. Sow seed spring or autumn. Height, 3 feet.

MOON PENNY DAISY

(See *Leucanthemum*).

MORNING GLORY

(See *Convolvulus*).

MOURNING BRIDE

(See *Scabiosa*).

MUSK

(See *Mimulus*)

MYOSOTIS (Forget-Me-Not)

3d. per pkt.

Azorica.—Fine mixed. A good strain. 3d. per packet.

Alpestris (Forget-Me-Not.) Blue. 3d. per packet.

Elfriede.—Deep blue compact. 6d. per packet.

Hybrida Love Star.—Blue, very dwarf. 6d. per packet.

Palustris.—A true marsh Forget-Me-Not. 3d. per packet

Ruth Fischer.—It is of very neat and compact habit, and the lovely flowers shoot up all over the dark glossy green foliage. The blooms measure fully $\frac{1}{2}$ inch across, and colour of the true "Forget-Me-Not." 6d. per packet.

This charming plant should be sown in the autumn, when it will bloom profusely during spring, covering itself with flowers of the most lovely hue; very useful for bouquets. Height, 1 foot.

NASTURTIUM

(See *Tropaeolum*)

NEMESIA

6d. per pkt.

Strumosa Suttoni.—The best of this class; flowers, various, large.

Sutton's Giant Flowered.—Original packets, 1s.

SEARL'S SOVEREIGN STRAIN.—A magnificent strain of choice, large flowered types. 6d.

Pretty, compact-growing annual, of great merit. Sow in autumn. Height, 12 inches.

NEMESIA

NEMOPHILA

3d. per pkt.

Insignis.—Azure blue.

Insignis Alba.—White.

Mixed.—All sorts; choice strain; beautiful.

A charming family of Californian annuals, of dwarf growth, and profuse bloomers, and charming colours. Sow autumn or spring. Height, 6 inches.

NERTERA

6d. per pkt.

Depressa.—A charming miniature bush-house pot plant, of a moss-like habit; very compact, forming a perfect carpet over the surface of the pot. The flowers are small, but are followed by beautiful coral-berried. Perennial. Should be sown in spring.

NICOTIANA (Tobacco Plant)

6d. per pkt.

Nicotiana Affinis.—Beautiful white flowers, with a long delicate tube. It is delightfully scented in the evening. Sow during spring. Height, 36 inches.

Nicotiana Sanderae Hybrida.—A mixture of the recently-introduced varieties; very fine; flowers are borne on bushy, freely branching plants, 2 feet high. 6d. per packet.

NIGELLA (Love in a Mist)

3d. per pkt.

Damascena, fl. pl.—Blue.

Damascena, fl. pl., Miss Jekyll.—Finest double blue.

Damascena Alba, fl. pl.—White.

Mixed.—A good strain.

Pretty hardy annual, with graceful foliage. The flowers are nearly hidden in light feathery leaves; an attractive flower. Sow in autumn or spring.

GENOTHERA (Evening Primrose)

3d. per pkt.

Mixed.—Hardy annual; very pretty border plant; sow in autumn. 3d. packet.

OXALIS.

3d. per pkt.

Floribunda Rosea.—Pink.

Tropaeoides.—Foliage dark brown; flowers yellow.

A charming, dwarf, free-flowering perennial. Sow in the spring. Height, 9 inches.

PÆONY (Herbaceous)

6d. per pkt.

Double Mixed.—Finest varieties and colours. Height, 18 inches.

A magnificent family of plants, but difficult to raise from seed. Must be sown in pots or boxes, and germinated under glass; requires a cool climate; hardy perennial. Sow in spring.

PANSY OR HEARTSEASE

SEARL'S SOVEREIGN STRAIN.—A mixture embracing all the best strains, from the famous growers on the continent. 1s. 6d. pkt.

BEDDING VARIETIES.

Azure Blue.—3d. per packet.

Candidissima.—Snow-white. 3d. per packet.

Emperor William.—Cornflower blue. 3d. per packet.

Faust, King of the Blacks.—Darkest, true; fine. 3d. per packet.

Giant Peacock.—Superb variety; blue and violet. 3d. per packet.

Giant Yellow.—Black centre; one of the finest. 3d. per packet.

Gold Margined.—Splendid. 3d. per packet.

Golden Yellow.—Excellent, and quite distinct. 3d. per packet.

Lord Beaconsfield.—Deep purple violet, shaded white; very handsome not too large; very attractive. 6d. per packet.

Mahogany-flowered.—Very dark. 3d. per packet.

President Carnot.—White; each petal adorned with deep violet blotch. 3d. per packet.

Red Riding Hood.—Good red variety.

Tufted.—Finest mixture for these long and free blooming varieties. Most adapted for bedding purposes. 3d. per packet.

Victoria.—Wine-red; very fine. 3d. per packet.

White.—Black centre; very showy. 3d. per packet.

EXHIBITION VARIETIES.

Bugnot's Superb.—Blotched; very beautiful; extra-large flowers, with broad blotches. 6d. per packet.

BUGNOT'S EXHIBITION.—A good strain. 1s. per packet.

Cassier's.—Large flowered; mixed; blotched; good. 6d. per packet.

English.—Finest mixed (the true English-faced Pansy). Very showy plants; compact. 3d. per packet.

LARGE FRENCH STAINED.—We consider this one of the finest strains in cultivation; the colours are most beautiful, and include the grand new shade mahogany crimson; yellow and blue; fine form. 6d. pkt.

MASTERPIECE EXHIBITION.—Very distinct, rich-coloured varieties. Extra-fine mixture. 6d. per packet.

Matchless.—This is indeed, a most beautiful combination of art colours, ranging from a golden yellow, beautifully blotched and edged to a rich claret and reddish-bronze, with a rich velvety sheen. 1s. pkt.

Non Plus Ultra.—A very attractive strain. 6d. per packet.

Odier's Blotched and Large Stained.—Choicest strain; showy variety; finely-marked flowers. 6d. per packet.

Psyche.—Violet, bordered white, waved petals; splendid. 6d. pkt.

Raphael.—This is a selection of the splendid type of Bugnots, of giant size and colour, ranging from the ground tint of light blue, and the petals are adorned with a large dark violet blotch radiating into veins towards the edge. The upper petals, although not always blotched, are traversed by fan-like rays or dark blue lines. A very choice variety. 1s. per packet.

Striped and Mottled.—Splendid strain. 6d. per packet.

Trimardu (or Giant Pansy).—A distinct and beautiful race of Pansies. 6d. per packet.

Triumph of the Giants.—This variety is of good mixture and very giant flowered. 1s. per packet.

The seeds should be sown in boxes in autumn, and planted out early in spring so as to secure good flowers; a sandy soil is most suitable. Liquid manure during blooming season will greatly assist the size of the flowers. Height 6 inches.

PANSY
(Searl's
Sovereign Strain)

PAPAVER (Poppy)

SEARL'S SOVEREIGN STRAIN. The Shirley Poppy.—We have imported this most beautiful flower and old favourite in eighteen (18) separate colours, and have mixed them together so as our clients can be sure of getting a good range of colours. This will no doubt be a great advantage to all lovers of the Shirley Poppy. 6d. per packet.

Admiral.—White, with broad scarlet band.

Alpinum, Fine Mixed.—Charming; lovely colours.

Black Prince.—Very good; nearly black.

Charles Darwin.—Rich dark purple.

Dainty Lady.—This dainty Poppy is of Australian origin; the colour being a charming shade of rosy mauve; a very welcome colour amongst the Poppies; very dark green foliage.

Danebrog.—Brilliant scarlet blotched with silvery white.

Glaucum (Tulip Poppy).—Vivid scarlet, with dark spots.

"Hansa" Poppy.—(See novelty pages).

King Edward.—Scarlet shaded crimson.

Laevigatum.—Brilliant dark scarlet, with black spots; effective.

Mephisto.—Scarlet, black spots.

Mephisto.—Rose.

Miss Sherwood.—White, shading to rose.

Murselli, fl. pl.—American Flag. New fringed sorts.

Nudicaule, Single Mixed (The Iceland Poppy).—Red, Yellow, and white; perennial; unsurpassed for cutting; lasts wonderfully in water.

Iceland Double Mixed Poppies.—A superb variety of double flowers.

Orientele Royal Scarlet.—The darkest red; perennial.

Orientele Excelsior.—A glorious strain of mixed colours.

Rheas, fl. pl.—Ranunculus-flowered. Very fine, rich mixture.

Rheas (Shirley Poppy).—Finest mixed, single-flowered; lovely.

Somniferum, fl. pl.—Double Carnation; finest mixed.

The Bride.—Single; white fringed.

Umbrosum.—Glowing vermilion.

Virginea.—This new large flowering single Poppy of the annual class produces beautiful large white flowers with fringed soft pink edge. 6d. per packet.

The Poppies are undoubtedly the most desirable of all annuals. They cannot be surpassed for decorative purposes, especially the Shirley varieties. Sow during autumn or spring. 18 to 36 inches.

POPPY (Hansa)

PASSIFLORA

Coerulea, Grandiflora.—Very large blue flowers; very handsome.

Edulis.—The common passion fruit so much sought after. 3d. and 6d. pkt

This splendid creeper has fine foliage of a dark-green colour, and bears fruit of a delicious flavour. It is a first class verandah or trellis plant, but the flowers are not very attractive; hardy perennial, and an evergreen. Grows 10 to 15 feet high. Soak the seed before sowing. Sow in spring.

PEA, EVERLASTING (See Lathyrus).

PEA, BUTTERFLY (See Centrosema).

PEA, SWEET (See Lathyrus).

PELARGONIUM

1s. per pkt.

Geranium Large-flowered Mixed.

Zonale.—Single choice mixed.

The above-named are the largest flowering perennial class known as "Pelargoniums," as distinct from "Geraniums," and are best suited for pot culture although nearly all will stand in the garden in a sheltered position. Must be raised in pots in a frame. Sow in autumn.

PENTSTEMON

Grandiflora Albus — (See Novelty Pages). 6d. pkt.

Grandiflora Excelsior. — (See Novelty Pages). 6d. pkt.

Hartwegi Grandiflorus Mixed.

—Various colours, choice strain. 3d. per packet.

A fine hardy genus, free-flowering, and bearing fine spikes of pendant trumpet-shaped flowers; perennial; sow during autumn or spring.

PERILLA
NANKINENSIS

6d. per pkt.

Lovely dwarf plant for bordering; a rich, mulberry black foliage. Sow during spring. Height, 12 inches.

PETUNIA

Choice Mixed, Single.—Large flowered. 6d. per packet.

Double Fringed.—Choice mixed 1s. per packet.

Giants of California.—Glorious assorted strain of superb colours, and of immense size. 1s. per packet.

Hybrida Grandiflora (Fimbriata Nana).—(See Novelty pages)

King Alphonso.—Double large flowered. Striped and flaked. 1s. pkt.

Pepita.—Large flowered, single fringed. A beautiful combination of colours. The rich deep carmine, nearly scarlet, with a white border of varying width, very finely fringed and of good quality. 1s. pkt.

Single Fringed Varieties.—Superb mixed. 1s. per pkt.

Searl's Gloxina Flowered.—A splendid strain producing immense flowers, 4 to 6 inches across, well frilled, and a most charming range of colours from almost pure white to dark purple. 1s. per packet.

Seed sown in spring will bloom during summer and autumn. This magnificent plant is admirably adapted to our climate, and blooms in profusion. Seed can also be sown in the autumn. Seeds from the double varieties will produce about 50 per cent. double flowers. Height, 30 inches.

PHACELIA

3d. per pkt.

Campanularia.—Flowers are of a beautiful rich blue.

A highly interesting Californian annual. The plant is much branched, and of spreading habit; hardy annual. Sow during spring. Height, 12 inches.

PHASEOLUS CARACALLA (Snail Creeper) 6d. pkt.

A slender climber, with full foliage, producing clusters of lovely lilac flowers, shell-shaped; very curious and beautiful.

PHYSIANTHUS ALBENS (Cruel Plant) 3d. pkt.

A very curious climber, bearing strongly-shed pods lined with a silky substance.

PHLOX DECUSSATA (Perennial Phlox) 6d. per pkt.

Mixed.—Quite distinct from the annual or Drummondii section.

It does not flower the first season, but the flower spikes it throws the second year are often 2 feet in height. Perennial. Sow autumn and spring.

* WE CAN SELECT FOR YOU. *
* When the choice of varieties is left to us we select *
* the most desirable colours and varieties, all *
* correctly labelled. *

PHLOX DRUMMONDII

3d. per pkt.

SEARL'S SOVEREIGN STRAIN.—This exquisite strain is comprised of a superb mixture of 12 named varieties of the *Grandiflora* type and distinct colours. It is far superior to any other variety. 6d. pkt.

Cuspidata.—Finest mixed. Distinct class, with long-winged and hinged petals; attractive.

Drummondii Heynholdii.—Mixed. Variegated; for growing in pots.

Drummondii Nana Compacta.—Mixed. A beautiful dwarf variety, with a profusion of exquisite flowers; bush-like habit; does not run.

Grandiflora.—Finest Mixed. Lovely, large-flowered varieties, with beautiful markings; the finest strain in cultivation.

Grandiflora Scarlet.—Most brilliant colour.

Grandiflora Stellata.—Star-shaped; very beautiful; finest mixed.

Grandiflora White.—Fine.

New Cecily.—A dwarf species; very fine. 3d. per packet.

Among our summer-blooming annuals, the *Phlox Drummondii* must take a first place. Sown in the autumn it will flower in winter, and continue for several months. A later sowing in early spring will give plants which will bloom throughout the summer, and if planted in beds will produce a most dazzling effect, as the flowers often entirely hide the foliage. The *Phlox* possesses a great variety of colour; it is dwarf in habit and hardy. Some varieties are of delicate colours, while others are brilliant and dazzling.

PHYSOSTEGIA (See Novelty pages)

PICOTEE

1s. per pkt.

Finest Mixed.—From the finest flowers.

This charming plant is included in the family of the *Carnation*, and is a general favourite. A large percentage of the flowers will be double; hardy perennial; seed should be sown during autumn and spring in pots, boxes, or canvas frames, and transplanted. Height, 12 inches.

PINKS (See Dianthus)

POLYANTHUS (See Primula)

PORTULACCA

Grandiflora, Double.—Mixed; large variety. 6d. per packet.

Grandiflora, Single.—Mixed; splendid colours. 3d. per packet.

A plant particularly well adapted to our climate, and flowers magnificently in the warmest situation. Will thrive in hottest and driest places. Very hardy annual. Sow spring and summer. Height, 8 in.

POTENTILLA

3d. per pkt.

Hybrida Single.—Finest mixed. The colours are shades of red and brown, some striped.

Handsome herbaceous perennials. They keep in flower a long time; both double and single varieties. Sow during autumn and spring. Height, 12 inches.

PRIMULA

6d. per pkt.

Auricula (Alpine).—Mixed. Good, gorgeous.

Obconica Grandiflora Fimbriata.—Mixed. Very floriferous, and excellent for pots and bouquets.

Sinensis Fimbriata.—Finest mixed, large type. 1s. per packet.

Sinensis Fimbriata Alba.—White.

Sinensis Fimbriata Coccinea.—Scarlet.

Sinensis Fimbriata Coerulea.—Blue.

Veris Polyanthus, Gold Laced.—Finest mixed; good quality.

Vulgaris.—The true Yellow Primrose.

Officinalis (Yellow Cowslips).—Very pretty.

P. *Sinensis* and *Obconica* are suitable only for pot culture; extremely handsome and of easy culture. The other varieties are half hardy, and can be grown outdoors. Should be raised in the autumn in shallow boxes, placed in a sheltered position; and as soon as the plants are fit to move, plant them off into small pots, and place them in a frame or bush-house, and as soon as they are well-rooted shift them into their flowering pots.

PRINCE'S FEATHER (See Amaranthus)

PYRETHRUM

3d. per pkt.

Aureum (Golden Feather).—The flowers are insignificant, but when kept down by pinching the flower stems, the young leaves produced are of a bright golden colour, which is most effective as a carpet border or ribbon bordering. Height, 9 inches.

Roseum Hybridum.—Single, fine mixed. 18 inches.

These useful edging *Pyrethrums* make very effectual borders. P. *Roseum* is the flowering type, and have blossoms resembling *Marguerites* on long stems. Perennial. Should be sown in autumn and spring.

RANUNCULUS

6d. per pkt.

Asiaticus Superbissimus.—Finest varieties, mixed; producing flowers in a great variety of colour the first season from sowing seed. Should be sown in January or February.

REHMANNIA ANGULATA

6d. per pkt.

An herbaceous biennial from Central China, with large and handsome foliage, 3 feet high. The long-tubed gloxinia-like flowers appear at the axis of the leaves, they are 3 inches across, bright rosy purple, with yellow throat, spotted and striped with purple. Especially good as a pot plant and for sheltered positions.

RESEDA ODORATA (Mignonette)

3d. per pkt.

SEARL'S SOVEREIGN STRAIN.—A choice mixture of the leading *Machets*. 6d. per packet.

Odorata.—Old Sweet-scented. Deliciously perfumed.

Bismarck.—An improved *Machet*.

Crimson Giant.—A beautiful red flowering sort.

Fine Mixed.—A mixed packet of sweet-smelling varieties.

Gabriele.—Robust, reddest spikes; fine.

Golden Queen.—Flowers yellow; compact habit.

Grandiflora.—Imp. Large flowered; lovely variety.

Machet.—Excellent for pots; reddish spikes; the best variety grown.

Machet Golden.—Large spikes of yellow flowers.

Machet New Giant Crimson.—A new variety of *Machet*, spoken very highly of in England.

Miles' Spiral.—A favourite sort.

Paris Market.—Excellent variety for pots; red-flowered; robust.

Ruby.—Flowers coppery scarlet; very fine.

White Pearl.—An exceedingly good variety.

Victoria.—Dark red; fine.

This grand old annual is known to all, and its delicious perfume cannot be surpassed. It is easily grown, and some varieties make excellent pot plants. Sow in open garden during autumn and early spring.

RESEDA

RHODANTHE

3d. per pkt.

Finest Mixed.—Single sorts; choice.

Maculata Alba.—Pure white.

Maculata.—Rosy pink, dark centre. One of the choicest of the early-flowering everlastings; we highly recommend it.

These hardy annuals are well adapted to the dry places in the garden. They are a species of everlastings. Sow in spring. Height, 12 inches.

RICINUS AFRICANUS (Castor Oil Plant)

3d. per pkt.

Sow in spring and summer. Height, 5 feet.

ROCKET, SWEET (See Hesperis Matronalis).

ROMNEYA (Californian Tree Poppy)

6d. per pkt.

Coulteri.—Pure white flowers, of 5 to 6 inches in diameter, with delicate perfume.

A hardy perennial plant, suitable for outdoor cultivation; foliage deeply cut and glaucous. Sow in spring. Height, 6 feet.

RUDBECKIA

3d. per pkt.

Bicolor Superba.—Golden yellow. 3d. per packet.

Laciniata.—Fringed type. 3d. per packet.

Laciniata, fl. pl. (Golden Ball).—Beautiful yellow. 6d. per packet.

Neumanni.—Dwarf, floriferous; flowers vivid yellow, dark centre. 6d. per packet.

These handsome perennial hybrids produce a mass of yellow or bronze flowers striped and blotched in a remarkable manner with purple brown. The flowers have a purple centre, and are from 2 to 3 inches in diameter, borne on long stems continuously through the summer. They are of a beautiful class of semi-annuals, which make very effective garden plants; splendid for cutting. Sow in spring.

SAINTPAULA (Uzambara or African Violet)

1s. pkt.

Ionantha Grandiflora.—Fleshy leaves, of a beautiful dark green; large flowers; clear deep blue, shading to yellow.

A beautiful plant for glass or bush-house cultivation. The seed, being fine, it is necessary to bestow extra care and attention to successful germination. Perennial. Sow in spring.

NEW
FLOWER SEEDS
FOR 1915

SWEET PEA, "ROBERT SYDENHAM"

1s. per packet.

This grand new variety is one of the most striking novelties introduced for many years. In colour, a rich, glowing orange self, the wings and standard being of the same shade. It has a vigorous constitution, throwing three and four flowers of true Spencer form to each stem, both standard and wings being waved and of large size. Award of Merit, R.H.S., 1914

SEARL'S Winter-Flowering SPENCER SWEET PEAS

Fine Mixture of Superb Varieties, 1/- and 2/6 per packet.

We publish a Special List of Named Sorts in December. Write for Copy.

NEMESIA STRUMOSA RETICULATA

1s. per packet.

This striking variety is large flowered, and the colours range from crimson to golden yellow. The flowers are reticulated or mottled like a Mimulus. Very showy and distinct.

SUNFLOWER MINIATURE

"GOLDEN FLEECE."

9d. per packet.

The Cactus-shaped flowers of this variety are of a clear, golden yellow, with a dark centre, with long stems, excellent for cutting. The height of the plant is about 3 to 3½ ft.

NOVELTIES in ROSES —FOR— 1915

AUGUSTUS HARTMANN (H.T.).—Brilliant geranium red, flushed with orange; flowers of large size, and beautifully formed; the colour is very striking, and the variety is perfectly distinct and hardy; awarded 3 silver medals. 3s. 6d.

AUTUMN TINTS (H.T.).—Coppery red, shaded with orange and salmon, medium sized flowers; the growth is strong and branching, and the foliage a rich bronzy green, not liable to mildew. 3s. 6d.

CLIMBING ORLEANS ROSE (Polyanthus).—A climbing sport from this most valuable rose; free and very perpetual; a decided acquisition to the climbing Polyanthus. 3s. 6d.

COLLEEN (H.T.).—Brilliant rose, shaded rose pink, with deeper rose crimson, veneering on a distinct yellow ground; the flower is quite full, with high pointed centre; a perfect exhibition rose. 3s. 6d.

COUNTESS CLANWILLIAM (H.T.).—Flowers very large and full; buds long and pointed, opening into large, high-scented flowers of great beauty; colour, delicate peach pink at the base of the petals, which are heavily edged with deep cherry red; a beautiful contrast of colour; strong upright growth; awarded gold medal N.R.S. 3s. 6d.

EDGAR M. BURNETT (H.T.).—Very large full flowers of fine shape and form; colour flesh tinted rose; a great improvement on La France; this is undoubtedly the sweetest scented rose in existence, surpassing even La France in this respect; a grand exhibition flower; N.R.S. gold medal. 3s. 6d.

FLORENCE FORRESTER (H.T.).—Clear snow-white, with a lemon tinge, and as the flowers age they become pure white; the blooms are even larger than Paul Neyron; perfect habit, free-blooming qualities; sweetly perfumed; awarded gold medal N.R.S. 3s. 6d.

H. V. MACHIN (H.T.).—A dazzlingly globular rose of great size; colour intensely black grained scarlet crimson, the blooms are carried on rigid flower stalks; faintly tea perfumed; a truly magnificent rose of great beauty; awarded gold medal N.R.S. 3s. 6d.

IONA HERDMAN (H.T.).—A pure clear orange flame, the greatest lift in colour yet attained in roses; without question the most beautiful yellow decorative rose in existence; sweetly scented, and very free flowering; awarded N.R.S. gold medal. 3s. 6d.

JOSEPHINE (H.T.).—Rosy flesh, base of petals salmon yellow, large and full, fine shape; flowers produced in great profusion; fine variety for decorative and exhibition purposes; vigorous. 3s. 6d.

KILLARNEY BRILLIANT (H.T.).—This is an improvement on the original pink Killarney, much more brilliant in colour. The flower is larger, and deliciously tea rose perfumed; a great acquisition; colour crimson carmine. 3s. 6d.

LADY PLYMOUTH (Tea Scented).—A most distinct and meritorious rose, of the Sou. de P. Notting type, whose pearly delicate, but deep ivory cream petals are very faintly flushed; the blooms are carried on rigid erect growth; it is delicately tea-perfumed; a good exhibition rose; awarded gold medal N.R.S. 3s. 6d.

MADAME EDOUARD HERRIOTT.—Of free branching growth, producing its flowers in great profusion; colour a deep terra-cotta or reddish copper, unique and very beautiful. 3s. 6d.

MAJESTIC (H.T. scented).—Fine carmine rose; a long and full bud opening to very large flowers; strong erect growth; an excellent exhibition flower; also a most effective rose for bedding and cutting; very fragrant; awarded gold medal. 3s. 6d.

MILLICENT (H. Multiflora Rambler).—Deep rosy pink, outer petals shaded with carmine, produced in clusters, and lasting well; a distinct and valuable addition to the rambler roses. 3s. 6d.

Miss MARION MANIFOLD (Climber H.T.).—A rich velvety scarlet, shaded with crimson; very large and full; gold medal N.R.S. 2s.

Mrs. AMBROSE RICCARDO (H.T.).—Deep honey yellow, overlaid brighter yellow; of great size and substance; amongst yellow roses, this is the largest yet raised; a really magnificent deeply and sweetly perfumed rose. 3s. 6d.

Mrs. ARCHIE GRAY (H.T.).—Strong upright growth, with large handsome foliage; flowers large, born in great profusion; buds long and pointed; colour deep creamy yellow, opening to light canary yellow; of fine habit; gold medal N.R.S. 3s. 6d.

Mrs. CAMPBELL HALL (Tea).—Delicate creamy buff, edged or suffused carmine; the centre of the bloom is warm cerise coral fawn; strong tea perfumed, with vigorous growth; a good exhibition rose; N.R.S. gold medal. 3s. 6d.

Mrs. JAMES LYNAS (H.T.).—Strong upright branching growth; flowers large and beautifully formed; colour, pearly pink at the base of petals, flushed delicate rosy peach at the edges and on the reverse of petals; a valuable garden and exhibition rose; gold medal N.R.S. 3s. 6d.

Mrs. S. T. WRIGHT (Tea and Decorative).—The guard petals are delicate cadmium old gold, the centre petals have a delicate and charming suffusion of delightful pure rosy pink on cadmium orange chrome. It is of splendid constitution, with dark green bronzy foliage; hybrid persian perfume; a truly beautiful and genuine new rose. 3s. 6d.

RED LETTER DAY (H. Tea, decorative).—An exceedingly beautiful semi-double rose, of infinite grace and charm, its velvety, brilliant, glowing scarlet crimson buds and fully open cactus-like flowers never fade. So far it is one of the best decorative roses raised, blooming throughout the entire season. 3s. 6d.

WALTHAM SCARLET (H.T.).—Single, crimson scarlet; very large for a single rose, and produced with great freedom; an excellent bedding variety, and a good autumn bloomer. 3s. 6d.

WILLIAM COOPER (H.T.).—Vigorous, upright, branching growth, large handsome foliage, flowers very large, full and beautifully formed, with high pointed centre; colour deep rich lake red; a fine handsome flower; one of the finest roses of recent years; silver gilt medal N.R.S. 3s. 6d.

NEW ROSES OF 1914

Blanca (H.T.).—Creamy white, tinted and shaded with peach colour; long pointed buds. 2s.

Cardinal (H.T.).—Cardinal red, large full sweet and floriferous, growth vigorous. 1s.

Coronation (H.P.).—Colour shading from flesh to brightshrimp pink. 2s.

Chrissie MacKellar (H.T.).—A gorgeously beautiful rose, pointed buds; crimson carmine crayonings and veinations on deep, ochrey madder. 2s.

Climbing Sou. de Therese Levet.—A climbing sport from well known dwarf variety, valuable acquisition to dark crimson climbers. 1s.

Dorothy Jeavons.—This grand new rose is a sport from the well-known Blush Rambler, and inherits all the qualities of its parent; pure white in colour, with golden anthers, vigorous growth. 2s.

Ellie Hartmann (H.T.).—Old golden yellow, large, full, of excellent form, tea perfume, growth vigorous; distinct and beautiful rose. 2s.

Edith Part (H.T.).—Rich red, with a suffusion of deep salmon and coppery yellow, deeper shading in bud stage; vigorous, free blooming, fine habit; sweetly perfumed; awarded silver gilt medal. 2s.

H. E. Richardson (H.T.).—Deep rich crimson, vigorous upright growth, large and beautifully formed flowers; awarded gold medal. 2s.

Irish Fireflame (Single).—In the bud stage it is a deep maddery orange, splashed with crimson, which, as the bud develops, becomes fiery orange crimson, delicately sheened and veined with pure crimson and pure lemon zone, strongly tea-perfumed. 2s.

James Ferguson (H.T.).—Sport from C. Testout; colour silvery pink, reverse a darker shade of pink. 1s.

Lady Dunleath (H.T.).—A rose whose long-pointed ivory-creamy-white, egg-yoke, yellow-zoned petals create beautifully-finished blooms, on long rigid stalks of graceful vigorous growth; deliciously Persian-Tea perfumed; a truly superb variety. 2s.

Lady Mary Ward (H.T.).—Rich orange, shaded deep apricot, with a decided metallic veneering; free flowering, fine habit of growth; sweetly perfumed; awarded gold medal. 2s.

Mrs. Cuthbert Hall.—Blooms of good size; colour rich deep carmine, very full petals, reflexing well; sweetly scented. 2s.

Mrs. H. Stevens (L.).—White centre shaded with fawn and peach; buds long and pointed. 1s.

Marcella (H.T.).—Buds buff, opening flower salmon flesh, extra large well filled, and very handsome; of strong erect growth, free and continuous in blooming; a fine show rose. 2s.

Mevrouw Dora Van Tets (H.T.).—Glowing deep crimson, with a velvety shading, medium size and very fragrant; growth vigorous; a first-class rose; awarded gold medal. 2s.

Madame Charles Debrenil (H.T.).—Salmon rose, shaded carmine on the reverse of petals, very large, fine, and full, very vigorous. 2s.

Mrs. Charles E. Pearson (H.T.).—Orange, flushed red, apricot, fawn, and yellow. Growth vigorous, very floriferous, good habit, sweetly perfumed. Bedding and exhibition variety. Gold medal N.R.S. 2s.

Mrs. T. Hillas (H.T.).—Chrome yellow flowers, large and full, of elongated cup shape, a good garden and exhibition rose. 2s.

Madame Theodore Delacourt (H.T.).—Long rosy scarlet buds; flower large and fairly full; salmon red, shaded clear yellow; vigorous. 2s.

Mrs. F. W. Vanderbilt (H.T.).—Deep orange red, shaded bronze apricot, growth vigorous, free flowering, blooms large, good habit and substance, very fragrant; awarded silver medal. 2s.

Mrs. Forde (H.T.).—A magnificent rose, large blooms of perfect form, with daintiest colourings, being stained or flushed with purest deep carmine rose, on delicate rose pink, with a zone of clear chrome yellow at the base of each petal. 2s.

Mrs. D. Baillie (H.T.).—Colour madder carmine, pencilled with deeper shade. The flowers are medium to large, Camellia shaped. 2s.

Mrs. R. D. McClure (H.T.).—Brilliant salmon pink, free, constant bloomer, vigorous; large full flower, exquisite form; awarded gold medal. 2s.

Mrs. Andrew Carnegie (H.T.).—White, occasionally beautifully lemon tinted; flowers very large, beautiful form, with every flower coming perfect shape, with high centre; and in every way superior to F. K. Druschki; the habit of growth is robust. 3s. 6d.

Old Gold (H.T.).—Vivid reddish orange, with rich coppery red and apricot shadings; dark coppery foliage; continuous flowerer; good grower and mildew proof; sweetly scented. 2s.

Queen Mary (H.T.).—Deep bright canary yellow, shell-shaped petals; crayoned with pure deep carmine; the crayoning gives a gloriously warm colouring, as the yellow and carmine do not mingle; the petals are arranged in tip tilted globular formation, and are set off with glaucous green reflexed sepals. 2s.

Seabird (H.T.).—Colour, clear primrose yellow; vigorous free branching growth; flowering in the greatest profusion; flowers medium to large of fine form. 2s.

Willowmere (H.T.).—Rich shrimp pink, shaded yellow in the centre, and toning to carmine pink towards the edges of the petals; vigorous growth and erect branching habit, long, carmined coral, red bud carried on long stout stalks. A superb rose. 2s.

SEARL & SONS LATEST NOVELTIES SYDNEY.

ROSES OF RECENT INTRODUCTION at 1/- EACH

Arthur R. Goodwin (T.).—Coppery orange-red, changing to salmon-pink as the flowers expand; of medium size, imbricated; distinct and beautiful.

British Queen (H.T.).—Petals are large and massive, with an exquisite reflex; frequently in the bud stage it shows a slight flush; this disappears as the bloom opens to the purest whiteness; it is a good free grower, sweetly fragrant.

Climbing Richmond (H.T.).—Of true climbing character; scarlet colour and free flowering habit.

Duchess of Sutherland (H.T.).—The colour is certainly novel, viz., delicate warm rose-pink with lemon shading on the white base. The growth is erect and vigorous, with verdant olive-green foliage.

Earl of Gosford (H.T.).—Dark crimson, fine, strong grower; fragrant.

Frau Margrethe Moller (H.T.).—Centre old rose, shading off paler towards the outer petals; large and perfectly formed flowers; very sweetly scented.

Geoffrey Henslow (H.T.).—Orange-crimson, of great brilliancy; the blooms are freely produced, large, full, and of perfect imbricated globular form; the petals are smooth, circular, and of great substance.

George Dickson (H.T.).—Produces blooms quite 5 ins. across. Velvety black scarlet crimson with brilliant scarlet reflexed tips, heavy and uniquely pure crimson maroon veining on the reverse.

Jessie (Polyantha).—Bright orange red; small, almost single flowers in clusters.

King George V. (H.T.).—Growth vigorous and very branching; flowers very large and very full, opening freely; colour rich blackish crimson, with deep velvety violet flush.

Lady Downe (H.T.).—Flowers buff, shaded in the centre with deep yellow, changing when fully open to a pale shade of yellow; of vigorous growth; excellent for cutting and for general effect.

Madame Chas. Lutaud (H.T.).—Buds ochre-yellow, tinted with carmine, open flowers chrome-yellow, tinted with scarlet on the outer petals.

Madame Edmond Rostand (H.T.).—In the way of Prince de Bulgarie, and considered by the raiser an improvement of that variety on account of its warmer colouring and better habit of growth; flowers pale flesh shaded with salmon, centre reddish orange.

Mrs. Charles Hunter (H.T.).—Flowers rosy crimson, changing to rose colour as they expand; a very bold flower with large handsome petals produced on strong upright stalks; growth vigorous.

Mrs. Frank Bray (H.T.).—The colour, which is a rich deep coppery ecru, developing as flower opens to a very delicate coppery fawn, with a shading of ivory shell pink; delightfully fragrant.

Mrs. Herbert Hawksworth (T.).—Growth robustly vigorous, marvellously free-flowering; the colour is deeply zoned delicate ecru on milk white, which as the blooms expand, become silky creamy white.

Mrs. Muir Mackean (H.T.).—Bright carmine crimson, without shading; a grand, bold, well-built flower, perfect in shape and form; a grand exhibition and garden rose.

Mrs. Richard Draper (H.T.).—Growth vigorous and branching, flowers very large, full, and perfectly formed; colour bright, reddish satiny pink on the outside of the petals, inside of the petals silver flesh a magnificent exhibition rose of good lasting qualities.

Mrs. Sam Ross.—Growth vigorous; flowers shading from pale straw colour to light chamois yellow, with a distinct flush of buff on the reverse petals.

Mrs. Wallace H. Rowe (H.T.).—A superb flower of wonderful size and substance, a shade of colour hitherto not seen in any rose; the colour is bright Sweet Pea mauve; a splendid grower of perfect habit and free flowering.

Nerissa (H.T.).—Creamy yellow, shaded with white, centre of flower tinted peach colour; enormously large, full flowers of fine shape.

Ophelia (H.T.).—Salmon-flesh shaded with rose, large, and of perfect shape.

Orleans Rose (Polyantha).—Colour brilliant geranium red, suffused rose, with white centre, making a charming combination; bushy habit, and very free flowering; splendid for bedding or borders; always in bloom.

Rose Queen (H.T.).—Bright pink, shaded with yellow at the base of the petals, with long pointed buds.

St. Helena (H.T.).—Cream colour, with a pink blush in the centre, base of petals yellow; long buds, changing to a large full and finely-shaped flower.

Sunburst (Hybrid Tea).—Cadmium yellow, with orange-yellow centre; large cupped form, the buds borne generally singly on long stout stems.

Verna Mackay (H.T.).—A decorative rose, which is a delicate ivory sulphur buff, changing to brilliant lemon as the flower expands.

Novelty BRITISH FERNS

READY IN SPRING

We Import the Latest Novelties from London, and are constantly adding new and rare varieties to our collection.

DAVALLIA BRAZILIENSE.....	7s. 6d.
„ POLYANTHA.....	7s. 6d.
„ MAYIL.....	5s. 0d.
„ FORMOSA.....	7s. 6d.

DAVALLIA FIJIENSIS ORNATA.....	5s. 0d.
„ „ GRACILLIMA.....	7s. 6d.
„ „ ELEGANS.....	7s. 6d.
POLYPODIUM GLAUCUM CRISPUM.....	7s. 6d.

It is impossible to individually describe the beauty of these Novelty Ferns. They are specially adapted for basket culture as well as making glorious specimens in large pots.

NOVELTIES FOR 1915

BOLTONIA LATISQUAMA.—This has all the good qualities of the white variety, but is pale pink or mauve coloured. 1s. 6d. each.

PITTOSPORUM FAIRCHILDII.—Recently introduced variety and very quick grower. It has a nice broad, glossy leaf and a pretty shade of green. Makes a handsome evergreen shrub. 1s. 6d. each; 15s. doz.

CALADIUMS

We have imported from England for 1915, the Latest and Best Caladiums in the world. The magnificent colouring in some of the varieties is beyond description. Price, from 7s. 6d. to 30s. each.

We have in stock a magnificent collection of the

CACTI Family

including the very rarest sorts.
INSPECTION INVITED.

NEW Ferns and Glass-House Plants OF RECENT INTRODUCTION

NEPHROLEPIS

- CANALICULATA.**—The curled and crested fronds are exquisite. A distinctive variety of exceptional merit. From 2s.
- ELEGANTISSIMA COMPACTA.**—The compactness of this superb variety renders it a great improvement on Elegantissima, and it is bound to be a favourite. From 2s. 6d.
- ELEGANTISSIMA CRISTATA.**—A crested form of Elegantissima (true). From 2s.
- EXALTATA CRISTATA PENDULA.**—This variety has the good qualities of Superbissima, but is a vast improvement, inasmuch as the fronds are longer and more drooping in habit, making it far superior for basket culture. From 2s. 6d.
- EXALTATA GRANDICEPS.**—Wonderfully forked and crested. Fronds very dark green, with curved to drooping habit. 2s. 6d.
- EXALTATA SUPERBA.**—A very distinct variety, with forked fronds, which are gracefully curved like an ostrich feather, on which are suspended thread-like tassels. From 2s. 6d.
- LYCOPODIODES.**—Embracing all the good qualities of Marshalli, differing mainly through the fact that the fronds are most symmetrical in whatever position they are viewed from. Plants from 2s.
- MARSHALLI.**—It is a better grower and more robust, and even finer, than the well-known N. Amerpohli, and from what we have seen already of this new Fern it carries its reputation well. From 1s. 6d.
- MARSHALLI COMPACTA.**—A more compact form than Marshalli, habit being much more erect, ensuring its success as a pot plant. From 2s. 6d.
- NEUBERTII.**—This is one of the prettiest of a very dainty set; fronds are very finely cut in the way of Marshalli, but the habit is more erect, shapely, and self-supporting. From 2s. 6d.
- PIERSONI COMPACTA.**—A dwarf Piersoni, being held in high esteem by the European gardeners. From 2s. 6d.
- ROCHFORDII.**—The fronds are remarkably plumose and lacey, and with age the fronds develop fresh pinnae, making the plant look very dense and attractive. From 2s. 6d.
- ROOSEVELTI.**—Erect habit; a beautiful wave in the pinnae which must command admiration. From 2s.
- SCHOLTZELLI.**—After the type of Elegantissima, only not so broad, and more upright in the fronds, which makes it self-supporting, and a good variety for pot culture. 1s. 6d.
- WESTONI.**—This variety is of the Davalloides type, fronds erect, with graceful curve and crested well at end of each pinnae. From 2s.

ADIANTUM

- ADIANTUM FARLEYENSE, GLORY OF MOORDRECHT.**—(The Glory Fern).—Possessing all the grace and beauty of the Farleyense type, having the advantage of stiff, wiry stems. It may be successfully cultivated in a cool temperature in common with other sorts. 5s.
- ADIANTUM CHARLOTTAE.**—A fine lacey variety with split foliage. Quite as graceful as A. Gracillimum. Pinnae more distinctly separate than either Nebulosum or Gracillimum. 1s. 6d.

CYRTOMIUM ROCHFORDI

This is a Fern of great beauty, and grows to an immense size. It is of the Falcatum type, but much larger and bolder in every way; each leaf is deeply fringed, giving the plant a most striking appearance; choice. From 1s.

DRACAENA VICTORIA

A magnificent variety of graceful habit, producing a lovely golden band down the middle of its pretty green leaves. From 7s. 6d.

MEDEOLA ARGYREA

A new variety of Medeola, with very large foliage, which is delightful pale green, conspicuously dotted with silver. 2s. 6d. each.

PHŒNIX RŒBELENII

This is unquestionably one of the great palms of the future. By far the finest of the Phœnix family, and combining the gracefulness of the Cocos Wedelliana with the hardness of the Kentia. It is a beautiful palm for indoor use and exhibition purposes, and will thrive as a specimen on the lawn if given a well sheltered position. Small plants just showing character, from 2s. 6d. Advanced specimens, beautifully furnished, 20s. to £3 10s. each.

PTERIS PARKERI

A novelty Pteris from Europe, with splendid qualities, a beautiful grower, producing strong bold fronds of a dark green colour. This fern has come to stay, and will prove one of the best market ferns ever produced. From 1s. 6d. each.

DWARF Orchid-Flowering CANNAS

A New Dwarf Variety of this handsome race of plants, with bold and effective foliage and gorgeously coloured flowers. We have a large stock of these useful and most beautiful flowering plants and can serve our patrons well.

ALL 1s. EACH.

- AUGUST CHANTIN.**—Salmon red, very free flowering.
- CARL HANSMAN.**—Broad full flower, colour delicate pinkish cinnamon, slightly stained yellow, outer edge of petals rich yellow.
- HUNGARIA.**—Pure clear pink, the colour of a La France Rose; immense upright trusses, flower five inches across if well grown.
- FRANCY SIEBERT.**—Very bright yellow, base of petals flaming crimson, the lower petal pure crimson; a beautiful and good variety.

- FURST WEID.**—A glorious flower of great beauty, the colour being dark vermilion, very broad petals; a bold full flower.
- FURSTEIN GEO. WALLERSTEIN.**—Bright scarlet, extra long petals; coppery foliage.
- J. B. PANDER SCHOOT.**—Bright yellow, heavily spotted and blotched scarlet.
- R. WALLACE.**—Clear primrose yellow, lower petal splashed magenta.

THE SET OF EIGHT CHOICE NEW VARIETIES FOR 7s. 6d. Post Free

**NEW AND
RECENTLY INTRODUCED**

Flowering Plants

**ACHILLEA (Perry's White)
(PERENNIAL)**

This is a fine novelty and grows over three feet in height, has stiff, rigid, much branching stems, the laterals being one foot or more in length, and forming a pyramidal bush three feet through. The double white flowers are produced in the wildest profusion, and each flower measures one inch in diameter. It is most valuable for cutting or for decorative purposes. **1s. each.**

HELIOTROPE (1s. each)

MIDNIGHT.—A very dark variety, beautiful, fragrant, very strong grower freely produced. Good grower and hardy. A really sterling novelty. **2s. each.**
ROYAL HIGHNESS.—A lighter shade, with an enormous truss and beautiful foliage. Sure to become popular. **1s.**

**HIBISCUS
(EVERGREEN)**

CONQUEROR.—Rich apricot-colour, single and very large blooms most freely produced. Good grower and hardy. A really sterling novelty. **2s. each.**
ISLAND EMPRESS.—This is a splendid hardy and very floriferous variety; the blooms are of a soft dark rose shade, and one of the best shaped doubles we have seen. A valuable addition to this so popular section. **6ft. 2s. each.**
ISLAND QUEEN.—A gorgeous deep pink self, very compact grower and distinctly different from other pink shades. **1s. 6d.**
PEACH BLOW.—Another evergreen variety producing semi-double flowers of a pretty salmon pink colour with dark eye. **2s. each.**

The set of Four for **6s. 6d.** post free.

New and Striking BOUGAINVILLEA

BOUGAINVILLEA SANDERIANA VARIEGATA.—A magnificent new variety, with wonderful variegation, the white and green being distinctly displayed, makes a glorious pot plant. **2s. 6d.**

CHELONE BARBATA

A pretty scarlet perennial. **1s. each.**

RUDBECKIA

AUTUMN GLORY.—Fine single blooms produced on long stalks; yellow. **1s.**

AMPELOPSIS HENRYANA

The leaves are digitate, composed of five lanceolate leaflets with serrate margins. The ground colour is dark velvety green, whilst the mid-rib and principal veins are silvery white. This variegation is even more pronounced in the autumn when the ground colour changes to red. **1s. 6d.**

* **JADOO FIBRE** **1/-** Per **Tin** *
* the most reliable compost on the market. *

SEARL'S HYDRANGEAS

A new race of free-flowering habit, bearing fine heads of flower of clear and striking colours.

AJISAI.—Large flowers, rosy blue to light blue, with a double row of petals forming like a miniature crest. **1s. 6d.**
AVALANCHE.—A great improvement on Thomas Hogg. Pure white, extra large, and with immense trusses. **1s.**
DENTELLE.—Vigorous and floriferous, deeply fimbriate and dentated, creamy white, turning to a very soft pink. **1s.**
INNOCENCE.—Panicles of medium to very large flowers, slightly undulate of a creamy white. **1s.**
LA LORRAINE.—Very soft pink, later turning into a darker shade, large fine flowers; quite a new colour. **1s. 6d.**
MADMOISELLE RENEE G'AILLARD.—Plant of erect growth, enormous corymbs, keeping well; flowers large, milk-white border, making the whole graceful; very floriferous. **1s.**

MADAME MOUILLIERE.—(Award of Merit, R.H.S.)—Very fine variety, enormous panicles of flowers, individually attaining four inches, well shaped, round, and deeply and regularly dentated; pure white, with carmine pink eye; very free blooming, and one of the finest sorts known. **1s. 6d.**
MARIESII.—Introduced from Japan; remarkably for its large umbels; flowers large, of a bluish malva colour. **1s.**
MARIESII GRANDIFLORA.—Large corymbs attaining 1 ft. in diameter. The normal flowers malva-violet, the sterile ones white-fleshed. **1s.**
MONT ROSE.—Very large and branched panicles; nice pink flower blooming in succession for a long time. **1s.**
ORNAMENT.—Rosy-purple, extra large trusses; a new colour and quite distinct. **1s.**

Single Chrysanthemums of 1914

ALL 1s. EACH

CREMONA.—A very distinct shade of light straw, long curled and twisted petals. **1s.**
DIANA.—Another large flower of pure white, reverse of petals light pink, twisted and curled. **1s.**
DOROTHY SEARL.—A very free flowering variety of bright pink, good shape; a gem for cutting. **1s.**
GOLDEN GEM.—A superb round flower, petals very broad and long; a rich sulphur colour. **1s.**
GOLDEN GLORY.—A very rich lemon in colour; flowers perfect; very long and broad petals. **1s.**

LA MARGUERITE.—Pure white, of Marguerite form; petal very long; very free flowering and good for cutting. **1s.**
NELL GWYNNE.—A large quilled flower of good shape; pure white, reverse light rose. **1s.**
PINK BEAUTY.—A gem for the garden and for cutting; colour a very bright pink; petals extra long and drooping; extra fine. **1s.**
SHASTA.—A beautiful flower, equal to the Shasta Daisy in form and of great substance; colour pure white, yellow centre. **1s.**
THE DON.—Very bright yellow, with long drooping petals. **1s.**
VALMAI SEARL.—A distinct variety; flowers composed of two rows of petals; a bold flower of great substance; creamy white. **1s.**
WONGALEE.—Rich carmine; splendid flower. **1s.**

Novelty Cactus Dahlias, 1915

GREEN PLANTS READY NOVEMBER.

NOTE.—During October we will publish a special Dahlia and Chrysanthemum List. It will contain a complete descriptive list of all the Latest Novelties.

CENTURION.—A seedling from the variety H.H. Thomas; in colour a rich glowing crimson scarlet; flowers composed of long narrow florets, which, however, incurve, twist and interlace so completely as to almost cover the central unopened petals; the stems are perfectly rigid, the plants having an erect habit. 3s. 6d.

DECISION.—This variety somewhat resembles the well-known Wm. Marshall, but its colour is much darker, being clear golden bronze, with no variation in shading from tip to base. It is extremely showy and massive in appearance, the form being of the regularly incurved type and florets numerous, plants strong and erect in growth. 3s. 6d.

DOROTHY HAWES.—The flowers of this variety are not only of large size, but of marvellous depth, as well as the great number of long florets incurve and interlace in an irregular yet beautiful manner, and build up splendid specimens of the latest type of exhibition Cactus Dahlia. The colour is best described as cerise, or as ruby red. 3s. 6d.

FASCINATION.—A monster beauty, the flowers being of great size, with long incurving florets arranged regularly. The colour is indeed fascinating, commencing pure white in the centre and gradually deepening till a soft clear pink is reached towards the tip of florets; plants of capital habit, producing flowers freely. 3s. 6d.

IRENE SATIS.—Very few varieties will produce a quantity of good bloom equal to this; the plants are dwarf, and have a free bushy style of growth which, however, does not prevent the flowers from coming full in the centre, and of large size; the colour is amber in the centre, deepening to bronze on the older florets. 3s. 6d.

MAGIC.—A thoroughly good fancy Cactus of the best form, deep, incurving, and of fair size; the ground colour is deep yellow to lighter yellow, the whole striped and splashed with brilliant scarlet—a striking combination. 3s. 6d.

MISS LONDON.—A slightly incurved well-formed flower of large size; colour deep rose, relieved in the centre by the yellow tips of the unopened florets; this is an unusually free flowering and useful Dahlia. 3s. 6d.

PIERROT.—A unique and striking novelty, the colour being deep amber, boldly tipped with pure white. The flowers are very large, in fact, if disbudded, they are huge. The plants have a splendid habit. 3s. 6d.

SOVEREIGNTY.—One of the largest Cactus Dahlias yet raised, and quite the largest pure deep yellow; the flowers are deep, with long straight narrow florets; a bunch of this makes a fine mass of colour, and single flowers shown on boards make a telling addition to an exhibit. 3s. 6d.

STARLIGHT.—Quite a distinct cactus as regards colour, being deep yellow near the base of the petals, gradually lightening to palest lemon, and finally to white at the tips. The plants are strong and very healthy growers, freely producing large flowers on the best of stems all through the season; form slightly incurved, and petals particularly narrow and pointed. 3s. 6d.

THE QUAKER.—The loveliest colour we have yet seen in Dahlias, the white centre imperceptibly becoming tinged with lightest flesh pink. So delicate is the colouring as to almost give an impression of artificiality. The plants are dwarf and wiry wooded, producing an abundance of flowers of good size and unvarying depth. 3s. 6d.

WINNIE BROWN.—Another pretty addition, the colouring passing through a series of blendings from yellow to salmon and salmon to pink, and then again to yellow at tips; form of flowers very neat, and florets partially incurved. 3s. 6d.

The set of 12 Novelty Cactus Dahlias for 35s. post free.

Choice COLLARETTE DAHLIAS for 1915

Collarette Dahlias are most suitable for both the decoration of the garden and the table. For the latter purpose this class of Dahlia is superior to the other types, the flowers being borne on long and sturdy stems.

price 2s. each

BUTTERCUP.—A pure yellow of circular form; collarette a lighter yellow; very useful and distinct variety. 2s.

Dr. RENE GERARD.—Purple, lighter edge, white collar. 2s.

DAINTY.—Colour softest pink, combined with circular form, and with lemon yellow collar, making up a typical flower of this section. 2s.

FROGMORE.—Yellow splashed vermillion, yellow collarette. 2s.

GEANT DE LYON.—An intense crimson maroon, with large white collarette; for a large flower of this type it stands alone. 2s.

GRAND PAPA CHARMET.—Scarlet, lighter edge, primrose collar. 2s.

HENRI FARMAN.—Rich crimson, collarette white. 2s.

HARMONY.—Colour a combination of primrose and purple, collarette pure yellow. 2s.

LOTUS.—Colour almost white, but flushed vermillion, cream collar. 2s.

NEGRO.—Dark maroon, light collar. 2s.

REGULARITY.—Purplish crimson collar, very effective, being dark at base, tipped white. 2s.

WINDSOR.—Pale chrome yellow, suffused rosy pink, collarette straw colour. 2s.

New Pompone Cactus Dahlia

ROBIN.—One of the best of the miniature Cactus, the tiny flowers being of globular form, but "spiky" in appearance instead of neat and precise as in the case of the double Pompoms. The plants flower freely, and hold good in the centre throughout the season, the colour reminding one of the red of the Robin's breast. 2s. 6d.

Novelty PAEONY DAHLIA

JOHN GREEN.—The colouring of this great variety is intensely brilliant, the centre being clear yellow, which quickly changes to fiery scarlet. At the great Dahlia trials carried out by Reginald Cory, Esq., at Cardiff, it was singled out as one of the finest varieties, and received X X X by the judges. A great feature of this variety is its lasting qualities. 3s. 6d.

SEND FOR OUR SPECIAL DAHLIA LIST (READY IN OCTOBER)
for full list and descriptions of all the best Dahlias.

SEARL & SONS FLOWER SEEDS SYDNEY.

SALPIGLOSSIS

Variabilis Grandiflora.—Finest mixed. 3d. per packet.
Variabilis Grandiflora Superbissima.—Emperor, choice mixed. 6d. per packet.

Variabilis Nana.—Dwarf, fine mixed. 3d. per packet.

For brilliancy of colour, variety of tint and marking, and size and striking effect, Salpiglossis may be fitly designated "the Orchids of the hardy annuals." It can scarcely be said that there are any true self colours, for diversity of marking is seen on all, but some more nearly approach the self-character than others, while some are very handsomely striped and flaked. There is no other annual which makes such a striking effect when bunched as does the Salpiglossis, and it is a flower which should find a place in every garden.

SALVIA.

6d. per pkt.

Coccinea Splendens.—Scarlet; lovely, free flowering.

Bonfire.—Brilliant glowing scarlet.

Glory of Stuttgart.—Brilliant scarlet; beautiful.

Patens.—One of the brightest blue flowered plants; very beautiful.

Most striking garden plants. The scarlet is easily grown, and is very hardy. Patens is not so easily grown, but the beauty of its lovely blue flower will repay the necessary care.

SCABIOSA (Mourning Bride).

Caucasia.—The flowers, which will last in winter for a week, are of a most lovely lilac tint. In warm climates they should be grown in shade and protected from hot winds. 2 feet. Perennial. 6d. per packet.

Caucasia Alba.—A most beautiful white. Same form as the Caucasia. 6d. per packet.

Candidissima, fl. pl.—Snowball. White; beautiful for massing. 3d. per packet.

Searl's Dwarf.—Double mixed. An excellent variety; our own saved seed. 3d. per packet.

Japonica.—A hardy Japanese perennial of graceful, bushy foliage and habit, 3 feet high, producing immense numbers of beautiful mauve or lavender blue flowers on stiff wiry stems, fully 18 inches long. 6d. per packet.

SCHIZANTHUS.

Wisetonensis.—It bears a mass of nice dainty flowers, varying from white with yellow eye to a brilliant rose with bronzy centre, carried well above the feathery foliage. Splendid for pot work. 16 inches. 1s. per packet.

Hardy annuals, requiring a sheltered situation; well suited for pot culture; handsome foliage, and bears thousands of butterfly-like blossoms. Well worth a place. Sow during autumn and spring. Height, 24 inches, except dwarf variety.

SENSITIVE PLANT. (See Mimosa Pudica).

SHASTA DAISY. (See Leucanthemum).

SILENE.

3d. per pkt.

Armeria (Catchfly).—Red.

This annual will flower freely during spring months. Should have a cool situation.

SINNINGIA.

1s. per pkt.

Regina Hybrida.—Suitable for pot culture. Closely allied to Gloxinia.

The flowers are very numerous, varying from light rose to deep lilac, adorned in most cases by a pure white throat; the colouring of the blooms is vary attractive.

SMILAX. (See Medeola).

SNAPDRAGON (See Antirrhinum).

SOLANUM.

Capsicastrum, "Fra Diavolo."—The foliage is lighter green, and finer, and the berries are somewhat smaller, but in return are more numerous than in the other varieties of the "Coral Cherries." The plant forms a small naturally round-growing, branched shrub, which leaves nothing to be desired in respect to gracefulness. Is especially apt for pot-culture. 6d. per packet.

Seaforthianum.—Makes a very ornamental climbing plant, covered with pale blue flowers which are followed by attractive bunches of berries. 6d. per packet.

Weatherilli.—Choice strain. 6d. per packet.

This handsome plant produces a profusion of coral-red berries, and is highly esteemed for table decoration in England, where thousands are sold annually in Covent Garden.

SOLLYA HETEROPHYLLA.

6d. per pkt.

A lovely thing; worth a place in any garden. Sow in autumn.

STATICE.

3d. per pkt.

Suworowi.—Spikes of bright rose colour.

Perennial Sorts.—Fine mixed.

STOCKS (Ten-Week Varieties).

SEARL'S SOVEREIGN STRAIN. No. 1.—Mixture of the best strains; splendid. 6d. per packet.

Giant Perfection.—Finest mixed. Gorgeous, large flowering. 3d. packet.

Large Flowering Dwarf German.—Finest mixed. Produces enormous spikes. 3d. per packet.

Large Flowered White.—Very good. 3d. per packet.

Sutton's Giant Perfection.—Choice mixture in original packets. 1s. pkt.

STOCKS (Giant Nice and Brompton Varieties).

SEARL'S SOVEREIGN STRAIN No. 2.—This special strain is made up of all the leading Nice varieties of Stock, specially for those who require a reliable mixture of QUALITY not QUANTITY. 1s. pkt.

Almond Blossom.—White, tinted palest pink. 6d. per packet.

Abundance.—This splendid class of Nice Giant or Early Large-flowering Winter Stocks, is of a dwarf habit, with a quite phenomenal profusion of bloom. The colour is a fine shade of carmine-rose. 6d. pkt.

Bianca.—Large white. 6d. per packet.

Brompton Purple.—Extra double. Imported particularly owing to it being a very good rich purple extra double. 3d. per packet.

Brompton Scarlet.—Brilliant. 3d. per packet.

Brompton White.—3d. per packet.

Brompton.—Finest mixed. Fine spikes. 3d. per packet.

Beauty of Nice.—Grows 2½ feet high. Flowers are particularly large, good form, fragrant, and delicate shade of fleshy pink. 6d. packet.

Crimson King.—One of the most recent. Beautiful crimson, large-flowering type. 6d. per packet.

Canary Yellow.—A pure yellow; large-flowered. 6d. per packet.

Carmine.—A welcome addition to this favourite class of Stocks. A pretty shade of carmine, distinct; splendid for bedding. 6d. packet.

Deep Lilac.—Delicate shade of colour. 6d. per packet.

Large-flowering Emperor.—Finest mixed. Showy. 3d. per packet.

Madame Rivoire.—A new variety of superb quality; flowers of the purest white; very early flowering. 6d. per packet.

Peach Blossom.—A pretty shade of pink; very good. 6d. per pkt.

Pride of Keller.—Glorious purple. 6d. per packet.

Princess Alice.—Pure white; beautiful. 6d. per packet.

Queen Alexandra.—This is a splendid variety. The flowers are extra large and well arranged on an immense central spike nearly a foot high, and surrounded by numerous side shoots. The flowers are a delicate rosy lilac. 6d. per packet.

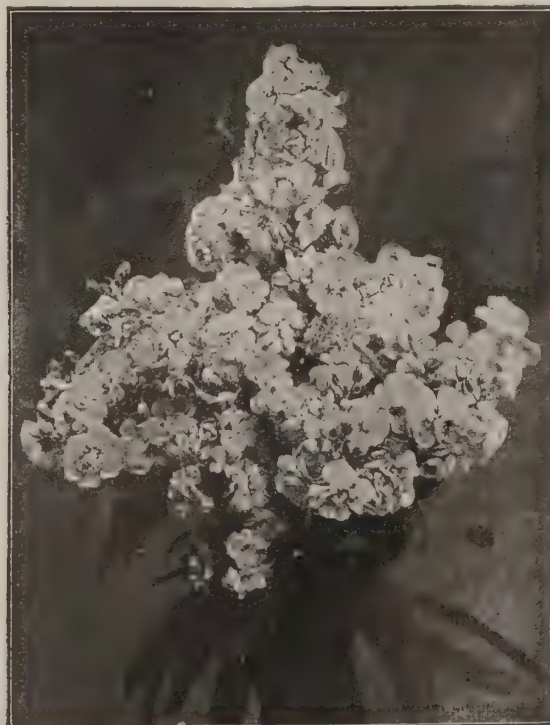

Rose of Nice.—A rosy mauve. 6d. per packet.

Soliel de Nice.—A good yellow of good form; large flowered. 6d. per pkt.

White of Nice.—A good white; flowers are very large. 6d. per packet.

White Lady.—An exquisite variety with enormous heads of dazzling whiteness. Undoubtedly the finest white yet grown. 1s. per pkt.

Stocks succeed well in any part of our State if the season is favourable; if they are grown in good rich soil. They are all beautiful plants, very showy, and delightfully perfumed. The intermediate and Brompton Stocks produce splendid spikes of flowers. Stocks are gross feeders and like manure and well enriched-soil worked deep. The Bromptons, if sown in the autumn will flower the following spring. The Ten-weeks are hardy annuals and grow about 12 inches. The Brompton and Intermediate are hardy biennials. Sow the Nice varieties from mid-December to May, other sorts during autumn.

STOCK (Large Flowered 10-week).

Please find enclosed cheque for £3/12/6, being amount for Plants supplied. I must thank you for sending such a good lot of plants.
 13/11/13. J. E. R. F., Albury.

SEARL & SONS FLOWER SEEDS SYDNEY.

STOKESIA.

6d. per pkt.

Cyanea, Blue.
Cyanea, White.
Stokes' Aster. Very pretty and hardy biennials.

STREPTOCARPUS.

1s per pkt.

Veitch's Hybrids.
Choice mixed hybrids, very beautiful miniature Gloxinia-like flowers.
Suitable for pot culture.

SUNFLOWER (See Helianthus).

SWEET ALYSSUM (See Alyssum).

SWEET PEA (See Lathyrus).

SWEET SULTAN (See Centaurea)

SWEET WILLIAM (See Dianthus).

TAGETES (Marigold). (See also Calendula).

Erecta, fl. plena, Aurea.—Tall orange.
Erecta, fl. plena, Sulphurea.—Tall lemon.
Erecta, Dwarf Double African.—Fine mixed.
Erecta, Tall Double African.—Fine mixed.
Patula, Tall Double French.—Mixed.
Patula, Dwarf Double French.—Mixed.

Hardy, constant bloomers. French varieties have beautifully shaped orange flowers, striped and flaked with brown. African varieties have large self-coloured flowers. All are annuals. Sow during spring and summer. Height, 18 inches to 2 feet.

THUNBERGIA.

6d. per pkt.

Alata.—Fine; mixed colours.

A beautiful half-hardy annual, of twining habit; flowers of brilliant colours, and very striking; the plant grows rapidly when once started. Sow in spring. Height, 36 inches.

TORENIA.

1s. per pkt.

Fournieri.—Blue.

An elegant and extremely ornamental pot plant, of great beauty; tender perennial, suitable only for glass or bush-house cultivation. Height, 12 inches.

TROPÆOLUM.

3d. per pkt.

MAJUS. TALL NASTURTIUMS.

Finest Mixed.—All the best varieties.

We have also collections in separate colours containing six and twelve varieties. See page 35.

NANUM (TOM THUMB). DWARF NASTURTIUMS.

Finest Mixed.—All the best sorts.

We also have collections in separate colours, containing six and twelve varieties. See page 35.

Tall Ivy-leaved.—Mixed. 6d. per packet.

Dwarf Ivy-leaved Nasturtium.—Mixed. 6d. per packet.

Dwarf varieties do not grow more than 9 inches, and form compact bushes, and flower abundantly; can be transplanted, and should be planted 12 inches apart. The tall varieties will spread or climb 15 feet. Sow autumn and spring. Hardy annuals, and do well in any soil.

TROPÆOLUM CANARIENSE (Canary Creeper).

Yellow. One of the most beautiful of our tender annuals; the foliage is very delicate, and the flowers of a golden yellow colour; must have a sheltered position. Sow in the spring. 6d. per pkt.

TYDEA HYBRIDA GRANDIFLORA.

1s. per pkt.

Mixed.—Specially saved collection; very fine.

VALERIANA.

3d. per pkt.

Valerian.—Mixed; floriferous; fine for bouquets.

VERBASCUM.

6d. per pkt

Pannosum.—Large, sulphur-yellow flowers.

Introduced from Macedonia. The plant grows to 5 feet; splendid leaves, 2 feet long and 8 inches wide; flower stalks 2 feet long; strikingly beautiful decorative plant. A perennial. Sow n spring or autumn.

VERBENA.

6d. per pkt.

Auricula Flora.—Mixed colours.

Candidissima.—Flowers pure white.

Coccinea.—Scarlet; very showy.

Coerulea.—Blue shades.

Hybrida.—Mixed; very fine quality.

Mammoth Grandiflora.—Large flowered; very fine, mixed.

Striata.—Italian. Striped; handsome.

Hybrida Giganta Mixed.—Choice varieties. 6d. per packet.

Hybrida (Auricula-Eyed) Monstrosa.—This Verbena will be found the most beautiful and remarkable variety yet introduced, far surpassing in size and beauty the well-known variety Mammoth. The flowers measure 1½ inches across, of good substance, and in a great variety of colours, each flower having a very large white centre which is very effective. 1s. per packet.

One of our most beautiful bedding plants; very hardy and of magnificent colours; not particular to soil or situation; blooms in profusion. Sow in autumn or spring. Height, 18 inches.

VINCA ROSEA.

3d. per pkt

Pretty perennial border plant with periwinkle-like flowers white and rose. 2 feet.

VIOLET.

6d. per pkt.

Admiral Avellan.—The well-known red variety.

Odorata Alba.—White.

Odorata Mixed.—All sorts.

Odorata (Sweet Violet).—Old fragrant variety.

Princess of Wales.—Large dark blue.

The Czar.—Rich, dark purple.

The Czar, fl. Albo.—Large white.

VIRGINIAN STOCK. (See Cheiranthus).

WAHLENBERGIA.

6d. per pkt.

Perennial Campanula.—A very pretty and effective blue flower.

WALLFLOWER.

Blood Red.—Single sort. 3d. per packet.

Double German.—Beautiful double flowers of various colours. 6d. per packet.

Golden King.—Yellow. 3d. per packet.

Kewensis.—A very early single-flowering variety. Seed sown in January, February and March will produce an abundance of flowers during the winter months; very sweetly scented. 6d. per packet.

Mixed.—Single; blood-red to pale yellow. 3d. per packet.

Ruby Gem.—Single; violet, with bluish sheen. 3d. per packet.

Well-known English favourites; beautiful perfume, and the double varieties are striking and most beautiful. Sow autumn or spring. Height, 12 inches.

WHITLAVIA.

3d. per pkt.

Gloxinoides.—White and blue.

Grandiflora.—Blue.

One of the most charming Californian annuals; very effective or bedding; grows freely in any soil; flowers bright blue. Sow in the autumn or spring.

ZINNIA.

3d. per pkt.

Crispa.—New; crested; fine.

Elegans Grandiflora Robusta Plenissima.—Mixed. A Zinnia of immense size, and very robust in growth, the flowers measuring 5 to 6 inches across.

Elegans Pumila, fl. pl.—A surprisingly beautiful dwarf strain; wonderful shades of colour, and flowers nearly all double.

Elegans Tom Thumb.—Double; various brilliant colours; very dwarf only 6 inches.

Grandiflora Queen Victoria.—Magnificent double white.

Grandiflora Robusta Plenissima.—New separate colours have proved such a success that we have imported eight colours. The flowers are giant-flowered. It is a decided advantage to those who wish to grow these in distinct colours, that they are to be bought in this way. CRIMSON, VIOLET, SULPHUR YELLOW, GOLDEN YELLOW, SCARLET, FLESH COLOUR, PURPLE, WHITE. 6d. per packet, 8 packets for 3s.

Lilliput Flowered.—Mixed. A charming small flowering class, of double Zinnias, suitable for borders; flowers adaptable for bouquets, etc.

Striata, fl. pl.—Striped; fine; mixed.

One of the grandest annuals in cultivation; has been wonderfully improved of late years, and Zinnias flower throughout the entire summer. They should always be transplanted. Tall varieties, 2 feet 6 inches to 3 feet.

The Parcels Post System is simple and economical for the despatch of Seeds, Plants, and Cut Flowers, and we receive very flattering testimonials as to their arrival in good condition.

CUT FLOWERS

Cut Flowers are always available. Any quantity desired can be supplied. A judicious selection of good lasting flowers is made in Country Orders.

All our Floral designs are made of the Choicest Hothouse Flowers and Ferns, by Floral Experts.

SEARL'S ORNAMENTAL GRASSES.

All at 3d. per Packet; 6 Packets for 1s.; 12 Packets for 1s. 6d. Post Free. Customer's Selection.

AGROSTIS NEBULOSA.—Very ornamental; graceful habit; suitable for bouquets and mixing with flowers in vases.
AGROSTIS PULCHELLA.—Handsome; suitable for bouquets.
AVENA STERILIS (Animated Oats).—Curious large spikelets, and of very elegant habit.
BRIZA MAXIMA (Quaking Oats).—One of the best-known grasses; of the easiest culture.
BRIZA MINIMA (Gracilis).—Similar to the above, but finer; very graceful, and useful.
COIX LACRYMA (Job's Tears).—Very suitable for masses.
ERAGROSTIS ELEGANS (Love Grass).—Strong-growing, broad foliage; of considerable beauty.
ERIANTHUS RAVENNÆ.—A very stately and hardy grass, bearing beautiful silvery plumes. Much used for sub-tropical effects in gardens.
EULALIA JAPONICA.—Most distinct, hardy, ornamental grass, fine feature when planted near water and on somewhat rising ground.

GYNERIUM ARGENTEUM (Pampas Grass).—Sometimes referred to by botanists as *Cortaderia Argentea*. Is a handsome grass of stately appearance.
HORDEUM JUBATUM (Squirrel Tail).—A hardy grass; the only one of a family which is cultivated as a garden plant.
LAGURUS OVATUS (Hare's Tail Grass).—Pretty, hardy annual, cultivated for its plume-like spikes.
LASIAGROSTIS ARGENTEA.—An elegant, hardy, annual grass; height one foot.
PENNISTEUM RUPELLIANUM.—Most elegant variety; long slender leaves and stems and beautiful plumes; charmingly decorative; one of the best.
STIPA PENNATA (Feather Grass).—Elegant for bouquets; presents a most attractive appearance in the border.
TRICHOLAENA ROSEA (Red Top Grass).—Very strong grower; very ornamental red spikes.
ZEALAPIONICA FOL. VARIEGATA (Striped Japanese Maize).—Tall growing; prettily marked; will assume the height of six feet.

CERATOPETALUM GUMMIFERUM (Christmas Bush).
CLEMATIS ARISLOLA (Old Man's Beard Climber).
CLIANTHUS DAMPIERII (Desert Pea).
CORREA SPECIOSA (Native Fuchsia).
TELOPEA SPECIOSISSIMA (Waratah).

STANDARD ROSES

For Novelties in
Roses and other
Plants, see Col-
oured Sheets.

Jadoo Fibre

Splendid for
Roses
See Page 103.

THESE are budded on long straight stems, 2 to 3 feet high, and for small gardens cannot be surpassed, allowing plenty of room for the planting of small annuals, etc., round them. For large grounds a bed of Standard Roses in full bloom is a glorious sight.

We have a fine stock of plants, and give a list of some of the varieties, which we specially recommend as most suitable for growing as standards.

For full descriptions, see general list.

PINK SHADES

Lyon Rose
Jonkheer J. L. Mock
Countess of Gosford

George Schwartz
Medea
Shower of Gold—Weeping

YELLOW AND RED

Hugo Roller

STANDARD ROSE

HALF STANDARDS, 2s.

FULL STANDARDS, 3s. each.

These Roses are very constant in their gifts of Bloom. The Tea Section improves with age, and neither the first nor the second flowering should be taken as a fair criterion of the perfume or beauty of particular varieties which characterise them later on.

Ever-Blooming ROSES

Directions for Planting.—See that the drainage is good when selecting ground to plant Roses. The land should be well drained if moist; this done, the ground should be trenched 18 to 24 inches deep, as the nature of the soil will permit; and be particular that the surface soil is left upon the top, introducing manure freely. After this treatment the beds will last for several years with occasional dressings of manure. Make the ground even, and when digging the holes to receive plants, take out sufficient soil to let the roots down, say, four or five inches below the surface, open the soil for a good distance around so as to allow the roots to spread freely, sprinkle fine soil over them, cover all evenly, and tread down firmly so as to consolidate soil about the roots, then stake them carefully and give them a good watering.

Tea Scented and Hybrid Tea Scented

1s. each, 10s. per doz., post free 11s.

Abbe Garrouste.—Colour, inner petals coppery-yellow and pink-carmine; edges of petals China rose; large and full.

Albatross (H.T.).—Colour, ivory white faintly tinted with bluish pink; of handsome conical form in the way of Frau Karl Druschki and White Lady, but fuller; growth moderate.

Alexander Hill Gray (T.).—Its growth is vigorous and erect. The colour is lemon yellow. Strongly tea perfumed. Awarded the Gold Medal of the National Rose Society.

Alexandra.—Flowers pale buff, with orange-yellow centre, shaded with apricot and bronze; very beautifully shaped and exceedingly attractive, both on the plant and when cut.

Allice Cory-Wright (H.T.).—Flowers deep pink in the way of Caroline Testout, but larger and even more handsome; full, high-centred; a fine addition to this class, and an excellent exhibition flower; growth vigorous.

Allice Grahame.—Ivory white tinted salmon. Distinct and magnificent Rose of the highest excellence and perfect form. This variety frequently varies, both in form and colour. Free and continuous bloomer.

Allice Lemon (Eg. G. Hill) (H.T.).—Blush white, shading to brilliant salmon pink at the centre large and very full, with shell-shaped petals, buds long and pointed; magnificent in size and form.

Allice Lindsell (H.T.).—Creamy-white, with pink centre; very large, full, perfectly formed, robust, and very free. Gold Medal, N.R.S.

American Beauty (T.).—Rosy-cerise; large petal and flower; full and fragrant.

Andre Schwartz (T.).—Deep crimson shaded scarlet; large and fairly full; fragrant and very free-flowering; growth vigorous.

Anna Chatron (T.).—Cream, tinted pink; large and free; vigorous habit; each petal delicately edged pink.

Anna Olivier.—Rosy-flesh, shaded yellowish-buff; large and fairly full; very beautiful in bud; growth vigorous.

Antoine Rivorie (H.T.).—Pale rosy-flesh, shaded salmon.

Archduchess Marie Immacolata.—Terra-cotta-red, shaded coppery-yellow; large and full; excellent form; very fragrant and free-flowering; a good show variety; growth vigorous.

Auguste Comte (T.).—Outer petals carmine-red, centre reddish-yellow. The buds are long and extraordinarily beautiful, lasting a long time, and highly perfumed.

For Novelties see
Coloured Sheets.

Auguste Rodriguez (H.T.).—Fiery red, centre sometimes [pure carmine; flowers large, full, and perfect form, buds long; most floriferous. 2s.

Aurora (H.T.).—Centre of flowers rich, bright, salmon-pink, shading paler towards the outside; large, full, and imbricated.

Avoca.—Crimson scarlet, buds very long and pointed, flowers large and sweetly perfumed; one of the best of its colour in this section.

Barbarossa (H.T.).—Bright carmine, extra large, opening well and very fragrant; growth vigorous and hardy.

Beatrice (H.T.).—Suitable for exhibition purposes. When fully developed the outer petals are very pale flesh and the centre bright pink; the petals are beautifully reflexed as in La France.

Betty (H.T.).—Colour, ruddy gold; blooms are extremely large, fairly full, and of fine form; growth vigorous and erect; free branching habit; an exquisite rose; sweetly scented.

Beauty Inconstant (T.).—Coppery-red, shaded carmine and yellow, variable; a mixture of colours not easy to describe.

Ellie Siebrecht (H.T.).—Bright rosy-pink; buds long and handsome; large and fairly full.

EVER-BLOOMING ROSES—*continued*

- Beryl (T.)**.—Deep golden-yellow; fine, long buds; very highly scented; not full.
- Bertha Gaulis.**—Vigorous and free-branching growth; flowers very large, full, and of perfect form; colour china rose, with darker centre.
- Bessie Brown (H.T.)**.—A first-class grower, with extra large ivory-white flowers with bluish centre; petals of great substance.
- Betty Berkeley (T.)**.—Deep red verging on crimson-scarlet and blood-red; long, oval buds.
- Bonna Well Scott (H.T.)**.—Clear, rosy-carmine, centre shaded orange; large, full, fine form, sweetly-scented; vigorous.
- Bridesmaid (T.)**.—A clear, bright pink sport from Catherine Mermet.
- Carline (H.T.)**.—The growth is vigorous, flowering in great profusion; an ideal rose for all decorative work. The colour is orange-carmine, bluish buff, creamy-fawn, and coppery-salmon; strongly tea perfumed.
- Catherine Mermet (T.)**.—Light rose uniform colour; large, full, and of excellent form; a fine show variety; growth vigorous.
- Celia (H.T.)**.—Flowers bright satin pink, centres somewhat deeper, large, full, of circular outline, the centres well raised and the petals reflexed.
- Chameleon (T.)**.—Flowers rosy flesh colour; variable with a distinct and heavy blotch of deep crimson on the outside of the petals.
- Charles de Lapisse.**—Vigorous; pearly-white passing to creamy-white, very large, full and well formed flower of splendid habit, a grand rose for any purpose.
- Charles J. Grahame (H.T.)**.—Petals of dazzling orange-crimson; blooms large and of splendid form; an ideal exhibition rose; growth extra strong, bold foliage. Awarded several First-class Certificates.
- Chateau de Clos Vougeot (H.T.)**.—Velvety scarlet, shaded with fiery red, changing to dark velvety crimson as the flowers expand; handsome foliage; growth moderate.
- Clara Watson (H.T.)**.—A beautiful light-coloured rose of perfect shape; tree of good habit; centre of flower shaded salmon and rose.
- Colonel R. S. Williamson.**—The blooms are very large, full, perfectly formed, with high-pointed centre; the petals are round, smooth, and possessed of great substance; colour, satiny-white, with deep bluish red centre.
- Corallina (T.)**.—Flowers deep rosy-crimson, shaded with coral-red, large petals; specially beautiful in the bud state. A strong-growing variety, with free-blooming qualities.
- Comtesse de Frigneuse (T.)**.—Bright canary-yellow, large and nearly full; buds long and handsome; growth vigorous.
- Comtesse de Guigne (T.)**.—Brilliant carmine, tinted with crimson, centre coppery.

FOR LIST OF NOVELTIES

See Coloured Sheets

- Comtesse de Labarthe (T.)**.—Rosy-flesh, fine globular form, and fairly full; very free-flowering; one of the best winter-flowering roses in cultivation; growth vigorous.
- Comtesse du Cayla (China)**.—Reddish-carmine, tinted orange on reverse of petals to dark orange-yellow, shaded carmine.
- Comtesse Riza du Parc (T.)**.—Salmon-rose; very fine.
- Comtesse Alexandra Kinsky (T.)**.—White, with apricot centre; handsome buds and flowers.
- Countess of Gosford (H.T.)**.—Vigorous, salmon-pink rose and pink running into each other; the base of petals suffused saffron-yellow, and the whole bloom shaded salmon. The blooms are of perfect form.
- Countess of Pembroke (H.T.)**.—Soft satiny rose, with deeper centre; extra large, very full; of perfect form and always opens well; a vigorous grower, free bloomer and deliciously scented.
- Countess Cairns (H.T.)**.—A seedling from President and Caroline Testout; flowers brilliant cerise-carmine, not full, but of large size; handsome petals produced in great profusion.
- Countess of Derby (H.T.)**.—Colour, centre salmon, outer petals rose, passing to flesh, veined peach, as the flower expands. Very vigorous and erect growth; free-flowering and deliciously perfumed.
- Countess of Shaftesbury (H.T.)**.—Colour, bright silvery carmine, mottled and flecked pale shell pink at the edges of the petals; large and very full. Gold Medal N.R.S.
- Creme Simon (H.T.)**.—Creamy-white, centre sometimes salmon and carmine; very large and full, opening well; sweet; growth erect; has received a gold medal in France.
- Cynthia Forde (H.T.)**.—Deep, brilliant rose-pink, shading on the back of the petals to light rosy-pink; flowers large and full, sweetly perfumed.
- Dad Stirling (H.T.)**.—Isabella yellow, centre reddish, shape and form of Marechal Neil, but more floriferous and less tender.
- Dean Hole (H.T.)**.—The blooms are very large, of great substance, petals very large and smooth; colour silvery-carmine, shaded salmon. Gold medal N.R.S.
- Devoniensis (T.)**.—Creamy-white, bluish centre, large, full, and well-formed; one of the best.
- Dorothy Page Roberts.**—An ideal decorative or garden rose. The combination of colours is very novel, distinct, and beautiful, being a lovely shade of coppery-pink suffused with apricot-yellow. Awarded the National Rose Society's Gold Medal.

- Dorothy Radcliffe (H.T.)**.—In the bud stage the colour is a coral-red, shading to yellow and fawn, becoming paler as the flower expands; excellent form; a fine exhibition rose.
- Dr. Cazeneuve (H.T.)**.—Flowers deep velvety-crimson, the colour of Louis Van Houtte; one of the darkest-coloured Hybrid Teas; growth vigorous.
- Dr. Felix Guyon (T.)**.—Large, strong grower, orange-yellow, with fawn centre; good.
- Dr. Grill (T.)**.—Light rose, with coppery-yellow centre; beautiful bud, but not quite full.
- Dr. O'Donel Browne (H.T.)**.—The blooms are very full, opening well, the petals smooth, shell-shaped, and massive; colour, carmine-rose; perfumed.
- Duchess of Albany (H.T.)**.—In the way of La France, but deeper in colour, more expanded in form, and larger in size; the flowers are dark, even pink, very large and full, highly perfumed, and in all respects of first quality.
- Duchesse Marie Salviata (T.)**.—Variable, sometimes deep yellow, shaded rose, or clear saffron-yellow; free.
- Duchess of Wellington (H.T.)**.—Intense saffron-yellow stained rich crimson, which, as the flower develops, becomes deep coppery saffron-yellow. The blooms are fairly full; free-flowering.
- Duchesse of Westminster (H.T.)**.—The blooms are very large, full, and perfectly formed, with high pointed centre. Very sweetly perfumed. The colour is a dainty clear rose; very free flowering.
- Earl of Warwick (H.T.)**.—Flowers rich soft salmon-pink, shaded in the centre with vermillion; large and full, of beautiful shape and quite distinct from any rose in cultivation.
- Ecarlate (H.T.)**.—Scarlet red, excessively brilliant, of medium size, cupped, growth vigorous, very free flowering, keeping its colour well in the sun.
- Edmond Deshayes (H.T.)**.—Creamy-white, shaded flesh in the centre; large and full; a strong grower, carrying erect flowers.
- Edward Mawley (H.T.)**.—This is the long-looked-for Dark Hybrid Tea. Beautifully scented, and its flowers are carried on strong stems; it has a good constitution, and is thoroughly perpetual. 1s. 6d.
- Elise von Schwilchow (H.T.)**.—Bright red. "The Red Testout"
- Eliza Barnes.**—Salmon rose with a fawn centre, suffused with yellow; outside of petals deep rosy red, shaded with copper and yellow. The flowers are large, full, with pointed centre, possessing a delightful fragrance.
- Elizabeth (H.T.)**.—Colour, deep rosy-pink in centre, shading off lighter towards the outer petals; flowers large and full.
- Eliza Fougler (T.)**.—Pure white, sometimes highly tinged with rose, petals large and of good substance; in shape and form not unlike Niphetos, but of much stronger and healthier growth.
- Emile Gonin (T.)**.—Centre coppery-orange, changing to pale, outer petals edged with carmine; large and full; a beautiful combination of colours.
- Enchantress (T.)**.—Flowers creamy-white, slightly tinged with buff in centre; very free-flowering, and vigorous; a good garden variety.
- Ernest Metz (H.T.)**.—Soft carmine rose, centre deeper; very large and full, buds long and handsome; an excellent show variety; growth vigorous.
- E. T. Cook (H.T.)**.—Beautiful pale primrose-yellow suffused with pink as the flowers expand.
- Ethel Malcolm (H.T.)**.—The colour is ivory white passing to purer white as the bloom expands, with delicate peach shading in centre.
- Etoile de France (H.T.)**.—Colour, velvety-crimson, centre vivid cerise-red; blooms large, full, and of magnificent cupped form; first-class.
- Evelyn Dantesey (H.T.)**.—The blooms are beautifully pointed and of great depth, its petals turn back with that beautiful reflex similar to La France. The colour is a soft salmon, very distinctly stained carmine-rose, with deeper coloured centre.
- E. von Kesselstatt (T.)**.—Colour, creamy-white, edged with bright carmine; very distinct.
- Ferniehurst (H.T.)**.—The blooms are large and full. It is of vigorous upright growth. The colour is a glowing suffused pure rosy coppery-pink on fawn, a co-mingling of colour impossible to depict.
- Florence Haswell Veitch (H.T.)**.—Flowers brilliant scarlet shaded with black, large moderately full, of excellent shape, with fine stiff petals; of semi-climbing habit of growth. This variety is remarkable for the fragrance of the flowers and the profusion with which they are produced.
- Florence Pemberton (H.T.)**.—Creamy-white; a superb variety; vigorous grower, of free-branching habit; of phenomenal size; very full; perfect in form. This is beyond doubt a magnificent rose.
- Frances Charteris Seaton (H.T.)**.—The flowers deep rosy pink, very large, full and of fine form, and very sweet; unusually free and continuous in blooming; of vigorous growth.
- Frances Dubrioul (T.)**.—Velvety crimson, reflexed with cerise and amaranth; a very fine red Tea rose, with buds of great beauty.
- F. R. Patzer (H.T.)**.—The colour is creamy-buff, back of petal delicate warm pink; as the petals reflex the colour becomes light orange-pink, forming a most charming combination. A distinct and good rose for all purposes; especially valuable for exhibition.
- Frau Bürgermeister Kirchstein (H.T.)**.—Coppery-red, long, fine bud.
- Frau Lila Rautenstrauch (H.T.)**.—Coppery-orange buds, open flowers; rosy-flesh, shaded with reddish-orange.
- Frau Nicola Welter (H.T.)**.—Buds ochre-yellow, open flowers orange-yellow shaded with saffron; fine long buds and delicate tea rose scent; a free and continuous bloomer, especially in the autumn.
- Frau Therese Lang.**—Gleaming crimson, long pointed buds, very large, double, and perfectly formed flowers on upright stiff stalks; highly scented.

The Roses arrived in splendid condition and are coming along well.

19/8/13.

L. E. F., Tamworth.

SEARL & SONS ROSE PLANTS SYDNEY.

EVER-BLOOMING ROSES—continued

- Friedrichsruh (H.T.).**—G.D. blood red; large and full, flowers freely and continuously; compact habit; awarded gold medal at Dusseldorf.
- Friquet (T.).**—Very bright carmine, centre of petals sometimes lined with white.
- Gaston Cazalis (T.).**—Deep purplish crimson shaded with carmine, centre of flowers dark rose colour, of somewhat irregular form with reflexed petals.
- George C. Waud (H.T.).**—Possesses a shade of colour hitherto unknown amongst roses—a glowing orange-vermilion. The flowers are large, perfectly formed, with highly pointed centre. Flowers with great freedom.
- George Schwartz (T.S.).**—Bright, deep canary-yellow, very deep and rich in colour; large and fairly full.
- General MacArthur (H.T.).**—Flowers of the richest crimson, shaded scarlet, extremely vivid; large and of good form, and borne singly on stout stems; quite first-class.
- Gladys Harkness (H.T.).**—Salmon-pink; large and fragrant; of fine form; growth vigorous.
- Grace Darling (H.T.).**—Creamy-white, shaded peach, base of petals yellow; large, full, and of good form; a fine show rose, but rather a poor grower.
- Grace Molyneux (H.T.).**—Colour, creamy-apricot, flesh in the centre; the outer petals, when developed, are delicate creamy-white inside, with faint pink sheen on reverse. Delightfully tea perfumed.
- Grand Duchess Alexandra (H.T.).**—Kaiserin A. Victoria is a good rose, but Grand Duchess Alexandra promises to be a better. Both similar in colour; sweet scented, but the bloom is larger and the plant of more branching habit, stronger, and mildew-proof.
- Gruss an Sangerhausen (H.T.).**—Brilliant scarlet, crimson centre; flowers very large and full, most floriferous.
- Gruss an Teplitz (H.T.).**—Flowers large and cupped; very free and vigorous; colour, bright crimson-scarlet; a great acquisition.
- H. Armistage Moore (H.T.).**—The flower is of immense depth, with great shell petals, which are beautifully reflexed at the edges. The colour is a delightful shade of rosy-pink on the outside of the petals, the inside of the petals being a delicate silvery-pink.
- Harry Kirk.**—A splendid rose, flowering freely and continuously. The blooms are large, full, with large smooth petals of great substance; the form is perfect, the buds are long and elegant, colour, deep sulphur-yellow, passing to a lighter shade at edges of petals. Gold medal N.R.S.
- Hector Mackenzie (H.T.).**—Deep rose, shaded with silvery-carmine and crimson; very large, full, and globular; a good new rose.
- Helene Comblor (H.T.).**—Salmon-pink, with coppery base; large, exquisite shape, and very free-flowering.
- Helene Wattline (H.T.).**—White, with citron-yellow centre; fine long buds.
- Herzogin Victoria Adelheid (H.T.).**—Clear, bright red, large and full; form and habit of Madame Jules Grolex, but a little stronger in growth; fine for bedding and massing.
- Herzogin Maria Antoinette.**—Pure orange old gold, very long-pointed buds, deep orange, striped salmon and crimson. Very large flower of perfect form; sweetly scented.
- His Majesty (H.T.).**—Dark crimson; shaded deep vermilion, crimson towards the edges; flowers full and sweetly scented.
- Homere (T.).**—Pale rose, with salmon centre, petals bordered with with pink; full, and of good form, but not large; buds very pretty; growth vigorous.
- Honourable Ina Bingham (H.T.).**—A rose of enormous petals, which are of the purest pink, deeply veined; growth vigorous; blooms carried on rigid stems.
- Hugo Roller.**—The ground colour is rich lemon-yellow, the petals being edged and suffused with crimson; flowers of medium size, of good shape, and very freely produced throughout the season.
- Innocente Pirola (T.).**—Cream colour, almost white; large, full, and of good form; very fragrant.
- Instituteur Sirdry (H.T.).**—Buds yellow, open flowers pale yellow, growth vigorous.
- Irish Elegance (H.T.).**—Single. One of the most beautiful decorative roses grown; long buds of a coppery-salmon shade, very vigorous.
- Irish Engineer (H.T.).**—Single. A very distinct and robust growing rose, of dwarf habit; the colour is dazzling scarlet; very brilliant and attractive.
- Irish Harmony (H.T.).**—Single. A delicately sweet and beautiful rose, of vigorous growth and perfect branching character; flowering in the utmost profusion throughout the entire season; colour, cream, changing to white.
- J. B. Clarke (H.T.).**—Intense deep scarlet, heavily shaded blackish-crimson; growth sturdy and upright; foliage large, bronzy-green in the young stages. Is spoken of with admiration by all who have seen it. Awarded gold medal N.R.S.
- James Coey (H.T.).**—The plant possesses a good constitution; the colour is deep golden-yellow, edges of petals white; the flowers are medium size, fairly full. In the bud state the form is perfection, and colour a delightful shade of orange-yellow.
- Jean Note (H.T.).**—Chrome-yellow, changing to creamy-yellow, large, full, and globular; growth vigorous.

- Jean Pernet (T.).**—Bright yellow, changing to deep yellow; large and full; vigorous and free-flowering; one of the best yellow roses.
- Jonkheer J. L. Mock (H.T.).**—One of the finest of roses; flowers extra large, carried on stiff erect stems; sweetly perfumed, and of perfect formation; colour, carmine, changing to imperial pink. Awarded two gold medals.
- Joseph Hill.**—Salmon-pink, shaded with yellow and ochre, outside of petal coppery-pink; fine both in bud and flower.
- Jules Finger (T.).**—Rose, shaded salmon, changing to deep rose; very large and full; a fine show variety; growth vigorous.
- Juliet (T.).**—Outside of petals, old gold, interior rich rosy red changing to deep rose as the flowers expand. A very distinct and attractive novelty, blooming both in summer and autumn. Large and full, delicious fragrance, most beautiful.
- Kaiserin Augusta Victoria (H.T.).**—Pure white, centre slightly shaded with cream; large, very full and of perfect form; free-flowering and vigorous; one of the best.
- Kaiser Wilhelm II. (H.T.).**—Fiery red and crimson, growth upright. Has received several prizes and certificates in Germany.
- Killarney (H.T.).**—Very free and perpetual; large, long, pointed buds; flesh tinted white and pink.
- Konigin Carola.**—A seedling from Caroline Testout, with extra large silvery rose-coloured flowers.
- Kronprinzessin Victoria (Bourbon).**—Best described as white Malmaison.
- Lady Alice Stanley (H.T.).**—Deep coral rose, inside pale flesh, slightly flushed deeper flesh; blooms large and full; fragrant.
- Lady Ashdown (H.T.).**—Buds beautifully pointed; petals very large, smooth, and of great substance; colour, very pale Rose du Barri, shading to yellow at base of petals, reflex of petals silvery-pink. Awarded several First-class Certificates.
- Lady Barham (T.).**—Growth robust, flowers large, full, with immense shell petals, colour, deep coral flesh pink; fine form and sweetly scented.
- Lady de Bathe (H.T.).**—A good exhibition variety of strong, sturdy growth; flowers large, full, and well formed; colour, creamy-white, with peach shading in the centre of the blooms.
- Lady Battersea (H.T.).**—Beautiful cherry-crimson, with orange shading; long, pointed bud.
- Lady Greenall (T.).**—Growth robust, flowers large, with high-pointed centre, colour, intense saffron orange, heavily zoned on deep creamy-white, reverse of petals flushed copper pink; very free and good.
- Lady Hillington (T.).**—Orange-yellow, long buds; fine exhibition rose.

Any Six Roses from this List for 5/6 post free

- Lady Roberts (T.).**—Reddish-apricot, the base of the petals coppery-red; large, full, and of good shape.
- Lady Pirrie (H.T.).**—A most delightful rose, reddish-salmon, inside of petals apricot-yellow, flushed fawn and copper; vigorous.
- Lady Rossmore (H.T.).**—Growth vigorous and erect, flowering freely and continuously throughout the season; the petals are large, smooth, and of great substance; colour, reddish-crimson.
- Lady Ursula (H.T.).**—The petals are unusually large, smooth, circular, and of great thickness; colour, a delightful shade of flesh pink, and thoroughly distinct.
- L'Innocence (H.T.).**—A white seedling from Caroline Testout; one of the most prolific bloomers, and most useful for florists' work; splendid bushy habit.
- Leslie Holland (H.T.).**—The growth is upright, vigorous and free-branching. The colour is deep scarlet crimson, heavily shaded deep velvety crimson.
- La France (H.T.).**—Pale peach colour, reverse of petals deep rose; large, full, and well formed; very free and fragrant; growth vigorous.
- La Tosca (H.T.).**—Vigorous, good habit; strong and erect stalk; large, well-shaped, solitary flower; soft blush white.
- Laurent Carle (H.T.).**—Vigorous fine dark green foliage, large flowers borne on long stems, of perfect form, brilliant velvety-carmine.
- Le Progres (H.T.).**—Large golden-yellow buds, changing to nankeen and pale yellow as the flowers expand. Very large, full, and cupped; opening well.
- Liberty (H.T.).**—Brilliant crimson; large, and of beautiful elongated form. It is a steady and constant bloomer; not a strong grower.
- Lieutenant Ozren Leovics (H.T.).**—Flesh colour, reverse of petals slightly coppery, buds coppery-rose; large, moderately full, opening well; growth vigorous.
- Lord Tarquin (T.).**—Pale flesh colour; very free-flowering; one of the best.
- Lyon-Rose.**—Buds coral-red, tinted with chrome-yellow at the base, open flowers, shrimp-pink at the edges of the petals, with centre of coral-red; large and broad petals; perpetual flowering; inclined to die back.
- Ma Capucine (T.).**—Bronzy-yellow; beautiful in the bud, but almost single when expanded; growth moderate.
- Ma Tulipe (H.T.).**—Flowers fine deep crimson, semi-double, with large, stiff petals like a Tulip; fine for cutting; growth very vigorous.
- Madame Abel Chatenay (H.T.).**—Pale flesh, shaded rose, good form, stiff petals, bold flower; vigorous.

Received the packet of Roses from you, which I found beautifully packed, and I was very pleased with contents.—Yours sincerely,
6/9/13. Mrs. A.E.L., Inverell.

SEARL & SONS ROSE PLANTS SYDNEY.

EVER-BLOOMING ROSES—continued

- Mabel Drew (H.T.).**—The colour is deep cream in the young state, passing to intense canary-yellow in the centre as the bloom develops.
- Madame Antoine Mari (T.).**—Ground colour rose, freely washed and shaded white; very handsome buds, which open well, and free from mildew.
- Madame Augustine Guinnoisseau (H.T.).**—Outer petals creamy-white, sometimes shaded light pink, centre soft flesh colour; large, full, and of excellent form; growth vigorous; a sport from the well-known rose, La France.
- Madame Caroline Kuster (T.).**—Light yellow, centre deeper and sometimes coppery; large, full, and globular; abundant bloomer.
- Madame Caroline Tesout (H.T.).**—Deep, bright, fleshy rose; in the way of La France, but not so full, and of much darker colour; petals immensely large and incurving; very free-flowering and of vigorous growth.
- Madame Charles (T.).**—Rich apricot in the bud, opening to fawn, large bud; fairly full; vigorous.
- Madame la Comtesse de Caserta (T.).**—Coppery-red; large thick petals not very full; superb for bouquets.
- Madame Constant Soupert (T.).**—Large blooms, well-formed; colour, deep apricot, shaded peach; very fine.
- Madame Dorepas Matrat.**—Sulphur-yellow; blooms very large; full, splendid form, freely produced.
- Madame Edmee Metz (H.T.).**—Very free; rosy salmon-pink; fine, especially in autumn, and mildew-proof.
- Madame P. Euler (H.T.).**—Silvery vermillion rose, a beautiful shade of colour; very large, very full, and lasting long in good condition, growth vigorous, good.
- Madame Segond Weber (H.T.).**—A grand rose in every sense; petals large and firm; habit of growth all that could be desired; colour, rosy-salmon.
- Madame Valerie Baumez.**—Rosy-white, centre cream-yellow, edged rosy-carmine, large bloom, and of vigorous growth.
- Madame Vermorel (H.T.).**—Rose and coppery-yellow centre, shaded and lined with red.
- Madame de Watteville (T.).**—Creamy-white, each petal edged with rose like a tulip; large and full; stout petals; quite distinct; fragrant.
- Mademoiselle Christine de Nougé (H.T.).**—Very large, full, and good form; rosy-lake; outer petals darker and shaded with purple; a vigorous grower.
- Mme. Ellie Lambert (T.).**—Large, full, and well-formed; beautiful flesh-rose, passing to satiny-white at edge of petals; very free and sweet.

Any 12 Roses from this List
for 10/-, or 11/- post free

- Madame Eugene Resal (China).**—Flowers variable, ranging from coppery-red to bright China rose on orange ground. The most beautiful blending of colours we have seen.
- Madame Falcot (T.).**—Deep apricot-yellow, centre deeper; large and fairly full; very beautiful in the bud; free-flowering and of vigorous habit.
- Madame Gamon.**—Apricot colour, shaded with blush red, golden-yellow in the centre; flowers large and full.
- Madame G. Serrurier (T.).**—Creamy-white, tinted with rose, large camellia-shaped flowers; a seedling from G. Nabonnand.
- Madame Henri Berger (T.).**—China rose colour; long pointed bud, opening to large, full flower; very sweetly scented.
- Madame Jean Dupuy (T.).**—Rosy-yellow, changing to creamy-white and yellow towards the margin, outer petals edged with rose.
- Madame Jenny Guillemot (H.T.).**—Deep saffron-yellow, very fine, blooms large, petals very smooth.
- Madame Joseph Schwartz (T.).**—White, sometimes tinged rose; medium size and fairly full; exceedingly free-flowering; growth vigorous. This variety might be best described as a white Comtesse Labarthe.
- Madame Jules Grolez (H.T.).**—Brilliant China rose; very free; large shell-shaped petals; long, handsome bud; branching habit; highly scented.
- Madame J. W. Budde.**—Bright carmine, keeping its colour well; long, pointed buds, developing into well-shaped flowers, growth vigorous.
- Madame Lambard (T.).**—Salmon-rose, shaded pink; large, full, and of good form; exceedingly free-flowering, and of vigorous habit; one of the best garden roses.
- Madame Louis Laurens (T.).**—Deep red, reflexed magenta.
- Madame Melane Soupert (H.T.).**—A good grower; hardy habit, large, fairly full, flowers golden-yellow suffused with pink.
- Madame M. G. Martin (H.T.).**—A very bright rose colour, of good vigour and great freedom, should prove a good florist rose.
- Magnafrano (H.T.).**—Deep rosy-carmine; fine bold flower, with thick petals, produced singly on stout stems.
- Maman Cochet (T.).**—Flesh-coloured rose sometimes shaded carmine, sometimes salmon-yellow; large, full, and well-formed; buds long and handsome; a first-class variety.
- Marchioness of Waterford (H.T.).**—Very large, full, and beautifully formed, petals nicely reflexed at the edges, colour, brilliant salmon-pink on the outside of the petals, inside of the petals silvery blush.

- Margaret (H.T.).**—A very clear and delicate tint of soft pink; buds long and handsome, developing into large, stiff-petalled flowers, the outer petals being nicely reflexed; of good lasting quality; dwarf.
- Margaret Molyneux (H.T.).**—Semi-double. The colour is as novel as beautiful, varying from saffron-yellow, shaded bronzy-carmine in the bud stage, to delicate salmon-pink as the blooms age and expand.
- Marguerite Guillott (H.T.).**—Creamy-white, changing to pure white as the flowers open; very large, full, and globular.
- Marguerite Gigandet (T.).**—Coppery-yellow, reflexed with gold and tinted with red, especially in the centre; very large and full.
- Marie Van Houtte (T.).**—Very pale yellow, generally edged with rose; large, full, and well formed; a good old variety.
- Mark Twain (H.T.).**—Colour, rich imperial pink; similar in form to Belle Siebrecht, but more vigorous.
- Marquis de Monstier (T.).**—Ivory white, very large, extra full, large oval buds.
- Marquise de Ganay.**—Vigorous. Silvery rose; extra large; finely scented.
- Marquise de Sinety (H.T.).**—Buds carmine ochre, open flowers ochre-yellow tinted with red, changing paler with age; large, moderately full, of cupped form.
- Marquise de Vivens (T.).**—Bright rose, centre shaded yellow, long pointed bud, not full; very free and fragrant.
- Mary, Countess of Ilchester (H.T.).**—Warm crimson-carmine. It possesses unusually free and continuous blooming qualities; the flowers are of great size, with large, massive petals, which are very smooth and circular.
- Maurice Rouvier (T.).**—Pale fleshy rose, veined deep rose, centre darker; large and full.
- May Kenyon Slaney (H.T.).**—Blush pink, shaded with cream; large and full.
- Mayflower (T.).**—Creamy-white, with lower edge of lavender pink about each petal, pointed buds, long wiry stems.
- Medea (T.).**—A very large globular flower, very full and well formed; lemon-yellow, canary centre; vigorous grower and free bloomer.
- Meta (H.T.).**—Crushed strawberry colour, suffused with saffron, base of petals coppery-yellow; long, pointed buds.
- Melody.**—The blooms are beautifully formed and strongly perfumed; the colour is an intense pure deep saffron-yellow, with primrose edges. 1s.
- Mildred Grant (H.T.).**—Enormous flower, on strong, firm stalk; fine form, with magnificent guard petals, pale rosy-white; a very fine rose.
- Miss Alice de Rothschild (T.).**—The colour is rich, deep, citron-yellow. The flowers are very large, full, and of perfect form. The growth is vigorous and erect, free and continuous in bloom.
- Miss Muriel Jamison (T.).**—A single flowered variety; deep orange colour; a dainty decorative rose.
- Mme. Jules Bouche.**—Salmon white, centre shaded virginal pink, large, full, good form, hard petals.
- Molly Sharman-Crawford (H.T.).**—The blooms, which are very large and full, are perfectly formed, with a high-pointed centre. The colour is delicate eau-de-nil, which, as the flower fully expands, becomes dazzling white.
- Morning Glow (H.T.).**—Flowers bright rosy-crimson, richly suffused with orange and fawn; a brilliant and fascinating combination of colours.
- Mrs. A. Byass (Decorative Tea).**—Colour, madder rose, shaded with crimson, and occasionally beautifully mottled with pale rose and white; growth vigorous.
- Mrs. A. M. Kirker (H.T.).**—Clear, bright cerise, flowers very large full, and well formed; petals of great substance.
- Mrs. Amy Hammond (H.T.).**—The colour is a blend of ivory and amber shading. It is an extraordinary long and deep-pointed flower, probably the most perfect shaped rose in cultivation. 1s. 6d.
- Mrs. Arthur E. Coxhead.**—Vigorous. Claret red, shaded vermillion, large, full, well formed flowers, freely and continuously produced, very good.
- Mrs. A. R. Waddell (H.T.).**—Although this is classed as an H.T., we should be inclined to put it amongst the T.'s. Very long buds of a reddish-salmon tint; a wonderfully good grower, producing a large quantity of beautiful buds.
- Mrs. A. Ward (H.T.).**—Long buds borne on rigid erect stems, in shape like C. Mermet; flowers are large and full, colour, indian-yellow sometimes washed into salmon-rose.
- Mrs. B. R. Cant (T.).**—Deep rose on the outer petals, and in the autumn frequently a rich red; inner petals of soft silvery rose, suffused with buff at the base; of good substance and symmetrical in form. A hardy variety and vigorous grower.
- Mrs. Chas. Curtis Harrison.**—Deep crimson pink on front of petals, crayoned deep crimson carmine on reverse side; blooms large, full, and globular; free-flowering.
- Mrs. Charles E. Allan (H.T.).**—The buds are long and pointed, opening pale orange, gradually changing as the flower expands to clear ochre, and yellowish buff with age.
- Mrs. Cornwallis-West (H.T.).**—The purity of the transparent delicate pink on the purest white, gives it an attraction of its own that it is difficult to convey. It is a vigorous grower.
- Mrs. David Jardine (H.T.).**—A most charming rose. The blooms are of very large size and perfect form. The colour is a delightful shade of bright rosy-pink, shading in the outer petals to salmon pink.
- Mrs. David McKee (H.T.).**—A superb variety of strong and robust growth and erect branching habit, with large handsome foliage. Awarded gold medal of the N.R.S.
- Mrs. Dudley Cross.**—Pale chamois yellow, in the way of Marie Van Houtte, but the flowers are larger, fuller, and of better habit.
- Mrs. E. G. Hill (H.T.).**—Coral red, with white centre; flowers large and full, strong growth.

EVER-BLOOMING ROSES—continued

- Mrs. E. Mawley (T.).**—Colour, the richest salmon-rose; flowers very large and full; very high centre.
- Mrs. E. Townshend (H.T.).**—Pale chamois-rose, reverse of petals orange-carmine shading to rosy-flesh at their edges; large, full, globular.
- Mrs. Edward Powell (T.).**—Uniform velvety crimson-red, buds scarlet purple and of wonderful form, large, splendidly imbricated flower; very highly recommended.
- Mrs. Foley-Hobbs (T.).**—The growth is robust. It is a veritable giant amongst Teas; colour, delicate ivory white, faintly tinged clear pink on the edges of the petals.
- Mrs. Frank Workman (H.T.).**—Large, full and beautifully reflexed, flowers of true Camellia form. Deep, clear, bright rose-pink, of even shade throughout; an ideal exhibition flower.
- Mrs. Fred. Straker (H.T.).**—The blooms are produced in most extraordinary profusion throughout the entire season; the colour in the young flower is orange-crimson; as the bloom develops it becomes silvery fawn.
- Mrs. George Preston (H.T.).**—The blooms are very large, full, and of globular form; the petals, which are of immense size and substance, are smooth and circular. The colour is a very warm silvery rose-pink.
- Mrs. George Shawyer (H.T.).**—Similar in colour to Madame Jules Grolez, but a larger flower with longer and stiffer stems.
- Mrs. G. W. Kershaw (H.T.).**—Vigorous. The blooms, which are very large, full, and of perfect form, with highly-pointed centre, are continuously produced in the greatest profusion throughout the season. Its colour is a glowing deep rose-pink.
- Mrs. Harold Brocklebank.**—The growth is robust; the blooms, which are produced on erect footstalks, are large, full, and of perfect formation and sweetly perfumed; the colour is creamy-white, centre buff, base of petals soft golden yellow.
- Mrs. Harvey Thomas (H.T.).**—Very floriferous, blooms large, full, and well-formed; buds long; colour, carmine shaded coppery-red, base of petals canary-yellow; very beautiful.
- Mrs. Hubert Taylor (T.).**—The colour, which is very beautiful and distinct, is shell pink, the edges of the petals being ivory white. Exceptional merit and distinctiveness, producing flowers of the highest exhibition standard, and is strikingly free and continuous in bloom. Gold Medal, N.R.S.
- Mrs. James Wilson (T.).**—Large, full, and well-formed; colour, intermediate between The Bride and Marie Van Houtte; very free-flowering.
- Mrs. James White (H.T.).**—The flowers, which are of medium size, and open freely in all weathers. The colour is a deep, rich, crushed-strawberry pink.
- Mrs. Joseph H. Welch (H.T.).**—Colour, rich brilliant pink. It is without doubt the largest rose in cultivation, and for show purposes has no equal.
- Mrs. Leonard Petrie (H.T.).**—The flowers are large, full, and very smooth; the colour is honey-yellow, with delicate claret smear on back of the outer petals, becoming, as the blooms expand, pale sulphur-yellow.
- Mrs. Myles Kennedy (T.).**—Vigorous. Its colour is a delicate aqueous silvery-white, shaded buff; deeper pink in centre. Altogether a glorious flower. Awarded N.R.S. Gold Medal.
- Mrs. Robert Garrett (H.T.).**—An improved Mde. Caroline Testout, but of better habit; long, pointed buds.
- Mrs. Stephen Tressider (T.).**—Lemon-yellow; sport from Anna Oliver. It has all the good qualities of Oliver, and will prove a good exhibition flower. A lovely rose in every way.
- Mrs. Stewart Clark (H.T.).**—The colour is very difficult to describe, varying from bright cerise-pink to brilliant rose or cherry-pink, with a distinct zone of white at the base of each petal. Fragrant.
- Mrs. Wakefield Christie Miller (H.T.).**—Soft, pearly blush salmon-pink, outside of petal clear vermilion rose; large and full.
- Mrs. Walter Easlea (H.T.).**—The petals are very massive, smooth and circular; the colour is a glowing crimson-carmine.
- Mrs. Wilfred Lloyd (H.T.).**—The flowers, which are produced profusely, are large, full, and globular, perfect in form, and with delightful reflexes; the colour is a lovely bright rose-pink.
- Mrs. William Cooper (H.T.).**—The beautifully formed flowers are deep rosy-flesh colour in the centre, paling towards the edges of the outer petals to delicate blush. Sweetly perfumed.
- Muriel Graham (T.).**—Pale cream, faintly flushed with rose. A sport from Catherine Mermet, which it resembles in growth and character.
- Natalie Bottner.**—Delicate cream yellow; a flower of wonderful finish in the way of Kaiserin. 1s.
- Niphetos (T.).**—Pure white or pale lemon; very long, beautiful bud.
- Nita Weldon (T.).**—The colour, which is distinctly unique, is an ivory-white, with the edges of each petal faintest blush. Awarded the Gold Medal of the N.R.S.
- Oberhofgartner Terks (H.P.).**—A seedling from Belle Siebrecht and La France; blooms extra large and full; buds long and pointed; colour, rosy-flesh, shaded carmine.
- Otto Von Bismarck (H.T.).**—Colour of La France and habit of Caroline Testout; a fine new rose that received a prize of 3,000 marks (£150) offered by a German horticultural journal for the best new rose.
- Papa Gontier (H.T.).**—Semi-double; very large petal; bright rose, reverse rosy-crimson; fine well-formed bud.
- Paul Lede (H.T.).**—Superb carmine-rose, shaded with yellow; very large, full, and cupped.
- Paul Nabonnand (T.).**—Satiny-rose, veined with peach; large, full, and well-formed.
- Peace (T.).**—Pale lemon-yellow; bud very long and pointed; flowers large, full; growth vigorous; very floriferous.

- Penelope (T.).**—It is unusually prolific in its wealth of blooms; being constant in flower, each bloom being carried singly; the flowers are unusually firm, and of good substance, lasting well when cut. They are high-pointed and solid. Lower half or base deep reddish-crimson, while the centre is a lovely cream-white, similar to the White Maman Cochet.
- Perle de Lyon (H.T.).**—Rich golden-yellow; very large and full; centre orange-yellow.
- Perle Von Godesburg (H.T.).**—Pale yellow; sport of Kaiserin A. Victoria.
- Perle des Jardins (T.).**—Deep canary yellow; very large bud; of globular and good habit; free flowering; one of the best.
- Perle des Jaunes (T.S.).**—Fine golden-yellow, centre strongly shaded with copper; large and full. Received first-class certificate at Lyons.
- Pharisaer.**—Vigorous. Rosy-white, shaded salmon; large, full, long-pointed flowers, produced in great profusion; a splendid garden rose, and an ideal bedder.
- Pie X. (H.T.).**—Large, very full flower; white, suffused pale pink, with a vivid rose edge.
- Portia (H.T.).**—Flowers pale rose, base of petals and centre of flower shaded yellow; very free in flowering; an excellent exhibition flower.
- Prefect Montail (H.T.).**—Rich lemon-yellow petals, edged and suffused crimson, somewhat similar to Hugo Roller, but stronger.
- President W. H. Taft.**—Vigorous free-branching growth, with large, full flowers carried on stiff erect stems; colour, clear salmon pink; flowers well formed, with pointed centre.
- President Taft (H.T.).**—Vigorous deep brilliant scarlet crimson, medium size and very double, a fine crimson for bedding, very free.
- Prince de Bulgarie (H.T.).**—Silvery flesh, very delicately shaded with salmon; long bud, opening to full, cup-shaped flower; a distinct and very charming variety.
- Prince Engelbert Charles D'Arenberg.**—Fiery brilliant scarlet, shaded purple; large perfectly-formed flower, with large massive petals, buds finely formed; erect and vigorous.
- Princess Bonny (H.T.).**—Beautiful bright rose; very free-flowering and sweetly scented; a splendid rose.
- Princess de Sagan (T.).**—Velvety crimson, with purplish shade, and reflexed with amaranth; of medium size; beautiful bud in autumn.
- Prinzessin E. von Ratibor (T.).**—Blood-red buds, shaded off to dark velvety-red; perpetual-flowering and a superb variety.
- Queen of Greece (T.).**—Flowers deep, soft rose pink, shaded yellow; quite a distinct colour.
- Queen of Spain.**—Pale flesh colour, darker in the centre, flowers carried on stout stems, very full, of excellent form. A grand show and garden variety. Awarded the Gold Medal of the N.R.S.

FOR LIST OF NOVELTIES

See Coloured Pages

- Rainbow (T.).**—A sport from Papa Gontier; bright red, striped pale pink; variable; large, but not full; free-flowering and vigorous.
- Rayon d'or.**—Yellow cadmium as the bloom begins to open, toning to sunflower yellow when fully expanded. Fine bronze-green foliage, glossy and absolutely immune from the attacks of mildew. Flower large, full, of fine globular form. Superb.
- Reine Marguerite D'Itale (H.T.).**—Bright carmine, centre shaded with vermilion; very large and full; of good form and habit; flowers produced continuously and in great profusion; growth vigorous.
- Rhea Reid (H.T.).**—Flowers red, large and fragrant, free and continuous in blooming, with a good constitution.
- Richmond (H.T.).**—Colour, pure red-scarlet; very free-flowering; splendid.
- Rose d'Evian (H.T.).**—Buds magenta, opening flowers inside petals carmine, outside rose; large, full, and cupped petals of great substance.
- Rose du Barri (H.T.).**—An exceedingly free and perpetual flowering bedding variety; the colour is denoted by the name, it being a pure Rose du Barri.
- Rucuerdo de Antonio Peluffo (T.).**—Clear yellow shaded pink, very large, full, and of elegant form; it is extremely vigorous and free-flowering.
- Safrano (T.).**—Deep apricot, changing to fawn when expanded; splendid winter bloomer.
- Safrano Fleurs Rouges (T.).**—(Red Safrano).—Salmon-red, shaded yellow; fairly large, but not full; buds long and handsome; best in autumn and spring; desirable for cut flowers.
- Senateur Belle (H.T.).**—Vigorous; large, globular, full flower; colour, salmon-pink, with dark yellow centre.
- Sheila Wilson (H.T.).**—Vigorous growth, will make an excellent pillar. A single rose of much beauty, with large, well-shaped petals.
- Simone Beaumez (H.T.).**—Pale bluish white, with orange centre, a large full flower, with grand petal, borne on a long erect stem; vigorous and most excellent.
- Simplicity (H.T.).**—Flowers almost single, pure white, and of large size for a single rose; growth upright and branching.
- Souvenir d'un Ami (T.).**—Salmon rose; large and fairly full.
- Souvenir de Auguste Legros (T.).**—Bright red, shaded deep crimson; large, full, and of perfect form; buds long and handsome; free-flowering and vigorous.

EVER-BLOOMING ROSES—continued

- Souvenir de Catherine Guillot** (T.).—Colour, orange-red, tinted carmine on yellow ground; an exceedingly beautiful combination of colours.
- Souvenir d'Elise** (T.).—Creamy-white, with yellowish centre, petals sometimes rosy-edged; large and full.
- Souvenir de Gustav Prat** (H.T.).—Pure sulphur-yellow, long oval buds; very free-flowering.
- Souvenir de la Malmaison** (B.).—Pale flesh, with deeper centre; very large and full; continuous bloomer.
- Souvenir de Madame Pernet** (T.).—Salmon-rose, base of petals shaded yellow; large, fairly full, and of fine cupped form; very free and a vigorous grower.
- Souvenir de Mad. Sabyrolles** (T.).—Rosy-apricot, shaded yellow, slightly edged carmine; stout petals, large globular flowers; vigorous.
- Souvenir de Pierre Notting** (Tea-scented).—Fine, apricot-yellow, washed with golden-yellow, and shaded with orange; very large and full, opening well. It has received several gold medals.
- Souvenir de President Carnot** (H.T.).—Rosy-flesh, shaded with white at edges of petals; good form; a fine free-flowering addition to this class.
- Souvenir du Rosieriste Rambaux** (T.).—Creamy-yellow; edged carmine-rose, medium size; cupped and fragrant.
- Souvenir of Stella Gray**.—The flowers are of medium size, perfectly formed and most freely produced. The predominating tone is deep orange, with slashes or veination of yellow, apricot, salmon and crimson.
- Souvenir de Louis Perrier** (H.T.).—Vigorous and free growth; flowers very large, full, and carried on rigid stems; colour, deep rose, shaded yellow, reverse of petals silvery-rose.
- Souvenir de Therese Levet** (T.).—Dark crimson, outer petals shaded maroon; large, full, and of good form; one of the darkest roses in this class; growth moderate.
- Souvenir de Victor Hugo** (T.).—Light china rose, centre yellowish, outer petals shaded carmine; large and full.
- Souvenir de W. Robinson** (T.).—This rose varies greatly in colour—sometimes pink, sometimes orange-red; very pretty and distinct.
- Souvenir de Witten** (H.T.).—Bright red, uniform colour; large and fairly full; free-flowering; growth moderate.
- "Star of Queensland"** (H.T.).—Colour, very rich deep velvety crimson, shaded with maroon, and a lovely sheen. Reverse of petals cardinal to cerise; petals of good substance, lasting well when cut; sweetly scented.
- Sulphurea** (T.).—Flowers bright sulphur-yellow, distinct and striking; plant hardy, of good habit.
- Sunset** (T.).—Deep apricot; large and full; good in all stages. Sport from *Perle des Jardins*; freer bloomer than that variety.
- Sylph** (T.).—Flowers ivory-white, tinted peach colour; large, high centre; deep, stiff petals; erect habit. A grand exhibition rose.
- The Bride** (T.).—White, sometimes with a greenish tinge, sometimes tinted rose; large, full, and of excellent shape; one of the finest white roses in cultivation.
- The Meteor** (H.T.).—Rich dark velvety crimson; full and of good form; free-flowering and vigorous, but does not always open well.
- The Queen** (T.).—Pure white; large and fairly full; buds long and handsome; growth vigorous; a sport from *Souvenir d'un Ami*.
- Theresa**.—As the flower expands it becomes veined flesh pink passing to silvery; the flowers, which are semi-double, are produced continuously in the greatest profusion.
- Triomphe de Angers** (H.T.).—Deep crimson, shaded maroon; large, full, and of good form; very free-flowering; growth moderate.
- Triomphe de Pernet Pere** (H.T.).—Light red; large, full, and free.
- Veluwezoom** (H.T.).—Deep, bright carmine-rose, centre shaded with golden-yellow; large and full.
- Viscount Carlou** (H.T.).—The colour is warm, carmine-pink, stained on deep cream; the stiff, shell-shaped petals, whilst developing, being distinctly edged carmine.
- Viscountess Folkestone** (H.T.).—Uniform creamy-pink; very large, full, and globular; very effective, free-blooming and exceedingly sweet; vigorous grower.
- Walter Speed** (H.T.).—The colour is lemon-yellow, which as the flower develops becomes milky-white. A very beautiful and thoroughly distinct rose of the *Antoine Rivoire* type. A truly superb rose.
- Warrior** (H.T.).—Buds blood red, long and handsome; flowers opening vivid scarlet crimson, large, double, and with broad handsome petals loosely displayed as the flower expands; growth very vigorous; a grand decorative rose.
- White Killarney** (H.T.).—A sport from the well-known pink-flowered variety of Killarney; American origin, highly thought of in U.S.A.
- White Lord Tarquin** (T.).—A pure-white sport from Lord Tarquin; a constant bloomer.
- White Maman Cochet** (T.).—In every respect equal to the now celebrated Pink Maman Cochet; cream rather than white.
- William Sheen** (H.T.).—Vigorous. Its colour is the purest pink, with delicate ochrey veination. A rose that will delight the heart of the most ardent connoisseur, as we can compare it with no bloom in the rose world. Gold Medal N.R.S.
- W. E. Lippiatt**.—Brilliant velvety crimson, shaded maroon, most distinct. The blooms are large, full, symmetrically formed, with high-pointed centre and very strongly perfumed, growth vigorous and of free-branching habit.
- W. R. Smith** (T.).—The growth and habit are a distinct advance on Maman Cochet, one of its parents, and in foliage it is much the handsomest of this section. The colour is creamy-white, flushed and suffused with bright rosy-pink.
- Yvonne Vacherott** (H.T.).—Porcelain-white, strongly marked with pure pink; large pointed bud on stiff stems, opening to large flowers.

Climbing Roses

1s. each, 10s. per doz.,
post free 11s.

- Ards Pillar** (H.T.).—Garden and pillar rose. The blooms are produced with great freedom, and are large, full, and of cupped form; petals very large and smooth; rich velvety crimson.
- Ards Rambler**.—The blooms are of perfect form, smooth, and possessed of great substance; the colour is a velvety orange-crimson, shading to rosy-carmine at the base of the petals; perfumed. A grand climbing rose.
- Ards Rover** (H.P.).—Probably the finest dark climbing Rose extant; deep crimson, shaded maroon; perfect shape; a climber as dark as Prince C. de Rohan.
- Bardo Job** (H.T.).—Bright crimson; large, but not full.
- Beaute de l'Europe** (H.T.).—Deep yellow, reverse coppery; large, full, and shapely.
- Belle Siebrecht** (H.T.).—Deep rose; long, pointed buds; large, fairly full; one of the best.
- Billard and Barre** (H.T.).—Large flowers, with stout petals; colour, rich golden-orange.
- C. Johanna Sebus** (H.T.).—Bright cherry carmine, with yellow globe in centre; very distinct scent; vigorous grower; good exhibition and garden variety.
- Capt. Christy** (T.).—Flowers similar to the dwarf variety.
- Celine Forestier** (N.).—Pale yellow, centre as a rule coppery-yellow; large and full; free-flowering and vigorous.
- Cheshunt Hybrid** (H.T.).—Brilliant cherry-carmine; very large, full, and well-formed; highly scented, but not very continuous bloomer.
- Climbing Caroline Testout** (H.T.).—A climbing form of the beautiful and popular variety *Caroline Testout*.
- Climbing Frau Karl Druschki** (H.T.).—A climbing form of the well-known White rose, which has been such a favourite these last few seasons, and is generally regarded as one of the best varieties in cultivation.
- Climbing Liberty** (H.T.).—This splendid climbing sport from Liberty will be welcomed by all; growth similar to Ards Pillar; colour, the most dazzling crimson.
- Climbing Prince Camille de Rohan**.—Is a climbing sport from that old favourite Prince Camille de Rohan; flowers identical with the parent, being of that deep velvety crimson so generally admired, that further description is needless.
- Climbing Maman Cochet**.—A strong climbing sport from the general favourite bush variety; flowers similar.
- Climbing Reine Victoria**.—Is a sport from Reine Victoria. The colour is brilliant rose of the most perfect form, marvellously free-blooming, of strong and robust growth; should be in every collection of climbing roses.
- Climbing White Maman Cochet** (H.T.).—The flowers are identical with the lovely dwarf variety. The habit of the plant as a climber is certainly all that could be desired. It is all that has been said of it, being without shadow of doubt the best white climber.
- Cloth of Gold** (N.).—Pale sulphur-yellow, centre deeper; large, full, and well-formed; free-flowering and vigorous.
- Comte de Torres** (H.T.).—Outer petals salmon-white, centre coppery salmon-yellow slightly tinted with rose; growth climbing.
- Comtesse Labarthe** (T.).—A strong climbing sport of the old bush variety. For covering arches, fences, or training up verandahs it will prove a valuable acquisition.
- Devonensis** (T.S.).—Creamy-white, blush centre; large, full, and finely shaped; very free-flowering and extremely vigorous.
- Duchesse de Auerstadt** (T.S.).—Yellow, centre deep nankin; large, full, and of fine cupped form; free-flowering and vigorous.
- England's Glory** (Climbing H.T.).—Strong climbing, Dijon habit; large, very full, salmon-pink flowers; very distinct.
- E. Veyrat Hermanos**.—A most distinct rose of strong climbing habit; apricot and carmine, reflex with deep red; sweet scented.
- Gloire des Blanches** (Climbing).—Pure white; large, full, and globular.
- Gloire de Dijon** (T.).—Buff, shaded salmon, centre orange; large, full, and well-formed. Most suitable for cool districts.
- Gloire de Limbourn** (T.).—Bright canary-yellow, centre salmon-yellow; large, full, and of good form.
- Grand Duc Ludwig**.—Carmine-red; shaped like Marechal Niel; good climber; sweet scented.
- Italia**.—A seedling from La France de 89, of vigorous growth and good habit and foliage, reverse of petals carmine-rose, centre bright silvery salmon-rose.
- James Sprunt**.—Very rich scarlet-crimson; large, full, globular; blooms in clusters; sweet; Bengal.
- Josephine Violet** (T.).—Outer petals pale cream, centre coppery-rose.
- Kaiserin Augusta Victoria** (H.T.).—A climbing sport from the dwarf of the same name; of extra vigorous growth, and without doubt the best climber of its colour; creamy-white.
- La France de 89** (T.).—Brilliant rosy-red; very large and free flowering; very sweetly scented; good pillar rose.
- Lady Waterlow** (H.T.).—Pale salmon rose, edged with carmine; large semi-double flowers.
- Lamarque** (N.).—White centre, tinged with yellow; medium size; full; blooms in clusters; free.
- L'Idéal** (N.).—Coppery-rose and yellow; with deeper shades and stripes; variable; producing beautiful buds of the Ma Capucine type. Said to be a seedling from Wm. Allan Richardson.
- Mad. Andre Duron** (H.T.).—Clear cherry-red; large, fairly full, fine foliage; vigorous.
- Madame Berard** (T.).—Salmon-rose, shaded yellow; large, full, good shape, free, nearly thornless.
- Madame Charles Monnier** (T.).—Rosy-flesh, centre yellow and orange; in the autumn the blooms are entirely yellow and orange; large, full flowers; very free.

CLIMBING ROSES—continued

Madame Joseph Combet (H.T.).—Creamy-white; blooms large and full, with well arranged petals; foliage thick and glossy; growth vigorous. The wood has the peculiarity of being absolutely thornless.

Madame Jules Graveaugh (Clb. T.).—Buff white, shaded peach and yellow; very large, good shape; very free-flowering.

Mad. Wagram Comtesse de Turenne (H.T.).—A beautiful climber; flowers of a satin-rosy colour, a new colour in climbers; vigorous and free; very good.

Madame de Watteville (T.).—A very vigorous climbing form of this beautiful Tea; particularly free and good, producing flowers even larger than the type.

Mamie (H.T.).—Rosy-carmine, with a distinct yellow zone at base of petals; the blooms are very large, full, and perfectly formed, with a high pointed centre.

Marechal Neil (N.).—Rich golden-yellow; very large, globular, full; exceedingly fragrant; unrivalled as a climber.

Meteor (H.T.).—The Climbing Meteor is identical with the original dwarf variety in colour, but has a strong climbing habit, and produces abundance of flowers.

Mons. Desir (H.T.).—Velvety-crimson shaded violet; very fragrant.

Mrs. C. Guilfoyle (T.).—A seedling from Madame Berard, which it very much resembles, but of a more pleasing shade; thornless.

Niphetos (T.).—Pure white, long buds; free-flowering. A sport from Niphetos, but better all round; growth vigorous.

Noella Nabonnand (T.).—Extra large, semi-double; velvety crimson flowers with very large petals; very sweet; handsome in bud; more vigorous than Reine Marie Henriette.

Papa Gontier (H.T.).—A vigorous climbing sport from this well-known and popular variety, and one of the most welcome additions to our red climbing roses.

Paul's Carmine Pillar.—Flowers single, brightest rosy-carmine; free bloomer and extra-strong grower; flowers produced all up the stems; very good for pillars, arches, or for pegging down.

Perle des Jardins (T.).—A climbing sport from this popular yellow rose, possessing all the good qualities of the parent; a great acquisition.

Reine Marie Henriette (H.T.).—Bright rosy-cerise, sometimes crimson; large and full; long petal; good shape; free.

Rev. T. C. Cole (N.).—Bright yellow; large, full, and well-shaped; free; intermediate between Marechal Niel and Cloth of Gold.

Reve d'Or (N.).—Deep coppery-yellow; large, full, and well-formed; fragrant and free; an excellent pillar rose.

Sarah Bernhardt.—Bright scarlet-crimson, very large, full, with large incurved petals, does not burn, very sweet, growth semi-climbing.

Solfaterre (N.).—Sulphur-yellow; nice bud, not very full; growth vigorous.

Souvenir d'Leone Viennot.—One of the most beautiful climbing roses of recent introduction. Carmine shaded, canary-yellow; a beautiful combination of colours, very full and free. A strong climber.

Souvenir de la Malmaison (Bourbon).—A sport from the well-known dwarf variety; equally as free-flowering, and exceedingly vigorous.

Souvenir de Madame Metral (H.T.).—Bright rose; perfect shape; very large and full; first-rate.

Souvenir de Wotton (H.T.).—Another welcome addition to our red climbers; of extraordinary vigour and beautifully scented. A sport from our dwarf of the same name.

Striped Reine Marie Henriette.—A sport from the old favourite R. M. Henriette, prettily striped magenta on paler grounds; good.

Waltham Climber, No. 3 (H.T.).—Crimson; large; very fragrant; fine globular show flowers.

White Marechal Neil (N.).—A light sport from Marechal Neil; identical in growth and foliage with this unequalled variety, but flowers very pale, with lemon centre.

Wm. Allan Richardson (N.).—Deep orange-yellow; small; full and free.

Hybrid Perpetual Rose List

1s. each, 10s. per dozen, post free 11s.

Alfred Colomb.—Bright fiery-red; large and full; splendid.

Alfred K. Williams.—Bright carmine-red; flowers large, imbricated, full, and of good form.

Beauty of Waltham.—Cherry colour to bright rosy-carmine; large and full; form cupped; one of the best.

Ben Cant.—Colour deep, clear crimson, with slightly darker flushes in the centre, and dark veining throughout.

Black Prince.—Dark crimson; cupped large, full, and very finely shaped.

Captane Jouen.—Bright, vivid crimson; very large and full; growth very vigorous.

Captain Christy.—Delicate flesh colour, deeper in the centre; very effective flowers; large; growth moderate; blooms well in autumn.

Charles Darwin.—Deep crimson; after the style of Camille de Rohan; sweet scented; good flower; a good exhibition H.P.

Charles Lamb.—Bright red, lovely clear colour; very beautiful in the bud.

Charles Lefebvre.—Brilliant crimson, shaded purple in centre; flowers large, globular, and of grand form.

Commandant Felix Faure.—Rich lake, shaded with black and flushed with vermillion.

Dr. Andry.—Bright red; very large, full, and of fine form; one of the best and most effective.

Dr. Hogg.—Reddish-violet, the nearest approach to blue; pretty bell-shaped petals; very vigorous.

Dr. Sewell.—Brilliant scarlet, shaded with purple, back of petals bright red; large, full, and finely cupped; growth vigorous, free in flowering, and effective in appearance.

Duchess of Bedford.—Flowers dazzling light scarlet-crimson, large, full, and of perfect globular shape; a vigorous grower, with fine foliage.

Duke of Connaught.—Rich, bright, velvety crimson; exquisite shape.

Duke of Edinburgh.—Brilliant scarlet-crimson, shading to maroon; flowers large and freely produced.

Earl of Dufferin.—A splendid rose of rich, dark, velvety crimson, shaded maroon; large; good shape; rather inclined to scald.

Emperor de Maroc.—Rich velvety crimson, shaded maroon; a most distinct variety; growth vigorous.

Frau Karl Druschki.—Snowy-white; extra fine in bud; a strong-growing variety, producing flowers of exceptionally handsome appearance, both on plant and when cut; very free.

General Jacqueminot.—Rich velvety scarlet, changing to brilliant crimson; magnificent buds; very showy and good.

Gloire de Chedane-Guinoisseau (S.).—Vigorous. Bright velvety vermillion; very large, with fine buds; very showy and attractive.

Grand Mogul.—Producing flowers of a deep and brilliant crimson, shaded with scarlet and black; in dull weather and late in summer the flowers are darker, approaching to maroon.

Heinrich Schultheis.—Delicate pinkish-rose.

Helen Keller.—Bright rosy-cerise; petals large, shell-shaped; good substance; full and free.

Her Majesty.—Very clear and bright satiny-pink flowers; exceedingly large and very full, the petals most symmetrically arranged; of an unusually robust and rapid growth.

Hugh Dickson (H.P.).—Colour, brilliant crimson, shaded scarlet; good size and fine form, petals smooth, slightly cupped, and reflexed; very highly perfumed.

Hugh Watson (H.P.).—Petals unusually large, smooth, and massive; buds long and pointed; growth vigorous; free-branching habit; very sweetly perfumed; colour, crimson, shaded carmine.

Jean Liabaud.—Velvety crimson, shaded black; large, full, and of fine form.

Jean Souppert.—Carmine crimson, shaded with fiery scarlet and black, changing to rich purple; large, full, very free and sweet.

John Bright.—Very rich glowing crimson, exceedingly bright; flowers large, full, and of fine globular form.

John Hopper.—Rose, reverse of petals purplish-lilac; large, full, and good.

Jubilee.—Large, pure red, shaded crimson and maroon; very free.

Lord Macauley.—Rich scarlet-crimson, sometimes maroon-crimson; flowers of large size and fine form; strong in growth and free in blooming.

Lord Raglan.—Scarlet-crimson, edges violet-crimson; large and full.

Louis Van Houtte.—Bright scarlet-crimson, shaded with amaranth and purple; large, full, and globular; fine shape; very sweet.

Louis Ricard.—A large and showy Pæony-like flower; deep velvety crimson, shaded with vermillion and black; does not burn.

Mabel Morrison.—White, sometimes delicately flushed with pink; large, and of good form. A fixed sport from Madame la Baronne de Rothschild; identical with that variety except in colour.

Madame la Baronne de Rothschild.—Clear flesh-pink; flowers large and of grand globular form; growth very vigorous; one of the most important and beautiful of the light roses; a first-class exhibition rose.

Margaret Dixon.—White, sometimes shaded rose.

Merrie England.—This beautiful rose is a striped sport from that grand old variety, Heinrich Schultheis. It has proved very constant, and so far, is the best striped rose we have seen.

Mrs. F. W. Sandford.—A sport from Mrs. J. Laing; delicate pale blush, shading to white.

Mrs. Harry Turner.—Dazzling crimson-scarlet, with rich maroon shading; very fiery and brilliant in colour; flowers large and full.

Mrs. John Laing.—Soft pink; large, full, well-shaped, and very fragrant; a vigorous grower.

Old English Cabbage.—Rosy-red; an old favourite on account of its perfume.

Paul Dupuy.—Deep velvety crimson; good.

Paul Neyron.—Dark rose colour; very large, but somewhat coarse; free-flowering and very effective; growth robust.

Pride of Waltham.—Delicate flesh-colour, richly shaded with bright rose.

Prince Arthur.—Rich, deep crimson; large and abundant bloomer.

Prince Camille de Rohan.—Crimson-maroon, shaded with blood-red very rich and velvety; large and full; distinct and good.

Princess Alice.—Rich, deep rose, with a fine satin-like gloss; large, cupped and very double, with petals of great substance.

Princess de Bearn.—Rich black crimson; a fine dark rose.

Rev. Allan Cheales.—Large Pæony-shaped flowers; a novelty in the way of colour, being a pure lake, with reflex silvery-white backs of petals.

Roger Lambelle (White-Margined Rose).—Petals crenated and surrounding each petal.

Silver Queen.—Silvery-bluish in colour, shaded in the centre with delicate rosy-pink; very distinct and lovely; the growth is vigorous.

Souvenir de Charles Montault.—Fiery crimson; large flowers; fine.

Souvenir de Spa.—Deep red, with scarlet reflex; large and globular; sweet.

Souvenir de William Wood.—Dark blackish-maroon, shaded with scarlet large, full and very effective.

Victor Hugo.—Rich crimson-red, shaded purple; large.

Xavier Olibo.—Dark velvety crimson, shaded amaranth.

The Palms for Horticultural Society opened up in splendid condition, and we were more than pleased with what you sent.
14/11/13. E. H. Pepper, Inverell.

POLYANTHA ROSES

1s. each, 10s. dozen.

- Annie Marie de Montravel.**—Pure white, about the size of a florin; very full and beautifully imbricated; produced in large branches; dwarf and bushy.
- Atropurpurea.**—Colour, deep purplish red, very large trusses and free flowerer.
- Clara Pfitzer.**—Light carmine, edged silvery-white; medium size; imbricated; very free-blooming; fragrant.
- Edward VII.**—(Dwarf Polyantha). A seedling from Madame N. Levavasseur, of a pale pink colour; flowering in clusters from the early spring until late autumn.
- Etoile d'Or.**—In the way of Perle d'Or, but rather smaller; outer petals pale chrome, centre deep lemon, the expanded flowers nearly white.
- George Pernet.**—Delicate salmon rose; rather larger than Annie Marie de Montravel.
- Grafin' Marie Henriette Chotek (Multiflora).**—Flowers bright crimson, round and double, produced in very large trusses; blooming in July and August, very hardy and of fine effect when in bloom.
- Leonie Lamesch.**—Bright coppery-red, shaded with deep red and yellow; very rich, and a new colour in this section; very sweet.
- Mad. N. Levavasseur.**—Semi-double, rosy-crimson flowers, about 1 foot high; good; a fine decorative plant.
- Marie Parvie.**—Rosy-white; full and well-formed; distinct.
- Mlle. Cecile Brunner.**—Delicate salmon-pink, with deep salmon or coppery centre; small, very full, and pretty shape; very free and delicately scented.
- Miniature.**—Small daisy-like flowers, produced in great profusion; white, tinted with rose; habit very dwarf and bushy.
- Perle d'Or.**—Nankeen yellow, buds deep apricot; medium size, and very full; very constant and free-blooming; vigorous grower.
- Red Pet.**—Brightest dark crimson; continuous bloomer.
- Souvenir d'Elise Chatelow.**—Deep rose; vigorous.
- Therese Margottin (Poly).**—Brilliant rose, tinted with pale peach colour suitable for massing or cutting.
- Yvonne Rabier (Poly).**—Pure white, with clear sulphur yellow centre; medium size, producing enormous trusses.

CLIMBING POLYANTHA and RAMBLER ROSES.

1s. each, 10s. per dozen.

- Aglaia.**—Yellow Rambler.
- Blush Rambler.**—Beautiful soft blush, resembling apple blossom; sweetly scented.
- Bocca Nigra (F. Dubriel) (Polyantha Clb.).**—Purplish crimson. with large white eye, cupped form in tresses of 15 to 50 flowers, exceedingly vigorous. First-class certificate, Lyons.
- Claire Jacquier.**—Nankeen yellow; pretty little flowers in large clusters.
- Glos Roze (Clb.).**—Sport from Crimson Rambler. Very floriferous pyramidal panicles of 30 to 50 semi-double flowers, bright rose with white centre. 1s.
- Crimson Rambler.**
- Euphrosyne.**—Pink.
- Graf Zeppelin (Clb. Poly.).**—Large panicles of brilliant coral-red flowers; very hardy and free-blooming.
- Hugo Maweroff (Clb. Polyantha).**—Hybrid, dark carmine, small double, extra fine flowers, produced in large clusters, very free-flowering and vigorous. 1s.
- Lyon Rambler (Multiflora).**—The flowers are double, bright pink with white centres, the contrast of the two colours producing a charming effect.
- Perle de Neiges.**—Large corymbs of double snow-white blossoms; likely to be a great acquisition.
- Perpetual Crimson Rambler.**—A variety of German introduction, recommended by the producer as a fine perpetual flowering form of the popular variety.
- Tea Rambler.**—The flowers are of a coppery-pink, changing as they expand to a soft salmon-pink.
- Mad. Cecile Brunner.**—A climbing form of the old favourite Polyantha, flowers same form and colour.
- Thalia.**—White.
- The Dawson.**—Bears long arch-like sprays of brilliant rosy-pink flowers.
- Wallflower (Rambler).**—Colour, rosy-lake; a most attractive and soft colour.
- Waltham Bride.**—A most valuable variety for the bolder forms of rose-giving—such as hedge, pillar, pergola, and arch planting; also for forming natural bushes, the pure white blossom contrasting more effectively with the colour of other varieties planted in proximity to it.
- Wedding Bells.**—Bright rosy-pink flowers, produced in clusters.

POLYANTHA ROSES—continued

BANKSIAN ROSES.

1/- each

- Alba.**—Pure white; very small and full; produced in bunches; very sweet; a strong climber.
- Fortune's Yellow.**—Bronzy-yellow; semi-double; moderate climber.
- Fortunil.**—White; large flower; very vigorous.
- Lutea.**—Similar, but of buff yellow.

HYBRID NOISSETTE ROSES.

- Allister Stella Grey (Climber).**—Clusters of small pale yellow flowers with orange centre. Splendid for buttonhole and other decorative work. 1s.

MOSS ROSES.

1/- each

- Blanch Moreau.**—White.
- Marie de Blois.**—Deep red.
- Mm. Lobb.**—Deep rose.
- Pink Moss.**
- Red Moss.**
- Venus.**—Red flowers, beautifully mossed, large, full, opening well, upright habit; vigorous bushy growth.
- White Bath.**—Best for coastal districts.

SINGLE ROSES.

- Rosa Sinica.**—Pure white, large single flowers with yellow stamens.
- Rosa Sinica Anemone.**—Silvery-pink, shaded rose, bright shiny foliage; free-flowering and attractive.

AUSTRIAN BRIARS.

1/- each

- Gottfried Keller.**—Hybrid Briar. Interior of flower apricot-yellow, centre golden-yellow, reverse of petals dark chrome; semi-double.
- Persian Yellow.**—The richest yellow; large and double.
- Soleil d'Or.**—(Pernet-Ducher, 1900). Colour varying from orange-yellow to reddish-gold, shaded with nasturtium-red; conical-shaped buds, opening to large, full, globular flowers; perfectly hardy and very free-flowering. A cross between Persian Yellow and a Hybrid Perpetual.

WICHURIANA ROSES

1s. each, 10s. dozen.

Very useful for covering old buildings, fences, or tree stumps. Strong growers.

- Alberic Barbier.**—Flowers in clusters, semi-double or double, 2½ to 3½ inches in diameter; white, canary-yellow in the middle.
- Debutante.**—Large clusters of soft double pink flowers; very fragrant; foliage and habit of growth distinct and elegant.
- American Pillar.**—Flowers single; rich pink with a white defined eye and yellow stamens; very showy.
- Dorothy Perkins.**—A beautiful shell-pink; the flowers are borne in large clusters of small double blooms, and very sweetly scented; of strong climbing habit.
- Edmond Proust.**—Coppery-yellow, centre shaded with carmine.
- Francis.**—Single red with golden-yellow stamens, followed by a multitude of red fruits, rendering the plant very attractive; habit and foliage of Crimson Rambler.
- Hiawatha.**—The flowers are single, bright rich crimson with white eye, produced in masses, magnificent in effect; foliage, deep glossy green.
- Lady Gay.**—Seedling from Crimson Rambler, which it resembles in habit. Flowers of good size; delicate cherry-pink fading to soft rose, borne on very large trusses; a magnificent variety.
- Manda's Triumph.**—Large clusters of double white flowers, sweet scented.
- Rene Andre.**—Flowers singly or in small clusters of three to four flowers; semi-double; buds saffron-yellow, tinted dark orange-red; petals of bright saffron-yellow, and orange-red at the base.
- Shower of Gold.**—Vigorous; almost the colour of "William Allen Richardson" but with not so much orange.
- Sylvia (Wich.).**—Buds pale lemon-yellow, changing when opened to pure white, double, and exquisitely scented; flowers produced in large and elegant sprays in both summer and autumn.
- Universal Favourite.**—Large, double pink flowers, with dense green foliage.
- White Dorothy Perkins.**—Sport from Dorothy Perkins, producing white or almost white flowers; a valuable acquisition.

can be made by purchasing from this List

For LIST OF NOVELTIES, See Coloured Sheets

Searl's Ornamental Trees, Flowering Shrubs, &c.

A Bird's-Eye View of portion of our General Nursery at Botany.

We have magnificent displays of all the Plants we catalogue at our different Nurseries. Our Roses are grown this season on virgin soil, on new land we have taken up at Enfield, and promises to be of superior quality, and many lines of English Trees, Shrubs, &c., at our cold-climate Nursery, at Exeter (2,300 feet above sea level.) All other plants are grown at our General Nursery at Botany.

Plants marked * thrive best in cold climates, although some do well in ordinary soils and situations. We think it advisable, however, to let our friends know which plants are most likely to suit the localities in which they reside.

We shall be pleased at all times to show anyone over our General Nursery at Botany. If LIKELY BUYERS will kindly advise us by telephone of the time they expect to arrive and give good notice, they will be met at the tram and driven to the Nursery.

*Rubrum (Scarlet Maple).....	30	1	6
*Saccharinum (American Sugar or Bird's-eye Maple)..	40	1	6
Polymorphus.....		1	6

None of the ornamental trees excel these beautiful Japanese Maples. They are striking in foliage, and thrive well in the cool parts of New South Wales. They are of dwarf habit, 5 to 10 feet high, and perfectly hardy; but it is the best to plant them sheltered from the worst prevailing winds. The collection named above are the choicest varieties, some with highly-coloured leaves, white, pink, or purple; and leaves deeply cut, as lace. They should occupy a foremost place among ornamental trees and specimens. In sorts from 3s. each.

	Ft. high	s.	d.
ACMENA Floribunda.....	12	1	6
Myrtifolia.....	15	1	6
Pendula.....	20	1	6

For other varieties of this tribe, see Eugenia.

Beautiful trees, with glossy green leaves and pretty, edible berries; a beautiful type of native tree.

*ÆSCULUS Hippocastanum (Horse Chestnut); flowers white, tinged with red, which are produced in great profusion, no tree possessing greater beauty	60	1	0
*Rubicunda (Scarlet Flowering Chestnut).—This is a very distinct and beautiful tree when in flower; scarlet in long racemes.....	60	1	6
*Flora Alba Plena (The Double-Flowering Chestnut)..	60	1	6

AGAVE Americana.....	50	1	0
----------------------	----	---	---

AGNOSTUS (See Stenocarpus).

*AILANTHUS Glandulosa (Tree of Heaven).....	30	1	0
---	----	---	---

This tree grows with great rapidity for the first 10 or 12 years in favourable situations; afterwards growth is much slower. It is a desirable tree for plantations, or to stand singly on lawns. When in flower it has a striking appearance, producing large clusters of reddish-crimson flowers.

SEARL & SONS TREES & SHRUBS SYDNEY.

* Aveum .—Fl. pl., beautiful white, free flowering....	20 ..	2 6
* Caproniana Ranunculiflora.....	10 ..	2 6
* Japonica Flore Rosea Plena	10 ..	2 0
* J. H. Veitch .—Flowers rosy-pink, measuring 2 in. diameter, bronze foliage.....	10 ..	3 6
* Padus .—White (The Cluster or Bird Cherry).....	15 ..	1 6
* Virgineana .—White.....	15 ..	1 6
* Watereri .—Pure white, pink edge, choice.....	10 ..	2 6
These Japanese double-flowering Cherries are the most beautiful flowering shrubs you could wish to have. They are showy, ornamental, and the flowers are very pretty.		
CERATONIA Siliqua (Carob Tree).....	15 ..	1 6
The Carob Tree, St. John's Bread, or Locust Tree.		
* CERCIS Siliquastrum (Judas Tree).—Flesh colour.....	20 ..	1 6
* Canadensis .—Red.....	20 ..	1 6
* Siliquastrum Album	20 ..	1 6
The Cercis are very pretty ornamental trees, and a great addition to the shrubbery.		
CESTRUM Aurantiacum.—Orange.....	8 ..	1 0
Diurnum .—White.....	4 ..	1 6
Nocturnum .—Greenish-white; sweetly-scented at night-time.....	6 ..	1 6
Purpureum .—Purple crown.....	6 ..	1 0
Free-flowering, evergreen shrubs, and always useful.		
* CHAMECERASUS (The Ground Cherry).—		
* Virginalis Alba	4 ..	1 6
* Grandiflora Rosea	4 ..	1 6
Sweetly pretty dwarf flowering shrubs.		
CHILANTHUS Dasyphyllus.....	10 ..	1 0
White; a semi-climbing plant useful for covering un- sightly buildings; winter-flowering.		
* CHIMONANTHUS Fragens.—Allspice, yellow.....	5 ..	1 6
* CHIONANTHUS Virginica (The American Fringe Tree).— White, very pretty.....	10 ..	1 6
* CHOISYA Ternata (Mexican Orange Flower).—White, sweetly-scented and lasting. Strongly recom- mended.....	6 ..	1 6

CHOISYA Ternata

	Ft. high	s. d.
CHRISTIA Grandiflora.....	5 ..	1 6
Compact, evergreen shrub; flowers red and yellow; uncommon.		
CISTUS (Rock Rose), various sorts.....	3 ..	1 0
This useful genus of dwarf-flowering shrub has been, so far, too much neglected, when their beauty and general value is taken into consideration. The only wonder is that they are not grown by every- body.		
CITHAREXYLUM Subseriatum (Fiddle Wood).—Vitis, Fine, evergreen shrub.....	10 ..	1 6
* CLETHRA Arborea (Lily of the Valley Tree).....	10 ..	2 6
Alnifolia (Alder-leaved).—A hardy shrub producing white flowers, deliciously fragrant.....	..	1 6
These are very ornamental. C. Arborea has pure white flowers, very like the Lily of the Valley, from which it gets its name.		
CLIANTHUS Puniceus (Parrot's Beak).—Pink.....	6 ..	1 0
Puniceus Albus .—Pure white.....	5 ..	1 6
Handsome shrubs, bearing a profusion of pretty flowers.		
COFFEA Arabica (Coffee).....	10 ..	1 6
Handsome evergreen shrub, white flowers succeeded by red berries.		
COPROSMA .—		
Bauriana .—Very wide band of creamy-yellow variega- tion.....	..	1 6
Picturata .—Leaves ovate, bluntly rounded, surface smooth, pale green marked with blotches of pale yellow and creamy white.....	6 ..	1 6
Lucida .—A handsome evergreen shrub, with bright, shining leaves; very hardy; most suitable for hedge purposes near the sea shore.....	6 ..	1 0
Variegata	6 ..	1 6
CORAL TREE (see Erythrina).		
CORONILLA Glaucæ.—Yellow flowers.....	4 ..	1 6
* CORYLUS Purpurea (Purple-leaved Filbert), very orna- mental and distinct for shrubbery.....	6 ..	1 9

SPECIAL CASH OFFER

Any 6 Shrubs, priced at 1/- each, will be
supplied for 5/-. or 5/9 post free when
orders are accompanied by cash.

* CORYNOCARPUS Lævigatus (Karakā Tree of New Zealand) 30 ..	1 0
A pretty evergreen, producing white flowers and a plum- like fruit.	
* COTONEASTER Buxifolia.—White.....	3 .. 1 6
* Microphylla .—White.....	4 .. 1 6
* Simonsi	8 .. 1 6
Cotoneaster (or Rock Spray) are lovely shrubs for cover- ing and trailing over walls, sloping banks, and rock gardens. The blossoms are charming, and the bright red berries remaining on the plants so long are very ornamental.	
* CRATÆGUS (English Hawthorn or May) Oxycantha .— White single.....	12 .. 1 0
* Aurea .—Golden foliage, very choice and ornamental	6 .. 2 0
* Carrieri .—Large scarlet fruit.....	8 .. 1 6
* Crenulata (Fire Thorn).—Bears a profusion of red berries; very decorative.....	8 .. 1 6
* Crus-galli (Cockspur Thorn).—Flowers white, tinged with red, producing edible scarlet fruit....	10 to 20 .. 1 6
* Pink .—Double.....	12 .. 1 6
* Red .—double.....	12 .. 1 6
* Spathulata .—White flowers; profusely covered with red berries.....	18 .. 1 6
* White .—Double.....	12 .. 1 6
Pyracantha .—Covered with yellow berries.....	12 .. 1 6
Cratægus are general favourites; flower profusely in spring-time. The double varieties are exceed- ingly beautiful, and particularly showy and effect- ive. Special quote for hedge purposes.	
* CROTALARIA Trifoliastrium.—A pretty shrub, with yellow pea-like flowers.....	15 .. 1 0
CUPANIA Australis (Australian Tamarind).....	50 .. 1 6
A tree of considerable size, magnificent and remark- able foliage.	
Anacardiodes (Brush Deal).....	30 .. 1 6
CUPHEA Jorullensis.—Yellow and red.....	4 .. 1 0
Platycentra .—Red (The Cigar Flower).....	2 .. 1 0
Dwarf-flowering, distinct shrubs.	

SEARL & SONS TREES & SHRUBS SYDNEY.

*Candidissima Flore Plena.—Semi-double flowers..	4	1 0
Fortuni.—Choice white.....	4	1 6
*Gracilis.—White.....	4	1 0
*Gracilis Campanulata.—White.....	4	1 6
*Gracilis Carminea.—Clear rose flowers, underneath	4	1 6
carmine, choice.....	4	1 6
*Lemoinei Compacta.—Large white.....	4	1 6
*Pride of Rochester.—Double-flowering, pure white	4	1 0
*Rosea.—Pink.....	4	1 0
*Scabra.—White.....	4	1 0
*Venusta.—White, large flowers.....	4	1 0
*Vilmorinae.—New sort, discovered on Mountain of	4	1 6
China, snow-white, large.....	4	1 0
*Wellsi.....	4	1 0
Dwarf, hardy, flowering shrubs which can be highly recommended. Some of the varieties here enumerated are very pretty and attractive.		
*DIERVILLA Weigela (Bush Honeysuckle)—		
*Abel Carriere.—Flowers of rich rosy-crimson colour	4	1 6
*Amabilis.—Pink.....	6	1 6
*Amabilis Variegata.....	6	1 6
*Augustus Wilhelm.—An intensely dark-coloured	4	1 6
variety; flowers of an amaranth red shade	4	1 6
*Candidissima.—White.....	4	1 6
*Conquete.—Flowers deep rose; exquisite.....	6	1 6
*Eva Rathke.—Vigorous, flowering abundantly; large	6	1 6
nice form, and of crimson-red colour.....	6	1 6
*Gloire des Bosquets.—Deep red flowers.....	6	1 6
*Hortensis Nivea.—Neat-growing variety, with pure	4	1 6
white flowers; distinct.....	4	1 6
*Lord Dudley.—Raised by Searl & Sons, 1908.		
This new variety has all the good qualities of the free-flowering Weigela; grows about 6 feet high; wonderfully floriferous. The foliage is hidden by rich magenta-coloured flowers..		
*Searl's Magnifica (Searl's Seedling).—Bright rose,	6	1 6
with tinge of lilac, very free-flowering	6	1 6
*Oceris (Searl's Seedling).—A very choice variety,	6	1 6
a profuse bloomer, literally covering the foliage	6	1 6
with blooms of a peach-blossom shade.....	6	1 6
These are very desirable and beautiful plants for the garden. They are profuse bloomers, and require but little attention. They produce fine clusters of tube-shaped flowers. Very hardy. We recommend to plant with Azaleas, as they bloom at the same period.		
DIOSMA Ericoides.....	3	1 6
Charming little evergreen plant, with light feathery foliage, which is, during September and October, studded with small starry white flowers.		
DIPLACUS Hybrida.....	3	1 6
A dwarf, brown and yellow shrub; attractive evergreen.		
DIPLOAPPUS Pedunculatis.—Aster-like flowers, purple .	3	1 6
DOMBEYA Dregiana.—White.....	15	1 6
Mastersii.—White.....	12	1 6
Evergreen free-flowering trees, with good foliage, flowers perfumed, white in colour.		

	Ft. high	s.
DORYANTHES Excelsa (Gigantic Lily).—A striking native scarlet-flowering plant.....	12	1 6
DRACÆNA Australis.....	8	1 0
Draco (Dragon's Blood).....	10	1 6
Fragrans.—Very ornamental; bush-house or verandah.....	8	1 6
Stricta.....	10	1 6
Handsome, tropical-looking plants; hardy.		
*DURANTA Alba.—White.....	6	1 0
*Plumieri.—Blue.....	6	1 0
*Plumieri Aurea.—Green and gold variegation.....	6	1 0
Makes pretty hedges (see Hedge Plants). The above are large plants from cuttings.		

DIERVILLA Weigela

ECHIUUM Aculeatum.—White.....	4	1 0
*EDWARDSIA Microphylla (New Zealand Laburnum)....	12	1 6
Evergreen flowering shrub, quite hardy, yellow flowers.		
ELÆAGNUS Japonica Macrophylla.—Aurea Variegata....	6	1 6
A beautiful plant, with gold variegation and silver underneath the leaves; a suitable plant for covering unsightly buildings.		
*Edulis.—Very good fruit.....	4	1 0
Japonica Longipes (Silver Thorn).....	10	1 0
Fine hardy shrubs; grow freely in any ordinary soil; very ornamental; should be planted more.		
ELM (see Ulmus).		
ELÆOCAUPUS Cyaneus.—Blue berries.....	10	1 6
ERICA (see Special List).		
ERYTHRINA Aborea.....	20	1 6
Castra.....	15	1 0
Crista Galli (The Tree Cockscornb).—Bright deep		
scarlet, compact; makes a splendid display of	8	1 6
colour.....		
Erythrinæ, or Coral Trees, are splendid objects in pleasure-grounds, producing large spikes of brilliant coloured flowers. They will thrive in the poorest soil, or even barren sand. Splendid shade for poultry.		

SEARL & SONS TREES & SHRUBS SYDNEY.

* ESCALLONIA Macrantha .—Crimson red.....	Ft. high	s. d.
* Montevidiensis .—White.....	6 ..	1 6
* Sanguinea .—Crimson.....	10 ..	1 6
Beautiful free-flowering evergreen shrubs.	8 ..	1 6

EUCALYPTUS Citriodora.—Lemon-scented; the fragrance of the foliage renders it a most desirable acquisition.....

* Corynocalyx (Sugar Gum).....	75 ..	1 0
* Calophylla Rosea	100 ..	1 0
	— ..	1 6

This is one of the most useful of the Eucalypti for planting in exposed situations. Sheep eat the young shoots in dry seasons; are largely planted for that purpose.

* Ficifolia (The Scarlet-Flowering Gum).....	15 ..	1 6
---	-------	-----

One of the most gorgeous flowering trees we have. While only growing to the height of 15 to 20 feet, it is during the summer months, literally a blaze of beautiful rich crimson shade, giving the tree a handsome appearance. Special quote for big plantations

* Hæmastoma (White Gum).....	100 ..	1 0
* Globulus (Tasmanian Blue Gum).....	100 ..	1 0

We list only a few of the ornamental varieties of this large genus. Other varieties are kept in stock. Special quote for large quantities.

EUGENIA Jambosa Malacensis (Rose Apple).....	20 ..	1 6
Myrtifolia .—White, with crimson berries.....	20 ..	1 0
Smithi .—One of the best Eugénias.....	20 ..	1 0

Ornamental trees. Some of the varieties have white, red, and purple berries.

* EUONYMUS Japonicus	12 ..	1 0
* Latifolius Albo Variegatus	6 ..	1 0

* Latifolius Aureo Marginatus	6 ..	1 0
* Latifolius Aureo Variegatus	6 ..	1 0
* Radicans (Japanese Spindle Tree).....	4 ..	1 0

Very useful, hardy evergreens; will stand the coldest climate, and their beautiful coloured leaves and red berries make them conspicuous.

EUPHORBIA Splendens .—Showy, with red flowers.....	4 ..	1 6
Aphylla .—Low-growing, yellow flowers.....	4 ..	1 6
Atropurpurea .—Magnificent dark red.....	4 ..	1 6
Canariensis .—Resembling a cactus.....	4 ..	1 6
Regis Jubæ .—Flowers pale yellow.....	4 ..	1 6

EUPOMATIA Laurina	12 ..	1 6
Evergreen shrub, bearing curious flowers and foliage; a native of Australia; flowers perfumed.		

* EXOCHORDA Alberti (Pearl Bush).—Syn. <i>Spirea Grandiflora</i>	6 ..	1 6
A most beautiful shrub, bearing racemes of large white flowers in early spring. The bush becomes a mass of white, every twig being laden to the very tips with snow-white flowers.		

FAGUS Sylvatica (Beech).....	60 ..	1 6
* Sylvatica Cupreus .—Copper colour.....	50 ..	2 0
* Sylvatica Purpurea	50 ..	2 0
These Copper Beeches make lovely specimens in the cool climates; they are noble-looking trees.		

FELICIA Angustifolia .—Lilac, flowering shrub.....	2 ..	1 6
---	------	-----

FICUS Australis	60 ..	1 0
Australis Variegata .—Splendid for out-door planting	10 ..	2 6
Benjamineana (The Weeping Fig), with its drooping branches, is really a pretty tree. Space is limited, otherwise we could give a good description of this magnificent tree.....	40 ..	2 0
Elastica (The India Rubber Tree).....	60 ..	2 6
Macrophylla (Moreton Bay Fig).—Australian Banyan	100 ..	1 0
Muellieri	50 ..	1 6
Nitida .—Beautiful variety, for street and other plantations.....	40 ..	1 6

This genus is remarkable for its magnificent foliage; a surprising shade tree. They form enormous trees and seem to thrive anywhere. *Ficus Australis* is specially adapted for growing at sea frontages. It will even grow on rocks.

* FORSYTHIA Viridissima (Golden Bell).—Yellow, very showy.....	5 ..	1 6
Variegata Aurea	5 ..	1 6
Very free-flowering shrubs; showy.		

FOURCROYA Gigantea Variegata .—Very ornamental for lawns or large shrubberies and park-planting....	8 ..	1 6
--	------	-----

* FRAXINUS Excelsior (Ash).....	50 ..	1 6
Excelsior Aurea	..	2 6
Ornus (Manna Ash).....	..	1 6
* Alba	40 ..	1 6

Hardy, ornamental trees of great beauty, and do admirably in the cooler districts.

GARDENIA Globosa .—Flowers white and globose, very handsome.....	Ft. high	s. d.
Intermedia .—Very free-flowering.....	15 ..	1 6
Magnifica .—White, sweetly scented.....	3 ..	1 6
Radicans .—White; sweetly scented.....	4 ..	1 6
Evergreen flowering shrubs; foliage a beautiful dark glossy green, and the lovely pure-white flowers are most deliciously fragrant.	3 ..	1 6

GARDENIA Globosa.

An elegant tree somewhat resembling the maple; the leaves turning to a bright red in the autumn. Grow in any soil and situation. A very admirable tree.		
*LIRIODENDRON <i>Tulipiferum</i> (Tulip Tree or Saddle Tree) 60 ..	1 6	
An elegant, hardy, deciduous tree, resembling a Plane tree in habit, having handsome foliage and yellowish-red flowers.		
LOPHOSTEMON <i>Australis</i> . A handsome shelter tree... 40 ..	1 0	
MACADAMIA <i>Ternifolia</i> (Queensland Nut), produces edible nuts of fine flavour; hardy tree..... 20 ..	1 6	
MACKAYA <i>Bella</i> .—Syn. <i>Asystasia Bella</i> , lilac-purple, a strong-growing ornamental shrub..... 6 ..	1 0	
MAGNOLIA <i>Anonæfolia</i> 8 ..	1 6	
* <i>Conspicua</i> .—Deciduous; purple and white..... 20 ..	1 6	
* <i>Fuscata</i> (Port Wine Magnolia)..... 8 ..	1 6	
* <i>Grandiflora</i> (Lilytree Laurel Magnolia).—Grand white flowers, powerfully fragrant; glossy green foliage; evergreen..... 25 ..	1 6	
* <i>Purpurea</i> .—Deciduous..... 15 ..	1 6	
* <i>Stellata</i> .—The charming white variety..... 8 ..	3 6	
* <i>Stellata Rosea</i> 6 ..	5 0	
<i>Tripetala</i> .—White..... 30 ..	1 6	
<i>Fuscata</i> is a pretty shiny-leaved shrub, having curious pale chocolate-coloured flowers, and a powerful odour, with a resemblance to port wine. <i>Purpurea</i> , <i>Conspicua</i> , and <i>Bicolor</i> are deciduous, with large purple and white tulip-shaped flowers. They all do well in cold climates, except <i>Fuscata</i> and <i>Anonæfolia</i> .		
*MAHONIA <i>Aquifolia</i> (Holly-leaved).—Flowers yellow, racemes erect, much crowded; very pretty foliage, changing in the autumn..... 6 ..	1 6	
* <i>Japonica</i> 6 ..	1 6	
MALPIGHIA <i>Glabra</i> (Barbados Cherry)..... 4 ..	1 6	
Rosy-purple flowers; pretty shrub.		
*MALUS (The Crab Apple).—Covered with beautiful pink and white blossoms in the spring-time, and in due season there appears on the trees a profusion of small apples about the size of a cherry, which can be used for preserving purposes.		
* <i>Angustifolia</i> , fl. pl..... 10 ..	1 6	
* <i>Floribunda</i> 10 ..	1 6	
* <i>Atroruginea</i> 10 ..	1 6	
* <i>Scheldeckerii</i> 10 ..	1 6	
* <i>Parkmanii</i> 10 ..	1 6	
* <i>Spectabilis Alba</i> fl. pl..... 10 ..	1 6	
* <i>Spectabilis Rosea</i> , fl. pl..... 10 ..	1 6	
These are, without doubt, a decided acquisition, and will prove to be very ornamental wherever planted. Planted in clusters they give fine effects on lawns.		
MAPLE .—(See <i>Acer</i> .)		
MAY .—(See <i>Spiræa</i> .)		
MELASTOMA .—(Refer to <i>Lasianandra</i> .)		
*MELIA <i>Azederach</i> (Bead Tree or Chinese White Cedar) .. 20 ..	1 0	
Suitable for street or ornamental planting. Special quotation for quantity.		
MEYENIA <i>Erecta</i> .—Corolla dark blue with a rich orange throat and pale yellow tube; pretty..... 5 ..	1 6	
<i>Alba</i> .—Pure white..... 5 ..	1 6	
A very continuous bloomer, producing flowers nearly throughout the whole year.		
MITRARIA <i>Coccinea</i> .—A dwarf-growing shrub, with pretty orange-scarlet flowers..... 2 ..	1 6	
MOCK ORANGE .—(See <i>Philadelphus</i> .)		
*MURRAYA <i>Exotica</i> 6 ..	1 6	
A beautiful dwarf evergreen shrub, with perfumed white flowers like small orange blossoms.		
MUSA <i>Ensete</i> (Abyssinian Banana)..... 10 ..	2 6	
Very handsome, large foliage; for sheltered situations.		
MUSSÆNDA <i>Froncosa</i> .—White and yellow bracts..... 4 ..	1 6	
MYOPORUM <i>Latum</i> .—A splendid hardy shrub..... 15 ..	1 6	
*MYRTUS (Myrtle) <i>Communis</i> 6 ..	1 6	
Charming plant, with dark-green leaves; flowers white.		
*NANDINA <i>Domestica</i> 5 ..	1 6	
A fine shrub, with clusters of pretty flowers and graceful foliage, which changes into lovely autumn tints; very elegant. Take our advice, don't be without it, especially cold climate friends.		
NERIUM (Oleander) <i>Album</i> 15 ..	1 6	
<i>Grandiflora</i> 20 ..	1 6	
<i>Punctatum</i> .—Large flower; a beautiful light pink... 5 ..	1 6	
<i>Rosea Splendens</i> 12 ..	1 6	
<i>Luteum Plenum</i> .—Pale yellow..... 6 ..	2 0	
<i>Mille Dubois</i> .—Flowers single, pure white..... 6 ..	1 6	
<i>Splendens Variegata</i> .—With Gold variegation, making it most attractive..... 6 ..	2 0	
<i>Souv. de Cazalis Allut</i> .—Brilliant single red..... 5 ..	2 0	
Hardy and showy; thoroughly at home in this climate.		

	Ft. high	s. d.
OAK .—(See <i>Quercus</i> .)		
OCHNA <i>Multiflora</i> .—Yellow..... 3 ..	1 6	
The flowers which are produced in great profusion, are very fragrant and are succeeded by ornamental berries of a scarlet and black colour.		
<i>Olea Europa</i> (the Common Olive).—Large plants, 1s. each. For hedge purposes, 12s. per 100..... 10 ..

Searl's Floral Department

We have a large staff of lady artists, and can undertake all classes of work in the way of decorations for dinners, weddings, and special functions of all descriptions. Our extensive Nurseries, producing an abundance of Flowers and Foliage throughout the year, place us in a position to supply the choicest of Flowers on the shortest notice.

We should be pleased to quote you at any time for Bridal Bouquets, Choice Cut Flowers, and Beautiful Plants suitable for presentation.

The Packing of Plants

This is the most important branch of our business, as we fully realise how necessary it is that Plants should reach their destination in good condition. Therefore, the Packing of all Orders receives Special Attention, with the result we receive throughout the year hundreds of complimentary letters stating Plants have arrived quite fresh and in beautiful condition after travelling hundreds of miles. We can Pack Plants to travel all over the Commonwealth, Fiji, India and South Africa, and arrive in good order.

SEARL & SONS

SEARL'S PINES and other CONIFERS

FOR Ornamental purposes Pines and Conifers are specially attractive, and most of them thrive well all over the Commonwealth, even if the soil be poor. To ensure success, trench the ground at least eighteen inches deep, and it should be drained if wet. Amongst Conifers are to be found trees suitable for Park or Garden.

Those marked * thrive best in cold climates.

Unless otherwise instructed, all Country orders are despatched in PAPER POTS, thereby saving at least 30 per cent. in freight and other charges.

Special Quotations for Large quantities

	s.	d.
* ABIES Douglasii .—40 to 50 feet (Silver Fir)	2	0
* Alba .—80 feet (White Spruce).....	2	0

* Pinsapo .—A beautiful variety, slow-growing, but well worth waiting for.....	2	0

A beautiful tribe of Fir Trees of symmetrical habit of growth; rather slow grower, but should be in every shrubbery and avenue. When they are making young growth, they are clad with beautiful pale green foliage.

* ARAUCARIA Bidwilli (Bunya Bunya Pine), 100 to 150 feet	1	6
Cunninghami (Morton Bay Pine), 80 to 100 feet.....	1	6
Excelsa (Norfolk Island Pine), 100 to 150 feet.....	1	6
From 1s 6d. upwards. From 18 inches to 5 feet.		
* Imbricata (the Monkey Puzzle), 50 feet. This noble variety is the best for a single specimen on a lawn or in the park. Few trees can compete with it for symmetry and elegant appearance. An exquisite Pine, specially adapted for cooler districts.....	2	6

A magnificent family of grand ornamental trees, which should be used freely in plantations. **Excelsa** (Norfolk Island Pine), of fine symmetrical habit, will grow on the coast, but not too far from the sea. It grows quickly, is hardy, and not particular to soil. **Cunninghami**, a very handsome tree; its foliage is produced on the end of its branches, giving it quite a unique appearance; foliage dark green; branching habit; native of Queensland. **Bidwilli** (Bunya Bunya Pine), handsome tree of regular and symmetrical habit; leaves deep green, shining, and very prickly.

CALLITRIS Cupressiforme (Port Macquarie Pine).—12 to 15 ft.	1	6
---	---	---

* CEDRUS Deodora (or Sacred Indian Cedar, also called Fountain Tree).—50 to 60 feet.....	1s.	6d.
	2	6

A beautiful tree, specially adapted for specimen tree on extensive lawns, and can well be introduced into large avenues, and has proved to be drought resisting.

* Atlantica (Atlas Cedar).—80 feet.....	2	6
Libani .—60 feet.....	2	6

An erect tree of handsome appearance; foliage silvery and very ornamental.

* CRYPTOMERIA Elegans .—50 to 60 feet	1	6
* Japonica (the typical tree of Japan).—60 to 100 feet....	1	6

Fine ornamental trees from Japan, hardy. **Elegans**, of upright habit, well-branched, and covered with fine foliage, which changes from green to bronzy-crimson during the winter.

* CUPRESSUS (Cypress) Benthami	1	0
* Funebris (Funeral Cypress).—50 feet.....	1	0
* Goveniana .—15 to 20 feet.....	1	0
* Knightii .—60 to 80 feet	1	6
* Lawsoniana Aurea .—An uncommon cypress, beautiful golden foliage.....	3	6
Lawsoniana Glauca .—Quite distinct, and a very fast grower, should be well-known, 30 feet.....	1	6
* Lambertiana Aurea (the golden Cypress), 30 to 40 feet	2	6

This is seen to great advantage on the mountains, and we can strongly recommend it to all plant buyers. Large specimens 7s. 6d. to 20s.

* Lambertiana Horizontalis .—50 to 60 feet.....	2	6
* Majestica	1	6
* MacNabiana .—10 to 15 feet.....	1	0
* Macrocarpa .—50 to 60 feet.....	1	0
* Pendula Aurea (New Golden Drooping).—Nice plants, in 5-inch pots.....	3	6

The plant is of a beautiful golden-yellow, and grows from 12 to 15 feet high, spreading proportionately, and the pendulous branches hanging gracefully down, are a deep yellow at the tips, giving the plant a very effective appearance. For the centre of a bed or lawn, or prominent position, especially in small gardens, where an attractive plant is required it is just the thing. It has been greatly admired in Melbourn, where it originated.

* Sempervirens .—30 to 50 feet.....	1	0
* Torulosis .—From seed, 50 to 60 feet.....	1	0
* Torulosis .—Propagated from cuttings; very useful for hedge purposes (see description in Hedge Plants).....	1	6

The best known and most largely grown of the Conifers, embracing a large number and variety of beautiful and quick-growing trees. They all do well near Sydney and other parts of the State.

GINKGO Biloba.—See **Salisburia**.

* JUNIPERUS Bermudiana (Pencil Cedar); an exquisite tree 20 to 30 feet.....	1	6
* Chinensis .—40 to 50 feet.....	1	6
* Hibernica (Irish Juniper).—5 to 6 feet.....	1	6
Virginiana (Virginian Cedar).....	1	6

The above can be supplied in large plants at advanced prices. Hardy upright-growing Conifers; will thrive well in any climate; distinct in form and foliage, and contrast with **Cupressus** or **Pines**. The **Juniper** tribe is a very useful one for ornamental planting. Some varieties do well in sandy soils near the sea coast.

LARIX Europæa	1	6
Leptolepis (Japanese Larch).....	1	6

* LIBROCEDRUS Doniana .—30 to 40 feet.....	2	0
* Decurrens .—80 feet.....	1	6

Librocedrus (Incense Cedar). Handsome tree; is densely branched, conical-shaped. Hardy in the colder parts of our State. The leaves are scale formed, compressed in opposite pairs, and in four imbricated rows; its leaves are aromatic. **Decurrens** forms a magnificent specimen tree for a lawn, with bright, glossy, green foliage.

NORFOLK ISLAND PINE.—See **Araucaria**.

PICEA.—See **Abies**.

PINUS Benthiana (syn. Ponderosa).—50 to 100 feet.....	1	6
* Canariensis .—40 to 50 feet.....	1	0
Coulteri .—70 feet.....	1	6
Densiflora (Japanese Pine).....	1	6
Excelsa (Bhotan Pine).....	1	6
* Halapensis (Aleppo Pine).—100 feet; very hardy, one of the best Pines for exposed situations, particularly so for the sea coast.....	1	0
* Insignis (Remarkable Pine).....	1	0
Jeffreyi .—150 feet.....	1	6
Laricio .—150 feet.....	1	6

One of the handsomest of all the pines, and popular in the Australian States. It makes rapid growth, is hardy, and will do well in any soil or locality; one of our best shelter trees.

* Longifolia .—80 feet; dense habit.....	1	0
Maritima , syn. Pinaster (Cluster Pine).—80 to 100 feet.....	1	6
Muricata (Bishop's Pine).—A distinct species, with a somewhat irregular growth; 50 to 60 feet.....	1	6
Pinea (Stone Pine).—This very picturesque tree thrives best in a sandy soil near the sea; 50 to 90 feet.....	1	6
Ponderosa .—100 feet.....	1	6
* Rigida (Pitch Pine).—40 to 50 feet.....	1	0
* Strobus (Weymouth Pine).—50 to 60 feet.....	1	6
* Sylvestris (Scotch Fir).—80 to 100 feet.....	1	0

Price per 100 on application.

This family includes some of the finest trees in cultivation; they are hardy, quick-growing, and beautiful specimens for lawn embellishment, or for avenues, and make excellent break-wind plantations.

* PODOCARPUS Totara (New Zealand Yew Tree).....	1	6
--	---	---

* Elatus .—The largest variety.....	1	6
--	---	---

We can offer a fine stock of these beautiful shade trees.

* RETINOSPORA Ericoides .—10 to 15 feet.....	1	6
* Obtusa .—20 to 30 feet.....	1	6
* Pisifera .—10 feet.....	1	6
* Pisifera Aurca .—10 feet.....	2	0
* Plumosa .—10 to 25 feet.....	1	6
* Plumosa Aurea	2	0

Retinospora, a beautiful tribe of tree shrubs, from 15 to 20 feet high; closely allied to the **Cupressus** family, which they resemble; close habit, branching and pyramidal.

* SALISBURIA Adiantifolia (Maiden Hair Tree), syn. Ginkgo Biloba .—50 to 60 feet.....	1	6
---	---	---

A fine tree, with foliage somewhat resembling an **Adiantum**.

* TAXODIUM Distichum (The Deciduous Pine or Bald Cypress).—Resembling the Yew; 50 to 100 feet.....	1	6
* TAXUS (Yew) Baccata .—20 to 30 feet.....	1	6
* Argentea Variegata .—Striped with silvery-white.....	2	0
* Hibernica Variegata	2	0

Very handsome tree-shrubs, quite hardy, compact in growth, and with good foliage.

* THUJA Lobbi .—A handsome tree from California.....	1	6
* Ocoidentalis .—40 to 50 feet.....	1	0
* Orientalis (The Book Leaf Pine).—30 to 40 feet.....	1	6

A very beautiful family of plants, of compact, dwarf habit of growth; suitable for small gardens and lawn embellishment; hardy.

* THUJOPSIS Dolabrata .—60 to 80 feet.....	1	6
Dolabrata Variegata .—40 to 50 feet.....	1	6

A hardy, evergreen, Coniferous tree, resembling the **Thuja**.

* WELLINGTONIA Gigantea (the Giant Tree of California).—400 feet.....	2	6
--	---	---

This is one of the most beautiful trees grown for avenue planting, or as single specimens. Specially adapted for cold districts.

YEW.—See **Taxus**.

Searl's Hardy Climbing Plants

For covering old walls, etc., and transforming unsightly features into pleasing landscapes, these plants are serviceable. Some kinds produce beautiful flowers, others are remarkable for their foliage.

Varieties marked thus * do best in cold climates—just a guide to our country friends, to show which is best for them to plant.

	s. d.
* AKEBIA <i>Quinata</i> .—A beautiful climber from Japan; flowers are of a dark heliotrope colour, borne in small clusters	1 6
ALLAMANDA <i>Hendersonii</i> .—Large yellow flowers; it is usually grown as a green-house plant, but will do well in warm situations out of doors	2 0
* AMPELOPSIS (Virginian Creeper), <i>Hederacea</i> (American Ivy)	1 0
* <i>Dissecta</i>	1 0
* <i>Engelmanni</i>	1 0
* <i>Hirsuti</i>	1 0
* <i>Hoggii</i> , foliage large, ornamental	1 0
* <i>Henryana</i> (see novelty pages).	
* <i>Muralis</i>	1 0
* <i>Quinquefolia</i> (American Woodbine)	1 0
* <i>Sieboldii</i> <i>Variegata</i> .—Beautiful white and pink variegated foliage	1 6
<i>Veitchii</i> <i>Purpurea</i> .—Foliage tinted red.	1 0
Grown for their beautiful autumn-tinted foliage. A <i>Veitchii</i> <i>Purpurea</i> adheres to walls in the same manner as Ivy, and has a most picturesque appearance. The others are new varieties. We can highly recommend them all.	
ANTIGONON <i>Leptopus</i> (Mexico).—Called "Rosa de Montana" and "San Miguelito." One of the prettiest climbers known for the mass of bright pink flowers it displays during the summer.	1 6
<i>Leptopus Alba</i>	1 6
Charming slender creepers.	
ARISTOLOCHIA <i>Elegans</i> , Brazil (the so-called Dutchman's Pipe) Blackish purple flowers of peculiar shape. One of the most beautiful and free-flowering of this genus.	1 6
<i>Grandiflora</i> .—Interesting plant, with handsome foliage and singularly-shaped flowers; a fine creeper for wall, fence, or side of bush house.	1 6
<i>Ornithocephala</i> .—Flowers resemble a bird's head, peculiar purplish-grey colour.	1 6
<i>Sipho</i> .—Flowers yellowish-brown.	2 0
BEAUMONTIA <i>Grandiflora</i> .—White. A magnificent climber, bearing large trumpet-shaped flowers, highly perfumed	2 0
* BIGNONIA (syn. with <i>Tecoma</i>) <i>Australis</i> (Wonga Wonga Vine), cream and brown; a splendid creeper.	1 0
* <i>Capreolata</i> .—Red; very distinct.	2 0
* <i>Chirere</i> (Mexico).—Exceedingly vigorous, large scarlet flowers.	2 0
* <i>Excelsa</i> .—Yellow; handsome.	1 6
* <i>Floribunda</i> .—Lavender, very beautiful; flowers autumn and spring.	1 6
* <i>Grandiflora</i> .—Orange; colour handsome.	1 6
* <i>Gulfoylei</i> .—Red and orange.	1 6
* <i>Jasminoides</i> .—Rose and white.	1 6
* <i>Jasminoides Alba</i> .—Choice.	2 0
* <i>Lindleyana</i> (Mexico).—Lavender.	1 6
* <i>Mackenzii</i> .—Grand evergreen, bearing lovely rose-coloured blooms; syn. with <i>Bignonia Rosea</i>	1 6
* <i>Rosea</i> .—Syn. with <i>Mackenzii</i>	1 6
* <i>Tweediana</i> .—A rich yellow.	1 0
* <i>Venusta</i> (Mexico).—Orange.	1 6
Fast growers and profuse bloomers. <i>Venusta</i> , when grown on a trellis or trained against a wall, is unsurpassed in the profusion or magnificence of its large racemes of bright orange-coloured flowers during the winter. Most varieties attach themselves to walls and fences, and gain their own support.	
BOUGAINVILLEA <i>Braziliensis</i> .—Bright mauve.	1 6
<i>Glabra</i> .—Rose lilac.	1 6
<i>Glabra Sanderiana</i> .—Rose; the most perpetual-flowering Bougainvillea of all.	1 6
<i>Grandiflora</i> .—Magenta.	1 6
<i>Hessiana</i> .—Purple.	1 6
<i>Magnifica Trailii</i> .—Bright purple and can recommend as the best purple variety.	2 0
<i>Speciosa</i> .—Purple, white centre.	1 6
<i>Speciosa Variegata</i> .—A charming variegated-foliage form of this very popular climbing plant; flower the same as the parent plant, <i>Speciosa</i>	1 6
<i>Spectabilis</i> .—Rose lilac.	1 6
<i>Sanderiana Variegata</i> .—See novelties.	
<i>Splendens</i> (syn. <i>Lateritia Splendens</i>).—Brick red; absolutely the finest of the type; choice.	3 0
Bougainvilleas like a warm northerly aspect and shelter; their flowers are magnificent, and they continue to bloom for a long time. <i>Glabra</i> and <i>Glabra Sanderiana</i> may be grown as shrubs. But are best trained on a wall or northerly aspect.	
CANAVALIA <i>Bonariensis</i>	1 3
This plant has scarcely an equal in extent or quickness of growth or beauty of foliage. Its leaves are large and of a brilliant shining green, with bright purplish-red spikes of pea-like flowers.	

	s. d.
CLEMATIS <i>Jackmanii</i> (Seedlings). each	1 6
* <i>Jackmani</i> .—In named varieties. each	3 0
* <i>Paniculata</i> , free-flowering.	1 6
* <i>Montana</i> (American Virgin Bower).—Pure white; a valuable climber, suit all parts of State; very pretty climber	1 6
The finest vine in existence for small trellises or piazza pillars; can be used also to cover rock-work, mounds, stumps, etc., or can be used as a low trailer, pegging its shoots down to the ground. Foliage neat; flowers graceful; a solid mass of bloom	
A list of named varieties on application.	
COBCEA <i>Scandens</i> .—Dark purple.	1 0
<i>Scandens Alba</i> .—White.	1 0
This is one of the best creepers, and very suitable for covering a trellis. Fine foliage and abundance of bloom.	
DOLICHOS <i>Lignosus</i> .—White.	1 0
<i>Lignosus</i> .—Pink.	1 0
Fast-growing twiners.	
FICUS <i>Stipulata</i> (Climbing Fig).—Special quote for quantity.	1 0
<i>Minima</i> .—Very pretty, small-leaved variety.	1 0
<i>Repens Variegata</i> (syn. <i>Radicans Var</i>).	1 6
Adhering to walls, fences, rocks, and are very useful in general.	
FUCHSIA <i>Procumbens</i> (Climbing Fuchsia) (<i>Kirkii</i>).—Flowers small; tube yellowish, upper portion reflexed blue.	
This exceedingly pretty little hardy creeper is principally grown on account of it producing magenta-crimson berries, which remain on for months, and are very attractive during the winter. Very suitable for rock-work.	
GELSEMIUM <i>Sempervirens</i>	1 6
A beautiful climber; corolla of the flower deep yellow, with protruding anthers.	
HARDENBERGIA <i>Digitata</i> .—Purple and white.	1 6
<i>Monophylla</i> .—Purple.	1 0
<i>Monophylla</i> .—White.	1 0
Pretty climbing plants.	
* HEDERA (Ivy) <i>Helix</i>	1 0
* <i>Chrysophylla</i>	1 0
* <i>Helix Rhomboidea Variegata</i>	1 6
* <i>Latifolia Maculata</i>	1 6
* <i>Helix Maderiensis Variegata</i> .—Best of the variegated tribe, free-flowering and effective; leaves margined, creamy-white.	2 6
<i>Palmata Aurea</i>	1 6
<i>Tricolor Marginata</i>	1 6
Ivies are so well-known that they need no description here, further than to remark that no garden or grounds should be without them. They thrive well anywhere. The variegated varieties are particularly fine, and cold climates suit them admirably.	
HEXACENTRIS <i>Mysorensis</i> (India), syn. <i>Thunbergia Mysorensis</i> . A vigorous climber, with rich glossy foliage, flowers scarlet and yellow, in long bunches.	1 0
HONEYSUCKLE (see <i>Lonicera</i>).	
HOYA <i>CARNOSA</i> (Wax Plant).—Flowers pinkish-white, corolla fleshy. It sometimes becomes attached to the wall like Ivy, and grows freely when planted out.	1 6
<i>Variegata</i>	2 0
* HUMULUS <i>Lupulus</i> (English Hop).—Makes a graceful quick-growing climber. The heads of fruit are used in brewing, and young branched foliage is a good pot-herb.	1 0
IPOMŒA <i>Tuberculata</i> .—Pink. The Pink Moon Flower.	1 6
<i>Learii</i> .—Blue. The Blue Moon Flower.	1 0
<i>Pandurata</i> .—The White Moon Flower.	1 0
They will stand a year's drought without a murmur. It becomes a large luxuriant vine, clothed with abundant growth of pretty cordate leaves, and bearing great quantities of large, thick-textured, waxy flowers.	
IVY .—See <i>Hedera</i> .	
JASMINUM <i>Fruiticans</i> (Yellow Jasmin).—8 feet.	1 0
<i>Gracilis</i> .—White, 5 feet.	1 0
<i>Grandiflorum</i> .—White, 10 feet.	1 6
<i>Grandiflorum fl. pl.</i> .—This is the well-known Jasmine, only double white flowering.	1 6
<i>Nudiflorum</i> .—Yellow, 10 feet.	1 0
<i>Officinale</i> .—White, 8 feet.	1 0
<i>Primulinum</i> .—Flowers resembling Jasmine <i>Nudiflorum</i> , but much larger, measuring 1½ to 2 inches in diameter, covering the branches their whole length; leaves dark green; yellow flowers.	1 6
<i>Poicocium</i> (syn. with <i>Nitida</i>).—White, star-like flowers, 8 feet	1 6
<i>Reevsii</i> .—This is very compact flowering shrub; dark green foliage; bright glistening yellow flowers.	1 6
<i>Souvenir de Poiteau</i> .—Cream; produces a profusion of berries, black in colour.	1 0
Jasminums all produce sweetly-scented flowers, and can also be grown as shrubs.	

SEARL & SONS PLANTS & FLOWERS SYDNEY.

CLIMBING PLANTS—continued

* LATHYRUS Latifolius Alba. —Large white, choice.....	s. d. 1 0
* Pink Beauty.	1 0
Pubescens.	1 0
Producing racemes of the most lovely pale blue blossoms imaginable, and flowers freely by far the greater part of the year. These are everlasting sweet peas. They are exceedingly ornamental and very desirable plants. They are easy of culture, thriving in any garden soil.	
* LONICERA Gigantea. —A grand new climbing plant; butter-yellow; a quick grower.....	1 6
* Aurea Reticulata. —White and yellow foliage.....	1 0
* Brachypoda. —Yellow, very fragrant.....	1 6
* Caprifolium (English). —The typical honeysuckle, large white and yellow flowers; the most fragrant among its congeners.....	1 6
* Confusa. —Yellow.....	1 0
* Halliana. —The best white Honeysuckle grown, with dark-green foliage which keeps green all the winter, and beautiful clusters of the sweetest-scented flowers, that open a snowy white and turn a pale yellow.....	1 6
* Japonica. —Cream, sweetly-scented, resembling <i>Daphne</i> ..	1 0
* Punicea. —A very choice variety.....	1 6
* Semperflorens. —Beautiful scarlet outside, yellow inside ..	1 6
* Sinensis. —White and red.....	1 0
* Tartarica Splendens (Scarlet Trumpet Honeysuckle). —Specially choice.....	1 6
The dear, homely, old Honeysuckle is not, and never will be out of place, perfuming the atmosphere around the rich man's mansion or the poor man's cottage. A cheap, hardy, robust vine, exceedingly beautiful and very fragrant.	
LOPHOSPERMUM Grandiflorum. —Red Gloxinia-like flowers....	1 6
MANDEVILLEA Suaveolens.	1 0
A beautiful slender creeper, bearing lovely white flowers and fine foliage.	
MANETTIA Bicolor. —Yellow and red.....	1 6
Useful climber.	
MAURANDYA Alba. —White.....	1 0
Barclayana. —Blue.....	1 0
A beautiful close-growing climber; would do well on a wire fence or on a verandah trellis.	
MEDEOLA Asparagoides (Smilax)	1 0
The graceful beauty of this handsome plant renders it most valuable for vases or hanging baskets, and it is suitable for bush-house or verandah culture. It lends itself admirably to table decoration, either in pots or for mixing the foliage with cut flowers and fern leaves; a quick grower.	
Asparagoides Myrtifolia (the New Myrtle-leaved Smilax) each	1 0
The leaves, which individually most resemble the small leaves of the Common Myrtle, are one-fourth the size of the older variety, and are borne on long feathery trails often 6 to 8 feet long. In this variety, these sprays are produced with even greater freedom than on its popular parent. It is of great durability, repeated trials showing that the cut trails will keep fresh for six or seven days, and when in water considerably longer.	
MIKANIA Scandens (Japanese Ivy). —Quick-growing climber with Ivy-like foliage and yellow flowers freely produced	1 0
MOON FLOWER. —See <i>Ipomœa</i> .	
NASTURTIUM (double-flowering). —Brick red, striped yellow....	1 0
Scarlet Flower.	1 0
Two charming, hardy, quick-growing climbers, with fine foliage; profuse bloomers, and perfectly double flowers.	
PASSIFLORA (Passion Flower) Cœrulea. —Blue and white....	1 0
Constance Elliot. —Pure white.....	1 6
Granadilla. —Large fruit.....	1 6
Eduilis (Edible Passion Fruit). —White flowers, tinged purple.....	0 6
Sanguinolenta. —Red.....	1 6
<i>Passifloras</i> should always be included among plants selected or covering unsightly objects; the flowers are very beautiful.	
PERESKIA Auleta (Climbing Cactus). —White Barbadoes Gooseberry (edible).....	1 6
PHASEOLUS Caracalla (Snail Flower).	1 0
A slender climber with full foliage, producing clusters of lovely lilac flowers, shell-shaped; very curious and beautiful.	
PHYSIANTHUS Albens (Aranja or Cruel Plant). —White flower, somewhat resembling <i>Stephanotis</i>	1 0
This has been called the Cruel Vine, from its whitish flowers entrapping moths and butterflies.	
QUISQUALIS Indica (Rangoon Creeper). —Flowers varying in colour from orange to red and pink; beautiful and sweet-scented; petals oval-oblong—A handsome climber.....	2 0
RHYNOSPERMUM Jasminoides.	1 6
Jasminoides. —Variegated, choice.....	1 6
A bright, perfumed, white-flowered creeper, of quick growth and fine foliage. It is evergreen and hardy, except in the coldest districts.	
SNAIL FLOWER. —See <i>Phaseolus</i> .	

SOLANUM Jasminoides. —White; a fast-covering climber.....	s. d. 1 0
Jasminoides Alba Marginata.	1 0
Seafortianum. —Beautiful clusters of blue flowers.....	1 0
Wendlandii. —One of the most superb summer-flowering vines it is possible to conceive. It blooms continuously—not stray blossoms, each one nearly three inches across, as many as 100 being in a cluster. The colour is an attractive shade of lavender-blue.....	
	1 6

STEPHANOTIS Floribunda (Madagascar Jasmine)

STEPHANOTIS Floribunda (Madagascar Jasmine)	2 6
Stephanotis is prized as a first-class plant for exhibition; it is usually grown in the green-house, but will do well in warm situations out of doors. The foliage is a pretty green and the flowers are pure white, wax-like, very fragrant, and abundant.	
STIGMAPHYLLON (Golden Vine) Ciliatum	1 6
Producing Orchid-like flowers, yellow, pretty and ornamental.	
SOLANDRA Grandiflora. —Peach-coloured, trumpet-flowered ...	1 6
TACSONIA (Passion Flower) Exoniensis. —Rose-pink.....	1 0
Ignea. —Intense scarlet.....	1 0
Manicata. —Scarlet colour.....	1 6
Smythiana. —Handsome hybrid; flowers very distinct in colour, which is a peculiar shade of orange-scarlet; fruit edible.....	1 6
Van Volxemil. —Crimson colour.....	1 6
This family is distinguished from the <i>Passiflora</i> by the long cylindrical tubes of the calyx of their flowers. They are very handsome, quick-growing, beautiful climbers.	
THUNBERGIA Laurifolia. —Laurel-leaved, producing beautiful pale blue flowers, with yellow throat.....	1 6
Coccinea. —Small red flowers.....	1 6
These are fine, free-flowering plants of great beauty.	
TROPEOLUM Pentaphyllum. —Vermilion and green.....	1 6
Speciosum. —Bright orange-scarlet.....	1 6
These are climbers that gain great admiration; free-flowering and bulbous climbers.	
VINCA Argentea Variegata (Periwinkle). —Useful for low bordering; trailing habit.....	1 0
Minor. —Minicature leaves.....	1 0
VIRGINIAN CREEPER. —See <i>Ampelopsis</i> .	
*WISTARIA Magnifica. —This is an evergreen in our nurseries, producing in the summer beautiful lavender-blue flowers	1 6
*Multijuga. —A Japanese variety, with dark purple racemes; attains a length of from 2 to 3 feet; an extra-fine form	1 6
*Multijuga Alba.	1 6
Mutijuga Rosea (Japan). —A grand meritorious novelty very distinct, plant vigorous and floriferous; long clusters of lilac-rose flowers, lower petals yellow in centre; flower buds of a nice clear rose.....each	3 6
*Sinensis. —Lavender.....	1 0
*Sinensis Alba.	1 6
*Sinensis fl. pl. —Double flowers, lavender.....	2 6
The <i>Wistarias</i> are considered the finest of deciduous climbing plants. In the early spring they are covered with massive clusters of lovely pea-shaped flowers, sometimes 2 feet long may also be trained to grow in erect bush form.	

AQUATIC PLANTS

THE Nymphaeas are among the most beautiful and satisfactory of this class of plant; late years have added charming new colours and forms. They thrive and flower in small tubs or half-casks, aquariums, tanks, cemented basins, ponds, lakes or streams. We recommend growing in half-casks. Fill one-third with the following material: One part coarse bones in the bottom, one part strong soil and cow manure, and white sand on top. Plunge firmly in soil, keep cask filled with fresh water, and the result will be a success.

With judgment and careful selection how beautiful our lakes, streams and swamps might be made by covering the surfaces with foliage and flowers, while the margins could be covered with luxuriant vegetation.

These Nymphaeas represent all the sorts as grown in Centennial Park. The Roots are strong, and guaranteed to flower well the first season after planting

	each s. d.
ACORUS CALAMUS	1 0
APONOGETON DISTACHYON (Water Hawthorn).—Hardy perennial aquatic from the Cape, with most singular and beautiful white flowers marked with black. These have a most delightful Hawthorn-like fragrance.....	1 0
AZOLLA RUBRA .—A dense, floating aquatic, minimising evaporation.....per doz.	1 0
BUTOMUS UMBELLATUS .—A perennial flowering rush, with rose coloured flowers in clusters, standing 2 feet out of the water.....	1 0
LIMNOCHARIS HUMBOLDTII (Water Poppy).—An interesting and pretty aquatic, which in summer covers the surface of the water with broad heart-shaped leaves of a beautiful glistening green, and soft yellow Eschscholtzia-like flowers which continue for several months.....	1 0
NUPHAR LUTEA .—The Yellow Water Lily of great Britain and Europe. The flowers resemble an immense buttercup.....	1 0
NYPHÆAS —	
Aurora .—The flower changes to three or four distinct shades, first day rosy yellow, second day orange red, then a darker shade.....	3 6
Colossea .—Flesh colour turning to white.....	5 0
Ellisiana .—Flowers large, brilliant carmine-purple, with a beautiful lustre, reminding one of a ruby; very free and sweetly scented.....	5 0
Gigantea (Australian Water Lily).—Strong tubers. May to October.....	2 6
The beautiful blue variety, native of our Northern rivers, which prefers a warmer situation than the others.	
Gladstoneana .—Fine white.....	5 0
Gloriosa .—Deep brilliant rose, suffused slightly with carmine; perfect shape.....	5 0
James Brydon .—Rosy crimson, very fine.....	5 0
Laydekeri Lilacea .—Elegant flower; lilac pink, dotted with bright carmine.....	5 0
Lucida .—Rosy vermilion, choice.....	5 0
Lutea .—Tubers.....	1 6
The beautiful yellow variety.	
Marliacea Albida . Splendid vigorous sort; large flower, 6 inches in diameter; milk-like white; very floriferous.....	2 6

NYPHÆAS—Continued.

	each s. d.
Marliacea Carneæ .—Flesh-pink, fragrant and very large..	3 6
Marliacea Chromatella .—Canary-yellow petals and stamens; leaves blotched with maroon.....	3 6
Moorei .—A New Zealand variety, large golden yellow....	5 0
Odorata Alba .—Tubers.....	1 6
The lovely White Water Lily, always seen in such profusion during summer and autumn.	
Odorata Luciana .—Flower rose carmine; bright vigorous sort.....	3 6
Odorata Rosea .—Rose, sweetly perfumed; extra choice ..	5 0
Pygmæa Helvola .—The same as above, small flowers which are sulphur yellow.....	5 0
Robinsoni .—Brilliant vermilion, shaded with lustrous violet red, and touched with ochre towards the centre; stamens rich orange yellow; leaves spotted and streaked chestnut. Marvellously fine colour; very beautiful.....	5 0
Sanguinea .—Flowers large, of a bright crimson colour, changing to deep blood-red; centre light orange-red, continuous flowering.....	5 0
Seignouretii .—Flower of medium size; carmine on pale yellow ground; arising 6 inches above the water; a profuse bloomer.....	3 6
Stellata .—Flowers blue, very delicately scented; produced in abundance throughout the summer months.....	4 0
Stellata Alba .—Same as Stellata, only white, choice.....	10 6
Suavissima .—Flowers clear pink, standing well out of water.....	10 6
Tuberosa Rosa .—Rose; very pretty.....	5 0
W. Falconer .—A very fine hybrid; deep, rich blood-crimson, shaded ruby, intensified by golden yellow centre, nice foliage.....	5 0
PAPYRUS ANTIQUORUM (Egyptian Paper Reed or Rush)...	1 6
It is usually cultivated as an aquatic, but may be grown in a pot of rich, heavy loam, if kept standing in a pan or tub of water. For sub-tropical gardening it is a very useful subject, and is best grown in shallow water in a warm position.	
VALLISNERIA SPIRALIS (Tape Grass).—A curious submerged aquatic plant. Can be grown successfully in small indoor aquariums, where it will prove very interesting during flowering time, and with its green strap-shaped leaves will be a perpetual ornament; also adapted for outdoor ponds, etc.....per clump	1 0
We also stock Bog Plants suitable for margins of water, bogs, damp beds, etc. List and prices on application.	

Carpet Bedding or Ribbon Border Plants

Effective Bedding Plants. Should be planted from October to January. They make a grand show.

Other varieties among the Annual List can also be used for this purpose.

EDGING PLANTS

BOX (*Buxus Sempervirens*, *Buxus Rotundifolia*.)

Plant 6 inches apart. 1s. 6d. per doz., 10s. per 100 not less than 50 at 100 rate.

ECHEVERIA.—Hen and Chickens. 10s. per 100.

LOBELIA.—White and blue. 4s. per 100.

THRIFT.—(*Sagina Pillofera*, syn. *Spergula Pillofera*). This moss-like perennial has proved valuable for forming permanent edgings, etc. Plant 4 inches apart. Sufficient to plant 100 feet, 2s. 6d.

We have other Edging Plants; ask us about them.

HEDGE PLANTS

PLANTING Hedges for use as well as for ornament—protection of orchards, farms and garden—is becoming highly appreciated. They are a protection against high winds, and valuable in preventing the blowing off of fruit. Gardens produce earlier and fruits ripen better when thus protected. Besides their usefulness nothing can be more beautiful than hedges of evergreens or shrubs, well kept and pruned, to serve as boundary lines between lawn and garden, or to hide unsightly parts of the ground. By using the medium-sized plants we supply, a hedge can be made as cheaply as a good fence can be built.

Ask us the best Hedge for Ornament.

Ask us the best Hedge for flowering purposes.

Ask us the best Hedge for shelter and screen.

Ask us the best Hedge for defensive purposes.

We also stock other Hedge Plants not listed here.

Kindly ask for what you want.

ABERIA CAFFRA (Kaffir Apple).—Plant 3 feet apart; very spiny, most useful for hedge. 10s. per doz.

AFRICAN BOX THORN (*Lycium Horridum*).—Plant 12 inches apart. 5s. per 100, 40s. per 1000

This prickly hedge is a quick-growing evergreen, suitable for fencing large gardens.

BERBERIS VULGARIS.—Plant 12 inches apart. Useful hedge plant 60s. per 100

BOUGAINVILLEA GLABRA SANDERIANA.—Plant 2 feet apart; makes a pretty hedge, and flowers abundantly. 15s. per doz.

CRATAEGUS CRENULATA.—Glorious hedge. Plant 3 feet apart. 15s. per doz.

CALLITRIS ROBUSTA (Syn. *Frenella*).—Good hedge plant. 10s. per dozen.

CERASUS LAURO-CERASUS (English Laurel).—Plant 3 feet apart. Splendid plants produced at our Exeter Nursery. Price 60s. per 100

COPROSMA LUCIDA.—Plant 3 feet apart. 10s. per doz.

This is a good hedge plant, and is particularly hardy, especially on the sea coast.

CUPRESSUS LAMBERTIANA HORIZONTALIS, True (see Conifers).

CUPRESSUS MACROCARPA.—Plant 3 feet apart. Well-known hedge plants. From 60s. per 100.

CUPRESSUS TORULOSA.—Plant 3 feet apart. Plants of the true variety propagated from cuttings, and established in pots. 15s. per doz.; but a special quote for quantity.

This makes a splendid shelter hedge or break-wind; there is nothing that we know of in this State that can equal it for this purpose; requiring little or no trimming for a long time, and does not produce quantities of seed-pods, which are so objectionable.

CYTISUS PROLIFERUS (*Tagosaste*).—Tree Lucerne. We recommend the sowing of seed only.

DURANTA.—Good hedge, always attractive. Plant 3 feet apart. Blue or White. (in 4-in. pots.) 10s. doz, 70s. 100; smaller, 7s. 6d. doz., 50s. 100.

HAWTHORN QUICKS (May).—Plant 9 inches apart. 5s. 100, 40s. 1000. A fine, thorny, deciduous hedge plant, which flowers freely in the spring.

HIBISCUS.—Sorts. Plant 3 feet apart. 1s. 6d. each, 15s. per doz. Will make a grand ornamental flowering hedge. See descriptions in general shrub list.

LIGUSTRUM CHINENSIS (Chinese Privet).—Plant 3 feet apart. 15s. per dozen.

LANTANA SELLOWIANA (The everblooming hedge). A delightful little flower, mauve colour, and blooms all the year round. A variety from Brazil, and not a common weed like some of our native Lantanas; quick grower. 1 to 2 feet apart. 10s. per doz.

LIGUSTRUM LUCIDUM (Large Leaf Privet).—Plant 12 inches apart. 2s. per doz., 12s. 6d. per 100; not less than 50 at 100 rate.

LIGUSTRUM VULGARIS (Small Leaf Evergreen Privet).—Plant 12 inches apart. 1s. 6d. per doz., 10s. per 100.

MACLURA AURANTIACA (Osage Orange).—An excellent plant for forming hedges 12s. 6d. per 100. Strong-growing hedge plants.

MONTHLY ROSES.—Assorted colours. Plant 4 feet apart, 10s. per doz.

OLIVE, Common (*Olea Europa*).—Plant 12 inches apart. 2s. per doz., 12s. 6d. per 100.

The very best hedge plant for this State, as it withstands drought and heat splendidly, is a quick grower, and stands any amount of cutting back.

PITTOSPORUM EUGENOIDES.—10s. per doz., 60s. per 100.

PITTOSPORUM EUGENOIDES VARIEGATUM.—Specially grafted plants. 15s. per dozen.

PITTOSPORUM UNDULATUM (Victorian Laurel).—10s. per dozen, 75s. per 100.

These make fine evergreen hedges for a garden, and can be trimmed close into any desired shape. The foliage is handsome, and of a fine fresh green colour. Plant in single rows, 2 feet apart.

PLUMBAGO.—White and blue. Plant 2 feet apart. 10s. per doz. 60s. per 100.

PRIVET, Evergreen. —Plant 12 inches apart. 1s. 6d. per doz., 10s. per 100. Of all the shrubs tried for hedging, none can compare with the Privet.

PRIVET, Golden. —Plant 12 inches apart. 6s. per doz.

PRUNUS MYROBOLANA (Myroboan Plum).—Hardy fruiting hedge. Plant 12 inches apart. Strong plants. 7s. 6d. per doz., 50s. per 100

RAPHIOLEPIS (Indian Hawthorn).—Plant 2 feet apart; good-flowering hedge. 10s. per doz., 60s. per 100.

RHAMNUS (Buckthorn).—Very useful hedge. Plant 24 inches apart 10s. per doz., 60s. per 100.

RHAMNUS VARIEGATA.—Choice ornamental hedge. Plant 3 feet apart. 15s. per doz.

SPIREA.—Makes beautiful hedges. 3 feet apart. 10s. per doz.

SYRINGA PERSICA (Persian Lilac).—Pretty mauve flowers. 3 feet apart. 15s. per doz.

TECOMARIA CAPENSIS (known as Tecoma Capensis).—Bright red flowering hedge: looks well planted alternately with Plumbago. 10s. per doz., 60s. per 100.

VERONICA.—Sorts. Plant 3 feet apart. 10s. per doz.

VIBURNUM TINUS.—Plant 2 feet apart. Useful evergreen hedge. 10s. per doz., 60s. per 100.

ROCK WORK PLANTS (A Specialty)

WE CAN ALSO QUOTE FOR THE BEST OF ROCK WORK

The making of Rockeries or Rock Gardens is becoming more general, and deservedly so, as it makes an attractive addition to the Flower Garden; and, with a little taste, some beautiful effects can be made, and an unsightly nook or corner transformed into a most picturesque spot. We give a list of some of the principal plants required, and shall be pleased to afford any information desired. We can also supply many other varieties—names on application.

CRASSULA COCCINEA
IRIS, of Sorts
CHAMÆROPS
CACTUS, of Sorts
GERANIUMS, of Sorts
LOTUS PELYORHINCHUS

CONVOLVULUS MAURITANICUS
GENTIANA ACAULIS
MESEMBRYANTHEMUMS, of Sorts
SEDUM, of Sorts, including Variegated
ECHEVERIAS, of Sorts
GAZANIA, of Sorts

OPHIPOGON, of Sorts
AGAVES
YUCCAS
TRITOMAS
VINCA, new miniature varieties.
Etc., etc.

Full descriptions of above will be found under their various headings.

SEARL'S SEEDLING PLANTS

6d. per dozen, 4s. per 100, unless otherwise marked.

For the convenience of our city and suburban clients we keep a daily supply of seasonable seedlings in the soil in boxes at our King Street Depot: They carry splendidly per post to all parts of N.S.W., at a cost of 3d. per doz. extra.

A GRAND SHOW IN YOUR GARDEN can be made by purchasing from this list. To meet convenience of customers with limited space, we are prepared to supply these Seedlings in lots of half-a-dozen of a sort.

Ready from March to August

Antirrhinum.—Best varieties. 8d per doz.
 Aquilegia Vulgaris.—Fl. pl., long spurred. 1s.
 Althea (Hollyhocks).—Double mixed. 1s.
 Bellis Perennis (Daisies).—Sorts.
 Centaurea (Cornflower).—Sorts.
 Calendula.—Best mixed.
 Calliopsis Drummondii Bessile.
 Grandiflora.—1s. per doz.
 Bicolor Tinctoria.
 Lanceolata.—1s. per doz. Best mixed.
 Campanula (Canterbury Bells).—Mixed. 8d. per doz.
 Carnation (Margaret Malmaison).—2s. per doz.
 Carnation (Marguerite).—8d. per doz.
 Carnation.—Perpetual or Tree Seedlings. 3s. per dozen.
 Carnation—"Riviera Market."—A beautiful ever-blooming strain.
 Mixed. 2s. per dozen.
 Coleus Seedlings.—2s. 6d. per dozen.
 Cosmidium Burridgeanum.
 Cineraria.—Choice flowered. 2s. per dozen.
 Delphinium.—The beautiful blue perennial Larkspur. 2s. per dozen.
 Delphinium.—Searl's Sovereign Strain. 2s. 6d. per doz.
 Dianthus.—In variety.
 Eschscholtzia.—Best mixed.
 Gaillardia.—8d. per dozen.
 Garden Marigold.
 Helichrysum.—Mixed.
 Larkspur.
 Leptosyne Maritima.—8d. per doz.
 Linum Grandiflora Rubrum (Scarlet Flax).
 Linum.—Best mixed.
 Lupins.—Best mixed.
 Nemesis Strumosa Suttoni.—A compact growing annual of great merit;
 great diversity of colours. 2s. per doz.
 Myosotis (Forget-me-not).—Sorts.
 Pansies.—First-class strains. Mixed Continental. 1s. per dozen.
 LARGE ENGLISH.—Mixed. 6d. per dozen.
 FRENCH STRAIN, and all other varieties. 1s. per doz.
 Pansy.—Extra choice. 2/- per dozen.
 Papaver (Oriental Poppy).—Perennial. Beautiful flowers. 1s. per doz.
 Papaver (Poppies).—Best varieties. Phlox.—In variety.
 Pentstemon.—2s. per dozen.
 Polyanthus.—2s. 6d. per doz. Splendid variety, all colours.
 Primrose.—English. 3s. doz. (Double Primrose, see Herbaceous list.)
 Scabious.—Mixed.
 Scabious.—Extra large flowers. Searl's Special Strain. 8d. per doz.
 Summer Chrysanthemums.—In variety.
 Sweet Sultan.—8d. per doz.
 Stock, Ten-Week.—8d. per doz.
 Stock, Brompton.—8d. per doz.
 Stock.—Nice varieties, separate colours. 1s. per doz.
 Verbena Seedlings.—1s. per doz.
 Wallflower.—Best mixed. Double and single. 8d.

Ready from about September to January

Amaranthus Tricolor (Joseph's Coat).
 Amaranthus Salicifolius (Fountain Plant).
 Amaranthus (Searl's Sovereign Strain).—Choice mixed, a magnificent
 collection. 1s. per dozen.
 Arctotis Grandis.—8d.
 Asters.—Tasmanian mixed. 8d. per doz.; 4s. per 100.
 Asters.—Tasmanian. Separate colours. 1s. per doz.; 6s. per 100.
 Balsam.—Best mixed.
 Celosia.—Mixed. 8d. per doz.
 Celosia Thompsoni Magnifica.—Without a doubt one of the finest annuals
 of the day. When in flower it is conspicuously beautiful.
 Cosmos.—Mixed. 8d. per doz.
 Cosmos (Crown).—2s. per doz.
 Klondyke Cosmos.—Showy yellow flowers. 8d. per doz.
 Dahlia.—Mixed Seedlings. 1s. per doz.
 Dahlia (Cactus).—Mixed Seedlings. Some time one gets a pleasant
 surprise from these seedlings, and they brighten up the garden
 considerably. 1s. 6d. per dozen.
 Digitalis (Foxglove).—Mixed.
 Gomphrena Globosa. 6d. per doz.
 Godetia.—Very showy annual.
 Helianthus (Sunflower).—Sorts.
 Helianthus Cucumerifolius.—Small single Sunflower.
 Lobelia.—Mixed.
 Mina Lobata.—Lovely annual creeper. Place orders early. Plant in
 pots. 6d. each. Seedlings, 2s. 6d. per doz.
 Nasturtium.—Best mixed.
 Petunia Hybrida.—Best mixed. 8d. doz.
 Petunia Grandiflora. 1s. per doz.
 Petunia.—Searl's Giant Strain (Special). 8s. per doz.
 Portulacca.—Single.
 Portulacca.—Double.
 Pyrethrum Aureum.
 Pyrethrum.—Flowering, assorted. 2s. per dozen.
 Rudbeckia.—Bicolor.
 Salpiglossis.—Should be in every garden. Colours very rich and gorgeous.
 Salvia Bonfire (Perennial).—This plant has proved to be one of the very
 best for bedding-out purposes and for border decoration. Its colour,
 a brilliant scarlet, attracts the attention of everyone. The plants
 grow well and are covered with flowers. Price, 2s. 6d. per dozen.
 Tagetes (Marigold).—Sorts.
 Zinnia.—Sorts.

 * I received the Ferns in excellent condition, also the Gloxinias, *
 * for which many thanks. *
 * 12/11/13. W. H. R., Main St., Murwillumbah. *

VERANDAH PLANTS

So many lovers of plants have no opportunity of indulging in their hobby, except in a verandah garden, that we add a short list of plants which can be successfully cultivated in pots or boxes in this way. They will all thrive, providing the ends of the verandahs are closed in to prevent sharp currents of air blowing on them. In cold districts a screen round will prevent frosts from injuring them.

STRONG PLANTS FOR THE PRICES MENTIONED

	s. d.
Anthericum.—Pretty foliage.....	1 0
Asparagus Plumosus.—Very handsome pot plant.....	1 0
Aspidistra.—Very hardy; handsome foliage.....	1 6

AZALEAS

THE AZALEA is a lovely early spring-flowering evergreen shrub, and, planted in masses, affords a glorious display. This plant has no equal for richness and purity of colouring. In very dry seasons Azaleas should be helped with heavy waterings about once a fortnight. They can be grown as pot plants, and are suitable for bush-house or verandah culture.

Strong plants, 1s. 6d. each, 15s. per doz. (except where otherwise priced). Large plants at advanced prices, in full bloom. You cannot do better than leave a selection of 6 or 12 Azaleas to us.

S. denotes Single—D. denotes Double—S.D. denotes Semi-Double.

- ALBA MAGNA** (S.).—Large white, occasionally striped.
BARON DE VRIERE (S.).—Pure white; very large. 2s.
BERNARD ANDRE ALBA (S.D.).—Double white. 2s.
CHARMER (S.).—Bright amaranth; of good form.
CORONATA (S.).—Rosy red.
COMTE CHARLES DE KERCHOVE (D.).—A very free-flowering variety of perfect shape; flesh colour with white stripes. 2s.
COMTESSE DE FLANDERS (S.).—Very large flowers, clear satin rose. 2s.
DAME MELANIE (S.).—Very bright rose, edged with pure white, carmine blotch. 2s.
DEUTSCHE PERLE (D.).—This is without doubt the best double white Azalea, being very free-flowering, early-blooming. 2s.
DUC DE NASSAU (S.).—Large, dark, rosy-purple. 2s.
EMPRESS OF INDIA (D.).—Flowers perfect; the other segments are gracefully wavy and well expanded; the segments which occupy the centre are carmine, white and salmon-rose. 2s.
EMPEREUR DE BRESIL (D.).—Large double rose of exquisite form, banded with white, upper petals marked with glossy red. 2s.
EULALIA VAN GERT (S.).—Pink, carmine spots.

- EXQUISITE** (S.).—Pink and white.
INDICA ALBA (S.).—Pure white.
MAGNIFICA (S.).—Large, deep purple.
MORTI (S.).—White, green tinge in centre.
REFULGENS (S.).—Purplish, shaded rose.
ROI DE HOLLANDE (S.).—Bright red.
SOUVENIR DE PRINCE ALBERT (D.).—Deep rose, broadly margined with white. 2s.
SPLENDENS (S.).—Fine rosy salmon.

AZALEA MOLLIS (s)

Strong plants from 2s. to 3s. 6d. Orange colour, pale yellow, orange red.

This useful, hardy Japanese flowering shrub cannot be too highly recommended, for it is invaluable for open beds and borders. It blossoms in a profuse manner, the large funnel-shaped flowers ranging in colour from rosy-salmon to various shades of yellow and bright orange. Should be more extensively known.

BEGONIAS

TUBEROUS ROOTED BEGONIAS

This is perhaps the handsomest of all summer-flowering tuberous rooted plants, and deserves greater popularity. Recent improvement made in size, texture and colouring, are really phenomenal, flowers frequently measuring $4\frac{1}{2}$ to 6 inches across, and colours ranging from the purest white and most delicate tints of pink, yellow, and orange, to the most intense scarlet and richest crimson, while the double-flowering sorts are perfect rosettes, full and double to the centre. Their culture is of the simplest; they delight in a rich, mellow, well-drained soil, where they can be liberally supplied with water, and prefer a position where they will be well shaded from the direct rays of the sun during the hottest hours. They will succeed equally well as pot plants for the conservatory or window garden. On the approach of cold weather the tubers should be taken up, and, after drying, stored away in dry sand or similar material, in a cool place free from frost, until spring. Single varieties 1s. each, 9s. per doz. Double varieties 1s. 6d. each, 15s. per doz.

SHRUBBY BEGONIAS FOR BEDDING OUT

- 1s. each. Distinct from the Tuberous-rooted varieties, and very useful for bush house or sheltered place in the open garden.
DREGIANA.—White.
FUCHSIOIDES.—Red.
NYMPHÆFOLIA.—Pink.
SPOTTED LEOPARD.—Creamy white.
WELTONIENSIS.—Pink.
FUCHSIOIDES GRANDIFLORA.—Large red.
ARGENTIA GUTTATA.—Green leaves, spotted silver and red underneath.
NITIDA.—Pink and white flowers.
SEMPERFLORENS.—In three shades, pink, white, and red.
ZEBRINA.—Green and grey stripes through the leaves.

- LUMINOSA**.—Red.
MANICATA.—Pink.
METALLICA.—Dark pink.

SHRUBBY BEGONIAS (TREE VARIETIES)

No other kind can lay claim to so many advantages as a winter-flowering plant of this class.

The following are Tree Begonias, growing to a height of from 10 to 12 feet, looking very picturesque if grown in a sheltered position out of doors. Especially adapted to bush-house culture in open ground.

- BEATRICE ROSEBY**.—Pink; a lovely shade. 1s. 6d.
CARRIERI (syn. *Undulatum*) (Tree).—Tall-growing variety, producing clusters of pure white flowers. 1s. 6d.
CORALINA (Tree).—Beautiful green leaves, like angels' wings, producing beautiful clusters of a rich red colour. 1s. 6d.

TREE VARIETIES—continued

- CORALINA-CARNEA** (Tree).—Another variety of the above type, with the palest of flesh-pink flowers, with handsome cool-looking foliage; a very choice plant. 1s. 6d.
MABEL ROSEBY.—Large white; the best. 1s. 6d.
METALLICA IMPROVED.—1s.
SMITHI (Tree).—A hybridised variety of the above, producing darker flowers of a rich carmine-rose, in very large clusters; an exquisite variety, the foliage bronzy-green, making a pretty contrast. 1s. 6d.

ORNAMENTAL-LEAVED BEGONIAS (REX TYPE)

The leaves are beautifully marked with bronze, silver, and crimson. Highly decorative pot plants for green-house, verandah, or bush-house culture. Most charming house plants. Sometimes called Rex or Painted Leaf Begonias.

All 1s. each, 9s. per dozen, except otherwise priced. A fine collection of the most beautiful varieties known.

CAMELLIAS

The Camellia succeeds well in this climate. The best soil is strong, well-drained loam of good depth, with liberal manurings once a year. In favourable soils the trees will grow to a height of from 12 to 20 feet. With proper attention, fine specimens can be grown in large pots or ornamental tubs for decorative purposes. Bloom from May to September.

From 2/- each, according to size. We have many sorts in stock, some not listed here. If left to our selection we will supply good and distinct colours.

- Alba Plena**.—White.
Augusta Superba.—Pink cupped.
Bonomiana.—White stripes, splendid flower.
Candidissima.—White, very beautiful.
Chandleri.—Red and white.
C. H. Hovey.—Velvety crimson, shaded violet.
Cup of Beauty.—White, rose shaded.
Dryade.—Rose, fine form.
Fimbriata Alba.—Splendid, white-fringed. 2s. 6d.
Harriet Beecher Sheather.—Rosy salmon, fine flower, free bloomer.

- Helenor**.—Carnation striped.
Isabella.—Large, handsome, white.
Lavinia Maggi.—White, crimson blotches.
Metallica.—Dark red.
Mrs. Fairfax.—Rose pink.
Mrs. Hope.—Blush colour.
Mrs. Shottowe.—White, striped and dappled rose.
Prince Frederick William.—Superb rose, reflexed, perfect shape.
Storyl.—Bright rose.
Venus de Medeis.—Crimson, veined rose.
Virginia Franco.—Rose, changing to spot pink, flesh margin.

BOUVARDIAS

A beautiful class of plants, which rank amongst the most elegant border perennials we possess. They flower all through the summer, almost to the middle of winter. As cut flowers for floral work and table decorations, they stand unrivalled. In addition to this, some of them are beautifully scented, and are all more hardy than generally pronounced. They suffer but slightly from frosts in winter, and when once well established are rarely killed in consequence. They should be well watered and mulched during the hot and dry summer months, and can be cut back each year in early spring. We advise the planting from November till March.

Varieties underlined are double varieties.

Alfred Neuner.—Double petals, waxy white.

Beauty of Brisbane.—Pure white, very robust habit, free-flowering.

Bochil.—Bright pink, with white throat; very fine.

Bridal Wreath.—Pure white, sweetly scented; of the type of Beauty of New South Wales, only a better grower and altogether superior variety. 1s.

Coral Beauty (New).—Large pink, changing to half-white and pink. 1s.

Coral Queen.—Rosy scarlet, white throat.

Dazzler.—Fiery red. 1s.

Drummoine.—Orange salmon, large truss. 1s.

Duchess of York.—A colonial raised variety of remarkable merit. It is a very cheerful blush pink, shading to a tinge of heliotrope.

Enid Oliver (1912). A distinct variety of a pale pink shade, and the individual flowers are formed by six or even more petals, giving the whole truss a distinct and spidery appearance; strong grower. 2s. 6d.

Ethel Kerslake.—One of the latest introduced; a good white variety; same type as Mrs. G. H. Kerslake.

Federal Queen.—A cross between President Cleveland and King of Scarlets, embracing the good qualities of both. 1s.

Flavescens.—Yellow, changing to white.

Flavescens.—Fl. pl. Double yellow. 1s.

Flavescens Improved.—Largest yellow. 1s.

Hogarthl.—Fl. pl. Dark scarlet, double. 1s.

Hogarthl.—A hardy variety, producing masses of scarlet flowers.

Humboldtii Corymbiflora.—Improved. Snow-white; large. 1s.

Jacquiniiflora.—Bright scarlet; hardy.

James Kershler.—Very distinct from all others in the shade of colour, which is hard to describe, but it's a pure rose pink, after the colour of the rose Wm. Sheen, with a delicate ochery veination, and has a green tip at end of petals. 1s. 6d.

Kelth Harris.—An improvement on the old variety Beauty of N.S.W.; good waxy petal, white with a slight pink tinge. 1s.

King of Scarlets.—The immense blooms of this deep scarlet variety are freely produced on the terminal and lateral branches. 1s.

Mabel Porter.—Dark crimson, large and full.

Malden's Blush.—Bright blush pink.

Mascot (1912).—A sport from President Cleveland, having larger flowers and truss. The colour is a lighter shade than its parent, shading to salmon-red and a distinct white square in the centre of every flower.

Meteor.—Brilliant scarlet flowers; fine truss, short thick pips; strong, vigorous habit. 1s.

Miss Elleen Beeston.—This is an excellent Bouvardia, combining every good quality. Colour is a deep pinkish heliotrope, with a wine-red tube; huge trusses of large flowers; very free.

Miss Ida Cheeseman.—A distinct variety, large flowers of a pale pink colour, the tube and reverse of petals being of a deeper shade, giving it a charming appearance; sweetly perfumed. 1s.

Mrs. Deas Thompson.—Pale shade of rose pink. 1s.

Mrs. G. H. Kerslake.—Combining the large flowers of B. Humboldtii Corymbiflora with the larger truss and free-flowering qualities of the smaller-flowered section. 1s. 6d.

9s. per doz.; 1s. each, except those priced otherwise.

9s. per doz. when named varieties asked for. Our Selection, 7s. 6d. per doz.

BOUVARDIAS

Mrs. McCulloch.—A very beautiful Bouvardia, producing immense trusses of large flowers of a reddish-salmon colour; distinct. 1s.

President Cleveland.—Very large, brilliant scarlet.

President Garfield.—Double pale pink and white.

Priory Beauty.—Pale shade rose, very fine, large trusses. 1s.

Rubra.—Dark crimson variety; very floriferous.

Salmon Queen.—Fine Bouvardia, colour salmon, with darker tube. Distinct. Flowering through the whole season. 1s.

Searl's Coral Gem (1912).—A sport from Coral Queen, and quite distinct from all Bouvardias. The petals are very pale pink, changing to white. The large, globular-shaped buds have a decided green tinge, which is retained in the fully-developed bloom. 1s. 6d.

Unique.—Cherry red, rich and bright; good variety. 1s.

Vreelandii.—White, hardy.

Walhallow.—The best coral-pink variety; very floriferous.

White Bochil.—Same habit and shape of Bochil, only white, the buds before opening showing a pink tinge.

CANNAS Giant-Flowered. Gorgeous. Ever-Blooming.

The new race of Cannas which we offer may well be termed "Orchid-flowered," as they completely eclipse in beauty the old-fashioned varieties, now quite out of date. A very fine collection of the above. 9d. each; 8s. per dozen.

Some of the new Cannas are becoming more popular. They have only to be known to be appreciated.

COLEUS

A most attractive and easily-cultivated tribe of plants, with beautiful and varied foliage; suitable for pot culture, and cannot be surpassed for window or verandah culture. May be grown outside in favoured positions.

A very choice collection, 9d. each; 6s. per dozen. Seedlings in early spring and summer at 2s. 6d. doz.; post extra.

SEARL'S CARNATIONS

ONE OF
OUR CHIEF
SPECIALITIES

Strong, healthy, and carrying plenty of root, they must give satisfaction

THE flowering wealth of Carnations, their charm of colouring, combined with a delightful perfume, place them very high in popular estimation; whilst the long time they continue producing makes them invaluable to the Florist.

Easy of culture, thrive in any fair soil, and may be planted out from April to October for best results:

1s. each, 10s. per dozen (except other price given). Special quotes per 50 or 100 plants.

Use JADOO FIBRE when planting Carnations

Perpetual Flowering or Tree Carnations

Arthur Fripp.—Rich scarlet self.

Abydos.—A dark red; good.

Adeline.—Yellow, laced maroon.

Aldgate Lavender.—Lavender, with pretty glistenings of scarlet.

Aloha.—Yellow ground with salmon flakes; fringed petals.

Avalanche.—Snowy white, of good form, free growth, and flowers persistently all the year round.

Bataclava.—Very dark crimson; constant, perpetual.

Comet.—A very fine deep scarlet; a continuous flowerer in the winter.

Commandant Hall.—A splendid white.

Conspicuous.—Rich, bright rose, a most brilliant colour; the flowers are perfect in shape, smooth petals of good substance.

Cymbeline.—White ground, striped crimson and purple; a large handsome flower.

Distinction.—Uncommon colour, white ground with broad flakes of rose, good tree habit, and clove-scented.

Dr. Kendall.—Silvery white, pencilled scarlet

Dwyer's Yellow.—This is a sterling perpetual yellow.

Edith Gray.—White ground, very finely pencilled, and slightly striped maroon.

Fire.—Brilliant scarlet, very large and splendid shape.

Flora McDonald.—A white-ground fancy, edged and marked rosy cerise, petals very large, and smooth edge.

George E. Elliott.—Very unique in colour, brownish-red, flaked dark prune.

Glory of Glenrowan.—A rich golden yellow, pencilled soft scarlet; a beauty. 2s. 6d.

Harold.—Very large non-burster, strong grower; stiff stems; colour reddish-orange and crimson; good garden variety.

Helen M. Gould.—Light pink, deeper shade pink pencillings. 1s. 6d.

Higgbotham.—White ground, edged with short lines, and lined cerise; smooth. 1s. 6d.

Ida Hewett.—Rich, bright rose; good grower.

Ione.—Bright yellow with tip of red.

Irishgowlan.—White ground, regularly flaked red; smooth. 1s. 6d.

Jack Kauffman.—Yellow ground, lined maroon; smooth. 1s. 6d.

J.J.—White ground, heavily marked, reddish purple.

Jim Curry.—Salmon ground and red.

King George.—Rich pink cerise on long stems.

Laura.—Dark crimson self.

Lucy Manette.—Pale yellow, heavily edged maroon.

12 Carnations (Our Selection) will be sent to any address in New South Wales for 10/6, post free

Mary Kate.—White ground, edged and flaked rose; very smooth. 1s. 6d.

Masterpiece.—Pretty red flowers on long stems; good bloomer.

Maywood.—Very heavily striped and suffused bright crimson, on a light ground, with fringed petals.

May Day.—Lovely shade light pink round petals.

Miss Barber.—Dark crimson ground, heavily splashed dark purple.

Miss Hobbs.—A velvety crimson of true blue type. It rarely, if ever, bursts the calyx; a most reliable carnation for all purposes. 1s. 6d.

Miss Jessie Moodie.—A white ground, with uncommon rich and heavy markings of carmine, broad petals and fine calyx.

Miss M. Georgeson.—Creamy-white ground, splashed purple and orange; perfect bloom.

Model.—White ground, edged deep red.

Mr. John Pope.—Brilliant scarlet crimson, shaded maroon, perfect calyx, free-flowering and vigorous grower.

Mrs. Alfred Constable.—Bluish ground, with a few purple flakes; smooth. 1s. 6d.

Mrs. C. T. Richardson.—Cream ground, splashed with scarlet and magenta.

Mrs. Gazzard.—Delicate rose-pink.

Mrs. G. H. Kerslake.—Rich golden-yellow, edged and pencilled soft scarlet; vigorous grower, free, and extra good.

Mrs. Shaw.—Golden-yellow, pencilled and laced vermilion.

Nabob.—This is a perpetual-flowering tree variety. It is certainly the ideal in all respects. The colour is a pearly-white ground, beautifully picoteed, purplish maroon. The flowers are large, bold, elegantly displayed.

Newhaven.—Flowers very large; colour rich crimson, base of petals dark steel blue.

Oporto.—A maroon show self. 1s. 6d.

Phyllis Magno.—Yellow, edged scarlet, a good combination of colours.

Pink Jeannette.—A good flesh pink sport from the well-known Jeanette.

Poulter's White.—Snow-white flowers on long stems, sweetly perfumed; generally acknowledged the finest white in existence. 1s. 6d.

I have received the Carnations to-day. They arrived in splendid order.
20/8/13.
G. B., Granville.

PERPETUAL FLOWERING CARNATIONS—continued

- Princess Alice.—White ground, pencilled rose.
 Queen Mary.—A pretty and distinct yellow ground perpetual, edged and heavily flaked and mottled bright rose pink. 1s. 6d.
 Rosy Miller.—A very beautiful variety, embracing two shades of pink.
 Royal Purple.—The best purple variety yet raised.
 Spanish Gold.—Yellow ground, with a few reddish flakes. 1s. 6d.
 St. Helena.—Glowing wine colour; a delightful shade. 1s. 6d.
 Sweet Nell.—Dark red, very perpetual.
 The Chief Secretary.—White ground, flaked cerise and maroon, sports with flowers marked maroon only; smooth. 1s. 6d.
 Thelma.—Soft, rosy, salmon self. Extra large, of good form, and nicely perfumed. Extremely vigorous tree.
 White Champion.—A good white.
 White Clipper.—One of the best whites.
 White Conqueror.—Good white variety.
 William King.—Dark velvety crimson.
 Yellow Princess Alice.—Yellow, pencilled bright pink; very good.

Show or Spring-Blooming Carnations

- Acracia.—Delicate pink.
 Albion.—White ground picotee, light purple edge.
 Aleinous.—A distinct and very desirable variety; ground lemon-yellow and very distinctly margined rich purple.
 Alice Lee.—An immense carnation of good form, fine calyx, smooth petals; ground white, with pencillings of purple-rose.
 Artemis.—Scarlet, handsomely flaked and streaked lavender.
 Bengal.—Dark rose, striped purple.
 Blue Metal.—Slaty-blue colour, smooth petal.
 Champion.—Pink ground, flaked heliotrope and purple.
 Dandy.—A beautiful carnation, of true form, smooth-edged, and pencilled and picoteed with heliotrope on a creamy-white ground.
 Fairy Bower.—Smooth petal; a delicate shade of salmon-pink.
 Frances Wellesley.—Flowers large and full; colour, a rich carmine rose.
 Gala Day.—A beautiful pure white, smooth edge, like mellia
 Gold Dust.—Yellow self, medium size and good form.

 * 6 Carnations (Our Selection) will be *
 * sent to any address in New South *
 * Wales for 5/6, post free *
 * when Order is accompanied with Cash *

- Goldy Locks.—Yellow fancy, beautifully marked with stripes of carmine.
 Highlander.—Bright rose ground, heavily striped with dark maroon.
 James Greine.—A beautiful red and white flake.
 Lady St. Oswald.—A handsome yellow ground picotee; well-formed petals; the ground colour deep rich yellow, with the margin of each petal a bright red.
 Lauree.—A beautiful yellow ground, margined rose.
 Lily.—White, striped red.
 Lord Cardigan.—Scarlet, good shade.
 Lorna Doon.—Bright scarlet flake.
 Marge.—A most beautiful deep yellow picotee, edged rose.
 Millie.—White ground fancy, flowers delicately marked with rosy-red.
 Minerva.—Dark rose, self.
 Miss Emma.—White ground picotee, with medium edge of scarlet; very fine.
 Mr. Gorton.—A beautiful pink and white bizarre, of perfect form markings; it has a white ground, each petal flaked with stripes of pink and purple.
 Mrs. E. Markwell.—Colour, rich apricot, pencilled with scarlet.
 Mrs. Eric Hambro.—Pure white, perfect form and petal.
 Much the Miller.—A good white self. One of the best.
 My Lady.—Colour, a salmon-pink; smooth petal.
 New Guinea.—A good golden-yellow self.
 Pearl.—Purple flake.
 Perseus.—Rich, full yellow, ground of good form, petals large and smooth, edged with orange-red and lavender.
 Persimmon.—A distinct fancy, curiously marked with scarlet maroon and slate flakes.
 Pride of Penshurst.—Flowers a good size, capital form, deep clear yellow.
 Rainbow.—A handsome fancy, flesh ground, flaked and pencilled pink, purple and crimson.

- Sarah Payne.—A divine purple and pink bizarre.
 Spero.—Pink and purple bizarre.
 Stanley Wrightson.—A beautiful yellow-ground fancy; smooth petal, edged and striped with scarlet.
 St. Elmo.—White ground fancy, pencilled and edged with scarlet.
 Tittel Brune.—Petals beautifully pleated and built up. Colour, exquisite shade of soft pink.

AMERICAN CARNATIONS

1/- each, 10/- per dozen;
11/- per dozen, post free,
except where otherwise
marked

- After Dark.**—Deep velvety crimson, fimbriated, free and continuous bloomer, rich clove perfume; the best of its colour.
- Andrew Carnegie.**—Bright red sport of the well-known Harlowarden; flowers well in winter.
- Aurora.**—Buff, flaked with bright pink, a pretty combination of colours.
- Apple Blossom.**—White with pink centre; good perfume.
- Beacon.**—A very fine scarlet, early and free-flowering, brilliant colour, good stem, rich perfume.

A sample of the Superior Carnations we send out
from March to October

- Bessie Randell.**—Deep rose pink, blooms of shapely build, full and high in centre, sound calyx and good stem, early and continuous bloomer, rich perfume, very strong and robust, does not burn.
- Black Chief.**—A deep velvety crimson, raised by Messrs. Hugh Low & Co., London. Flowers are of good size and shape, sweetly scented. It is said to produce two flowers to one of Harlowarden.
- Britannia.**—A glorious scarlet, of beautiful form and substance, most vigorous grower, richly perfumed.
- Cinnamonia.**—Cinnamon, shaded red; pretty colour, distinct.
- Columbia.**—Rich salmon-pink self; very fine flower.
- Enchantress.**—One of the largest and most striking Carnations in cultivation; colour a very pleasing shade of soft pink, deepening towards centre, strong perfume; the best of doers. Always a prize-winner, A.M., R.H.S., P.C.C.
- Fair Maid.**—A lovely shade of salmon pink.
- Flora Hill.**—Pure white, a splendid grower.
- General French.**—Velvety crimson, well fringed.
- Harlowarden.**—A grand all-round crimson self.
- Harry Fenn.**—Large crimson flowers, with long, stiff wiry stems.

- Heather Keep.**—Pure glistening white, slightly fimbriated, of great substance, perfect form, flowers $3\frac{1}{2}$ inches across, are borne in the greatest profusion on long, stiff, wiry stems. Strong clove perfume, very robust and strong constitution. A Gem.
- Inca Maid.**—A very fine purple self.
- Jessica.**—Very large pure white, with scarlet stripes, round petalled, strong grower, good perfume.
- Juanita.**—A lovely shade of salmon-pink.
- Lady Bountiful.**—This is a gem, pure glistening white, very large full flower, stiff wiry stems, good perfume, always a prize-winner.
- Lady Carlisle.**—Colour deep bright rose, a most delightful colour. Very vigorous and free.
- Lady Lou.**—Bright cerise, fine large well-formed flower, splendid for cutting.
- Lily Brayton.**—A very free flowering soft pink, and very fragrant; a particularly choice variety for table decoration and colour charming.
- Mabelle.**—A pretty shade of pink with orange hue, perfumed.
- Melody.**—A light sport of the well-known Mrs. T. Lawson, a delightful shade of pink.
- Mikado.**—Beautiful heliotrope, fine full bloom, good perfume.
- Mona.**—Cerise lake self; a splendid all-round Carnation for cutting, etc.
- Monterey.**—Crushed strawberry, very much admired.
- Mrs. E. A. Peacock.**—Rich crimson scarlet of perfect form and substance, slightly fimbriated, strong sweet perfume. Flowers up to 4 inches across and borne on long, stiff wiry stems and never bursts. Growth and constitution all that could be desired.
- Mrs. H. Burnett.**—The finest flesh pink in commerce, awarded more prizes than any other free Carnation. The best of doers, most profuse bloomer, richly perfumed.
- Mrs. J. Bidencope.**—White, each petal being overlaid with pink, broad fringe of white; large flowers of good form and perfume, free strong grower.
- Mrs. L. J. Lipscombe.**—Rich geranium pink, slightly fimbriated, perfect form, blooms up to 4 inches across, never bursts. Flower spikes 30 inches high, with brooms branching out from top to bottom. Growth strongest of all Carnations, sweet perfume, requires little or no staking. Immune from disease, a Carnation "par excellence."
- Mrs. T. W. Lawson.**—A famous American variety, deep pink in colour, sweetly perfumed, robust.

* 12 Carnations (Our Selection) will be *
* sent to any address in New South *
* :: : Wales for 10/6, post free : :: *

- Mrs. Young.**—A magnificent purple self, a colour that is wanting in Carnations. This variety was raised by Dr. Young, of Botany, an enthusiastic horticulturist.
- Octoroon.**—Dark crimson of good substance, a most striking variety, vigorous grower, true clove perfume.
- Othello.**—Velvety maroon self, a non-splitter and a beauty.
- Pearl Brown.**—Pink, heavily splashed with deep maroon, very strong grower, profuse bloomer, rich clove perfume.
- Prosperity.**—White-mottled, soft pink, very effective.
- Queen Louise.**—A fine white, healthy vigorous grower, free and continuous flowering, good perfume; very largely grown in England.
- Red Lawson.**—A bright red sport of Mrs. T. W. Lawson.
- Robert Craig.**—Finest scarlet, wonderful size and vigour, long stiff stems, flowers well perfumed.
- Roma Lipscombe.**—Intense scarlet, continuous bloomer.
- Rosalind.**—White ground with rose pink markings, beautiful flower, rich perfume, strong grower.
- Rose Marmion.**—Perpetual flowering Malmaison, very large deep rose pink, good form, continuous bloomer.
- Rosepink Enchantress.**—A gem with all the splendid qualities of the parent.
- Santa Barbara.**—Deep velvety red on long stems.
- Santorin.**—A very red American; the brightest red yet grown. 1s. 6d.
- Telopea.**—Large dazzling scarlet, highly fimbriated, petals beautifully crimped, like the "Romneya Coulteri" Californian Poppy, perfect shaped bloom, strong perfume, long wiry stem, strong constitution.
- The Cardinal.**—Intense scarlet, luxuriant foliage, good perfume.
- Uncle Sam.**—Red, large and finely-formed flower, fragrant and free, robust grower.
- Vinca.**—A light purple self, good perfume; a new shade which is getting popular and of truly perpetual habit.
- White Enchantress.**—A pure white sport from the "Queen of Perpetuals"
- White Perfection.**—As the name implies, the best of whites.
- Windsor.**—A glorious shade of deep pink with paler edges, most vigorous grower, awarded Gold Medal at Toronto Show, 1907.
- Winsome.**—White, splashed pink, large flowers, clove perfume, strong, free and easy grower, medium length of stem, calyx always sound.
- Zane.**—Maroon crimson, full and fimbriated, produced on long, straight stems, most profuse bloomer strongly scented good grower

SEARL'S CHRYSANTHEMUMS

The Chrysanthemum will grow in almost any climate or any soil, if the ground is well worked and fed with manure. The plants produce more buds than they can bring to maturity. It is therefore necessary, when good bloom is desired, to disbud to a great extent, as it greatly enhances the beauty without decreasing too much the supply of flowers. Where show blooms are desired, a much more liberal treatment and excision is of course necessary.

1s. EACH, 9s. PER DOZEN; POST FREE 9s. 6d. (EXCEPT WHERE OTHERWISE PRICED).

READY FOR DELIVERY SEPTEMBER, OCTOBER AND NOVEMBER.

Show Chrysanthemums

- Ada.**—Cerise, with silvery reverse, a complete ball of silver.
Alfriston (Reflexed).—Colour very deep maroon-red, reverse of petals gold.

 Miss Cora Stoop.—Light mauve-pink, of fine form.
 Mrs. F. Judson.—A good pure white.
 Romance.—A rich golden-yellow.
 W. J. Higgs.—Bronze, with broad, leathery florets, perfectly incurving; a fine, bold flower.

Single-Flowering Chrysanthemums

9d. each, 8s. per dozen.

Very fashionable Marguerite-like flowers; useful for bouquets, baskets and vases, lasting about 10 days in water, and flowering late in autumn, when other flowers are scarce. The following varieties will be found really good and pleasing.

- Althea.—Crimson, changing to a bronzy chestnut red.
 Belle of Weybridge.—Chestnut-crimson.
 Buttercup.—Clear canary-yellow; an ideal single yellow flower for decorative work; very useful for cutting purposes, and for table decoration it is perfect.
 Charming.—Brick-red, yellow ring at base of petals.
 C. J. Ellis.—Terra cotta.
 Daisy.—Pure white, creamy disc, excellent form.
 Emeline.—Blush white.
 Estelle.—Creamy-yellow.
 Eva.—A good white.
 Feltham White.—A flower of medium size, pure, white, and free; dwarf bushy habit.
 Florence.—Cerise, yellow disc; very distinct.
 Freedom.—A good white.
 Gaiety.—This is well-known, for it is a showy kind.
 Kitty Bourne.—A charming deep yellow.
 Lady Valentine.—Brick red.
 Ladysmith.—Peach blossom colour.
 Lavinia.—Dark red, yellow shadings.
 Lillie Godfrey.—Soft shade lavender, exquisite large flowers on stiff stems.
 Lovely.—Yellow, heavily shaded with bright reddish-orange; a beautiful combination of tints.
 Lucius.—Sulphur-yellow.
 Lyric.—Bronzy-red, yellow centre; fine starry flower.
 Mary Richardson.—Reddish-salmon; most charming and distinct.
 Mensa.—Pure white; one of the best.
 Miss Connie Eastwood.—Yellow, suffused maroon.
 Miss Cooper.—Yellow.
 Miss Ida Lower.—Colour, buff, heavily suffused pink and bright red; beautiful autumn tints; large and extra good.
 Miss Mary Pope.—A lovely pale pink of medium size; flowers freely produced.
 Mrs. J. J. Daniels.—Brownish terra cotta.
 Mrs. L. B. Stares.—Pure white.
 Mrs. R. Batchelor.—Orange and yellow.
 Mrs. E. Partridge.—Pinky-mauve.
 Pink Queen.—Creamy-white, shading to violet.
 Primrose.—Light canary-yellow.
 Rosslyn.—White, cream centre.
 Rosamond.—Rosy-lilac, yellow disc, free and good.
 Simplex.—Pretty single white.
 The Echo.—Red, with gold reverse.
 White Wings.—White.

We also stock many other varieties of Single Chrysanthemums.

Thread-Petal Chrysanthemums

- White Thread.—Pure white; fine thread-like petals hanging gracefully down, and giving a charmingly effective appearance to the plant when well flowered, most graceful to look upon. 1s.
 Yellow Thread.—Clear yellow; free grower, sturdy habit and very free-flowering; a most chaste flower. 1s.
 Lasciniatum.—A very pretty lavender shade, very graceful and useful for cutting. 1s.

Silver Pins Chrysanthemum

A decorative type, white, medium size, very narrow florets, straight petalled, giving a star-like appearance. 1s.

ERICA (Heath)

SEARL'S ERICAS

(HEATHS)

These Evergreen Shrubs flower at all seasons of the year. They are very handsome, very hardy, and thrive well in peaty soil in open border, and also in pots, and form magnificent specimens. 1s. 6d. each, 15s. doz.

- Arborea.—Strong-growing tree variety, producing trusses in great profusion, of small white bell-shaped flowers.
 Autumnalis.—Very beautiful variety, producing small rosy-pink bell-shaped flowers in great profusion.
 Beaconsfieldiana.—Beautiful pale yellow tubular flowers.
 Bowleana.—Pure white, long tubular waxy flowers; very free-flowering; one of the best.
 Cavendishii.—Beautiful waxy golden-yellow tubular flowers; extra fine.
 Cerinthoides Coronata.—Long crimson tubular flowers. 2s.
 Charsleyana.—Delicate blush pink tubular flowers.
 Cruenta.—Orange-scarlet tube-shaped flowers.
 Hentyana.—Delicate pink, shaded white; beautiful long spikes of tubular flowers.
 Hybrida.—Beautiful waxy red tube-shaped flowers; very handsome; one of the best.
 Hyemalis.—Pink tubular flowers, tipped white.
 Intermedia.—Largest white, with long tubular flowers.
 Jubilee.—A large flower of the Webbleyana type, but much darker in colour.
 Linnæoides.—Rosy-purple tubular flowers.
 Mackinnoniana.—Purplish-rose tube-shaped flowers; very beautiful variety.
 Mammosa.—Purplish-crimson tubular flowers.
 Persoluta Alba.—Pure white free-flowering variety, producing small bell-shaped flowers in great profusion; dwarf habit; extra fine.
 Pyramidalis Gracilis.—Small white bell-shaped flowers; very floriferous and fine.
 Vulgaris (Scotch Heather).—Purple.
 Vulgaris Alba.—White.
 Webbleyana.—A beautiful variety, producing delicate waxy and tubular flowers; exceedingly choice for florists' purposes.
 Webbleyana Alba.—A white form of Webbleyana.
 Webbleyana Magnifica.—A beautiful rich pink; choice.
 Wilmoreana.—Pink and white tube-shaped flowers; very handsome and free-flowering.

SEARL'S DAHLIAS

::: FOR LATEST KINDS, SEE COLOURED PAGES :::

All listed here are noted for free and continuous flowering, purity of colour, perfection of form, and ready response to the most ordinary garden culture. Bloom from January to May in favourable seasons. Tubers and green plants are available from September to December, and may be planted late, especially the Cactus varieties, which really bloom better after late planting.

TO AMATEURS.—Those not well versed in the varieties of Dahlias would find it to their advantage to leave the selection of sorts to us, simply naming the class of flowers wanted—Cactus, Pompone, and so on, with the colour and purpose for which they are intended, whether for cut flowers, garden decorations, or show purposes. We take great care to see you have a judicious and distinct collection.

HINTS AND NOTES ON DAHLIA GROWING

Dahlias planted in December will bloom in February, March, and April.
Plant in a well-trenched bed, if possible by themselves.
Before planting, drive in a good strong stick, leaving four to five feet above the ground.
The young green plants must be kept moist until they start to grow.
The ground must be kept open and moist.
Do not mulch plants until middle of January.
See your plant is well secured to stake all the time.
Don't water too much until plant is growing freely.

Start giving liquid manure about end of January, and in greater quantities during February.

Cut out weak growth in February.

Disbud if large blooms are wanted, pretty freely.

If exhibition blooms required, take off all except top bud of each shoot.

Slugs, snails, and red spiders are the Dahlia's worst enemies, the latter being the worst during hot, dry weather. They may, however, be kept in check by a liberal use of the hose, given every evening over the foliage.

1s. each, 10s. per dozen (except where otherwise priced).

CACTUS DAHLIAS

For Hardwood Dahlia Stakes, see page 103.

Antagonist.—A fine long-petalled bloom of large size, and of a deep Petunia shade. Fine show bloom.

Aphrodite.—A beautiful white, very fine petalled, full and refined, and good habit; a great improvement on Fairy.

Aviator.—Colour quite distinct and unusual in Dahlias, being a bright magenta. Producing a quantity of blooms of medium size, with narrow florets, and are very neatly made, the centre holding good till the blooms are quite old; flowers produced freely.

Barwon.—A lovely formed flower, twisted petals, shading from pale rose to flesh green at centre.

Brigadier.—Long petals; good crimson.

Butterfly.—A very large flower, with long fluted florets, deep crimson at the base, with a pure white tip, giving the flower a very attractive appearance.

C. N. Richardson.—Deep yellow, outer petals shaded rosy-salmon.

C. E. Wilkins.—The colouring is simply perfect, being an exquisite shade of bright, clear salmon-pink, overlaying yellow, which gradually towards centre becomes more distinct.

Cheerfulness.—Rich, bright tangerine, shading to apricot in the centre; a beautiful spidery flower, with extremely narrow, almost tubular florets.

Clincher.—Heliotrope on outer petals, gradually lightens towards the centre until almost white. A gigantic cactus.

Darkness.—A dark variety; strong grower.

Dr. G. G. Gray.—Advanced and graceful type. The colour is a fiery crimson-scarlet without shading.

Dr. J. L. Beeston.—Florets white, heavily suffused with pink towards the points.

Dr. Roy Appleton.—A beautiful light lemon colour, slowly changing and deepening to light salmon till near the tips, which again assume the basal colour. Habit good, stems long, and under ordinary good cultivation every flower fit for exhibition. 2s.

Earl Dudley.—A fine long-petalled pink. Good garden variety.

Earl Likely.—An exceedingly large refined bloom of a clear cherry-red; a colour much wanted; a splendid variety for exhibition.

Elegans.—Yellow, base petals flushed scarlet, sometimes pervading the whole bloom. Petals very long, extremely narrow from base to apex. Blooms large, refined. Handsome show variety; rather late.

Evening Star.—The colour will please everyone, a bright terra-cotta at point of petals, the centre being gold, which suffuses itself upwards until lost in the deeper colour of the upper portion of the floret.

Erle.—A fine exhibition variety; colour a bright scarlet; one of the best red Dahlias for show purposes.

Florence M. Stredwick.—Pure white; good.

Fred. H. Searl.—One of the best Cactus Dahlias yet raised; flowers velvety maroon, long quilled florets, carried well over the foliage on long, stiff, wiry stems. Our own raising.

Fidelity.—Petunia colour, passing to cerise at the base of the florets narrow, incurving petals; large bloom; very distinct.

G. H. Kerslake.—An extremely fascinating variety of a beautiful tint of carmine rose, rich and lustrous.

George Griffen.—Colour rich purple plum. Very large radial bloom, with long and extremely narrow petals. A great advance upon "David Rumble."

Golden Eagle.—The habit is perfect, and a pollen-centred flower is unknown. Colour, bright yellow with suffusions of rose and fawn, which increase in intensity as the tips are reached; a constant bloomer. 1s. 6d.

H. L. Brousson.—A really first-class Cactus Dahlia with the narrowest possible florets of great length and slightly incurving form. The colour is very beautiful, being white in the centre, quickly changing to deep rich rose which again changes to almost white at points of petals. 1s. 6d.

H. Shoesmith.—One of the finest dahlias in colour and size, scarlet-crimson; very narrow petals, grand centre. Received many certificates.

H. F. Robertson.—Deep, pure yellow; florets narrow; reliable flower.

H. H. Thomas.—The colour is a rich deep crimson; free-flowering and have hard stems. 1s. 6d.

H. W. Sillen.—Bright vermillion; large florets, long and narrow.

Harkaway.—Brilliant fiery scarlet; very deep flower of refined and beautiful form; very free and constant.

Hilda Shoebridge.—Terra cotta, ideal variety for garden.

Irresistible.—A variety which boasts this name should be of great size and possess other good points, and Irresistible can claim all. Colour, yellow, but suffused with rose, a band of rose colour running up each side of the floret; incurved and interlacing form. 1s. 6d.

J. H. Jackson.—Colour, brilliant crimson-maroon, almost black.

Johannesburg.—The colour is bright gold, which in the sunlight has a glittering golden sheen.

John Lawrence.—A pretty shade of amethyst, passing to yellow at the base of the florets; a beautiful spidery bloom, of large size; excellent form, and very constant.

Jupiter.—Florets long and narrow with three colours; ground colour pink with yellow base. Splashed and striped crimson, a good show bloom.

Kathleen.—Good pink, with white centre; useful for florists' work.

Kathleen Bryant.—Colour, deep velvety crimson; long, narrow petals building into blooms of perfect form. One of the best dark varieties yet raised; sure to be a favourite.

Kingfisher.—In colour a distinct pure lilac, with lighter disc round centre; flowers large, and florets of good substance, incurving regularly from an elbow-like junction mid-way up the petal; erect grower.

Lady Dudley.—Lovely carmine pink.

Loveliness.—The basal half of the florets are white, passing to a pleasing shade of deep heliotrope, forming a beautiful spidery bloom.

M. G. Castleton.—Blackish-maroon, shaded purple, good habit.

Modesty.—Clear canary-yellow. A large, full, refined flower of great depth. Constant variety.

Mt. Blanc.—White, with long, pointed florets, slightly inward bent.

Mrs. Alfred Dyer.—A soft tint of rosy-pink, pale lemon-yellow centre, points almost white; of good quality.

Mrs. Charlie Crossman.—A true cactus type of exquisite form and loveliness, pure white.

Mrs. Douglas Fleming.—Undoubtedly the finest white cactus yet raised, being of endless depth and composed of narrow florets; for exhibition this variety is an absolute necessity. 2s. 6d.

See Coloured Pages for Novelty Dahlias.

SEARL & SONS PLANTS & FLOWERS SYDNEY.

CACTUS DAHLIAS—continued

- Mrs. Edward Evans.**—Large, full, spidery flower, of a rich glowing scarlet, with the tips of the florets shaded cardinal. Indispensable to exhibitors.
- Mrs. Edward Mawley.**—Clear yellow; large and full.
- Mrs. F. McQuade.**—An exquisite variety; large, pure white; an exhibition variety of the first order; very fine incurving florets.
- Mrs. F. Grinstead.**—A rich deep crimson-purple—a fine colour, greatly needed; very large blooms, most excellently formed; fit for any exhibition.
- Mrs. F. C. Stoop.**—Clear yellow; very large and bold flower.
- Mrs. G. Stevenson.**—Large blooms; a bright sparkling yellow, with very long and narrow petals; the best exhibition yellow.
- Mrs. George Hollingdale.**—Beautiful shade of light heliotrope, shading to white in centre, well quilled.
- Mrs. H. S. Brandt.**—Salmon buff, shading to yellow centre. 1s. 6d.
- Mrs. J. C. White.**—Salmon pink, very large; good show bloom.
- Mrs. Kerslake.**—A soft salmon-pink; good variety.
- Mrs. McMillan.**—White in centre, gradually deepening to a beautiful deep pink at tips; reliable exhibition variety.
- Mrs. J. Searl.**—A magnificent dahlia, true cactus type; robust habit and colour canary-yellow at base, shading off to straw colour and apricot at tip of each floret.
- Mr. Deas-Thompson.**—Cinnamon, suffused with pink, yellow centre (a glowing sunset-like colour), petals long, finely quilled, and slightly incurved, forming a bloom of large size and excellent quality for exhibitors.
- Mrs. Pearson.**—Blooms large and full, colour pale yellow, flushed pink; dwarf habit; fine show or garden variety. 1s. 6d.
- New York.**—The largest of our English importations and the term massive is not too strong to describe its general appearance. The flowers are of incurved type, the florets being evenly distributed. Colour, orange-yellow in the centre, shading off to deep bronzy salmon.
- Purple Jackson.**—A sport from J. H. Jackson; a bright rich purple.

- Queen of Roses.**—A clear bright rose; choice.
- Rev. Arthur Hall.**—Largest-sized flowers, with very long, narrow florets, which curve and intermingle, forming a bloom of magnificent form. Colour is rich ruby-crimson, showing the lighter tinge of the reverse of florets at the points.
- Rev. Arthur Bridge.**—The colour is exceedingly beautiful, being a bright clear yellow, heavily tipped and suffused with bright, yet deep, rose-pink.
- Ruby Grinstead.**—Centre is soft rosy-fawn, the outer petals being a light salmon-pink. A beautiful and delicate variety. Very large and striking blooms. One of the best of the season.
- Reindeer.**—A fawn or buff-tinged pink; good grower on long stems. The petals are beautifully twisted; good for any purpose.
- Simplicity.**—Canary-yellow, shading off to delicate primrose at the tips. The florets are long, narrow, and beautifully incurved, and the blooms carried on long wiry stems.
- Sheila McLeod.**—Light salmon-pink, shading to amber; fine quilled petals.
- Star.**—Bright bronze and yellow; continuous bloomer.
- The Imp.**—Very dark maroon, nearly black. 1s. 6d.
- The Swan.**—Large white, slightly incurved; bloom of good form and substance, the flowers are borne on long stiff stems.
- Teutonic.**—It is difficult to exactly describe the colour, which has been given as amaranth-crimson with ruby-red shading.
- Valentine.**—Blooms claret-red, petals narrow and well incurved, showing deep rose reverse; erect flower stalks; a beautiful variety both for exhibition and decoration. 1s. 6d.
- Violetta.**—Produces flowers much wanted in collections of Cactus Dahlias, the colour being violet-rose, flushed crimson.
- Volker.**—This beautiful Cactus Dahlia is of a pure clear golden-yellow, with long claw-shaped petals.
- Warrawee.**—Buff ground, shaded crimson-yellow; good form and petal; splendid for exhibition.
- Whirligig.**—A large refined bloom of excellent form; high coned centre, narrow petals; colour, dark terra cotta. An ideal show flower.
- Whirlwind.**—Shining crimson; distinct shape; large.
- Walter Kerslake.**—Maroon-crimson; improvement on J. H. Jackson.
- Wm. Hughes.**—Rich, deep, wine-crimson, refined and elegant flower.

SHOW DAHLIAS

1s. each, 10s. dozen.

- Alice Emily.**—Orange, overlaid scarlet.
- Buffalo Bill.**—Crimson.
- Champion.**—Large yellow.
- Condor.**—Brick red.
- Constancy.**—Yellow, overlaid scarlet.
- Elderado.**—Plum, shading cerise.
- Gloire de Lyon.**—White.
- Jane Henderson.**—Delicate rose and purple.

- John Bennett.**—Yellow, overlaid red.
- John Walker.**—White.
- King of Primroses.**—Primrose yellow.
- Maud Fellowes.**—French white, tinted purple.
- Mrs. Gladstone.**—Flesh pink.
- Nora O'Neill.**—Plum colour.
- Prince of Denmark.**—Dark maroon, shading crimson.
- Sir Greville Smith.**—Crimson, of a purplish shade.
- Snowball.**—Pure white

SINGLE DAHLIAS

1s. each, 10s. per doz.

- Allee Castle.**—Rich coppery-orange, shading to rose-crimson ring at base.
- Alma.**—Delicate primrose-yellow.
- Brilliant.**—Rich crimson-scarlet, with a distinct yellow ring round the centre.
- Dreadnought.**—Brick-red shade, distinct yellow ring.
- Dulcie.**—A distinct pink variety, bold flowers.
- Duchess of Marlborough.**—The centre of each petal white, edged with deep crimson.
- Enid.**—Bright crimson, with golden disc round the centre.
- Fablon.**—Bright striped and flushed with crimson.
- Fugi San.**—Rich orange-yellow, with a brilliant crimson ring round centre of flower.

- Hall Caine.**—Yellow ground, shaded and marked with reddish-chestnut. A magnificent flower, and a great novelty.
- Iroquois.**—Orange ground, heavily striped and flaked with maroon and chocolate.
- Kitty.**—A lovely shade of rosy-mauve, crimson ring at the base of florets.
- Sunrise.**—Beautiful salmon-red, deep crimson ring.
- The Bondman.**—Crimson-magenta and white. Very striking and unique.
- White Cloud.**—Pure white, and effective yellow ring round disc.

We have also other good sorts of single dahlias which space would not allow us to list, and which we highly recommend.

POMPONE DAHLIAS

1s. each, 10s. dozen.

- Aureola.**—Canary-yellow; neat flower of good form florets quilled.
- Bacchus.**—Reddish-scarlet.
- Boule d'Or.**—Yellow, small.
- Champion.**—Yellow, heavily edged red.
- Clarissa.**—Yellowish-bronze.
- Cheerfulness.**—Old gold, tipped scarlet.
- Constance.**—White, laced and suffused rosy-lilac; dwarf and free.
- Dewdrop.**—White, lavender edges and tips.
- Dr. Jim.**—White, edged purple.
- Emily Hopper.**—Clear yellow.
- Fairy Queen.**—Flesh ground, edged rosy-carmine.
- Fashion.**—Pale orange.
- Fascination.**—An exceedingly pretty flower; colour, white, laced with rose-pink towards the centre.
- Golden Gem.**—A lovely yellow.

- Hector.**—Clear scarlet.
- Jewel.**—Pale primrose, blotches of pure white.
- Ladybird.**—Dark red.
- Maud.**—Canary-yellow, edged bronze.
- Marathon.**—Reddish-crimson, yellow base.
- Modesty.**—Soft heliotrope, shaded violet.
- Primrose Gem.**—A beautiful symmetrical flower of a pleasing shade of primrose-yellow. 1s. 6d.
- Prunus.**—Light prune colour.
- Spitfire.**—Bright red.
- White Aster.**—Pure white; fimbriated edges.
- Yellow Bob.**—Delightful yellow, shade of primrose-yellow.
- Zerinda.**—Crimson-maroon.

FUCHSIAS

11/-
post free

For garden decoration the Fuchsia is one of the finest flowers grown. It is also a capital greenhouse and window gardening plant, and is easily cultivated. When grown in the open ground the principal precaution needed to ensure success is to thoroughly enrich the soil with well-decomposed manure, and during dry weather, in summer, give them plenty of water, and occasionally a little weak liquid manure, which should be made as follows, viz. :—To 1 bushel of cow manure and 1 lb. of soot add 30 gallons of water, and give once or twice a week. We import all the best Novelties, and our collection comprises the finest sorts cultivated in Europe. Plants are always at their best during the summer time.

Single Fuchsias

- Arabella.**—White tube and sepals, corolla rosy-pink.
Aurora Superba.—Sepals recurved, of a coral colour, very large; purple corolla.
Beauty of Exeter.—Rosy-pink, flowers large and free.
Black Prince.—Sepal carmine, pale pink corolla, margined with deep rose; one of the best.
Countess of Aberdeen.—Single white. Purest all white.
Edouard de Perrotil.—Single flowers of phenomenal size, violet shaded scarlet, sepals bright scarlet.
Erecta.—Medium-sized flowers, quaint habit, white corolla, sepals purplish lilac.
Fair Maid.—Creamy-white, tube and sepals tinted blush corolla deep carmine, flushed magenta.
General Roberts.—Drooping habit; sepals rose, deepening into the corolla of shaded crimson.
Mrs. Henry Roberts.—Tube and sepal rose, corolla dark crimson.
Mrs. Marshall.—Tube and sepals white, corolla pink.
Peasant Girl.—Tube and sepals tinted with blush, corolla pink and carmine, slightly shaded violet.
Rose of Castille.—White sepals, corolla violet.
R. U. Nicholls.—Rich crimson, extra large flowered and waxy self-coloured.
Star of Wilts.—White sepals, salmon corolla.
Speciosa.—Tube and sepals flesh colour, rosy-carmine corolla.
Vincent D'Indy (1912).—Single, corolla very large, violet-purple, sepals scarlet.

Double Fuchsias

- Avalanche.**—Tube and sepals crimson, purple corolla.
Ballet Girl.—Enormous pure white corolla, double, sepals scarlet; very free flowering.
De Cherville.—Large double rose corolla, sepals dark red and well reflexed.
Dollar Princess (New, 1912).—Double corolla, dark blue, extra large, sepals crimson.
Duchess of Edinburgh.—Double white, red sepals; good variety.
Edmund About.—Double white, carmine sepals, white corolla, suffused with red.
Extraordinary.—Plum colour, with red sepals.
Jubilee.—Sepals crimson, rosy mauve corolla.
Jumna.—Bright crimson sepals, rich purple double corolla, the base marked with rosy-crimson.
Lima (1912).—Immense double corolla, centre dark purple, bordered violet, sepals crimson.
Lue Olivia Merson (1912).—Extra large flower, double pure white corolla, sepals carmine.
Madam Jules Chretien.—Short, sepals reflexed, crimson, pure snow-white corolla.
Minos.—Sepals bright red, corolla very large; rich purple, veined rose at base.
Molesworth.—Sepals bright carmine, reflexed, corolla double unusually large, and pure white.
Monument.—Corolla deep purple, outer petals striped carmine, tube and sepals crimson.
Mrs. H. Cannell.—White, large.
Mrs. E. G. Hill.—Sepals crimson, double white corolla.
Nouveau Mastdonte.—Dark violet, veined red.
Phenomenal.—Short tube and reflexed, sepals crimson, corolla azure-violet, flaked red.
Raoul Pugno (1912).—Corolla very large, semi-double, plum shade, sepals red extra fine.
Storm King (syn. Frau Emma Topfer).—Sepals rosy-coral, corolla rosy blush.
St. Hiliare (1912).—Very double, pure white corolla, sepals dark crimson.
Viceroy of Canada.—Violet corolla.
Victor Hugo.—Large, blood-red sepals, large double corolla, violet-purple, marbled red.
Violet le Duc.—Reddish, expanded corolla of a metallic violet.
White Giant.—White corolla, red sepals.
White Jubilee (syn. Countess of Hopetoun).—Enormous; sepals red, reflexed corolla.

Hybrid Fuchsias

- Boliviana.**—Rich crimson-coloured trumpet-shaped flowers; tube three inches in length.
Carters' Meteor.—Leaves bronzy-yellow, a pretty contrast.
Crimson Bedder.—Leaves crimson and bronzy-green, striped white.
Earl Beaconsfield.—Tube and sepals light rosy-carmine, corolla deep carmine.
Fulgens.—Orange-scarlet, long tube.
Furst Otto Von Wernigerode.—A very pleasing shade of pink; quite distinct.
Gracilis.—Dwarf variety; flowers very small.
Gracilis Variegata.—Dwarf, leaves green, broadly margined white.
Mary.—A very pretty and attractive variety, producing rich crimson flowers and bright green foliage.
Mrs. Rundle.—Sepals, flesh colour; corolla, orange-scarlet; single.
Procumbens.—Bearing large, scarlet, edible berries; plant is a trailer, and may be made to cover a fence.
Splendens.—Rich crimson flowers, with the end of the sepals light green.
Swanley's Yellow.—Red corolla, with orange-yellow sepals.
Sunray.—The leaves are of a bright rich crimson, white and bronzy-green in equal parts; one of the showiest.
Triphylla.—Very handsome and distinct character, having neat, dark, bronze-green foliage, and producing bunches of medium-sized Fulgen-shaped flowers of a brilliant orange-scarlet colour.

IMPROVED EVER-BLOOMING ZONAL PELARGONIUMS

(COMMONLY CALLED GERANIUMS)

We keep a stock of over 300 varieties, all very choice

For outdoor culture the Zonal is the most useful and popular of Pelargoniums, of great utility for bedding, and very ornamental trained as standards 2 to 3 feet high. Be sure and mention, when ordering, which you require, Zonal Pelargoniums or Regal Pelargoniums. Even in poor soils the Zonals will thrive: and also under trees, where no other plants will grow. When ordering a dozen kindly add a few extra varieties in case a few of the lines are sold out, owing to the great demand for some varieties.

DOUBLE.

All at 1s. each; 10s. per dozen, post free 11s.

- Ami Henriot.—Bright rose, large trusses.
- Apothoise.—Rosy-red, white centre.
- Comte Henri de Brettes.—Gigantic, soft rose pink, very fine.
- Comtesse de Roma.—White margined, delicate pink; a charming flower.
- Decorator.
- Egerie.—White.
- Etermanthe.—Scarlet.
- Fleur de Rose.—Gigantic soft rose trusses.
- Genetrix.—Pretty shade of bright cerise.
- Gintare.—Rich salmon, shading to white.
- G. Caillebotte.—A dark shade of magenta.
- Helene Vacarescol.—Reddish cerise, suffused lake.
- Jaques Daurelle.—Red, shaded cerise.
- Lucte Guichard.—Rose pink.
- Mdlle. Menidree.—Pink, shading to white.
- Mrs. C. Lawrence.—Pink.
- Michel Savry.—Clear orange salmon, lighter towards outer petals.
- Madame Martigner.—White, tinged rose, distinct carmine border.
- M. Alphonse Ricard.—Rosy-scarlet.
- Miss G. Ashworth.—Pure white.
- Pink Raspail.—Rosy pink; exquisite.
- Regalis.—Rosy pink, large trusses.
- Rubin.—Large scarlet.
- Sombre Horizon.—Deep crimson.
- Superb.—Nice shade of red. 1s. 6d.
- The Speaker.—Geranium red. 1s. 6d.
- Thos. Meehan.—Rosy-lake.
- Victor Garien.—Rose-pink.

SINGLE.

- Arctic Circle.—Pure white.
- Crabbe.—Cherry-red; large truss.
- Cymric.—Purple crimson, good advance.
- Dr. J. Martignon.—Plum purple.
- Dr. Paul Duclour.—Violet magenta, white centre.
- Dream.—Pale pink.
- Erie Pelton.—Orange, cerise tinted.

SINGLE—continued.

- Frogmore.—Large magenta; white eye.
- Eucharis.—Beautiful pure white.
- Genevieve.—Creamy white, grand truss.
- Hall Caine.—Bright cherry-red, most telling colour.
- Henry Compton.—Deep pink, large trusses.
- Hilda.—Salmon, shaded orange.
- Jan Kelway.—Cerise, white eye, very large.
- Jerome K. Jerome.—Reddish orange, suffused crimson.
- J. M. Barrie.—Bright cerise, flower 3 inches across.
- King of the Bedders.—Crimson-scarlet, splendid.
- Madame Beuvron.—Rosy-pink, blotch on base of upper petal.
- Miss Reid.—Pretty pale pink.
- Mrs. Ewing.—Pale salmon, tinted pink towards the centre.
- Mrs. Kendall Barnes.—Pale salmon, white eye.
- Paul Crampel.—A brilliant scarlet.
- President Loubet.—White ground, shading to lilac, magenta margin.
- Princess of Wales.—Cherry-red, white eye.
- Rival.—Soft salmon-red, beautiful new bedder.
- Rudyard Kipling.—Dark crimson purple, very fine.
- Sir Wilfrid Laurier.—Centre pure white, outer portion vivid magenta.
- Voi Lactee.—Large trusses of fleshy pink, nearly white.

NEW SINGLE

The set of 13 choice varieties for 17s. 6d.; 18s. 6d. Post Free.

- Bunnerong.—Crimson. 1s. 6d.
- Colonel Lambton.—White, pink fringe. 1s. 6d.
- Diana.—Bright pink. 1s. 6d.
- Mandarin.—Orange red. 1s. 6d.
- Maroubra.—Crimson blush. 1s. 6d.
- Psyche.—Golden salmon. 1s. 6d.
- Rose Queen.—Rose with white centre. 1s. 6d.
- Salmon Paul Crampnell.—Good salmon. 1s. 6d.
- Sans Souci.—Salmon pink. 1s. 6d.
- Sydney.—Light pink, nice shade. 1s. 6d.
- Washington.—Purplish tint. 1s. 6d.
- White Queen.—Good white.

DOUBLE. 1s. each; 10s. per doz., post free 11s.

Fine for covering fences; showy and handsome.

Splendid specimens when trained on trellises. It is a surprising fact that all these last few years. As cut flowers they are very useful.

Ivy-Leaved Pelargoniums

Pelargoniums have been introduced within the last few years.

- A. F. Barron.—Bright rose, with white blotch.
- Alma.—Bright salmon-scarlet, the centre lit up with vermilion in a most pleasing manner. The flower is double and of fine shape.
- Antoin Crozy.—Bright orange-scarlet.
- Beauty of Castle Hill.—Very pretty, soft rose, dark blotch in upper petal.
- Beauty of Jersey.—Lovely scarlet, shaded purple.
- Beauty of Perth.—It is a most beautiful variety, colour very bright heliotrope, the petals splashed with deep crimson; very large trusses, free and sturdy grower, quite distinct from any other Ivy Pelargonium.
- Beauty Supreme.—Robust flower and splendid habit; a nice shade of pink.
- Chas. Monsolet.—Bright scarlet, very large semi-double flowers.
- Chingford Rose.—A beautiful shade of rose tinted lavender.
- Corden's Glory.—Bright scarlet, bold flower.
- Cyrus.—Single magenta flowers, with dark blotch.
- Enchantress.—Soft salmon shade; free and dwarf.
- Furstin J. Von Hohenzollern.—Flowers reddish-magenta; fine shape; a novel and distinct variety.
- Hector Giacomelli.—Very bold flowers, soft blush crimson-lake blotch.
- Henry Litolf.—Large rose flowers, magenta tint, black blotch.
- Her Majesty the Queen.—The finest salmon-coloured variety.
- His Majesty the King.—A pleasing shade of dark cerise; trusses large and produced in great profusion.
- Incomparable.—Reddish-rose; very large trusses and full flowers.
- Isadore Feral.—Rose pink, white edge.
- James Alford.—Extra large bold flowers, pretty tint of soft pink.

- Jeanne d' Arc.—White, suffused light lavender; first-class.
- Joseph de Maistre.—Light amaranth; good truss and perfect form.
- Joseph Warren.—A large rosy-purple, choice.
- La Corinthienne.—White, tinted blush, slight crimson feather in upper petal.
- Lady Gertrude.—Soft rose of a pleasing tint, suffused mauve.
- La Elegance.—Variegated foliage.
- La Rosiere.—Flesh, turning to rose.
- Le Printemps.—Soft, salmon shade, with black markings.
- Madame Crouse.—Silver-pink.
- Miss Gulliver.—Magenta; of a most beautiful and rich shade.
- Mr. Martin.—Lilac pink, heavily blotched crimson.
- Mrs. Banks.—White, slightly tinted, large flowers, black blotch in upper petal.
- Mrs. J. F. Day.—Glowing shade of crimson-rose; free flowering and sturdy.
- Papa Chapper.—Deep crimson scarlet; a grand variety.
- Queen of Roses.—Fine large double flowers of a rosebud shape, magenta purple shade.
- Ryecroft Surprise.—Crimson spots, shaded purplish rose.
- Sabine.—Bright rosy-carmine, large and well-formed.
- Sarah Bernhardt.—White, upper petals feathered maroon.
- Souvenir de Chas. Turner.—Gigantic trusses, colour deep pink shade feathered maroon in the upper petal.
- Vicar of Shirley.—Lovely shade of Raspberry-red; silver-metall; blotches. 1s. 6d.
- Vestal Queen.—Pink; upper petals rayed purplish-crimson.

Variegated-Foliage Pelargoniums

We have all the best
Variegated sorts

Regal Pelargoniums

STRONG PLANTS. 1s. 6d. each
15s. per doz., 16s. 6d. post free.

Very suitable for pot culture or decoration of the garden, their blooming season extending over several months. We can supply a number of the best sorts—space will not permit us to detail the names, and customers ordering can depend on receiving good varieties.

Cactus Geraniums

This is a new type, differing materially from the ordinary Geraniums, and producing freely flowers which are star-petalled, compact and round. We stock the following varieties of very pretty colours. 1s. each;

Fire Dragon.—Dark red (double) | J. R. Greenhill.—Soft pink (double)

Chinese Peonies

The improved Pæony is the "Queen of Spring Flowers," well adapted for massing in beds, and planting in groups. Their requirements are so simple—a good, rich deep soil, an open, sunny position, if possible, and a liberal supply of water during the growing season, being sufficient to give a wealth of flowers, which rival the finest Roses in colouring and fragrance. Require no protection whatever in the most severe climate, are not troubled with pests or disease, and once planted take care of themselves, increasing in beauty each year. Plants ready May, June, and July.

We have a superb collection of the cream of English and European varieties, including White, Pink, Carmine, Purple, and Crimson.

1s. 6d. each ; 15s. per doz., except where otherwise priced.

Gloxinia-Flowered Pentstemons

1s. each ;
9s. per doz.

As an attractive and decorative plant for the flower border the Pentstemon has no rival. It is easily grown, stands the heat and drought better than any other florists' flower, perfectly hardy, and produces fine spikes of bloom throughout the greater part of the year.

Andrew Fisher.—Light purple, white throat.

Brilliant.—Bright red, white throat; large flower.

Gigantea.—Colour, deep rose lake, throat white, blotched at the orifice with deep rose; immense blooms.

G. H. Kerslake.—Purplish red, white throat, lip striped and blotched chocolate.

Hercules.—Tube crimson, segment scarlet, throat white, slightly pencilled scarlet; very long spike of large well disposed flowers.

J. H. Horton.—Purple, lip maroon, white throat, streaked maroon.

Louis Laplastrier.—Crimson lake, white throat.

Mrs. G. H. Kerslake.—Tube white, lip clear, rosy lilac; throat white, faintly pencilled; probably the best of the light-flowered varieties.

Rising Sun.—Soft reddish salmon; throat white, beautiful spike of large flowers; a distinct and delicate tinted variety.

Gloria.—Tube and segments brilliant vermilion, throat pure white, blooms of gigantic proportions.

Phenomenal.—Throat pure white, tube and segments rosy-like; immense funnel-shaped flower and long spikes.

Vivid.—Colour, deep scarlet, throat white pencilled, and blotched at the orifice with crimson; a noble variety.

Petunias

Double Varieties, 1/- each; 9s. per doz.

We have a splendid collection of double varieties. They should be planted in all gardens, as they are one of the showiest and easiest plants to grow, and give abundance of flowers during the hottest weather, when flowers are appreciated.

Perennial Phlox

Imported from the Best European Sources.

No class of plants produce a better display of bloom than well-grown Phloxes. The flowers range from pure white to dark crimson, salmon and purple in many shades. They do best on the East or South border in deep, rich soil kept well watered in summer. They should not be disturbed after planting, as they do best after being established a year or two. This year we have a splendid collection of named sorts, far too many to enumerate.

1s. each; 9s. per doz.

Verbenas (Named Sorts)

9d. each; 7s. 6d. per doz.
Post free, 8s. 6d.

A large bed of this fine dwarf free-blooming plant is most gratifying to the eye. The Verbena is of trailing habit, and flowers all through our long run of warm weather. We stock in named varieties the following colours:

Blue, Heliotrope, Purple, Red and White, Blue and White, Mauve, Red, Rose, Pink, White, etc., etc. We stock many more Hybrid Varieties; apply for list.

Rhododendrons (Fine Named Hybrids)

Are taking first rank among flowering shrubs. The best soil is a mixture of peat and turfy loam, but they will thrive in almost any good garden soil. The ground should be thoroughly trenched and well drained, and if heavy a mixture of sand will be useful. Should be planted by themselves, or mixed with Azaleas, and in a sheltered part of the garden. They require careful watering during the summer months—a thorough soaking is better than a little now and then—and a good mulching of very old manure keeps their roots moist and cool. Should the foliage become yellowish, top dress with rather fresh cow dung, or the use of a weak liquid manure a few times during the summer will soon change them to a dark green. They have good foliage all the year round, while the large trusses of bloom combined with the gorgeous colours make them peculiarly effective. They also make handsome pot plants either for the conservatory or the verandah.

Choice Named Varieties and Strong Plants, 2s. 6d. to 10s. 6d. each.
Rhododendron Ponticum Violaceum.—Flowers violet colour. From 1s. 6d.
Rhododendron.—Himalayan varieties. (Prices on application.)

Searl's Strong Violet Roots

Some of the varieties here enumerated are extremely beautiful. They carry well per post. Always mulch well and protect during the heat of summer.

SINGLE VARIETIES.

Admiral Avellan.—A very distinct variety. The blooms are single, in colour rich purplish-crimson (an entirely new shade in this class of flowers); fragrant, and carried on long stalks. 3d. each; 2s. 6d. per dozen.

Baroness de Rothschild.—A very good variety; pretty blue shade. 3d. each; 3s. per doz.

California.—A fine, large, single Violet; colour medium blue; straight, long stalks. 3d. each; 2s. 6d. per doz.

Cyclops.—A remarkable variety. Single, deep blue, with a centre of small petals of a light colour; vigorous and free flowering. 6d. each; 5s. per doz.

John Raddenbury.—Single; colour, pale blue; a very strong-growing Violet, and very hardy, the flowers produced on long footstalks. 3d. each; 2s. 6d. per doz.

Kaiser Wilhelm.—A very fine single variety; extra large deep blue flowers, on very long stems. 3d. each; 3s. per doz.

La France.—The flowers, which are as large as a two-shilling piece, are of a metallic blue-violet colour; long, stiff stalks, and very fragrant. 6d. each; 5s. per doz.

Luxonne.—Splendid hardy, constant bloomer; nice shade of blue. 3d. each; 3s. per doz.

Margaret.—Free-flowering blue. 3d. each; 2s. 6d. per doz.

May Jackson.—A beautiful seedling; large, single pale-blue flowers, superior to John Raddenbury. 3d. each; 2s. 6d. per doz.

Princess of Wales.—A glorious and very fragrant variety of fine habit—sturdy growth—and justly famous for its early, continuous blooming and the immense number of flowers that it bears. It is a distinct type of the California Violet—being of a lighter purple. The flowers a verage larger than a silver dollar, and are borne on gracefully poised stems from 12 to 14 inches long. 3d. each; 2s. 6d. per doz.

DOUBLE VARIETIES.

Count Brazza (Syn. Swanley White).—This is one of the best double white Violets in cultivation. 3d. each; 2s. 6d. per doz.

Madame Millet.—A lovely double purple, showing plenty of white. 6d. each; 5s. per doz.

Mrs. Astor.—One of the best doubles; pinkish heliotrope. 6d. each; 5s. per doz.

Marie Louise.—Double; colour rich lavender-blue, with light centre; flowers very large, free-blooming, and deliciously fragrant. 3d. each; 2s. 6d. per doz.

Neapolitan.—Double; colour a double shade of mauve, very strongly scented; a favourite variety. 3d. each; 2s. 6d. doz.

Searl's Herbaceous, Bulbous, AND OTHER Hardy Plants

A PLEASING success greatly depends upon the judicious choice of varieties in order to obtain a succession of flowers all the year round. Any person of taste can make a perfect picture of his garden by artistic grouping. Useful also for Cemetery Plots, etc. SEE BULBS IN SEPARATE LIST.

Most of them will do in any climate, even the coldest parts; if cut down by frost they will again spring up from the root stock. Plant in permanent open borders.

LEAVE THE SELECTION TO US.

WE CAN PLEASE YOU.

	s.	d.
AGAPANTHUS (the African Lily) Umbellatus .—Blue.....	1	0
Umbellatus Alba	1	0
Strong, tuberous plants, with flower stems 3 feet in height, surrounded by a crown of beautiful flowers; perfectly hardy.		
Umbellatus Variegatus	2	0
Similar to Umbellatus, except foliage is variegated.		
AGATHCEA Cœlestis (Blue Marguerite).—Flowers similar to Paris Daisy, blue with yellow centre.....		0
AGAVE Attenuata	2	0
Americana	1	6
Aurea Variegata	1	6
Very compact habit. Beautiful plants for lawn decorations		
ALOCASIA Macrorhiza (the Spoon Lily).....	1	6
Very useful for bush-house or verandah culture.		
Macrorhiza Variegata .—Leaves beautifully variegated.....	2	6
ALOE Arborea	1	6
Hanburiana	1	6
Saponaria	1	6
Socotrina	1	6
Useful plants for rockeries.		
ALSTROEMERIA Aurantica .—Brownish orange.....	1	0
Few plants need less attention to grow them successfully, either in pots or planted out. They are very effective in masses.		
AMARYLLIS , of sorts.....from 1s. to	2	6
New exquisite varieties of different colours; very fashionable flower in England at the present time. We have a batch of fine English seedlings equal to many of the advanced-priced ones offered to-day. (See also Bulb List).		
AMORPHOPHALLUS Riveri	1	6
Flowers of this Lily are dark green colour, speckled or dotted with rose; pretty leaves, beautifully marbled stem.		
ANEMONE .—In sorts from 1s. each.		
AVIGOZANTHUS (Kangaroo Paw).—Sorts.....	1	6
ANGELONIA Grandiflora Alba .—A dwarf, free-flowering plant; pure white flowers.....	1	0
Grandiflora .—Purple.....	1	0
Grandiflora .—Pink.....	1	0

<i>Secunda Glauca</i> .—See Carpet Bedding Plants.			
ECHINOPS <i>Mulleri</i> .—Beautiful pale pink flowers (see block in Tree and Shrub portion).....	1	0	
EULALIA <i>Japonica</i> .—4 feet.....	1	6	
<i>Japonica Zebrina Variegata</i> .—4 feet.....	1	6	
Beautiful grass-like plants, suitable for edge of ponds, or may be used with great effect as a border plant, or specimen on lawns.			
FARFUGIUM <i>Grande</i>	1	6	
A Japanese plant; produces dark-green, shining leaves, blotched with yellow, or sometimes white and rose; very ornamental.			
FUNKIA (<i>Plantation Lily</i>)—			
<i>Aurea Striata</i>	1	6	
<i>Japonica</i> .—White.....	1	0	
An attractive tribe of hardy herbaceous plants; good foliage and perfumed flowers.			
GAZANIA <i>Lutea</i> .—Flower of a pure golden yellow.....	0	6	
<i>Splendens</i>	0	6	
<i>Canary</i> .—Nice canary yellow, improved <i>Lutea</i>	1	0	
<i>Corona</i> .—Yellow, with perfect ring of black marking.....	1	0	
<i>Primrose Queen</i> .—Lemon yellow, with a very pretty dark purple centre.....	1	0	
<i>The Dawn</i> .—New. Cream shading to orange.....	1	0	
GERBERA <i>Jamesoni</i> (the <i>Scarlet Daisy of South Africa</i>). Plants, 1s. 6d. each, post free, 2s.			
This brilliant Daisy flowers throughout the summer when in an open sunny border. The plant forms a dense tuft of leaves, from the crown of which it sends up in constant succession stout stems 12 to 18 inches long, which are terminated with single, Daisy-like flowers, fully 3 inches across, and varying in colour from bright orange red to deep vermillion.			
GLORIOSA <i>Superba</i> (the beautiful Climbing Glory Lily of East India).....	5	0	
<i>Plant</i>	2	6	
A climbing <i>Lilium</i> with exquisite flowers, which at opening are green, then they turn yellow, and at last a bright scarlet, with orange-red at the base.			
GYNERIUM <i>Argenteum</i> (<i>Pampas Grass</i>).—White.....	1	6	
A beautiful, strong-growing grass, which grows freely in any position, and throws up tall stalks 8 feet high, and surmounted by splendid feathery plumes of great beauty.			
GY SOPHILA <i>Paniculata</i> .—Fl. pl.....	1	6	
A grand novelty for cut-flower purposes. Produces large panicles of small double pure white flowers, which last on the a long time.			
HEDYCHYUM <i>Coronarum Album</i> .—Sweet-scented, snow-white flowers.....	1	0	
<i>Gardnerianum</i> .—Lemon-yellow, large and fragrant.....	1	6	
Tall, Canna-like plants; very showy, with heads of Orchid-like flowers; very ornamental.			
HELENIUM (<i>Autumn Sneezewort</i>) <i>Autumnale Superbum</i> .—Yellow	1	0	
<i>Grandicephalum Striatum</i> .—Yellow, striped red.....	1	0	
Pretty herbaceous plants; very floriferous.			
HELLEBORUS <i>Niger</i> (<i>White Christmas Rose</i>).....	1	6	
HELIANTHUS <i>Multiflorus Plenus</i> (the <i>Double Perennial Sunflower</i>)	1	0	
<i>Multiflorus</i> (the <i>Single Perennial Sunflower</i>).....	1	0	
Both very showy floriferous perennials.			
HEMEROCALLIS (<i>Day Lily</i>).....	1	0	
<i>Disticha</i> , double flowers, orange-crimson.....	1	0	
<i>Middendorffiana</i> .—Yellow.....	1	0	
<i>Major</i> .—Very large, single, yellow.....	1	0	
Very ornamental, hardy herbaceous perennials. All varieties are of easy culture, and are admirably adapted for shrubberies or clumps. The flowers are produced successively and in abundance.			
HETEROCENTRON <i>Roseum</i> .—Flowers rose-pink. A profuse and graceful flowering plant.....	1	0	
HIPPEASTRUM (<i>Equestrian Star</i>).—We have a very choice variety of the latest colours popular in London now.....	1	6	
HYACINTHUS <i>Candicans</i>	0	6	
A species of <i>Hyacinth</i> that grows 3 to 5 feet high, with spikes of pure-white flowers. A bed of a dozen or more bulbs produce a grand effect.			
IMPATIENS <i>Sultan</i> (<i>Perennial Balsam</i>).—A very floriferous pot plant, flowering nearly all the year round, in different shades of pink, salmon, purple.....	1	0	
<i>Holsti</i> .—Crimson.....	1	0	
<i>Alba</i> .—White.....	1	0	
IMANTOPHYLLUM (see <i>Clivea</i>).			
IRIS <i>Germanica</i> .—Many varieties; the well-known German or Flag Iris.....	1	0	
<i>Kaempferi</i>	1	0	
This beautiful flag-like flower of Japan contains a great diversity of colour. The flowers are enormous, the colours embracing white, crimson, rose, lilac, blue, lavender, and violet, each flower representing several shades. A golden-yellow blotch on each petal adds to effect. They attain to the greatest perfection if supplied with an abundance of water at the time of flowering.			
A splendid named collection, single and double, in many shades of colour. 10s. per dozen.			
IRIS <i>Robinsoniana</i> (see <i>Moræa</i>).			
<i>Stylosa</i> (<i>Evergreen</i>).—Blue flowers.....	1	0	
<i>Stylosa Alba</i> .—Pure white.....	1	0	
<i>Laevigata Alba</i>	1	0	
<i>Laevigata Purpurea</i>	1	0	
<i>Foetidissima</i> .—Beautiful variegated, foliage nearly all white.....	1	0	
<i>Pavonia</i> (<i>Peacock Iris</i>).....	0	6	
<i>Sanguinea</i>	1	0	
This is the best of the Tiberian Irises, and extremely desirable in every respect. Brilliant blue flowers, freely produced. The plant grows with great vigour, and is perfectly hardy.			
All the Irises are worthy of special attention on account of their beautiful combination of colours, which is making them so popular.			
ISOLEPIS <i>Gracilis</i> .—A beautiful grass-like plant; good for baskets	1	0	
KALANCHOE <i>Flammea</i> .—A bright scarlet-flowering succulent..	1	6	
LEONOTIS <i>Leonurus</i> (<i>South Africa</i>)—"The Lion's Tail."—Very showy for its orange flowers in whorles, constant flowering	1	0	
LIATRIS <i>Pycnostachia</i> (<i>Kansas Gay Feather</i>).....	1	6	
Flowers rosy-purple, on spikes one foot long. Begins to bloom at the top of spike, going down progressively.			
LINUM <i>Trigynum</i> .—Yellow, winter-flowering.....	1	0	
LOTUS <i>Pelliorhynchus</i>	1	0	
A fine glaucous-foliaged scandent plant, with scarlet pea-shaped flowers produced in profusion; one of the handsomest plants in cultivation for hanging baskets.			
MELIANTHUS <i>Major</i> (the <i>Honey Flower</i> —from <i>mel</i> , honey, and <i>anthos</i> , a flower).....	1	0	
Quite an acquisition to any garden. The foliage is a pale green, deeply cut into acute divisions, and the flowers brown and yellow.			

SEARL & SONS PLANTS & FLOWERS SYDNEY.

HERBACEOUS, AND OTHER HARDY PLANTS—Cont'd.

MESEMBRYANTHEMUM.—

We have a collection of the most showy varieties; orange, yellow, dark crimson, pink, white, and mauve. Succulent plants, suitable for rockeries and edges; free-flowering. 6d. each, 5s. per doz.

MICHAELMAS DAISY.—See Aster.

MIMULUS Moschatus (Musk).—Flowers yellow, leaves sweetly scented. 0 6

MONTBRETIA Crocosmiæflora.—Very floriferous bulbous plants, excellent for cutting and grouping; dazzling orange
Flore Pleno.—The first double Montbretia; like a yellow Tuberose. 1 0
Rosea.—Delicate rose. 1 0
Drap d'Or (Golden Flag).—Orange-yellow 0 6

MORÆA Robinsoniana (Lord Howe Island).—The wedding Iris; a giant among its congeners, growing several feet high; flowers large, pure white. Likes moisture. 1 0

NIEREMBERGIA Gracilis (The Cup Flower); flowers white streaked with purple, with a yellow centre; an excellent and very floriferous species. 1 0

OPHIPOGON Jaburan Variegatus.—With violet-blue flowers, freely-produced foliage, golden variegation. 1 6
Japonica Argentea.—With white flowers; foliage, silver variegation. 1 6

PAMPAS GRASS.—See Gynerium.

PANCRATIUM Maritimum (the Sea Daffodil).—Handsome clusters of large, very fragrant snow-white flowers. 1 6
Caribæum.—White, sweet-scented; very free-flowering 1 0

Everything for the Garden at SEARL'S

PAEONY Herbaceous.—Single and double varieties, 1s. 6d. each, per doz. 15 0

We grow in our Exeter Nursery this world-wide favourite. Their flowers are exceedingly effective. The profusion and duration of bloom, combined with handsome, massive foliage, and ease of culture render them one of the most popular hardy plants. The flowers are large, perfect in outline, and most beautiful as cut flowers; can scarcely be surpassed.

PENTSTEMON (Beard tongue).—Named varieties, 1s. each, per doz. 9 0

As an attractive decorative plant for the flower border, the Pentstemon has scarcely any rival with so many advantages in its favour—it is easily grown, stands the heat and drought better than any other florists' flower, is perfectly hardy, and produces its fine spikes of bloom more or less throughout the greater part of the year.

PERENNIAL PHLOX.—Are among the finest and most effective for summer and autumn display; as border plants nothing will rival them. 1s. each, per doz. 9 0

We have a good collection of 50 varieties in all, including Superb, Mrs. G. H. Kerslake, Eclairer, Tapis Blanc, Baron Ditshe, Faust, Turquoise, Iris, Mrs. A. J. Tymms, Henry Martin, White Queen, Flambeau, etc., etc.

PHYSOSTEGIA Virginiana. 1 0

The plant produces very handsome flowering spikes about 3 inches long, which may be likened to a miniature Foxglove. Colour, a white ground suffused with pink and heliotrope. Plant about 2 feet when in full blossom, having a great tendency to stool, much the same as the Chrysanthemum. The throat of the tube is prettily spotted.

Virginica Alba. 1 6
The white variety, with all the good qualities of the above, very good for cutting.

PLATYCODON Grandiflora (Chinese Balloon Flower).—Blue. 1 0
With Campanula-like flowers; very pretty.

POLIANTHES Tuberosa (Tuberose).—Single-flowered. 0 6
Double-flowered. 0 6
The Pearl. —Flowers double, dwarf habit. 0 6

The delightful fragrance of the flowers, on tall spikes, renders it useful for cutting. They bloom a long period.

POLYANTHUS Varieties. 3d. each, per doz. 2 0

An old favourite in English cottage gardens, and a free-flowering plant; during the spring, trusses of flowers are produced on short stems; colours various; we have a grand variety.

s. d.

POLYGONATUM Vulgare, Solomon's Seal (commonly called "Child of the Woods"), resembles Lily of the Valley 1 0

POLYGONUM Compactum.—Flowers white. 0 6

POTENTILLA.—Pretty flowering plants, in various colours. 0 6

PRIMULA (English Primrose), Burgundy. 1 0
Double Lilac. 1 0
Double Mauve. 1 0
Double White. 1 0
Double Yellow. 1 0
Sanguinea Pleno. 1 0
Single Mauve. 1 0
Veris—Cowslip. 0 6
Virginia—Single. 1 0
Vulgaris (Common Primrose). per doz. 3 0
The world's gems. Better adapted for cooler climates.

PRIMULA Obeonica (Baby Primrose). from 1 0
Exceedingly graceful, slender flower-stalks, rising above the leaves, bearing many dainty-coloured flowers. New flower-stems are constantly appearing; always in bloom.

PRIMULA Sinensis, in various shades of colour, red, white, yellow, rose, etc. 1 0

PYRETHRUMS.—New flowering varieties. per doz. 2 0
For cut flowers they will be found very useful.

ROMNEYA Coulteri. 2 0

RUDBECKIA, Autumn Glory.—Fine single blooms produced on long stalks. Yellow. 1 0
Double (Golden Glow or Cone Flower). 0 6
Fine habit, vigorous growth; early, continuous and immense blooming; the stems are long, and often carry a dozen flowers furnished with beautiful foliage.

SALVIA Azurea.—Blue and white. 1 0
Bethell. —Rosy-pink, tipped white. 1 0
Canariensis. —Purple. 0 6
Coccinea. —Red. 0 6
Farinacea. —White and violet; pretty. 1 0
Glory of Stuttgart. —Red. 0 6
Hollandi. —Dwarf Red. (Novelty). 0 6
Hoveyi. —Purplish-blue. 1 0
M. Issanehon. —Red and white variegated. 1 0
Patens. —Celestial blue. 1 0
Rutilans. —Bright red. 1 0
Splendens Grandiflora. —Red. 0 6
Weberi. —Light purple. 1 0

A charming family of free-blooming herbaceous plants; quite hardy.

SAUROMATUM Siamense (the Snake Lily); the stem of the foliage has markings like a snake. 1 6

SAXIFRAGA Filamentosa (Creeping Sailor). 1 0
Crassifolia. —Good perennial; the stems bear at their summit a bunch of pretty, large, dark pink flowers. 1 0

SEDUM.—Sorts. 1 0
Amongst the easiest of plants to grow. Like Saxifragas, they succeed on rockwork, old walls, or in mixed border.

SHAMROCK.—True Irish. 0 6

SHASTA DAISY.—(See Chrysanthemum Leucanthemum).

SOLIDAGO (Golden Rod) Canadensis. —Yellow. 0 5
Procera Folius Variegatus. 0 5
Rigida. —Yellow. 0 5
These produce golden flowers; a very useful plant.

SPIREA Japonica, or **Astilbe Japonica**, producing white plume-like flowers; very attractive. 1 0
Astilbe Rosea.—Producing pink flowers. 1 6

SPREKELIA Formosissima (Jacobean Lily).—Crimson, very lovely. 1 0

STATICE Brassicæfolia.—Purple everlasting flowers. 1 0

STOKESIA Cyanea (Perennial Cornflower). 1 0
A valuable herbaceous hardy evergreen, producing from Christmas till winter double starry flowers, colour lilac-purple.

STOKESIA Cyanea Alba (Perennial). 1 0
We have now in stock this new white, which must become a very useful cut flower. Strong plants.

THRIFT (True).—In various shades of colour, in pots. 0 6

THUNBERGIA Hawtayeana.—Corolla violet-purple, yellowish tube; a handsome herbaceous shrub. 1 0
Other Thunbergia, see Climbers.

TRITOMA (Syn. Kniphofia) (called Queen's Lily) Grandiflora. 1 0

TUBEROSE.—Double, strong clumps. 0 6
Excelsior Pearl, short stalks, long spikes, large flowers, full, double and sweet. 0 6
Single. —Strong clumps. 0 6
The Tuberose is noted for its delicate beauty and exquisite fragrance; the flowers are pure white, very double and waxlike.

SEARL & SONS PLANTS & FLOWERS SYDNEY.

HERBACEOUS, AND OTHER HARDY PLANTS—Cont'd.

TUNICA Saxifraga	s. d. 1 0
A neat little alpine, being covered with an immense quantity of pretty bluish flowers. Charming for the rockeries, etc. (Award of Merit, R.H.S., London, July, '08).	
TWEEDIA Cœrulea	1 0
A charming plant, remarkable for its changes in colour; when first open, pale blue with a tinge of green; then purple; when withered, lilac.	

VALLOTA Purpurea (the Scarborough Lily).—Orange-scarlet...	s. d. 1 6
VINCA Major (Variegated Periwinkle, or Band Plant).....	1 0
Minor Aurea.—Miniature.....	1 0
ZINGIBER Officinale (Ginger of Commerce); pretty flowers..	1 6

I must thank you for the prompt manner in which you despatched the order. They were a very satisfactory assortment.—Yours faithfully,
22/10/13. Miss I. S., W. Kempsey.

Should there be any others in this section you are looking for, ask us about them, it being impossible to catalogue all we stock.

Bazaar and Bush House Plants

SPECIAL COLLECTIONS AT CHEAP RATES

We make a speciality of Pot Plants suitable for Bazaar purposes including Palms, Hardy Ferns, Asparagus Fern, Maiden Hair Fern, etc., also when in bloom, Zonal Geraniums, Fuchsias, Hydrangeas, Gloxinias, Cyclamen, and other Flowering Plants.

These plants command a ready sale at Bazaars and similar functions, and are one of the most profitable and attractive lines for such purposes. They are especially adapted for bush-house cultivation, and make an acceptable present for your friends.

Plants are securely packed as shown, and can be forwarded to any railway station in New South Wales for a cost of a few shillings extra, reaching their destination in first-class condition.

Bazaar Plants, assorted .. } 11s. per dozen
Bush-house Plants, assorted } (Packing Free)

Quotations given for larger quantities

* Country Customers should give us at least THREE DAYS *
* clear notice to enable plants to be packed and despatched, *
* and if they are sent by goods train, a considerable saving is *
* effected in the cost of freightage, *

Bazaar Plants packed ready for despatch.

SEARL'S SPECIAL £1 COLLECTION OF BAZAAR PLANTS

Greenhouse, Stove and Bush-house Plants

CALADIUMS

If you are going to furnish a greenhouse, come and see our plants and make your own selection. Many of the plants may, under favourable conditions, be successfully grown outside the greenhouse, or with no more protection than is afforded by the shade of a bush house. We can advise you as to which can be grown in the open. If you cannot call on us, advise us (when ordering) whether you want to use them in the open or not.

A visit to our General Nursery
at Botany will convince you
of our up-to-date Greenhouse,
Stove and Bush-house Plants

Marginata (Fijian Fire-Plant).....	1	6
Mosaic.....	1	6
Very handsome variegated plants.		
ACHIMENESper bulb..	0	6
These are splendid and profuse summer-blooming plants for the conservatory. They look well grown as a basket plant; we have red, blue, pink, purple, etc. 6d. each, 4s. doz.		
ÆCHMEA Fulgens (glowing).....	2	6
Flowers rich deep red, with a bluish tip; 50 blooms in a cluster produced erect; the colours blend beautifully.		
AGLAONEMA Marantæfolium.....	1	6
Nebulosum.....	1	6
Leaves bright dark green, irregularly blotched with whitish-green.		
ALPINA Doreyl.—A beautiful foliage plant; white and green. Plants from 2s. 6d. each.		
ALOCASIA Macrorrhiza Variegata. White and green foliage..	2	6
Metallica.....	10	6
ANTHURIUM Crystallinum.....from	3	6
Pretty leaves, rich velvety green, principal veins elegantly banded with pure crystal white, when young the leaves are violet colour.		
Chelsoni.—Dark red.....	5	0
Ferrierense.—Bright red.....	7	6
Scherzerianum.—Bright red flowers.....	5	0
Andreanum.—Yellowish, with broad band of white.....	5	0
Regale.....	5	0
We are making a speciality of this plant, and increasing the varieties.		
ALLAMANDA Hendersonii.....	2	6
Beautiful climbing plant, with large, yellow, bell-shaped flowers.		
APHELANDRA Roezlii.....	1	6
Dark green, leaves shaded, with a silvery hue between the primary veins, bright scarlet flowers.		
ARALIA Veitchi.....	2	0
Very pretty decorative plant.		
Geranaefolia.—Dark green.....	1	6
Geranaefolia Variegata.—Dark green, white margin.....	1	6
Silicifolia.....	1	6
ASPARAGUS Capensis.....	1	6
Crispus.....	1	0
Decumbens.....	1	0
Plumosa (Climbing Lace Fern).—This variety is quite hardy, and can be planted outside.....from	1	0
Sprengeri (Emerald Feather Fern).....from	1	0
Tenuissimus.....from	1	0
Beautiful evergreen climbers, for bush-house, greenhouse, and pot culture; lovely feathery foliage. Large plants of the above can be supplied at advanced rates.		

	s.	d.
ASPIDISTRA Lurida.....	2s. 6d. to	7 6
Lurida Foliis Variegatis.....	2s. 6d. to	10 6
Aspidistras are hardy, graceful plants, and thoroughly adapted for indoor decoration. The white and green leaves are strikingly attractive.		
BILBERGIA (Bromeliaceæ).—Sorts. Uncommon flowers.....each		1 6
CALADIUMS .—Strong dry bulbs. May, June, July, August; later on as pot plants. From 2s. 6d. to 7s. 6d. each.		
Beautiful tribe of tender green-house foliage plants, and are the better for artificial heat to start them in the spring when making their new growth; leaves magnificent, of a diversity of colour, beautifully spotted and veined with wonderful combinations. We have a leading assortment in our nursery of the latest introductions from England, etc.		
CISSUS Discolor.....		1 6
A most beautiful climber, with lustrous magenta-coloured leaves, covered with silvery-white dots. One of the handsomest ornamental-leaved plants, the shades and tints defying description.		
CLERODENDRON Balfouri.—Fine climber, clusters of white flowers with a red corolla; a pleasing and distinct contrast.....		1 6
Fallax.—Flowers bright scarlet, dark green leaves (Java); an erect-growing plant.....		2 6
COLEUS .—We have varieties of the new large-foliaged kinds; fine, robust; showy verandah plants. 9d. each; dozen		6 0
CROTONS .—Unexcelled in beauty and richness of colours. They are fine plants for the conservatory; our collection is most extensive.....from		2 6
CURCULIGO Recurvata.....		1 6
Very effective decorative plant; handsome palm-like foliage.		
CYANOPHYLLUM Magnificum.....from		3 0
A very striking plant; leaves large, deep green on surface; reddish bronze on reverse side. Veins white or light green.		
CYPERUS Alternifolius (Umbrella Grass).....	1	0
Alternifolius Gracilis.....	1	0
Laxus.....	1	0
Laxus Aurea.....	1	6
These are very useful, and of easy culture; for fountains they are very ornamental.		
CYRTODEIRA Fulgida.—Flowers vermilion-red, foliage emerald green and copper colour; very useful for hanging baskets		1 6
DALECHAMPIA Roezlii.—Peculiar pink flower.....		1 6
DIEFFENBACHIA Magnifica.—Shining sombre-green foliage, with blotches and spots of pure white.....		1 6
Baumani.....		1 6
Bausei.....		1 6
Chelsoni.....		1 6
Nobilis.....		1 6
Tarqueana.....		1 6
Other varieties also in stock.		

GREENHOUSE, STOVE & BUSH-HOUSE PLANTS—continued

DIOSCOREA Illustrata. —Climbing plant, producing large leaves of beautiful colours; distinct plant.....		2	0
DIPLADENIA Bolivensis		2	6
A most beautiful climber; pure white flowers, with golden-yellow throat. This plant ranks amongst the most superb and beautiful of stove plants.			
DRACÆNA Godseffiana. —A delightful plant, dark green leaves mottled white.....		2	6
DRACÆNA Shepherdii			
Amabilis	Belmoreana	Hendersoni	} From 2s.
Baptisti		Robusta	
Gracilis.—Dark green, margin striped red; very graceful. From 1s. 6d.			
Lindeni	} From 2s. 6d. upwards.		
Massangeana			
Sanderiana			
We are prepared to supply any of the above-named Dracænas, some of the varieties having beautifully-coloured foliage.			
DORSTENIA Argentea, leaves green with central silvery band..		2	0

A GROUP OF SEARL'S GOOD GREENHOUSE PLANTS

ERANTHEMUM Bicolor.	1	6
Albo Marginata, green leaves, white margin.....	1	6
Formosa.—Large crimson flower.....	1	6
Igneum.—Bronze colour, central yellow band.....	1	6
Nigrum.—Reddish-purple.....	1	6
Versicolor.—Pretty leaves.....	1	6
These are grown for the foliage, others for their pretty flowers.		
Tuberculatum. —Flowers pure white, branching freely into slender twigs; tuberculated; very floriferous.....	1	6
EUCHARIS Amazonica.from	2	0
The lovely Eucharis Lily of the Amazon.		
Candidum.....	2	0
EUPHORBIA Jacquiniflora.	2	0
As a winter bloomer this plant has no equal; colour, intense crimson-scarlet, and blossoms are produced so profusely as to completely wreath every branch with brilliancy.		
FICUS Australis Variegata. —Proved that it will grow out of doors. Elastic.—The true Rubber Tree of commerce. Its leaves are thicker than the ordinary F. Macrophylla, and its habit makes it a beautiful plant.....	2	6
Elastica Variegata.—Choice.....	2	0
Parcelli.—Beautiful white variegation. Conspicuously beautiful plant.....	2	6
Radicans Variegata.....	3	6
Ficus Radicans Variegata is a charming and effective variety. Its easy culture, effective variegation, and regular growth making it one of the best ornamental plants. As a variegated plant for hanging pots and baskets it cannot be excelled.	1	6

FITTONIA.—Elegant trailing plants, with handsome variegated foliage; most useful in the conservatory for planting on surface of pots or tubs containing specimen plants.

Argyrea.—Vivid green, with network of pure white veins 1 6

Verschaffeltii (Syn Pearcei).—Bronzy-green, pink variegation 1 6

GESNERA Zebrina.—Pretty leaves, pale green mottled bronze.. 1 6

Other varieties also in stock.

Gloxinia.—Dry tubers, 1s. each; 10s. per doz.

In pots, 1s. 6d. each; 15s. per doz. Seedlings, 3s. 6d. per doz.

Dry tubers can be obtained during April, May, June, July, and later on, in a growing state in pots. In our opinion, these rank second to no other plant for noble form and beauty. Most gorgeous green-house plants grown. Trumpet-like flowers of every colour, in upright form; leaves very beautiful; continue to flower for a long period. The shelter of a frame is all that they require. We have only the best, which we fertilise ourselves.

GRAPTAPHYLLUM Pictum.—Variegated foliage..... 1 6

GYNURA Aurtiaca.—Flower heads brilliant orange, beautiful foliage, green and purple, very hairy..... 1 6

HEMIGRAPHIS Colorata.—Leaves grey, bright purple beneath, creeping..... 1 6

IXORA Coccinea...... 2 0

Prince of Orange.—A dwarf variety, with brilliant orange-scarlet flowers..... 2 0

Striata..... 2 0

Westii.—Very deep blush..... 2 0

The Ixoras are beautiful flowering plants, and make a lovely contrast among green-house plants.

LÆDENBERGIA Rosea.—Pretty stove plant with red leaves... 2 0

MARANTA.—In variety, including best sorts..... 2 0

A very varied and useful class of plants, with fine, bold foliage, and of many shades of colour.

MEDINILLA Magnifica......from 2 6

Handsome foliage plant, large flower clusters of a lovely pink.

MONSTERA Deliciosa...... 2 6

Has large, shining, dark-green, perforated leaves, and large boat-shaped flowers; it also produces a most delicious fruit.

NIDULARIUM Striata.—Leaves green with white and creamy yellow stripes, red centre..... 2 6

PANAX Victorice...... 2 0

Finely variegated foliage, border prettily margined white, forming a dense plummy, gracefully recurring mass of foliage...

PANDANUS Sanderiana...... 3 6

Utilis (Madagascar).—One of the most popular plants for house and table decoration; if planted out, will need a warm nook, but partial shade..... 2 0

Veitchii.—Variegated foliage..... 2 0

Charming table decorative plants, with exquisite foliage.

PANICUM Variegatum...... 1 0

A beautiful little plant for baskets; very ornamental.

PELLIONIA Pulchra...... 1 6

Daveauana..... 1 6

PENTAS Carnea (South Africa).—A sweetly pretty shrub, with very pale pink Bouvardia-like flowers..... 2 0

PEPERONIA Argyrea...... 1 6

Foliage resembling a Begonia.

PHYLLANTHUS Nivosus.—Green leaves, mottled white and sometimes pink..... 2 0

Atropurpureus..... 2 0

PILEA Mucosa (Artillery Plant)...... 1 0

Highly interesting plant on account of its flowers exploding.

PINCENECTIA Tuberculata.—A beautiful dracæna-like plant; very ornamental and hardy..... 1 6

PITCAIRNIA Undulata.—Bright-flowering and graceful foliage... 2 6

PLUMBAGO Rosea.—Pretty rose-coloured flowers like the ordinary Plumbago in shape..... 1 6

Coccinea.—Red, slightly better than Rosea..... 2 6

RUPELLIA Rosea.—Brown, green, and silvery foliage; pink flowers; very attractive and uncommon; useful for basket culture..... 1 0

Macrantha.—Rosy purple flowers..... 1 6

Speetabilis.—Purplish-blue, marked with dark veins; very showy..... 1 6

RUPELLIA Formosa.—A pretty scarlet flower..... 1 6

SAINTPAULIA Ionantha...... 1 6

A prolific-flowering plant. The leaves are dark green, fleshy, with downy surface, spread laterally over the soil, forming a rosette. From the centre and sides spring up quite a bouquet of flowers, violet-like both in colour and shape. Suitable for bush and green-house.

SANCHESIA Nobilis.—Foliage green, striped yellow..... 2 0

SCHISMATOGLOTTIS Pieta.—Foliage deep green, with greyish white markings..... 2 0

SPHÆROGYNE Latifolia.—Similar but harder than Cyano-phyllum.....from 3 0

SYNGONIUM Podophylla Alba Lineata. Very useful pretty plant. 1 6

STREPTOCARPUS.—Hybrids in all shades..... 1 0

STROBILANTHES Dyeranus.—A magnificent foliage plant; metallic purple, green margin..... 2 0

TRADESCANTIA Virginica Alba Major.—Very best white variety Discolor..... 1 0

TABERNEMONTANA Coomassa, fl. pl...... 2 0

A charming green-house plant, bearing a profusion of beautiful snow-white flowers, sweetly-scented.

TYDÆAS (syn. with Isoloma).—In variety, from..... 1 0

Pretty foliage and flowering plants, very floriferous. We have a magnificent collection.

VRIESIA Tricolour (Tillandsia)..... 2 0

SEARL'S ORCHIDS

We have on sale the largest stock of Orchids in the Commonwealth, and we now stock the Latest Imported Varieties of England's Best.

If you will write for them, we shall be pleased to describe all the colours in Orchids—tell you the hybrid varieties also, and give you the names of the varieties that produce them.

Culture of Orchids

Orchids were never more popular than they are at present in England and America, and why not in Australia, where climate helps so considerably?

Orchids are the most easily grown plants of any, if a few common-sense points are observed.

FIRST—Plenty of air at all times.

SECOND—An abundance of light without being exposed to the full sun, which is too strong; but have the glass lightly shaded.

THIRD—An abundant supply of water when watering, permitting the plants to dry out well occasionally so as not to get them sour.

FOURTH—Place the plants from 18 inches to 4 feet at most from the glass.

A great many Epiphytal Orchids need a season of growth and rest. When the plants begin to grow they should receive the maximum amount of moisture. As soon as the growth is completed, the plant should receive less water, so as to ripen the pseudo-bulb and thus ensure good flowering. Under no circumstances, however, should water be withheld so as to cause the plant to shrivel. When the buds appear, give plenty of water so as to develop the flower to perfection. When the flowering season is over the plants have a short period of rest. When the plants begin to show signs of growth they should receive repotting or rebasketing if needed; if not, then only a top-dressing of sphagnum moss. The plants may be taken apart carefully and set into other pots or baskets in a material of good fibrous peat and sphagnum moss, with lumps of charcoal intermixed.

Firm potting is absolutely necessary, as no Orchid will grow well if it is loosely potted. In re-potting care should be taken not to disturb the roots, rather break the pots; while the baskets may be taken apart carefully or set into a large one and material worked around. Avoid over-potting and do not disturb the plants unless necessary.

With these general cultural directions any beginner will be able to grow Orchids and reap a rich harvest of their exquisite flowers.

Use JADOO FIBRE

For Growing Orchids.

See Page 103.

We are the Largest Growers of General Nursery Stock in the Commonwealth. A visit to our Nurseries at Botany will convince you, and prove interesting to Lovers of Horticulture.

A VIEW OF ONE OF OUR GLASS HOUSES

SEARL'S BEAUTIFUL FERNS

FERNS require little attention, and if watered carefully will last a long time. Used for house decoration they should be put outside at night in a sheltered place, and occasionally syringed. Some varieties succeed well in shady nooks and corners where scarcely any other plants would exist.

From NATURE'S SIMPLEST to the MAGNIFICENT NEPHROLEPIS we always hold a most comprehensive stock, and would like you to come and see them. Searl's Ferns are grown in pots for some time and thoroughly established; not merely potted and sold right off, a practice which often tends in failure and disappointment.

Hints on Cultivation of Ferns

Ferns in dwelling-houses should always be as near the window as possible that they may have the maximum of light, but they should be shaded from the hot sun; they must be kept continually damp at the roots, be kept out of draughts, and when dusty may be sponged with tepid water.

Selaginellas require the same treatment as Ferns, but can do with more shade. Among them there are exceedingly handsome species not generally known, and they should always be cultivated along with Ferns.

Both Ferns and Selaginellas require a moist atmosphere, free from draughts; they should always be kept moist at their roots, but the foliage dry.

Filmy Ferns form the exception to the rule, and should always have their foliage as well as the roots damp.

In order that water may be freely given without risk or injury, drainage must always be provided, whether the plants be in pots, pans, or planted out in borders or rockwork.

The compost in which Adiantums thrive best is strong fibrous loam, one part; leaf-mould, one part; and sharp sand, one part.

Other Ferns, speaking generally, should have the same compost, with the addition of one part of fibrous peat.

The compost should be open and rough, not fine and close as sometimes used.

Hardy Ferns, out-of-doors, should be planted where they will be sheltered from strong winds and shaded from hot sun as much as possible.

We make up Special Potting soil, etc. (See sundries).

Always leave the Selection of Plants to us.

Just let us know the class of Plants required.

We make up in assorted cases from 20/- to any quantity to suit customers.

We supply BABY FERNS of many varieties—nice young seedlings. 3/6 assorted.

Davallioides	1 6
Davallioides Furcans	2 0
Exaltata .—Very fine for rock-work.....	1 6
Intermedia	1 0
Peirsonifrom	1 6
Scotti	1 6
Tuberosa	1 6
Amerpohli (The Philadelphia Lace Fern).—The fronds are very finely cut, making it extremely graceful.....from	2 0
Elegantissima .—The fronds assume an entirely different form, the side pinnae standing at right angles to the midrib of the fronds, on edge rather than flat, as is usual, making both sides of the frond equally beautiful; very valuable for table and house decoration.....from	1 0
Elegantissima (True) .—This we have proved a much superior fern to the ordinary <i>Elegantissima</i> . After giving this fern a long test, before listing it, it has borne out the reputation claimed for it, as a non-reverter.....from	2 0
Magnifica .—Another very graceful variety and good grower, which resembles <i>Amerpohli</i> in character, but its more rapid growth makes it somewhat superior.....from	2 0
Mayii Ornata .—This is another variety which is more dense in its growth, like the variety <i>N. Superbissima</i> . It is quite distinct.....from	1 6
Mayii .—This variety is a great improvement on <i>N. Anna Foster</i> , the fronds being quite flat and subdivided.....from	2 0

NEPHROLEPIS FERNS.—Continued.

Superbissima .—Its distinguishable characteristics are its dark green foliage and dense growth. The foliage is a rich dark green, and rather distinct from the colour of other varieties. It makes a dwarf and compact growth, and the fronds are very heavily imbricated, the pinnae overlapping, making the fronds dense and compact.....from	2 6
Todeaoides Superba .—This variety closely resembles <i>N. Todeaoides</i> , only it is far superior in its compact growth, and the fronds are even more subdivided.....from	2 0
Todeaoides (The London Fern) .—Its dwarf habit is a great advantage. This fern keeps its character well, and seldom, if ever, reverts to the original Boston type.....from	1 6
Whitmani .—The fronds are erect, and very finely cut. This variety is less liable to revert to the original shape.....from	1 6
All the varieties of <i>Nephrolepis</i> are thoroughly adapted for bush-house culture, where they thrive luxuriantly, making hand- some pot or basket specimens for indoor decoration.

STRUTHIOPTERIS GERMANICA (Ostrich Feather or Shuttle- cock Fern).....	1 0
This splendid fern, a native of Germany, rises to a height of 2½ feet. It is one of the most hardy and beautiful of out-door ferns; it thrives as well in the sun as in the shade. Very successful for pot culture.	
TODEA Superba (the Crape Fern or Prince of Wales feather) from	2 0
Barbara .—A most beautiful tree fern.....from	1 6

TREE FERN TRUNKS

From 3/6 up to 20/- each

Always a large stock, which we pack for orders to all parts
of the world with great success.

VIRGIN CORK

Used for covering bare walls in the Fernery or elsewhere, for
making grottos, imitation rockwork, hiding the edges of stages
and shelves. 6d. per lb. (Special quotations for large parcels)

PALMS FOR OUTDOOR CULTIVATION

The varieties most suitable are marked *

We will be pleased at any time to give full particulars and advice *re* planting.

:: SEARL'S ::

Decorative Palms

It is universally granted that Palms and Cycads form the noblest and most prominent ornament in gardens. The beauty of Palms constantly increases with age. Their multifarious uses are beyond enumeration, but as ornamental plants their adaptability to different purposes is unsurpassed—from the decoration of windows, halls and jardinières, to the building of stately avenues and picturesque groves. Many palms will thrive in full sun, some prefer partial shade. Rich soil, and plenty of water when growing, are desirable; but there are not a few like the Phoenix, the Brahea, the Chamaerops, and others, that will thrive in rocky and dry places. The Kentia, in three varieties, we stock in all sizes.

A Group of Kentias growing out of doors, showing the fine effect of judicious planting.

	s.	d.
ARECA <i>Baueri</i>	from	1 6
<i>Rubra</i>	from	3 6
<i>Sapida</i>	from	1 6
<i>Lutescens</i> .—Very fine, and the most graceful of the species	from	3 6
*BRAHEA (syn. <i>Washingtonia</i>) <i>Filamentosa</i>	from	1 6
<i>*Glauca</i> (Silver Palm).....	from	3 6
<i>Nitida</i> .—Glossy leaf.....		3 6
<i>*Robusta</i> .—Strong grower.....		2 0
<i>*Sonorae</i> .—Splendid variety.....		2 0

One of the best Palms for embellishing the garden grounds, Most suitable for planting as a single specimen in lawns and elsewhere; the quickest-growing Palm; should be planted out during the warmer months of the year.

	s.	d.
CHAMÆDorea <i>Graminifolia</i>	from	3 6
<i>Elegans</i>	from	3 6
*CARYOTA <i>Urens</i> (Maiden-hair Palm).—Very choice palm, foliage resembles that of the Giant Maiden-hair.....	from	2 6
*CHAMÆROPS <i>Excelsa</i>	from	1 6
<i>*Fortunei</i>	from	1 6
<i>*Humilis</i> <i>Macrocarpa</i>	from	2 6
The Chamaerops are very hardy palms, especially suited for the cooler parts of this State, where they will grow into magnificent specimens. They will stand several degrees of frost.		
*COCOS <i>Australis</i> (Southern).—20 to 30 feet, very graceful.....	from	2 6
<i>*Coronata</i>	from	2 6
<i>*Plumosa</i> (Feathery).—20 to 30 feet, Southern Brazil, very graceful, tall-growing palm.....	from	2 6
<i>Weddelliana</i>	from	2 6

DECORATIVE PALMS—*continued*

*COCOS—continued	s. d.
*Yattal (Wine Palm) (syn. <i>Diplothemium Maritimum</i>).—Fine palm.	2 6
The Weddelliana is unquestionably the most elegant and graceful palm in existence. The finely-cut leaves are recurved with exquisite grace, which makes it attractive on the dining table.	
*CORYPHA Australis (the New South Wales Cabbage Tree Palm); when planted out make fine specimens.	1 6
*CYCAS Revoluta (the well-known Japanese Sago Palm); Hardy, and makes a handsome lawn specimen.	2 6
Circinalis.—Broader leaf than Revoluta.	2 6
*DIPLOTHEMIUM Maritimum (Wine Palm) (syn. Cocos Yattal)	2 6
One of the finest palms for outdoor culture; makes a noble-looking lawn specimen; very hardy and will also thrive close to the sea.	
DÆMONOROPS Angustifolia.—Graceful Palm.	3 6

OUR POTTING SOIL

For any Requirements is Unequalled in Quality.
It contains all the essential ingredients to nourish and thoroughly develop all Bush-house Plants.

5/- per Bushel, delivered in Suburbs

*ERYTHEA Edulis.—One of the finest and hardiest Fan Palms, bright green, with woolly petioles; blooms quite young, bearing a wonderful profusion of large, round fruits turning black at maturity, and edible.	2 6
HYOPHORBE Verschaffelti.—A splendid species of palm; handsome.	3 6
*JUBÆA Spectabilis (the Chilian Sugar Palm).	1 6
One of the most hardy palms; can endure drought and many degrees of cold. Fruits are called "Coquitos," and look like a diminutive coconut.	

A Group of Searl's Kentia Palms, in Fancy Majolica-ware Pots

PHENIX Tenuis

KENTIA (syn. <i>Howea</i>) Belmoreana (Curly Palm).	from 1 0	s. d.
*Canterburyana (the largest Mountain Palm).	from 1 0	
*Fosteriana (the Thatch Palm).	from 1 0	
Wendlandi.	from 2 6	
The Kentias are the hardiest, most beautiful and most useful of all Palms. We supply a beautiful plant to value of 1s. 6d. For decorative purposes they cannot be excelled. Specimen plants of the above can be supplied up to 10 feet high, in pots.		
*LATANIA Borbonica (syn. <i>Livistonia Sinensis</i>).	from 2 6	
Rotundifolia.—Very distinct dwarf palm, choice.	from 7 6	
A very beautiful fan-leaved palm; native of China and Japan. Has large, fan-shaped leaves of a cheerful green colour. Excellent for indoor decoration, and does well outside in sheltered position.		
LIVISTONIA Altissima.—A good variety.	from 2 6	
Commersonii Rubra.—Choice.	from 3 6	
LICUALA Grandis (syn. <i>Pritchardia Grandis</i>).	from 2 6	
MACROZAMIA (Fern Palm) Denisonii.	from 1 6	
Spiralis.	from 1 6	
*PHENIX Canariensis.	from 2 6	
*Dactylifera (Date Palm).	from 2 6	
*Farinifera.	from 2 6	
*Reclinata.	from 2 6	
*Rebelenii.	from 5 0	
*Rupicola.	from 2 6	
*Sylvestris.	from 2 6	
*Tenuis.	from 2 6	
All splendidly adapted for ornamenting and giving a tropical appearance to the garden, thrive well outside. Most of the Phoenix varieties we stock in large tubs at advanced prices; perfect specimens.		
RHAPIS (the Japanese Bamboo Palm) Flabelliformis.	from 5 0	
Humilis.	from 5 0	
Very handsome and graceful palms.		
*RHOPALOLASTE Hexandra (syn. <i>Bentickia Ceramica</i>), East Indies.	from 2 6	
*SABAL Adamsoni (Fan Palm).	from 2 0	
Blackburniana (the Giant Fern Palm), Bermuda.	from 2 0	
*Palmetto, Florida.	from 2 0	
*Sagus (the Sago Palm).	from 2 6	
*Umbraculifera, West Indies.	from 2 0	
All Sabals belong to the fan-leaved section of palms; very ornamental and hardy.		
*SEAFORTHIA Elegans.	from 1 6	
The Bangalow Palm of New South Wales; suitable for outdoor culture.		
VERSCHAFFELTIA Splendida (syn. <i>Regelia Magnifica</i>).—Very choice and rare palm; grandest undivided leaves covered with reddish hair or spines; most handsome	from 10 6	
*WASHINGTONIA.—See Brahea.		

SPARE THE SPRAY and SPOIL THE FRUIT

"Holder" Pneumatic Sprayers — For — Orchard Use

WILL DO TWICE THE WORK OF AN ORDINARY KNAPSACK PUMP
in the same time and do it more effectively

Knapsack Sprayers See Page 101 for 'Holder' Pneumatic Hand Sprayers

TYPE B.—With Double Nozzle Attachment

The Pumps are filled to $\frac{3}{4}$ off their capacity with spraying fluid, the remaining space being left for compressed air pumped in by a powerful Self-contained Pump; from 1 to $1\frac{1}{2}$ minutes suffices to charge the sprayer, when the machine automatically discharges the whole of the contents without re-pumping.

Nothing to get out of order. No loose parts to get lost or mislaid.

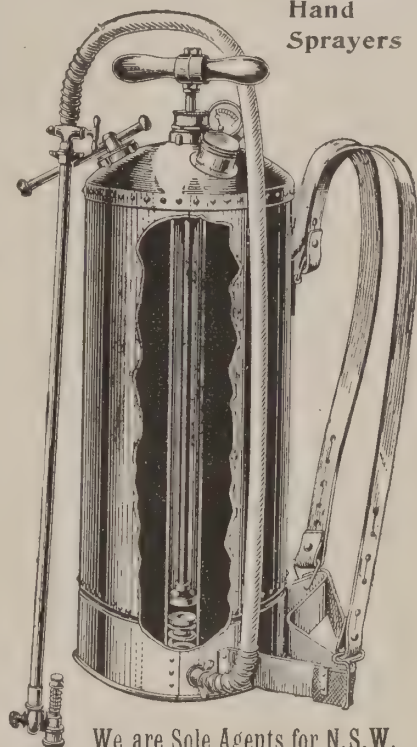

Pumps are well and faithfully built, like a boiler, and will withstand a pressure of 300 lbs. to the inch.

Insects and Fungoid Diseases

We are Sole Agents for N.S.W.

LEAF-EATING INSECTS.—There are two classes of insects against which the grower has to contend. The leaf-eating insects possess jaws similar to those of the higher animals, with which they chew the leaves. The best way to exterminate them is by spraying Arsenate of Lead on to the leaf, so that in feeding the insect takes the poison.

SUCKING INSECTS.—The characteristic of these insects is the possession of a "beak," by means of which they suck the sap from the tree and branches, so exhausting the plant's vitality. They are known as mites and scale insects, and because of their insignificance they frequently remain unnoticed until their efforts result in the foliage and branches dying off. This class of insect should be destroyed with a contact wash, such as Lime-Sulphur, which burns through the scale and kills by penetration.

FUNGOID DISEASES.—Fungus is a low form of vegetable life which obtains nourishment by breaking down the cells of the tree or plant which it infests. Usually fungus spends the winter within the tissues of the tree, at the first touch of warm weather sending out spores, which increase so quickly that soon the vitality of the tree is sapped if no steps are taken to prevent it. The action of a Fungicide is to cover the spores and prevent germination—so controlling and eventually exterminating Fungoid disease.

INSECTICIDES and FUNGICIDES

For Destroying INSECTS and FUNGOID DISEASES

BERGER'S ARSENATE OF LEAD.—This is the best remedy for Codlin Moth, and is death to all leaf-eating insects. It contains the largest amount of Arsenic it is possible to combine in an absolutely neutral product. There is no free Arsenic to burn the foliage. It mixes readily with Lime-Sulphur or Bordeaux Paste in dilute solutions. It sticks on and rain will not wash it off. Can be safely handled, and without danger to man or beast. Use 3 lbs. to 50 gallons of water. Pamphlet and full directions for use on application. In 1 lb. jars, 1s. 6d.; 2 lb. jars 2s. 6d.; 5 lb. jars, 6s. Postage extra.

BERGER'S LIME-SULPHUR SOLUTION.—Contains the maximum of Sulphur which it is possible to combine in a perfectly safe product. It is both fungicide and insecticide—destroying all sucking insects, such as scale or mites. $\frac{1}{2}$ pint tins, 9d.; 1 pint, 1s.; 1 qt. tins, 1s. 9d.; 1 gallon, 6s. Postage extra.

BERGER'S PURE PARIS GREEN.—The standard in Paris Greens. It contains the maximum of Arsenic that can possibly be combined in a perfectly safe product. 1 lb. tins, 1s. 6d. Postage extra.

FUNGICIDE.—Unsurpassed as a remedy for preventing mildew, black-rot, and other fungoid diseases on potatoes, tomatoes, vines, roses, and other plants. 1s. lb. tin.; 3s. 5 lb. tin. Postage extra.

GISHURST COMPOUND.—A very efficacious dressing for aphids, green fly, red spider, and thrips; also for apple trees infested with blight or other insects; and is death to the pests of the orange tree—scale and coccus. In boxes, 1 lb., 1s. 6d.; 3 lbs., 4s. Postage extra.

NIKOTEEN—
Sufficient to make 5 gallons of wash.....per bottle, 1s. 3d.
" " 10 " "per bottle, 2s. 6d.
" " 20 " "per bottle, 3s. 6d.
Certain "death to aphids, and all other insect pests; harmless to plant life.
Directions on each bottle. Postage extra.

The Palms arrived in splendid order, and are the best value for the money I have seen.
10/6/1913.
Mrs. F. I. B., Trangie.

The varieties of
Fruit Trees
marked *
throughout these
pages are specially
recommended by
the Fruit Expert,
N.S.W. Dept.
of Agriculture.

Our list comprises the best of varieties in commerce, but there are many other sorts available which can be supplied, although not listed here. All our Trees are well grown, true to name, and will give undoubted satisfaction. Special attention is given to the packing of each individual order.

APPLES (Worked on Blight-Proof Stocks)

1s. 3d. each
7s. per half doz.
12s. 6d. per doz.

Packing, 1s. doz.
extra for long
distances.

Abbreviations.—Size: 1, signifies Large; 2, Medium; 3, Small. Use: K signifies Kitchen; D., Dessert.
Season: E signifies Early; M., Medium; L., Late; F. signifies Freestone; C., Clingstone.

Adam's Pearmain (2.D.L.).—Yellow flesh; a grand dessert fruit.
Alexander (1.M.K.).—Large, regular formed, skin greenish-yellow, good cropper.
Allington Pippin (2.D.M.).—An early cropper; free from blight.
***Allsopp's Early** (2.K.D.E.).—One of the best Apples grown; a great favourite.
***American Summer Pearmain** (2.D.E.).—Considered the most highly flavoured of all early Apples; medium size, yellow flesh; very tender.
***Apple of Commerce** (1.D.L.).—A magnificent new American Apple large, round fruit; splendid flavour.
Beauty of Bath (2.D.E.).—Medium size; round.
Ben Davis (2.D.M.).—Medium to large; dessert; most suitable for market.
Bismarck (L.E.K.).—Large; cooking.
Black Ben Davis (1.D.L.).—Seedling of Ben Davis, but a decided improvement, in that it is of a more solid red colour, a certain cropper.
Boston Russet (2.D.L.).—Juicy; highly recommended for export.
***Buncombe (Red Winter Pearmain)**.—Fruit medium size, oblong, conical; skin yellowish-white, mostly shaded with maroon; a very regular bearer.
Canda Reinette.—Large; oblate flattened; rather irregular; juicy.
Cardinal.—Bears abundantly, and makes a pretty pyramid; flesh sweet and transparent; fruit yellow, freckled red, early.
Carlton.—Raised from Northern Spy. Tree blight-proof, a strong thrifty grower and most prolific bearer, fruit very large, yellow striped and suffused with carmine, flesh crisp, juicy, and of delicious flavour.
Carolina Red June (2.K.D.E.).—Medium, oval, or conical; flesh, white.
Carrington (2.D.E.).—Early dessert; medium roundish; flesh white.
Champion (2.D.L.).—One of the best shipping varieties.
Charles Ross.—A seedling of Cox's Orange Pippin crossed with Peasegood's Nonsuch; fruit shape of Cox's Orange Pippin but twice as large; flesh delicious, highly coloured.
***Cleopatra** (2.D.L.).—Medium dessert Apple, occasionally blighty.
Climax (2.D.E.).—Yellow flesh, crisp and juicy, raised in New Zealand.
***Cox's Orange Pippin** (2.D.M.).—Medium, rich flavour; suitable for export.
***Delaware Red Winter** (2.D.L.).—Fruit medium size, oblate; skin golden-yellow; highly flavoured and aromatic; remarkable smooth and shiny skin.
Duchess of Oldenburgh (2.K.D.M.).—Medium size, roundish oblate, flesh whitish, very juicy; splendid cooking and fair dessert.
Edward VII.—A cross from Blenheim Orange and Golden Noble. Skin yellow, marbled brown, dark red on the sunny side, flavour of Blenheim Orange. One of the best late Apples; prolific.
England's Glory (Gascoigne Scarlet).—A very handsome red-cheeked Apple from Kent, free grower and a great bearer; a first-class dessert apple.
***Esopus Spitzenberg** (1.D.M.).—Dessert Apple for home use, but too delicate for market; large.

***Five Crown Pippin** (London Pippin) (2.K.D.E.).—Large, roundish, with five distinct ridges round the eye; a grand all-round Apple.
Golden Russet (2.D.L.).—Medium size, roundish, oblate; dessert, recommended for export.
***Granny Smith** (2.K.L.).—A very heavy bearer; recommended for export.
Gravenstein (1.K.D.M.).—Known also as Carpenter, Scotch Red Streak, and Gloria Mundi; large, roundish; cooking.
Irish Peach (2.K.D.E.).—Medium size, oblong in shape; skin clear yellow, handsomely striped with bright red; flesh yellowish-white, tender, good cropper.
Jewell (2.K.D.E.).—Sweet, juicy and tender.
John Sharp (2.D.M.).—An improved Pomme de Nieve; very productive.
***Jonathan** (2.D.L.).—Medium size, roundish, tender and juicy; a profitable dessert fruit.
Kentucky Redstreak.—Medium sized fruit, skin greenish-yellow, tender and juicy.
***King David**.—Dark red, yellowish flesh. Supposed to be a cross between Jonathan and Arkansas Black, and adds the fine quality of the former to the fine appearance of the latter. Awarded the premium by Illinois Horticultural Society; hardy.
Lady Hopetoun.—This first-class dessert Apple was raised by Mr. M. E. Schroeder, of Castlemaine. In appearance it very much resembles Jonathan; the fruit hangs well until the end of April.
Ligne Tillish.—Fruit enormous size; considered the heaviest cropper extant.
***Lord Nelson** (1.K.D.M.).—A large and good cooking apple.
McIntosh's Red (2.D.M.).—Fine colour, rich flavour.
Marjorie Hay (1.D.E.).—A very early dessert Apple, raised from Irish Peach; fruit large, conical, striped and mottled with lovely red; flesh white, tender, juicy.
Mo Pippin (1.K.D.).—Striped red on pale ground; keeps through winter.
***Mobb's Royal** (1.K.M.).—Very large, juicy, sub-acid; cooking.
***Munro's Favourite** (1.K.L.).—Skin clear yellow, with a reddish-brown cheek and a little russet; cooking.
Pomme de Nieve (2.D.M.).—Good for export; medium size; flesh very white, juicy.
Prince Alfred (1.K.D.L.).—Large, firm, juicy, and rich; a grand export Apple.
Ribston Pippin (2.D.L.).—Dessert; good export Apple; medium size.

We have full Stocks of . . .

Dwarf and Cider Apples

2/- each

LIST ON APPLICATION

APPLES—continued

- ***Rokewood** (2.K.D.L.).—A splendid keeper.
 ***Rome Beauty** (1.K.D.L.).—Large roundish, inclining to conical; skin greenish-yellow, mottled and shaded with light red and with streaks of darker red.
Ruby Gem.—Flesh snowy-white, tender, crisp, juicy, and delicious; medium.
 ***Scarlet Nonpareil** (2.D.L.).—Medium, flesh yellowish-white, very firm, juicy, rich, and spicy.
Sharpe's Early (2.D.E.).—Early dessert, medium size, roundish.
Stayman Winesap (2.D.L.).—Sent from America as the very best and most handsome long-keeping and shipping Apple.
Stewart's Seedling (Ballarat Seedling) (1.K.L.).—Of largest size; flesh white, very solid; a fine cooking Apple.
 ***Sturmer Pippin** (2.D.L.).—Medium, flesh firm, crisp and very rich.
 ***Trivett's Seedling** (3.D.E.).—A good market variety, blight proof.
Twenty Ounce (1.K.M.).—Large, cooking; flesh rather coarse, sub-acid.

- William's Favourite**.—Very handsome; colour bright red, large size; fine flavour, similar to Pearmain; very good; early.
 ***Winter Peach**.—Medium size, cream colour, tender, juicy, very fine, acid; valuable for cooking and keeps well; late. 1s. 6d.
Winter Pearmain (2.K.D.L.).—Medium, roundish, inclined to conical, flesh whitish, firm, and crisp.
Winterstein (2.L.D.).—As its name implies, a late variety of Gravenstein or Carpenter. Raised by Luther Burbank, who describes it as a clean grower and heavy cropper; fruit, like Gravenstein, very highly coloured; a perfect dessert variety.
Wright's Perfection.—A dessert Apple of highest excellence, and a seedling from Jonathan that surpasses its parent in every respect; tree almost blight proof, of dwarf sturdy habit. In season from March to May.
 ***Zouche's Pippin** (2.D.E.).—A very fine early variety, heavy cropper, ripens Christmas.

Any varieties not listed here, please ask us about them.

APRICOTS

Price, 1s. d. each 7s. per half doz.; 12s. 6d. per dozen. Packing charges for long distances, 1s per dozen.

- ***Alsace**.—Large, roundish, very rich.
 ***Blenheim** (Shipley's).—One of the best late Apricots, large.
Bobby Allen.—A splendid second early Apricot; really the first large Apricot to reach market.
Brugata.—This is considered a most valuable variety, fruit large, flesh bright orange and of delicious flavour, tree symmetrical, upright and vigorous grower, of robust habit, very productive.
Camden Park Superb.—Very large, oval; flesh pale, very meaty, fairly juicy, good flavour.
Campbellfield's Seedling.—Fruit very large, very rich and juicy.
De Chancellor.—Excellent quality, orange-yellow, high flavour.
Dundonald.—A favourite variety, very large.
Early Moorpark.—A fine Apricot; very large, deep rich orange in skin, and flesh very rich.
Elruge.—This we consider, for flavour, size and productiveness the best in our collection.

- ***Hemskirke**.—One of our best Apricots, suitable both for canning and market; fruit large.
 ***Mansfield Seedling**.—Very large, rich, sugary and vinous.
 ***Moorpark** (Temple's).—Fruit large, round, with an abundance of rich juice; skin deep reddish orange.
Newcastle Early.—A large fruit; heavy cropper.
Oullin's Early.—Large; flesh deep orange, very rich.
Red Masculine.—The earliest Apricot; fruit small, round.
Rivers' Large Red.—A prolific bearer, needs thinning; fruit fairly large; flesh orange; very rich and vinous.
 ***Royal**.—A well-known variety; a heavy and constant cropper; ripe third week in December.
 ***Tilton**.—A new Californian seedling, fruit very large, rich apricot colour, high flavour, uniform ripening, productive, with frost-resisting qualities and vigorous growth. For drying and canning it is superior to the older sorts.
Warwick.—Large oval; a splendid mid-season fruit; its size and appearance will always sell it.

BANANAS

A sheltered situation must be chosen

- Cavendish**.—The well-known dwarf Banana, producing immense bunches of large fruit, with a delicious flavour. Price, 2s. 6d. each.
Giant Sugar.—Fruit small, but produced in immense bunches; flavour particularly rich and delicious. Price, 2s. 6d. each.
Plantain.—The hardest of the tribe, ripening its fruit even in this locality. Price, 1s. 6d. each.

This is a tropical fruit, but Bananas will bear well in many parts of the State, especially in the interior.

CHERRIES

E. signifies Early; L., Late.

- Bedford Prolific** (E.).—Large, brown-black; flesh tender and rich.
Belle de Montreuil (E.).—Very large, round, marbled with red; flesh firm, deep red; sugary, perfumed.
Belle de Orleans (E.).—Above medium size; flesh tender, very juicy and sweet.
Bigarreau Black (L.).—Very large, heart-shaped; skin smooth and even, jet black when ripe.
Bigarreau Gaucher (E.).—Fruit very large, nearly round; skin brownish-red; flesh reddish, firm, juicy and good.
 ***Bigarreau Napoleon** (L.).—Large size, regularly heart-shaped, more pointed than Bigarreau; skin amber in the shade, dotted with red, with a fine crimson cheek.
Bigarreau Noir de Cuban.—Large and good, very lustrous in colour and a prolific bearer.
Bigarreau Noir de Schmidt.—A very large black Cherry, rich and good, medium.
 ***Bigarreau Twyford** (E.).—Large, obtuse, heart-shaped; skin a bright shining red, very smooth and glossy.
Bing.—Fruit very large, dark brown or black, very fine; tree very vigorous and hardy; foliage heavy and dark green; flesh firm, and a splendid carrier; sure to have a great future with our cherry planters. 2s.
 ***Black Republican** (Lewelling) (L.).—A hybrid of Napoleon and Black Tartarian, having the solid flesh of the former, and the colour and flavour of the latter.
Black Tartarian.—Of large size, heart-shaped; skin glossy, purplish black; flesh purplish, half tender, very juicy, rich, and delicious; a superb fruit.

Worked on Seedling Mazzard Stock, avoiding the suckering so troublesome where the common suckers are used. Warm, dry, deep soil is necessary, with special regard to drainage. If these conditions are observed, the Cherry is a most profitable fruit crop. Price, 1s. 3d. each; 7s. per half dozen; 12s. 6d. per dozen. Packing charges for long distances, 1s. per dozen.

- Burgdoff's Seedling**.—A magnificent large dark red, very early variety, ripening just after the Early Purple Gean; likely to supersede this variety for early market purposes. Appears to stand warmer climate than most varieties.
California Advance (E.).—A heavy cropper; a dark purple.
Chapman.—From California, a seedling from Black Tartarian, larger and finer, a better bearer and much earlier.
 ***Claremont** (E.).—Early pale Cherry, of large size; skin waxen white in the shade, clear, rich vermilion in the sun.
Centennial (E.).—A seedling from Napoleon Bigarreau.
 ***Early Lyons** (E.).—Very large and solid, ripening early.
Early Purple Gean (E.).—Medium to large, with rich flavour; the earliest variety.
 ***Florence** (L.).—Large, heart-shaped; flesh amber, very firm, with a rich, sweet flavour.
May Duke.—Fruit medium to large size; skin rich, dark red when fully ripe.
Ohio Beauty (L.).—Large, obtuse, heart-shaped; skin light yellow, almost covered with fine red.
 ***Precoce de Boppard** (E.).—Sent from the Continent as the earliest Cherry known, ripening there in March; this being equivalent to September or October in this country, should see this Cherry ripe three weeks to a month before Early Purple Gean. Fruit dark glossy red, striped and spotted flesh.
 ***St. Margaret** (L.).—Very large, roundish, heart-shaped; skin shining black; flesh purple, very juicy.
Terry.—A large fruit, brilliant red, growing darker as it ripens. Tree upright and strong grower and bearer of heavy crops; early excellent. 1s. 6d.
Werder's Early Black (E.).—Large, roundish, heart-shaped; skin black; most profitable for market culture.

We will advise enquirers the best variety of Fruits to grow and give names of the best sorts

CITRUS FRUITS

CITRONS

1s. 6d. each; 18s. per dozen.

Bengal.—Fruit large, round; a grand preserving variety.
Knight's.—Fruit large, oblong; skin rough; best for candied peel.

LEMONS

1s. 6d. each; 18s. per dozen.

Common.—A very hardy Lemon, bearing when finer varieties do not.
*Genoa.—This is likely to prove a decided acquisition to our Citrus growers; fruit medium size, oval, with very thin rind, and a strong and pleasant acid flavour.
*Lisbon.—Too well known to need description.
Lisbon Variegata.—Similar to Lisbon, but foliage variegated; a little coarser than Lisbon.
*Lisbon Thornless.—Fruit larger than Lisbon, a little coarser; tree spreading; a vigorous grower.
Messina.—This is the Lemon so largely in evidence in Sydney fruit markets; contains an extra amount of highly acid juice.
Sicily.—A Lemon of splendid quality, almost destitute of rag, with an abundance of richly acid juice; of medium size; thin, smooth, very tough skin.
*Sweet Rind.—The best of all Lemons, medium size.
*Villa Franca.—A summer bearing Lemon; pulp very rich in acid; in Florida considered best for market.

MANDARINS

1s. 6d. each; 18s. per dozen.

Beauty of Glen Retreat.—A Queensland variety, large size, good flavour an enormous cropper.
Canton.—Fruit medium size, quite flat; skin pale yellow; a rich high flavour; very prolific.
Ellendale Beauty.—Pale colour, very fine skin, flavour not equal to Jacob's, but on account of its huge size and favourite colour, will always sell in Sydney markets.
*Emperor.—The largest Mandarin; skin almost red and loosely attached; flesh very juicy; profitable for market.
Fowtrel's Early Shipping.—Skin and flavour like an orange, but peels and quarters like a Mandarin. Very robust and heavy cropper.
Jacob's Improved Thorney.—Very fine skin, juicy, and highly coloured. Splendid free grower and good cropper. Flavour between Thorney and Scarlet.
Oenshlu.—From Japan. It has the reputation of being frost-proof; fruit large; skin very thin, separating from the pulp, which is very juicy, with a brisk high flavour; has no seeds.
Parker's Special.—Larger than Glen Retreat, and weeks earlier; fruit roundish, flattened, very solid; skin bright scarlet.
Scarlet.—Fruit very large in size; skin almost scarlet; flesh juicy.
*Thorney.—The best flavoured of the Mandarins; fruit medium sized, quite flat; flesh very juicy.

PRESERVING VARIETIES.
1s. 6d. each; 18s. per doz.

Cumquat.—Fruit small, round; skin deep yellow only useful for preserving.
*Poorman.—A useful variety for preserving or for marmalade; fruit large; a free bearer.
Seville (Round).—Fruit large size, roundish, rather flattened, very solid; the best variety for marmalade.
Seville (Flat).—Similar to preceding, except in shape. Considered more valuable for marmalade by the factories.

LIMES

1s. 6d. Single Tree; 18s. doz.

East Indian.—Large, very juicy, heavy cropper.
Persian or Sweet.—Sweet and pleasant flavour.
West Indian.—Small; best for lime-juice.

ORANGES

Worked on Seedling Lemon Stocks.

1s. 6d. each; 18s. per dozen; £7 5s. per 100, except where otherwise priced.

Blood (Maltese).—Fruit medium size; skin deep red.
Buckeye Navel.—Improved Washington Navel from California. A true navel orange, ripening early, distinct, delicious. 2s. 6d.
Golden Nugget Navel.—From California; there considered superior to Washington Navel. Fruit smooth, solid, thin-skinned; colour strong gold. Even cropper. 2s. 6d.
Holdfast.—Of large size, roundish; skin pale yellow, very smooth.
Homassassa.—Medium size; skin very smooth and thin; solid and heavy, sweet and juicy.
Jaffa.—From California, and considered to be "unsurpassed by any other variety"; tree a strong and vigorous grower; very productive.
*Joppa.—Large fruit, oblong, thin skin. pulp sweet and juicy; thornless, early bearer.
Mediterranean Sweet.—Early, prolific, and continuous bearer; absolutely thornless; fruit a medium size.
Mexicana.—Fruit large, smooth skin, very thin, hardy.
*Parramatta.—Large, round; skin deep yellow; flesh very juicy; best for market.
Siletta.—Large, roundish; skin pale yellow, very smooth and thin; an enormous bearer.
St. Michael.—Large; skin deep yellow; smooth and thin; most profitable for market.
The Navelencia.—As its name implies, it is a cross between the popular Valencia and Washington Navel. Retains the good qualities of Washington, together with hardness and lateness of Valencia, reported to ripen 30 to 60 days later than Washington; a valuable variety to citrus growers. 2s. 6d.
Thompson's Improved Navel.—Reputed to be a distinct improvement on Washington Navel, earlier, and good even, consistent cropper. 2s. 6d.
*Valencia, Late.—Fruit large, oblong, very firm and solid.
*Washington Navel.—Large, very even, of perfect shape and colour; vigorous grower; requires more room than most varieties. 2s.
*White Siletta.—One of the earliest to ripen; skin very fine and thin pulp rich and juicy.

SHADDOCKS

1s. 6d. each; 18s. per doz.

Blood.—Fruit enormous size, very solid flesh, with a sweet juice.
Common.—Fruit of large size.
Manilla.—Fruit small, juice rich and sweet.

POMELO (Grape Fruit)

Marsh's Seedless.—Very popular in America, on account of correcting stomach troubles. Fruit of medium size, thin, round, with about half the usual bitter; practically seedless; juicy, little rag, superior flavour keeps and packs well. 2s. 6d.
Triumph.—Medium size, peel smooth, clear and thin; little rag and few seeds; very heavy; juicy, well flavoured; no bitter in the juice and little in the rag. 2s. 6d.

CUSTARD APPLE

(Cherimoyer). Price, 1s. 3d. each.

This delicious fruit is well worth a trial in the warm inland districts, as, when established, it is much more hardy than is generally supposed. Rough fruited.

* 25 ASSORTED FRUIT TREES 25/=
* priced at 1s. 3d. *
* Packing Free. Free on Rail or Steamer *

I have received the Fruit Trees you sent me per s.s. "Marmora," and am very pleased with same. They arrived in excellent condition.
24/7/13. E. H. C., Nilgiris, India.

FIGS

Price, 1s. 3d. each; 7s. per half dozen; 12s. 6d. per dozen. Packing charges for long distances, 1s. per dozen.

In good soils the Fig is inclined to grow too rankly and to drop its fruit before maturity. To check this, root-prune during early winter, cutting the roots with a sharp spade about as far from the stem as half the height of the tree.

Adam.—Very large, long; skin pale brown; an enormous early Fig.
Black Genoa.—Very large; skin dark purple, almost black when ripe; flesh deep red.
Blue Provence.—Small roundish; rich and juicy; heavy bearer.
Brown Ischia.—Large, roundish, ovate; skin chestnut-coloured.
Brown Turkey.—The best of Figs, fruit large, oblong or pyriform; skin dark brown, with thick blue bloom.
Brunswick.—Large; skin fine violet, brown in the sun, dotted with pale brown specks.
Castle Kennedy.—Large, short and thick; very rich and sugary; early.
Green Ischia.—Large roundish; skin covered with a pale brown tinge in the sun; flesh purple, rich and good.
Marseilles (White Genoa).—Fruit above medium size, quite round; skin pale yellowish green; flesh white; a splendid Fig for drying.

GRAPE VINES

A well-drained subsoil is essential to the successful growth of Grape Vines. We offer a very choice selection of the very best sorts. Price, 6d. each; 5s. per dozen; except where otherwise priced.

- Almeria (or Daria).**—Bunches and berries large, light amber colour.
- Barbarossa.**—Bunches long, tapering; berries large, round, purple.
- Baxter's Sherry (or Camden Sherry).**—A deep golden colour, heavy reddish bloom.
- Black Champion.**—Bunches very large, ripens early.
- Black Hambro.**—Bunches large; berries large, roundish black.
- Black Damascus.**—Bunches and berries large; skin black; a fine late table Grape.
- Black Prince.**—A superb Grape; bunches long; berries oval, rather thinly set; skin thick, deep black.
- Black St. Peter (or Black Alicante).**—Berries very large, with a blue bloom.
- Black Monukka.**—One of the few seedless Grapes; bunch and berry large; skin black, late. 1s. each.
- Bowood Muscat.**—A seedling of Muscat of Alexandria; rich flavour; a larger berry and a better setter; white.
- Champion Muscat.**—Of recent introduction; berry very large, round, with a muscat flavour; medium. 1s.
- Chasselas Vibert.**—Bunches long, tapering; large amber berries.
- Centennial.**—The grandest white Grape we have; berries enormous; unsurpassed for size and fine appearance. 1s.
- Crystal.**—Largely grown in Adelaide for market, reaching Sydney when Grapes are all but over; pale amber.
- Doradillo.**—Berry large, rich amber.
- Golden Chasselas, or Royal Muscadine.**—Bunch and berry medium size, round; deep golden; early.
- Gros Colman.**—Large; skin tough; purple-black; fine late Grape.
- Gordo Blanco (White Muscat).**—An improvement on Muscat of Alexandria in that it sets the fruit much better.
- Golden Champion.**—Large berries; deep golden.
- Golden Hambro.**—Large oval berries; amber colour; rich flavour.
- Lady Downs.**—Bunches long, rather loose; berries large, roundish oval; skin thick, reddish-purple, becoming quite black if allowed to hang, with a heavy bloom; flesh firm, sweet and very rich.
- Lady's Finger.**—Bunches and Berries large, peculiarly pointed; deep yellow; very late.
- Madresfield Court Black Muscat.**—Rich in Muscat flavour; berries black, large and thickly set; late.
- Mrs. Pearson's Golden Queen.**—A handsome Grape; firm, juicy and rich. 1s.
- Mrs. Prince's Black Muscat.**—A really splendid black Muscat; berries largest size, deep shining black; skin thin, very tough; very rich in Muscat flavour.
- Muscat Hambro (Snow's).**—Berries very large, rather oval, sometimes almost round; skin deep purple; flesh very juicy, with a rich and distinct Muscat flavour.
- Mudgee Black Sherry.**—Late black; a fine Grape.
- Red Malaga.**—Identical with Black Malaga, except in colour, which is coppery-red. A noble-looking Grape, revelling in heat.
- Red Prince.**—Berries very large, quite round, of a deep red colour; sets closely, not like Black Prince; flavours distinct but not rich, a noble Grape, but requires a warm situation and light soil.
- Red Hanneport.**—Considered the heaviest and best cropper yet introduced; Muscat flavour.
- Sultana.**—Bunches medium size, long; berries medium size, oval; skin pale yellow; flesh without seeds; chiefly valuable for raisin-making. 1s.
- Syrian.**—A superb Grape; bunches produced up to 15 lbs. weight; white at first, but changing to tawny.

GRAPE VINES—Continued.

- Trentham Black.**—Ripening with Black Hambro; bunches large; berries medium, jet black.
- Waltham Cross.**—Bunches and berries very large, round; pale amber, very rich; makes a good raisin; late.
- White Hanneport.**—A new white Muscat, introduced from S. Africa. Has fruited in this district, and appears to be an improvement on Gordo.
- Zante Currant.**—The dried currants sold in shops are made from this grape, and as the process of manufacture is simplicity itself, it is a most profitable crop to grow. The vine requires to be long pruned; quite seedless.

GRAPE VINES CANNOT BE SENT INTO QUEENSLAND FROM N.S.W. UNDER ANY CONDITIONS. Other fruits are admitted provided they are accompanied with a Certificate of Fumigation issued by the Government, stating the trees are clean and free from any disease

AMERICAN VARIETIES

- These are splendid vines for trellising, being strong, vigorous growers. They all possess in some degree the peculiar foxy flavour which is so appreciated by some. Price, 1s. each.
- Bell's Seedling.**—Of the Isabella type, but larger berries; skin deep blackish purple.
- Catawba.**—Bunch and berry fairly large; skin deep red, with a thin lilac bloom.
- Dr. Hindley.**—An improvement on the usual type of American grapes, in that the berries are larger; a strong grower, with the usual flavour.
- Isabella.**—A well-known variety; berries large, black; a very strong grower.
- Perkins.**—Considered the best American Grape, with a peculiar raspberry flavour; pink.

GRAPE VINES ON PHYLLOXERA RESISTANT STOCKS

Price, 1s. each, 10s. per dozen (except where otherwise priced). Special quotations for large quantities.

GUAVAS

A most excellent fruit, either for dessert or preserving. The purple variety is thoroughly hardy, and will stand pretty severe winters. Price, 1s. 6d. each, 15s. per dozen.

- Parker's Hybrid.**—An enormous fruit, twice the size of the ordinary yellow Guava.

- Purple.**—The hardest variety; fruit small, borne in immense crops.
- Yellow.**—Fruit as large as a hen egg, semi-transparent.

LOQUATS

A most useful fruit, coming in before any other fruit is ripe.

- Californian Advance.**—A variety claimed in California to supersede anything yet raised in Loquats. Fruit large, deep golden-yellow, nearly all pulp, flavour distinct and delicious. Stock limited. 2s. 6d.
- Chatsworth Victory.**—Fruit very large, with thick flesh; ripens late, and is of very superior quality. The tree is a strong grower and good bearer, and is undoubtedly one of the best. 2s.
- Common.**—Grown from selected seed, and with fair treatment producing enormous crops of large and very juicy fruit. A profitable shelter tree. 1s. 6d.
- Early Golden.**—A variety from South Australia, not quite so large as Mammoth, but much earlier. Worked plants, 1s. 6d.
- Gigantea.**—A Japanese variety, bearing fruit of prodigious size. A regular and very heavy cropper. Grafted plants, 2s.
- Herd's Large.**—This variety is of enormous size, and when thinned and annually manured, is the size of a hen's egg. Budded plants. 2s.
- Mammoth.**—An extremely large variety, with very thick flesh and a single small seed. Flavour very rich and good; very juicy. Grafted plants. 2s.

MEDLAR

Thrives well in N.S.W., requires very trifling attention, and is not particular as to soil. The fruit must be gathered as soon as ripe, and stored inside till it becomes quite soft, when it is most delicious. Price, 1s. 6d. each.

- Dutch.**—Very large.
- Monstrous.**—The largest.
- Royal.**—Large and of good flavour.

MULBERRIES

Some of the free-growing varieties are very suitable for planting for shelter

trees. Price, 1s. 6d. each, 15s. per doz.

- Alba.**—The silk-worm Mulberry.
- Black English.**—The best variety; very long lived; very scarce. 2s. 6d.
- Cape.**—Useful for shelter, fruit useful for culinary purposes.
- Downing's Everbearing.**—Fruit very large; an agreeable flavour.
- Hick's Fancy.**—Fruit of large size; very juicy.

I should like to take the opportunity of thanking you for your promptness and careful packing of the Plants, which I received yesterday in perfect order.
1/6/13.
Mrs. J. S. Daple.

The benefit of our experience, extending over 40 years, is at disposal of customers; if in doubt, write for advice

NECTARINES

Albert Victor (F.M.).—Skin yellowish-white.
Camden Superb (F.).—Strongly resembles Stanwick, but excels it in size, and is almost free from the cracking.
Cardinal (F.M.E.).—Its earliness should make it a valuable variety for the orchardist.
Cooza.—Magnificent nectarine; a splendid variety; one we can highly recommend. Fruit is 9 in. in circumference. Very vigorous grower. Fruit is ripe mid-January. 2s.
Downton.—Very large, fine appearance; freestone; ripens early in February.
Early Rivers (F.I.E.).—Earliest Nectarine; flesh tender; juicy.
Elruge (F.M.).—Skin greenish, dotted with red in the shade, with a rich red blush.
Goldmine (F.I.L.).—Skin nearly all covered with bright bronzy-red flesh beautiful cream-colour; juicy and sugary.
Hunt's Tawny.—Skin yellowish, with a deep purplish cheek in the sun; flesh orange, deep red at the stone; juicy.
Irrewarra (F.E.).—Fruit medium, highly coloured; splendid.
Judd's Seedling (I.L.).—Very large, roundish; deep purple-red skin.
Konstanze.—Beautiful fruit of dark blood-red colour; flavour very agreeable. Stands cold weather better than any other variety, early.

Price, 1s. 3d. each; 7s. per half doz.; 12s. 6d. per dozen.
 Packing charges for long distances, 1s. per dozen.

Lady Carrington (C.M.).—With a thick juicy flesh.
Lee's Seedling.—Raised in Victoria; thoroughly hardy.
Lippiatt's Prolific.—Large, highly coloured, rich and sweet; tree of upright growth, hardy and prolific, early. 1s. 6d.
Meek's Scarlet.—Large heavy cropper; good colour; free, mid-season.
New Boy (F.).—Large; brilliant crimson; flesh white, juicy.
Newington (C.I.M.).—A fine clingstone; flesh melting, rich and very juicy.
Oldham Hill (L.).—Raised by Mr. J. Doust, of Camden.
Precoce de Croncels.—Yellowish, with dark plum colour; free-stone.
Stanwick (L.).—Large size; very juicy; high flavour.
W. C. Frupp (F.).—Dark yellow, with a bronzy-red cheek.
Victoria (C.L.).—Skin greenish-yellow, crimson on the sunny side.
Zealandia.—New Zealand origin. Fruit very large, rich red; classed as of the very best, and is the largest New Zealand fruit; appearance similar to a highly-coloured Peach; tree vigorous and spreading; highly recommended; medium. 2s.

NUTS, FILBERTS, &c.

ALMONDS

Price, 1s. 3d. each; 7s. per half doz.; 12s. 6d. per doz., except where otherwise priced.

Brande's Jordan.—Bearing large sweet nuts of the Papershell class, and parting readily from the husk; easily prepared for market.
Burbank Seedling.—It is reputed to be a hardy and heavy cropper, blooming very late in the spring, consequently escaping the damage so often caused to this crop by the late frost. Highly recommended.
Golden State.—A heavy and regular bearer, with a soft shell.
Grosse Tendre.—Very large, thin-shelled, good grower and heavy bearer.
Hatch's Nonpareil.—Very fine, large kernel, very thin shell. The shell is the thinnest we know of, losing very little weight after being shelled.
I.X.L.—A sturdy, upright grower, with large foliage; nuts large, with, as a rule, single kernels; soft shell.
Large Papershell.—A variety of common Papershell, but much larger; shell very tender; kernel large, white, and sweet.
Princess.—A fine pearlshell type of nut.
White Nonpareil.—Tree is a strong grower, of spreading habit, nuts very large, white shell, far heavier bearer than Brande's Jordan. 1s. 6d.

CHESTNUTS

Japanese Giant Chestnut.—Fruit three times the size of Spanish, and coming into bearing at a very early age. 2s.
Spanish.—The well-known sweet Chestnut, bearing its fruit in burrs; a splendid shade tree; bears about the sixth year after planting. 1s. 6d. to 2s.

FILBERTS

Price, 1s. 6d. each.

Frizzled.—Nut of medium size, oval, compressed; husk hairy, deeply cut; shell thick; kernel sweet and good.
Red.—Remarkable for the crimson skin of its kernel; nut of medium size, ovate shell thick.

WALNUTS

Price, 2s. each.

Juglans Cordiformis.—Also of Japanese origin. The nut is flat or heart-shaped; shell very thin, smooth, not furrowed; kernel deliciously sweet.
Juglans Regia.—The English or Persian Walnut; a most handsome shade tree, and deserves planting on that account.
Juglans Seiboldii.—A Japanese variety; very hardy, and a very handsome tree; bears while young; nuts produced in clusters.

The varieties we list are those cultivated in Europe as best suited for oil-producing and pickling. 2s. each.

Large Fruited.—As the name implies, very large.
Lucca.—Famous oil made from this variety.
Picholine.—Very hardy, suitable for any soil; enormous cropper.
Salome.—Fine variety, large fruit, good pickling.

FRUITING OLIVES

Black Italian.—Best for pickling; large size, and good flavour.
Blanquette.—Suitable for pickling and for oil.
Bouquettier.—Large, good oil-producing.

PEACHES

EARLY VARIETIES.

***Admiral Dewey.**—Comes in with Briggs' Red May; handsome, deep rich yellow, covered with purplish-crimson.
Alexander's.—Large; juicy, rich, and vinous; free-stone.
Bell's November.—It is the first peach of the season—in some time before Queensland Flat China, and nearly three weeks before Briggs'.
Briggs' Red May.—The standard of extra early Peaches; fruit not largest, juicy, and rich; free-stone.
Camden Superb (Devlin's Red).—Profitable market sort, medium size, globular; ripe by Christmas.
Downing.—Large, very juicy, high flavour; a partial free-stone.
Early Rivers.—A handsome Peach; fruit large; skin waxy white, with clear carmine check; flesh whitish, very juicy.
Early Newington.—Fruit large, round; flesh firm, juicy; a cling-stone.
Edward VII.—A remarkably early kind.
Flat China.—This Peach is almost superseded by the American varieties in all but the districts near the coast, which are free from late frosts fruit flat; flesh very juicy.
Hales' Early.—Fruit medium size, roundish; flesh tender, very juicy, free-stone.
Higs' Early Canada.—Very large, tender, rich, and melting.
Ruby Red.—A seedling raised in the Parramatta district by Mr. Arthur Franks, who describes it as a greatly improved Camden Superb (Deolius Red).—It is a clingstone, ripe early in January.

Price, 1s. 3d. each; 7s. per half doz.; 12s. 6d. per doz.
 Packing charges for long distances, 1s. per dozen.

Surpasse Amsdens.—Large, roundish, deep glowing red colour; a perfect freestone, ripening a few days in advance of Amsden's June. Specially recommended by the Pomological Society of France.
Triumph.—Very large, handsome appearance, and rich flavour.

MIDSUMMER VARIETIES.

Amelia Berta.—A large yellow-fleshed freestone, containing all the good qualities of Elberta and earliness of Amelia.
Camden Excellent.—Fruit large; flesh tender and juicy.
Early Crawford.—Very large; flesh yellow, very rich; a freestone.
Elberta.—Very large, globular; flesh yellow, very fine grained; free-stone.
George IV.—Large round flesh whitish-yellow, melting, rich flavour; freestone.
Grand Admirable.—Large, firm, very juicy and good; clingstone.
***Kia-Ora.**—A seedling from Elberta. Of superior flavour; a better cropper and hardier tree.
Mountain Rose.—Large size; flesh whitish; freestone.
Paragon.—A seedling from Elberta, medium size, deep yellow, mottled with red when thoroughly ripe; very juicy and rich, clingstone.
Powell's Beauty.—Yellow flesh, very large; good cropper.
Royal George.—Large, round and even; flesh whitish, very tender and juicy; freestone.

PEACHES (Midsummer Varieties)—continued

Royal George Cling.—Large, flesh whitish, firm; clingstone.
Shanghai Seedling, or Red Shanghai.—A splendid form of the Shanghai.
Shanghai.—Of the very largest size, frequently weighing 8 ounces, oblong; flesh whitish; very rich flavour; clingstone.
Shanghai Freestone.—Seedling of old Shanghai raised some three years ago; it is a perfect freestone, as large as its parent.
Stark.—A new variety from America—an improved Elberta. Being very firm-fleshed, it can travel almost any distance. Flesh deep apricot yellow, as in Elberta, but skin almost entirely covered with rich deep red. Freestone.
Up-to-date.—The skin is deep yellow with bright red cheek on sunny side. Flesh is of a most delicious flavour. It has little or no colouring next to the stone, a point much sought after by canning factories. This Peach ripens about same time as Elberta.

LATE VARIETIES.

Beauty of Taupaki.—A reliable heavy bearer and a hardy grower, fruit large, very showy, flesh yellow, with red at the stone, flavour rich, luscious and juicy, perfect freestone.
Bonanza.—Round and even; flesh white, melting, with a rich vinous flavour; freestone.
Brandywine.—A splendid freestone, resembling Early Crawford.
Camden Golden.—Golden Colour, very rich and sugary, freestone.
***Comet.**—Large, round, with a slight point; flesh deep yellow, a little red at the stone; freestone.
Delicious.—An exceedingly handsome peach, skin yellow, with minute carmine dots, red all over towards the sun, flesh yellow, stone small, flavour can only be described as "delicious," ripens a week before Crosby, and is the finest dessert peach of its season; a sure cropper.
Emma.—Fruit as large as Elberta; is marketable four to five weeks later, which should bring it on the market in February, when good freestone Peaches are not to be had.
***Globe.**—Fruit large, quite round; tender and melting; freestone.
Gold Dust.—Large, solid, yellow-fleshed cling.
***Hawkesbury Champion.**—Very fine sort in appearance, of recent introduction, and highly commended.
Jubilee.—A fine showy Peach, clingstone, from New Zealand, raiser speaks in glowing terms of it for productiveness and quality, and stated that it holds on in the heaviest winds.

Kalamazoo.—The most profitable Peach of its season; tree extremely hardy and a certain bearer, fruit large, round, handsome appearance, flesh bright yellow, and deliciously flavoured, an invaluable variety for all purposes. Comes in a good season.
Lady Palmerston.—Fruit medium to large; flesh tender, very melting and rich; a freestone.
Lippiatt's Late Red.—Another fine Peach, ripe first week in April, colour creamy, mottled, striped, and overspread with dark red; fine flavour, tree a fine grower, and an immense bearer.
Lord Palmerston (Pavie de Pompone).—Fruit large, quite round; flesh white, tender and juicy; clingstone.
Lovell.—Originated in California; perfectly round; yellow freestone, rich flavour, also dries well; ripe during February.
McDevitt's Late Cling.—Its size is enormous, good even shape, and in colour is beyond anything we have seen.
***Nicholl's Orange.**—Fruit of large size, quite round; flesh deep yellow, rather firm; juicy; clingstone.
Peregrine.—A mid-season variety, distinguished by its good constitution and productiveness. The fruits are large, with a brilliant crimson skin; flesh highly flavoured and parting readily from stone.
Phillip (Cling).—Comes from America with a great reputation; an enormous yellow-fleshed cling, coming in when practically all other clings are over, consequently in great demand by factories, realising enormous prices; large cropper. 2s
Princess Royal.—Fruit very large; flesh greenish white, firm, but melting; clingstone.
***Pullar (Cling).**—Very fine canning Peach raised at Ardmuna (Vict.). It is very large, highly coloured, clingstone, and preferred by canning factories above all others; heavy bearer.
Red Italian.—Free, very large, round; flesh deep yellow, fine grained, luscious; freestone.
Red Italian Cling.—A variety of old Yellow Italian; its colour is a deep rich red.
Salway.—Fruit medium size, round; flesh fine yellow, firm, juicy; freestone.
Sea Eagle Improved.—Large pale yellow, almost white; freestone.
Sellars (Cling).—Very large, rich golden yellow cling, ripe with Late Crawford; good flavour; one of the very best. 1s. 6d.
Wonderful.—Rather oblong; skin golden yellow, with a brilliant carmine cheek; freestone.
Yellow Italian (Cling).—Oblong, pointed, one-sided; skin deep orange, with a thick red cheek; flesh deep yellow, firm, juicy.

PEARS

Price, 1s. 3d. each; 7s. per half-dozen; 12s. 6d. per dozen. Packing charges for long distances, 1s. per dozen.
 80s. per 100, packing free. Fifty trees supplied at hundred rate.

EARLY VARIETIES.

Citron des Carmes (Madeline).—Fruit medium, obovate, tapering to the stalk; skin pale yellowish-green; flesh white, juicy.
Clapp's Favourite.—Fruit very large, obtuse pyriform, strongly resembling Bartlett in shape.
Dempsey.—A cross between "Williams' Bon Chretien" and "Duchess d'Angouleme"; fruit large, skin yellow, tinted with brown on the sunny side, flesh white, fine grained, tender, buttery, with a rich sweet and delicious flavour, medium.
Jargonelle (English).—Fruit large, pyriform; skin smooth, greenish yellow, brown in the sun; flesh yellowish white, rather cross-grained. Ripens December.
Lawson (Comet).—Fruit largest, obtuse pyriform; skin bright yellow very smooth, with a crimson cheek; flesh fine-grained, juicy, and very rich.
Red October.—A very superior variety of "Beurre de Capiamont," bright brown, tinged with orange-red, flesh delicate, smooth and rich; an abundant bearer.
Wilder Early.—A delicious early Pear. Tree very hardy, reliable bearer, and not liable to blight.
Williams' Bon Chretien (Bartlett).—This Pear is too well-known to need description, and is largely planted for canning.

MIDSEASON VARIETIES.

Bergamot Renee.—Fruit large, rounded, skin smooth and brown, flesh juicy, sugary, melting, peels when thoroughly ripe. 1s. 6d.
***Beurre Bosc.**—Fruit large, pyriform, tapering gradually; flesh white, melting, very buttery, with a rich flavour.
***Beurre de Capiamont.**—Fruit medium size, long turbinate; skin smooth clear yellow, with a light cinnamon red cheek; flesh fine-grained, buttery, melting sweet.
Beurre Fongueray.—Large and handsome, of the very best quality, heavy cropper. First-class certificate from Royal Horticultural Society.
Brockworth Park.—Fruit large obtuse, pyriform, skin smooth, pale yellow; flesh white, buttery, melting, very juicy.
Directeur Hardy.—This is one of the handsomest Pears known, a great and early cropper of excellent quality, medium.
Fertility.—Large fruit, brilliant colour, and high flavour; a good market variety.
Flemish Beauty.—Fruit very large, obtuse pyriform; skin pale yellow, reddish brown in the sun; flesh mottled white, juicy.
Garber's Hybrid.—Yellow as an orange, larger than Keiffer, better in quality, and four weeks earlier.
***Keiffer's Hybrid.**—Medium size round, yellow skin, enormous bearer; ripens in April.

Le Conte.—Of the same shape as the preceding; fruit very large; bell-shaped; skin remarkably smooth, of a rich creamy yellow; flesh fine-grained, juicy, with a musky aroma.
Le Lectier.—Fruit of large size, true pyriform; skin grass green mottled with dark green; very juicy.
Laffer's Bergamot.—Said to be a cross between Winter Nelis and Williams' Bon Chretien. It is a first-class Bergamot, medium to large size, good flavour, rich, melting, juicy, ripe in March.
Louis Bonne of Jersey.—Fruit large, oblong pyriform, a little one-sided; flesh greenish-white, very juicy and melting.
Marie Louise.—Fruit medium, oblong pyriform, a little one-sided; skin fine, deep, yellow; flesh white; buttery and melting.
***Packham's Triumph.**—A greatly improved W. B. Chretien, coming later with more flavour; a good doer; strongly recommended. 1s. 6d.

WINTER VARIETIES.

Bailey's Bergamot.—Fruit medium size, in shape like Gansell's, but a month later, and more certain cropper.
Bergamot Esperance.—Fruit large, skin deep clear yellow, with rich crimson in the sun; flesh firm, yellowish-white, rich and vinous.
Bergamot (Gansell's).—Fruit large, roundish, flattened; skin yellowish brown, much covered with russet.
Belle Guerandaise.—Very large, oblong, attaining one foot in circumference; flesh fine, juicy, melting, of very good flavour. In season April to May.
***Beurre Clairgeau.**—Fruit largest, with unequal sides, skin warm yellow, shaded with orange and crimson, thickly covered with russet dots; flesh yellowish, a little granular, buttery, with sugary, perfumed vinous flavour; ripens March to June.
***Beurre Easter.**—Very large, somewhat square in shape; skin greenish yellow, with sometimes a brownish red cheek; flesh white, very fine grained, buttery, melting, and very rich.
Beurre Picquet.—Medium size, of peculiar yet exquisite flavour; flesh nearly white, melting, juicy, and very fine quality; tree vigorous and prolific.
***Broompark.**—Fruit medium size, roundish; skin smooth, clear yellow, with a brown red in the sun; flesh whitish, very melting, rich and vinous; ripens April to May.
Catalac.—Very large, broadly turbinate; skin yellow, with a brownish red cheek; flesh firm, and only fit for cooking.
Conference.—Large pyriform; skin very smooth and shining, with occasionally a sprinkling of russet; flesh a most beautiful shade of salmon pink, very juicy and melting, with a high flavour.
Elizabeth Cole.—Above medium; skin green, partly covered with yellow; flesh very tender, buttery, melting.
Fame.—A constant cropper; fruit is of largest size, fine russety brown; melting and rich.

PEARS (Winter Varieties)—continued

- ***Glou Morceau.**—Large obovate; skin yellow; flesh buttery, melting, and very juicy, of best dessert quality.
- L'Inconnue.**—Skin light yellow, netted and patched with russet; flesh whitish, juicy, melting, very sweet.
- Madame Cole.**—Medium size, obtuse pyriform; skin yellow, almost covered with brown russet; dessert Pear of highest excellence.
- Mount Vernon.**—Large, nearly globular, colour rich cinnamon russet, flesh juicy, melting, with a spicy vinous flavour which is peculiar and distinct from that of any other known sort. Tree is a vigorous grower, and comes into bearing early.
- Packham's Late.**—Large fruit, heavy cropper. 2s.
- ***P. Barry.**—Very large, elongated pyriform; skin deep yellow, nearly covered with a rich golden-yellow; flesh whitish, fine, juicy.

- Uvedales St. Germaine.**—(Large baking). Valuable for its cooking qualities, and is a heavy and constant cropper. If carefully gathered will keep right through the winter.
- Vermont Beauty.**—Beautiful; of very striking appearance; fruit medium size, roundish, and skin yellow, almost covered with carmine, a most delicious Pear which we strongly recommend; hardy and productive. 1s. 6d.
- ***Vicar of Winkfield.**—Large size, long pyriform; skin smooth, pale yellow, with occasionally a brown-red cheek; flesh greenish-white, juicy, sometimes buttery.
- Winter Bartlett (True).**—A duplicate of the well-known Williams Pear, but ripening at least three months later. 2s.
- ***Winter Cole.**—Raised from Winter Nellis, which it rather resembles, but is better than that variety; fruit medium size; flesh yellowish.
- Winter Nellis.**—Medium size; flesh yellowish-white, fine grained, buttery, and very melting, abounding with juice of a rich saccharine, aromatic flavour; a dessert fruit of highest quality.

PERSIMMONS

Price, 1s. 6d. each; 15s. per dozen. Packing charges for long distances, 1s. per dozen.

- Among.**—Fruit medium size, roundish; skin light orange; flesh brownish; an early variety.
- Dai Dai Maru.**—Fruit of the largest size, square or four-sided, rather flattened; skin deep orange; flesh yellow, almost seedless.
- Hayehi Ya.**—Fruit very large, oblong, rather pointed, light red.
- Hayakume.**—Fruit very large, round, covered at the end with heavy russet; skin vermilion; flesh brown, rich and luscious.
- Korokumo.**—Fruit medium size, almost round; skin yellowish-red, flesh orange, with very few seeds.

- Okamee.**—A little-known variety, square shape, very large, rather flattened; skin reddish-orange, and almost seedless.
- Tanenashi.**—This is a seedless variety, and is largely grown for market under that name.
- Yeddo-ichu.**—Fruit medium size, round, rather pointed; skin light yellow, russety; flesh amber; a late variety.
- Yemon.**—Fruit large, with distinct ribs; skin deep yellow, with little russet; flesh orange, with no seeds.

PLUMS

Worked on Seedling Myrobalan, also Peach Stocks. This most luscious fruit requires little attention and can endure more hardship as to soil and situation than most fruits. It, however, responds freely to care and attention, and owing to its constant and heavy bearing, is one of the most profitable fruit crops. On the non-suckering—(Myrobalan)—stock it forms a much harder and longer-lived tree than when worked on the peach stock.

Price, 1s. 3d. each; 7s. per half dozen; 12s. 6d. per dozen. Packing charges for long distances, 1s. per dozen.

EARLY VARIETIES.

- ***Angelina Burdett.**—Above medium size; skin thick, dark purple, with a heavy blue bloom; flesh yellowish; a freestone.
- Black Cluster.**—A N.S.W. seedling; heavy cropper, but not of first quality; skin almost black, with a thick blue bloom.
- Cherry, or Early South American.**—Rather small, round, skin a fine lively red; flesh greenish-yellow, very juicy, with a pleasant lively flavour.
- ***Clyman.**—It first attracted attention from its extreme earliness, ripening four to six weeks in advance of any other. Of large size, round; skin dark purple, with a heavy blue bloom.
- ***Denniston's Superb.**—A seedling of the Green Gage, nearly as rich in flavour, and a third larger; flesh very thick; freestone.
- ***Diamond.**—A magnificent fruit of the very largest size, and handsome appearance; fruit oval; skin black, covered with a blue bloom; flesh deep yellow.
- Evan's Early.**—Medium size, roundish oval; skin deep purple with a violet bloom; flesh greenish, very juicy.
- Green Gage.**—The highest flavoured of all dessert Plums; fruit of medium size, round; skin yellowish-green; flesh pale green.
- ***Lincoln.**—Fruit very large, 6 inches in circumference, deep reddish-purple; early; a heavy cropper.
- Princess Alexander.**—Largest size, splendid flavour; skin deep glowing red; heavy and constant cropper; medium. 1s. 6d.
- ***The Czar.**—Large oval, skin quite black, with a heavy violet bloom; flesh yellow, tender, juicy, rich, of excellent flavour.
- ***Washington.**—Fruit of the largest size, roundish oval; skin dull yellow with pale crimson blush; flesh yellow, firm, very sweet and delicious; a freestone.
- Yellow Diamond (English).**—A sport of the Diamond Plum. Instead of dark purple it is a clear yellow colour.

LATE VARIETIES.

- Admiral (English).**—Fruit closely resembles Monarch, somewhat later, the tree has, however, quite a different habit, a close grower forming abundant fruit; bears profusely. A most valuable late kitchen and market Plum.
- ***Coe's Golden Drop.**—Large; skin light yellow; flesh yellow, firm, rich, sweet and delicious, and making a splendid prune when dried; a close clingstone.
- Coe's Late Red.**—Of medium size, nearly round; skin light purplish-red, with a thin blue bloom; flesh yellowish, rather firm, juicy, rich and vinous; a freestone.
- Duane's Purple.**—Very large, oval or oblong, larger on one side than the other; skin reddish-purple in the sun, pale red in the shade, a few golden specks beneath the skin, and covered with a lilac bloom.
- Golden Transparent.**—Fruit large, bright golden when ripe. A most delicious late Plum. First-class Certificate Royal Horticultural Society, England.
- ***Grand Duke.**—Large, almost oval, narrowing to the stem, with a neck; skin purplish-black, with a heavy bloom; flesh deep yellow, firm, very rich and juicy.
- ***Jefferson.**—Largest size, oval, slightly narrowing to the stalk; skin golden-yellow, with a purplish-red cheek, covered with a white thin bloom; flesh deep orange.
- King Damsons.**—Fruit of largest size, exceptional quality and striking appearance; tree very productive; medium.
- Late Orange.**—Skin bright orange, covered with a heavy bloom; very rich flavour; good cropper; one of the best.
- Loutherboro.**—Large, roundish oval; skin almost black, with a deep violet bloom; flesh yellowish, firm.
- ***Magnum Bonum (White Egg).**—Very large, frequently six inches in circumference; oval, narrowing to both ends; skin of deep golden colour, with white dots; flesh yellow; clingstone.
- ***Magnum Bonum (Red).**—Large, oval, a little swollen on one side, skin rather pale in shade, deep red in the sun; flesh greenish, rather firm, juicy; a freestone.
- Monarch.**—Very large, roundish, oval; skin dark purplish-blue; flesh yellowish, very firm, rich, juicy, with a high vinous flavour.
- Pond's Seedling.**—Very large, oval, tapering to the stalk, with a distinct neck; skin yellowish, nearly covered with carmine, and a few brownish dots; flesh yellowish, a little coarse, but juicy and sugary. A beautiful Plum.
- ***Reine Claude de Bavay.**—Large, roundish, slightly depressed; skin greenish-yellow, with splashes of green; flesh yellow; freestone.
- Sultan.**—Medium size, round; skin dark purplish-red; flesh greenish-yellow, firm, sweet; clingstone.
- Superb.**—Large, round, purple plum of excellent flavour, a heavy and constant bearer, cannot be excelled for either dessert or culinary us

 * 25 ASSORTED FRUIT TREES 25/- *
 * Priced at 1s. 3d. *
 * Packing Free. Free on Rail or Steamer *

We received the parcel of Fruit and Ornamental Trees, etc., yesterday in good order. What a sturdy-looking little tree the flowering Cherry is! Many thanks for the Acacia.
 18/7/13.

M. W., Manildra.

JAPANESE PLUMS

Price, 1s. 3d. each; 7s. per half doz.: 12s. 6d. per dozen. Packing charges for long distances, 1s. per dozen.

Abundance (Botan).—Fair to large size, always pointed; skin brilliant carmine all over; stone like a cherry; flesh thick, yellow, very juicy, of fair flavour; clingstone.

Ada Crossley.—From the noted hybridist, Mr. Sharp, of New Zealand; who describes it as not so early as Ranfurly, but is a wonderful cropper, and when gathered ripe has a fine flavour, and very luscious, but too juicy for bottling.

Akarana.—A new early Plum recommended by Hay & Son, of New Zealand; fruit much resembles Botan; luxuriant foliage, which should guard against sun scald so prevalent in Plums; large size, firm, and should be invaluable as an early variety to supersede the old Cherry.

Alpha.—The earliest of all Japanese or English Plums, ripening twelve days in advance of Cherry Plum or E.S. American. Fruit at least twice the size of a Cherry Plum, deep dark red or amber coloured ground, flesh yellowish, juicy and very sweet, of good flavour. Can be picked when first showing colour, and will keep for 14 days without discolouring. Being the first Plum on the market, we predict a big future for this sterling novelty.

Apple (Hybrid Plum).—Having strong resemblance to Simonii. The tree is a fine, strong grower, with good foliage.

Balleana.—A very large early Plum, colour light yellow, covered crimson; flesh pale yellow, flavoured like a Bartlett Pear; tree a good grower, regular and even cropper. 1s. 6d.

Bartlett.—Fruit pale crimson, turning to deep crimson, flesh salmon-coloured, firm and juicy.

Burbank.—Largest size, round; skin deep yellow in the shade, clear cherry-red in the sun, with a hazy lilac bloom; clingstone.

Climax.—Raised by Luther Burbank. The earliest Plum grown; delicious flavour; ripens before any other good Plum.

Combination.—Raised by Burbank. Large, globular, very uniform in size, extremely sweet.

Chaleco.—The fruit flat like a Tomato, deep reddish-purple, with very sweet, somewhat firm, yellow flesh.

Federation.—A cross between "Burbank" and "Wickson." The fruit, in size, shape and colour, resembles the "Wickson," and in growth the tree is like an upright-growing "Burbank." It is quite as productive as "Burbank." Ripe second week in February.

First.—Another new hybrid by Burbank. Fruit large, pale amber, faint flush on sunny side, transparent, moderately firm, juicy.

Formosa.—Rich yellow, with a pale bloom till nearly ripe, when it turns a clear rich red; fruit of large size, firm, rich, delicious, with a distinct apricot flavour; tree a vigorous grower, so robust as to throw off all disease; abundant and even cropper. 1s. 6d.

Gaviota.—A strikingly handsome fruit, mostly cherry red on a rich golden skin; flavour excellent; fruit of large size, and an abundant and regular cropper; tree a late bloomer, thus escaping late frosts; a splendid shipping Plum with a most minute stone. 1s. 6d.

Gold.—In appearance a marvel of beauty, the golden globes being borne all along the limbs, not in clusters, but singly; in colour clear, deep golden; flesh very firm, juicy, of fair flavour.

Gonzales.—Bright red, handsome fruit, flesh sweet and firm, heavy cropper.

Hale (true).—Large; bright orange, mottled with cherry-red; superb in quality; flesh yellow, soft and juicy; cling; very late.

Hay's Seedling.—Tree hardy and a good grower, fruit round, skin dark purple, flesh yellow, firm, rich, juicy and of exquisite flavour, ripens a week after "Burbank."

Hermillo.—Very heavy cropper; fruit medium size, very early, splendid flavour. 1s. 6d.

Kelsey.—Perhaps the best known of all this class; fruit very large, heart-shaped, with an elongated apex; skin fine clear yellow, covered with bright red in the sun; flesh deep yellow; a partial clingstone; ripens March.

Large Red.—Oval; skin brilliant red; flesh yellowish.

Lord Ranfurly.—A variety from Mr. Sharp, of New Zealand, and already fruiting in this State. It largely partakes of Burbank type in growth of tree and appearance of fruit; ripe and over before Cherry Plum has coloured. In our opinion this Plum promises to eclipse anything received from America.

Mikado.—Exceptionally showy, medium size, skin brilliant carmine, flesh thick, yellow, very juicy, and good flavour; an improvement on the well-known Abundance (Botan). 7s.

October Purple.—Fruit large, quite round, skin deep purple, almost black; flesh yellow, very thick, juicy, with a distinct and quite new flavour.

Ogden.—Fruit large, round, flesh firm, light golden colour; very productive; one of the best.

Ogon (Large Yellow).—Large size, quite round; skin rich deep amber all over; flesh very yellow, firm, almost transparent, with a splendid flavour; a clingstone, ripens January.

Omaha.—Handsome coral-red, yellow flesh, splendid flavour; large fruit.

Orient.—Vigorous grower and good cropper, fruit large, with clear red skin; good. 1s. 6d.

Plumeot.—A cross between a bloom plum and an apricot; fruit large; tree a vigorous grower; fruit retains all good qualities of both parents, being of a distinct apricot flavour, and being a perfectly formed blood plum well worth a place in any collection if only on account of its great beauty. 1s. 6d.

JAPANESE PLUMS—continued

Prunus Simonii.—A Chinese variety, and a truly magnificent fruit. Fruit very large, flat like China Peach; skin deep crimson; stone small, round; flesh yellow, firm, with a delicious flavour.

Purple Gem.—Another variety from same source as Lord Ranfurly, and is apparently a cross between Cherry Plum and Satsuma, showing purple foliage of Pessardii. It is, however, far superior in size, quality and bearing to Pessardii, and is eight or ten days earlier.

Rubio.—Flesh deep crimson, being one of the best bloods; skin clear yellow covered with bright crimson; altogether in appearance and quality one of the best; as an early shipper hard to beat; splendid cropper. 1s. 6d.

Santa Rosa.—The very best plum ever produced, being even better than Burbank or Wickson; fruit a deep purplish-crimson, averaging six inches in circumference each way; skin clear golden covered with purple; flesh firm and of excellent flavour; a distinct blood; good grower and bearer. 1s. 6d.

Satsuma (Blood).—There are two varieties of Blood Plums. This, the true Satsuma, is, we think, the better fruit. Fruit medium size, round; flesh dark red.

Shiro.—Medium to large, uniform in size, clear light yellow, with thin white bloom; firm and juicy; clingstone.

Sultan.—Raised by Burbank. Of huge size, oval, deep purplish-crimson; flesh firm, solid, sweet and dark crimson in colour.

Superbe (Japanese).—A cross between P. Simonii and Ogon, in growth identical with Wickson. Fruit of immense size and most delicious flavour. Colour yellow, covered with small green specks. In shape round and flattened, partaking of its parent, Simonii. An ideal shipping plum, being very firm and does not scald. Ripens a little in advance of Burbank.

Vesuvius.—The best ornamental-foliaged plum extant; leaves large, and of a beautiful glowing crimson; very vigorous. 1s. 6d.

Wickson.—Of largest size, exceeding Kelsey growing beside it. On 1st February showing flushings of colour, and then quite saleable, but during third week it reaches perfection.

Wright's Early.—A very early plum, heavy and constant cropper.

Wright's Late.—The following is the raiser's description:—"A new seedling Japanese Plum that surpasses in flavour anything yet offered in the way of a Japanese Plum. The fruit is of a large size, with deep red flesh, and the stone is no larger than that of a cherry. It is of honeyed sweetness and has a decided vinous flavour."

PRUNE PLUMS

Price, 1s. 3d. each; 7s. per half doz.; 12s. per dozen. Packing charges for long distances, 1s. per dozen.

This list is specially recommended as giving the best varieties for drying for prunes.

Bulgarian.—Of largest size, roundish oblong; skin deep purple, with a thick heavy blue bloom; flesh yellowish, firm.

Felleberg or Italian Prune.—Medium to large, long, oval; skin dark purple covered with a dense blue bloom; a clingstone.

Giant.—Its size is not its only good quality; it is equally as heavy a bearer as the Prune d'Agen; fruit uniform in size, with a honey yellow flesh.

***Golden Prune.**—Very large, roundish oval; skin thin, tough; of a beautiful golden colour; flesh yellow, very rich and sugary, of exquisite flavour; dries beautifully; splendid for canning; freestone.

***Oregon Silver.**—Very rich in saccharine contents, and dries with very little loss of weight, retaining its light yellow colour; a close cling, stone.

Pacific.—For marketing in the fresh state it is quite without a rival, its size and appearance always placing it easily first.

Pearl.—Another of Burbank's productions. A seedling of d'Agen; white, semi-transparent, with a heavy bloom; makes a splendid prune, of attractive flavour and fragrance.

***Prune d'Agen (French Prune).**—This prune is almost exclusively used in France for drying; medium size.

***Robe de Sergeant.**—Very like Prune d'Agen in every way.

***Splendor.**—This is Burbank's best in the prune line; can best be described as Prune d'Agen, but three times its size.

St. Catherine.—Fruit pale yellow, medium size fruit, juicy, and of fine flavour.

***Sugar.**—Fruit even in size, large; rich in sugar, hence its name. Stock limited.

Tennent.—Large dark purple, parts freely from the stone, exceedingly rich, dries well.

***Tragedy.**—A Californian variety. Fruit very large, oblong, pointed, skin thick, deep purple, with a heavy bloom; flesh yellow; rich in sugar; a freestone.

 25 ASSORTED FRUIT TREES 25/-
 priced at 1s. 3d.
 Packing Free. Free on Rail or Steamer

PASSION FRUIT

QUINCES

1s. 3d. each; 7s. per half doz.; 12s. 6d. per dozen. Packing charges for long distances, 1s. per dozen.

- Apple-Shaped.**—Fruit large, roundish, like an apple. For stewing it is unrivalled; in colour a deep, fine gold.
- Bereckzi.**—A fruit of enormous size, flesh sweet, skin glossy, golden-yellow, smooth, very prolific even on young trees.
- Bourgeat.**—Very large; rich golden-yellow; smooth, velvety skin; beautiful, large foliage; quite distinct.
- Champion.**—A splendid new American variety; fruit very large and handsome; flesh tender with a very delicate flavour; a splendid keeper, and carries well.
- De Vranja.**—New introduction from Servia, recommended for its prolific qualities; fruit enormous, weighing nearly 3 lbs.; very agreeable flavour.
- Fuller.**—A regular bearer and strong grower; fruit ripens early; large size; bright lemon-yellow; high flavour.
- Giant of Lescovaz.**—A new quince imported from France; the fruit often attaining up to 3½ lb., flesh white, does not turn red when cooked; tree very prolific.

Passiflora Grandilla.—2s. each.
Passiflora Edulis.—The well-known Passion Fruit. 6d. each; 5s. dozen.
Taesonla Mollissima (White Passion Fruit).—1s. each.

- Large Orange.**—Somewhat resembling Apple-shaped, but uniformly larger, and with a slight neck.
- Missouri Mammoth.**—Fruit enormous size, of very even outline, mild, pleasant flavour; and unsurpassed for cooking.
- Pear-Shaped.**—Skin pale yellow; very firm in texture, and not so bright in colour when cooked as some varieties.
- Pineapple.**—The name comes from its flavour, which is suggestive of pineapple.
- Portugal.**—The largest of all quinces. For stewing it is unrivalled, turning a deep, rich crimson, oblong; skin much paler yellow than any other.
- Reas Mammoth.**—Of similar appearance to the Orange Quince, but averaging one-third larger; fruit round, very smooth and handsome; a very early bearer; flesh tender, mild.
- Van Deman.**—Raised by Burbank, and was awarded the Wilder Medal at meeting of the American Pomological Society. A seedling of Portugal.
- Zucker (Sugar).**—Introduced from Asia; fruit very sweet, excellent when preserved.

SMALL or BERRY FRUITS

CURRANTS

9d. each, 7s. per doz., 40s. per 100.

RED AND WHITE CURRANTS

- Cherry.**—A strong-growing variety, with very large fruit, not of finer flavour than others, but valuable for market on account of its size; early.
- La Fertile.**—Fruit large, dark red, bunches of medium length, tapering.
- La Versailles.**—A very free-growing, productive variety of the finest flavour; fruit of the largest size; deep, dark red.
- Red Imperial.**—A new variety of great merit; fruit large; bright, clear red; bunches early.
- White Dutch.**—Of a very fine yellowish-white colour; almost transparent; very productive.
- White Imperial.**—Fruit as large as White Dutch; clearer.
- White Transparent.**—Fruit very large; yellowish-white; very clear.

BLACK CURRANTS

- Black Nap'es.**—Berries nearly three-quarters of an inch in diameter.
- Carter's Black Champion.**—The bunches are large, produced in clusters; berries very large, jet black, and richly flavoured.

ELÆAGNUS LONGIPES

Perfectly hardy. The fruit is produced along the whole length of the branches, is oval in shape, about one-half inch long; of a deep orange-red colour. 1s. 6d. each.

BLACKBERRIES, &c.

- Golden Mayberry.**—The berries are of a golden straw colour, and ripen here in November. The bushes are distinct from all others, growing like trees, 6 to 8 feet high, with spreading tops. Price, 1s. 6d.
- Himalayan.**—Very large black, handsome foliage. 1s. 6d. each, 15s. per dozen.
- Japanese Wineberry.**—Colour bright glossy scarlet; sweet, juicy, and of agreeable flavour. 1s. each, 10s. per doz.
- Lawton.**—Medium size, black, early; habit upright. 1s. each, or 10s. per dozen.
- Lucretia Dewberry.**—Decidedly the best of all dewberries. It is a superb fruit, large and handsome, of a shining jet black. Price, 1s. each, 10s. per dozen.
- Mammoth.**—This is, without doubt, the very best thing in the way of blackberries we have ever seen; ripens October, November, and right on to March, in clusters of magnificent dark red berries. 1s. each, 10s. per dozen.

BLACKBERRIES, &c.—continued

- The Logan Berry.**—The fruit is sometimes an inch and a quarter long, the shape of a blackberry, the colour of a dark red raspberry, and a combination of the flavours of both. 1s. each, 10s. per dozen.
- Wilson's Early.**—Large, black; fruit soft and sweet. 1s. each, or 10s. per dozen.

GOOSEBERRIES

(STANDARD SORTS).

Price, 9d. each; 7s. per doz.; 35s. per 100.

- A really useful fruit, and of easy cultivation. Price, 3s. per doz., 20s. per 100.
- Antwerp Red.**—Large and fine flavour.
- Antwerp White.**—Large, mild, sweet flavour.
- Cuthbert (Queen of the Market).**—Sturdy grower.
- Golden Queen.**—Abundant bearer.
- Northumberland Fillbasket.**—Deep red, good size and flavour.

STRAWBERRIES

- 1s. per doz., 5s. per 100, except where otherwise marked. Special quotations per 1000 on application.
- Annetta.**—A Queensland seedling. Fruit large. 10 to 16 to the quart; bright shining red; of delicious flavour; in shape somewhat square, without the Marguerite point. 1s. 6d. per doz., 7s. 6d. per 100.
- Aurie.**—A Queensland variety coming on to Sydney market early in August. Constant cropper, and resists drought. Fruit about medium; beautiful glossy scarlet. 1s. 6d. per doz., 7s. 6d. per 100.
- British Queen.**—An old variety of undoubted merit.
- Dr Moreo.**—A splendid berry of Creswell type, larger and better flavoured very heavy cropper.
- Federation.**—One of the largest strawberries in cultivation; sure cropper, and very hardy; will stand the drought better than any other variety; colour very bright red; flesh white and of good flavour. 1s. 3d. per doz., 6s. per 100.
- Glenfield Beauty.**—Fruit produced in bunches, rich flavour and colour; free grower; excellent.
- King Edward VII.**—Berries extra large; deep vermilion; produced in bunches well clear of the ground. A heavy and constant cropper, bearing from September to May. 1s. 6d. doz., 7s. 6d. per 100.
- Melba.**—A Victorian variety, highly recommended by growers in that State; large, brilliant red; of finest quality; ripens fairly early, and is a continuous cropper. This sort has been producing good crops when others have failed. 1s. 3d. per doz., 6s. per 100.
- Marshall.**—A magnificent berry bearing large and regular crops from September to July; this can be termed the "king of winter strawberries;" berries are very large, deep crimson, borne in clusters clear of the soil. A great acquisition.
- Phenomenal.**—A very early variety; large fruit, splendid flavour and colour; strong grower. 1s. 6d. per doz., 7s. 6d. per 100.
- Royal Sovereign.**—In colour a bright glossy scarlet, colouring well to the point; flesh white, exceedingly firm, with a rich vinous flavour.
- The Creswell.**—A magnificent berry, well suited to warm districts where it is a most prolific cropper. Fruit very large, of a bright glossy red colour; extra strong plants.

Searl's Bridal, Ball & Shower Posies

We can despatch Orders for WREATHS, CROSSES and all FUNERAL EMBLEMS received from Patrons, Public Companies, Masonic and other Institutions on the Shortest Notice, and can deliver by our London Agent to any part of the United Kingdom—our Cable Code arrangement meeting any emergency

The "Holder" Pneumatic Sprayers

NOTHING TO GET OUT OF ORDER. EFFECTIVE AND ECONOMICAL

TYPE D.

Type C.

THE

"Holder" Hand Sprayers

Their distinguishing feature is the inbuilt pump (quite different from the usual small pump in this class of sprayer) quickly charging the machine, so that one charge empties the whole contents.

TYPE C.—Capacity 2 Pints. In COPPER; has automatic spray release, fixed nozzle. 25/-

SPRAY PUMP DE LUXE.

TYPE D.—Capacity 4 Pints. In COPPER, with automatic release, giving instant control of spray, and nozzle adjustable to front, up, down or side. This is an ABSOLUTELY PERFECT HAND SPRAYER. 35/-

These machines once tried, the tedious syringe will never again be resorted to.

All "HOLDERS" have *self-contained* pumps; no outside pump to get lost or *mis*laid.

Diploma of Honour International Horticultural Exhibition, London, 1912.

THE

"Holder" Shoulder Sprayers

Slung by a strap over one shoulder. Ideal for the garden, green-house or nursery, and will do all that is required for ordinary work, *including the spraying of fruit trees*. Very light, weighing 6lbs. only, and perfectly portable. An exceedingly fine, cloud-like spray is given.

TYPE O.K.

TYPE O.K.—Capacity, full, 1½ gallons; working, 1 gallon. In COPPER, complete with powerful self-contained pump, separate filling aperture, automatic pressure gauge, extension hose and brass lance.

INSECTICIDES and FUNGICIDES

For INSECT PESTS AND FUNGOID DISEASES

APTERITE.

A soil fumigant. Will destroy all insect pests in the ground, such as wire worms, eelworms, caterpillars, grubs, wood lice, ants, slugs, snails, woolly aphids, etc. In tins: 1 lb. 1s.; 7 lbs., 3s.; 14 lbs., 5s.

ARSENATE OF LEAD.

The best remedy for Codlin Moth and all leaf-eating insects. It sticks on and rain will not wash it off. Can be safely handled, and without danger to man or beast. Use 3 lbs. to 50 gallons water. Pamphlet and full directions for use on application. 1 lb. jars, 1s. 6d.; 2 lb. jars, 2s. 6d.; 5 lb. jars, 6s. Postage extra.

FUNGICIDE.

Unsurpassed as a remedy for preventing mildew, black-rot, and other fungoid diseases on potatoes, tomatoes, vines, roses, and other plants. 1s. lb. tin; 3s. 5 lb. tin.

GISHURST COMPOUND.

A very efficacious dressing for aphids, green fly, red spider, and thrips; also for apple trees infested with blight or other insects; and is death to the pests of the orange tree—scale and coccus. In boxes, 1 lb., 1s. 6d.; 3 lbs., 4s.

LIME-SULPHUR SOLUTION

The finest Winter Spray for fruit trees, etc. Cleanses the trees of moss, lichens, blight, scale, and all fungus diseases. ½ pint, tin, 9d.; 1 pint tin, 1s.; 1 quart tin, 1s. 9d.; 1 gallon, 6s. Postage extra.

BORDEAUX POWDER

Guaranteed to contain 58-60 per cent. of Genuine Sulphate of Copper; scientifically prepared; safe and reliable. Unsurpassed as a remedy for preventing mildew, black rot, and other fungoid diseases on potatoes, tomatoes, vines, roses and other plants. Directions for use with each package. Ready for dissolving in water in proportion of 4lbs. of bluestone and 4lbs. of lime for 40 gallons of water. Price 7d. per lb.; 10lbs. for 5/-; 45/- per cwt.

NIKOTEEN

Sufficient to make 5 gallons of wash.....per bottle, 1s. 3d.
" " 10 " ".....per bottle, 2s. 6d.
" " 20 " ".....per bottle, 3s. 6d.

Certain death to aphids, and all other insect pests; harmless to plant life. Directions on each bottle.

NICOTINE SOAP

A valuable wash for affected plants. 1s. 6d. and 3s. 6d. per bottle.

PARIS GREEN

The well-known cheapest remedy for all sorts of leaf-eating insect pests. A poisonous insoluble powder. 1s. 6d. lb. tin.

SLUGINE

An up-to-date slug and snail exterminator. 1s. per tin.

SNAIL END

Tobacco powder for exterminating snails and slugs. 6d. per packet.

SPRAY PUMPS—Hand Vaporisers

Tin.—2s. 6d.; post free, 3s. 6d.
Brass.—5s.; post free, 6s. 6d.

WEEDICIDE

The finest preparation yet introduced for the destruction of weeds on garden paths, etc. 2s. 6d. per tin, sufficient to make 25 gallons' mixture. 8/6 per gallon

GARDEN FERTILISERS

BLOOD MANURE

This is a splendid manure, one we use ourselves very extensively in our own Nurseries. We can highly recommend it for top-dressing lawns. 11s. per cwt.; 6 lbs., 1s. Carriage extra.

SEARL'S SPECIAL ROSE FERTILISER

This manure is specially prepared, and will give your roses that food which they require to produce a healthy robust growth, which must precede good quality and abundance of flowers. Apply the rose fertiliser in September and again in February, at the rate of a good handful to the square yard around each plant, and lightly fork into the soil. Do not spread the fertiliser too near the stem, as the active roots are more nearly about the area of the outside circle of the bush to within a foot of the stem. 6 lbs., 1s.; 28 lbs., 4s.; 1 cwt., 12s. 6d.; postage or carriage extra.

BONE DUST

Another splendid form of adding to the growth of plant life. 8s. 6d. per cwt.; 7 lbs., 1s. Carriage extra.

SHIRLEY'S No. 9

A good all-round manure for garden and bushhouse use. 1s. per tin; cartage extra.

SULPHATE OF AMMONIA

This fertiliser is used principally for killing weeds on lawns and promoting the growth of grass. 1 lb. to 2 gallons of water is a fair strength, and 2 oz. to 2 gallons water for Chrysanthemums and Stocks and other flowering plants to bring the blooms to perfection. 1s. pkt. Cartage extra.

The MOST RELIABLE COMPOST ON THE MARKET

JADOO FIBRE

Try it for your Bulbs, your Stove Plants and Orchids, your Green-house, Conservatory and Window Plants, your Bedding and Herbaceous Plants, and your Fruit Trees.

JADOO FIBRE is the purest, most wholesome, and most scientifically prepared compost ever compounded, containing every element required for the well-being of plants. Jadoo Fibre forms the best and most hygienic compost known. JADOO adds brilliancy of marking and increased floriferousness. Plants for Indoor and Table Decoration should be grown in Jadoo because it will hold a week's supply of moisture.

FULL DIRECTIONS FOR USE ON EACH PACKET

Price: 1s. per tin; 2s. 6d. per peck bag; 3s. 9d. per half-bushel; 7s. 6d. per bushel; 20s. for Three Bushels. Carriage extra.

Send for Special Pamphlet telling you all about JADOO FIBRE

SOLE AGENTS FOR N.S.W. and QUEENSLAND.

LANDSCAPE GARDENING IN ALL ITS BRANCHES

*Including the LAYING OUT OF NEW
AND RENOVATING OF OLD GARDENS,
THE MAKING OF LAWNS, TENNIS
COURTS, CROQUET LAWNS, Etc., Etc.*

This is a branch of our business that we intend giving special attention to, in view of the rapid extension of building and gardening embellishment throughout the State. We have had numerous enquiries as to the cost of laying out gardens, erecting bush houses and glass houses, and furnishing of same. To meet the demands, we have found it necessary to engage a competent staff of men, well versed in landscape gardening and horticultural building; and in consequence, any work entrusted to us will be carried out to the complete satisfaction of our clients. Our nurseries, being the largest in the Commonwealth, wherein all the well-known lines of plants are grown together with the more rare types of orchids, exotics, etc., place us in the position of being able to supply all requirements necessary for this work.
